Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to enforce the City Ordinance with reference to unnecessary blowing of auto horns particularly in connection with weddings, etc.

Passed under suspension of the rule.

REQUESTED DISMISSAL OF MISS CARLSON.

Coun. COFFEY offered the following:

Ordered, That the Board of Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to immediately discharge Miss Carlson, nurse in the East Boston Relief Station, for the good of the service.

Coun. COFFEY—Mr. Chairman, in regard to this order, I will say that it is brought about by a young boy, seven years of age, being hit by an automobile, a very serious injury, last Friday evening at six p. m. The driver of the automobile immediately jumped out and took the boy into his car and took him down to the Relief Station. The nurse refused to open the door for them until the cop who happened to be present there kept kicking on the door, finally forcing it open. After they got the child in they were told that there was no doctor there, that the doctor had gone, and that the nurse was alone there, and that the place had been closed since six o'clock, this being a quarter past six in the evening. The officer forced the nurse to undress the boy and put him on the operating table, ordering the ambulance to come from the City Hospital. After about fifteen minutes wait the father of the child appeared, found that there was no doctor, and insisted he was going to take the child to the Frost Hospital in Chelsea where it could get some immediate treatment. The nurse, who had had the boy wrapped in blankets, immediately grabbed the blankets and rolled the boy off the operating table. The boy was caught before he hit the floor by the driver of the automobile, and the officer in the excitement grabbed the nurse and told her that if he was the father of the child he would punch her head off. The nurse told him to shut up, that she would order them all out of the hospital, boy and all. As the result of this she had to wait some forty-five minutes. During that time somebody put in a call to the Boston *Post* and the *Post* sent a reporter over there, and the reporter arrived before the child was transferred to the City Hospital. As the result of that treatment the child's condition is such that he is still in a coma. Here is what the Boston *Post* had to say about it, and I read it so that we can have it in mind in voting on this order: "Claim Injured Boy Neglected; Couldn't get Ambulance at East Boston Station. Many East Boston residents protested the early closing and lack of adequate facilities at the East Boston Relief Station last night as a seven-year old boy who had been struck down and seriously injured by an automobile lay awaiting the return of the station's ambulance from another trip before he could be sent to the City Hospital. The boy, Robert Connelly of 471 Meridian street, East Boston, was injured near his home, having been struck by an automobile . . ." I do not see any real need or necessity for putting the gentleman's name and address in here. Let me say that he was very kind, and when the child dropped from the operating table he was caught by this man, and he got down on his knees and said a prayer to God that this child would live as he felt he was responsible for the accident. The gentleman "after the accident rushed the boy to the Relief Station. The station closes at six o'clock each night and the accident occurred about a quarter past six. A nurse was at the station and preparing to go home. She admitted the boy, but as the station closes at night it was impossible to keep the child there. After a crowd had gathered outside the station a prowl car with Patrolmen James J. Cronin and John J. O'Brien arrived and shortly thereafter the station ambulance returned from a previous trip to the City Hospital and the child was taken there. At City Hospital it was stated the child had suffered a brain concussion and abrasions." Only recently an Italian woman in the town was seriously burned by a gas explosion in her kitchen. She was rushed to this same Relief Hospital by a cruising car and taken in and placed on the table. After being there for some forty-five minutes the orderly came to this woman and said, "I am sorry, madam, but there is nothing we can do for you; the doctor has been drafted and has not been replaced." Now, that woman had to get up and go out and take a taxicab, paying her own expense, and go to the City Hospital. Now, for the love of God, if we are going to have a hospital over there to take care of the seventy thousand people, do one thing or the other, close it entirely and then we will save time by taking our injured directly to the City Hospital and save the time of going to the Relief Station and wasting a half-hour or three quarters of an hour of valuable time, or have the Relief Station open on a twenty-four-hour basis. The Lord knows I have been asking long enough to have this put on a twenty-four-hour basis. I think on this order that the trustees should take some action toward removing that nurse — I don't say to fire her; I don't want to have anybody fired, but get her out of there and put her in some place where she will be working under the direction of a doctor who will see that she does her duty at all times. After all, she is a city employee and she has got to do her duty. If there was a spark of human kindness in her I would not say anything about her, but the way she grabbed the child and handled the child almost caused the child to fall on its head after being brought in with a brain concussion. So that I think that some action should be taken and that this nurse should be removed and someone else should be put in there who will give more attention to the maimed and injured children.

The order was referred to the Committee on Hospitals.

Coun. COFFEY offered the following:

Ordered, That the Corporation Counsel be requested to give a ruling as to lawyers who are members of the City Council representing oil companies seeking permits for gas stations and oil tanks in the City of Boston.

Coun. COFFEY spoke on the above order.

Coun. GALVIN moved that the order be referred to the Committee on Rules. The motion was lost. Coun. TAYLOR doubted the vote and asked for a roll call. The roll was called and the order was referred to the Committee on Rules, yeas 10, nays 9, viz.:

Yeas—Coun. Carey, Coffey, Englert, Fish, Galvin, Goode, Lyons, Russo, Scannell, D. F. Sullivan—10.

Nays—Coun. Chase, Gottlieb, Hurley, Hutchinson, Kelly, Langan, M. H. Sullivan, Ward, Wickes—9.

Coun. TAYLOR moved for reconsideration. Reconsideration was granted, and the question then came on the passage of the order.

Coun. GOTTLIEB, LINEHAN and GALVIN spoke on the order.

Coun. FISH moved that all remarks pertaining to this order be stricken from the record.

Coun. COFFEY and GOTTLIEB spoke.

Coun. GOTTLIEB asked if a motion to refer to the Executive Committee would be in order, and the Chair ruled that such a motion would be in order. Coun. GOTTLIEB moved to refer to the Executive Committee.

Coun. TAYLOR moved the previous question.

Coun. GOTTLIEB and COFFEY spoke.

Coun. GOTTLIEB—Mr. Chairman, may I ask whether the Committee on Rules will return with a report on this question to the full body of the Council?

Chairman WARD—The matter is not before Rules. The vote to refer the matter to the Committee on Rules has been reconsidered, and the question now is reference to the Executive Committee.

Coun. GOTTLIEB withdrew his motion for reference to the Executive Committee.

Coun. HUTCHINSON moved that the order be referred to the Committee on Rules. The order was so referred.

Chairman WARD—Does Councilor Fish press his motion to strike from the record?

Coun. FISH—I will withdraw it.

Chairman WARD—Councilor Fish withdraws his motion.

Later in the session Coun. GALVIN said:

Mr. Chairman, I move that the remarks of Councilor Gottlieb and others relative to Councilor Coffey's order be stricken from the record.

The motion was carried, and the remarks were ordered stricken from the records.

INCREASED ALLOWANCES TO DEPENDENTS.

Coun. HURLEY offered the following:

Ordered, That his Honor the Mayor confer with the Overseers of the Public Welfare immediately with a view to increasing allowances for the Welfare, Aid to Dependent Children and Old Age Assistance cases in proportion to the rise in costs of food, clothing and rent due to world economic conditions.

Coun. HURLEY—Mr. Chairman, in introducing this order I am doing it after having different meetings with people, recipients of welfare aid, dependent children, and old age assistance. Probably in my district more than in other parts of Boston, as a result of the demolition of old houses and the creation of new houses under the Federal housing, and because of the law of supply and demand, there has been an increase in the cost of rents. You can imagine the hardship on the people, the plain welfare employees, married couples getting $6.60 per week, merely enough to exist on, having to also take from that $6.60 the increase in rents. I don't see how these people are getting by under the past ratings they were having, now with the increased cost of food, of clothing, of fuel, and of rent. It will be a bad state of affairs in Boston this winter. I think the Mayor should call a meeting of the Board of Trustees of Public Welfare and have them go over this thing very carefully, having in mind the conditions and the rates they are being allowed at the present time, and also the increase in the cost of living. I think it affects everyone in Boston, but I think that it affects my district more than anyone else. We have had the demolition of houses in two large areas in Ward 8. I know the different landlords have taken advantage of the demand for apartments and have increased the rents very, very much. They are not to blame. The cost and the upkeep of house maintenance and labor has increased. They are entitled to more money to keep their property up. But I think that the Board of Public Welfare should consider this matter right away before the cold weather sets in and give these people enough money so that they can be housed in suitable homes for the coming winter. I hope this order will pass.

The order was passed under suspension of the rule.

SIDEWALK ON ST. BRENDAN ROAD.

Coun. FISH offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along St. Brendan road (both sides), Gallivan Boulevard to Milton street, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

RECONSTRUCTION OF HYDE PARK AVENUE.

Coun. GOODE offered the following:

Ordered, That the Public Works Commissioner be requested, through his honor the Mayor, to reconstruct Hyde Park avenue, from Metropolitan avenue to Cleary square.

Passed under suspension of the rule.

BUS SERVICE, ASHMONT STATION, MATTAPAN SQUARE.

Coun. WICKES offered the following:

Ordered, That the Board of Trustees of the Boston Elevated be requested, through his Honor the Mayor, to continue and give better bus service from Ashmont station to Mattapan square during rush hours and until 11.30 p. m., without exceeding the 5-cent fare now prevailing between the said stations.

Passed under suspension of the rule.

SIDEWALKS ON KITTREDGE STREET, WARD 18.

Coun. GOODE offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to construct sidewalks on Kittredge street, from Wellsmere road to Cornell street, Ward 18.

Passed under suspension of the rule.

SURVEY OF HAZARDOUS INTERSECTIONS, ROSLINDALE.

Coun. LYONS offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a survey of the Roslindale section of Boston for the purpose of determining hazardous intersections where the installation of traffic lights would be deemed advisable.

Passed under suspension of the rule.

PAINTING OF CROSSWALKS NEAR SCHOOLS.

Coun. LANGAN offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to paint white lines on the crosswalks in the immediate vicinity of all schools to insure more safe passage of children across streets.

Passed under suspension of the rule.

SURVEY OF DANGEROUS INTERSECTIONS, JAMAICA PLAIN–ROSLINDALE.

Coun. LANGAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a survey of the Jamaica Plain-Roslindale section of Boston for the purpose of determining dangerous intersections for the installation of traffic lights paying particular attention to the following-named sections: Forest Hills section; Boylston street and South Huntington avenue; the Circle at Centre street and Arborway; Prince street and the Arborway.

Passed under suspension of the rule.

Adjourned, on motion of Coun. CAREY, at 5.10 p. m., to meet on Monday, September 22, 1941, at 2 p. m.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN ESTEY STREET, WARD 10, FISHER AVENUE TO LAWN STREET; BUCKNAM STREET, WARD 10, FISHER AVENUE TO LAWN STREET; CHEROKEE STREET, WARD 10, HILLSIDE STREET TO PONTIAC STREET; LAWN STREET, WARD 10, HEATH STREET TO HEATH STREET; MARMION STREET, WARD 11, MONTEBELLO ROAD TO CORNWALL STREET; HOLLANDER STREET, WARD 12, HUMBOLDT AVENUE TO CRAWFORD STREET; SHERMAN STREET, WARD 12, BOWER STREET TO ROCKLAND STREET; GLENVALE TERRACE, WARD 19, LAMARTINE STREET TO CHESTNUT SQUARE; HIGHLAND PARK STREET, WARD 11, FROM FORD AVENUE TO HIGHLAND PARK AVENUE; HIGHLAND PARK AVENUE, WARD 11, FROM HIGHLAND PARK STREET, TO FORD AVENUE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Estey street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Estey Street, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, October 9, 1941, with a certified check for fifteen hundred (1,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

CITY OF BOSTON.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR ERECTION AND COMPLETION OF A UTILITY BUILDING ON LONG ISLAND, BOSTON HARBOR.

The Commissioner of Institutions of the City of Boston invites sealed proposals for the erection and completion of a Utility Building on Long Island, Boston Harbor. Forms of proposals may be obtained at the office of the Commissioner, Room 809, City Hall Annex. Each proposal must be signed by the bidder, placed in an envelope properly sealed and marked "Proposal for Erection and Completion of a Utility Building on Long Island, Boston Harbor," and left at the office of the Commissioner, Room 809, City Hall Annex, before 12 noon, October 10, 1941, accompanied by cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company payable to the City of Boston in the sum of $3,000 to become and be the property of the City of Boston as liquidated damages if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers, in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Commissioner, Room 809, City Hall Annex. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

Plans and specifications may be obtained at the office of the Commissioner of Institutions, Room 809, City Hall Annex, Boston, on or after September 29, 1941. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of fifty dollars ($50) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition.

A bond of a surety company, approved by the Commissioner, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required. The Commissioner reserves the right to reject any and all bids if it be in the public interests so to do. The Commissioner also reserves the right to reject all sub-bids on any item or items provided that it is agreed by and between the bidders and the Commissioner that none of such bids represents the bid of a person or firm competent to perform the work as specified, or that only one such bid was received and that the price is not reasonable for acceptance without competition.

HUGH J. CAMPBELL,
Commissioner of Institutions.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, OCTOBER 4, 1941. NO. 40

MAYOR TOBIN JOINS IN APPEAL TO CITIZENS OF BOSTON TO BUY DEFENSE BONDS TO AID COUNTRY IN PREPAREDNESS EFFORT—JOINS IN "MILLIONS FOR DEFENSE" PROGRAM OVER RADIO STATION WORL, ON SUNDAY—POINTS TO FACT THAT IN JOINING IN CAMPAIGN FOR FUNDS WE ARE NAILING FLAG OF COUNTRY, THAT SYMBOLIZES LIBERTY AND TOLERANCE, TO THE TOP MAST OF SUCCESS, AND ASSURING TO FUTURE THE SUCCESS TO GREATEST DEMOCRACY THE WORLD EVER KNEW.

The following is, in part, Mayor Tobin's radio speech on "Millions for Defense" program, Station WORL, Myles Standish Hotel, 5 p. m., Sunday, September 28, 1941:

Citizens of Boston and Other Friends of the Air Waves.

It is an axiom that preparedness is the best form of defense. That applies to defense against any sort of contingency, whether on the part of an individual, a city, a state or a nation.

The person who builds up a savings account has prepared against need in later life. He who takes out life insurance is defending his dependents against the days when he will no longer be with them as a provider. A city guards the health of its people and arms them against illiteracy, and a nation is charged with the duty of protecting their way of life.

The American way of life is very dear to all of us. It has set a pattern for the rest of the world and has made ours the greatest nation in the universe. It is fitting that I remind you of this, for it was here in Boston that the things that made the American way of life possible, and the ideals which are so precious to patriotic Americans, were fostered and made a reality. Those early colonists set a glowing example by their willingness to endure hardship and suffering and death, if need be, in order that they might back up their conviction that they were in the right.

Great Emergency.

Now our country is facing the greatest emergency it has ever known. It fell upon us suddenly and it has to be met just as suddenly. As a result, we are called upon to turn from our normal way of living and to endure the stress and the strain of arming ourselves. The situation is unavoidable and it entails an undertaking so vast that no single life can remain untouched by it. It reaches into every section of our land and it needs the hearty support of every one of us.

We know that we must carry on under an increased burden of taxation and it is no secret that we shall be called upon to make other sacrifices. We shall have to give up a number of things that we have become used to, and which some of us may consider indispensable, and we shall have to curtail the use of other things until this emergency is ended.

In this, Boston can again be a leader, for if its early residents were willing to face the inconveniences that went with their effort to make America a free country, we who were bequeathed that great and priceless heritage can do nothing less than our share in maintaining that freedom.

This tremendous flow of armament for our own country and those friendly nations that are fighting aggression must be paid for. The Federal Government has devised one method whereby the people, while helping to foot the bill, may benefit greatly. I refer to the sale of Defense Savings Stamps and Bonds. The majority of you know about this plan and other speakers will inform those who do not.

Opportunity to Help.

I urge every one within sound of my voice to take advantage of this great opportunity to help their country and themselves.

By investing in these stamps and bonds you will not only be helping to defend your homeland in the physical sense, but you will also be rearing a bulwark against inflation and creating still another defense against whatever economic reactions may follow the ending of the rearmament program.

Not only will you be placing ready cash at the disposal of your government, but you will be laying up a reserve which, at the end of ten years, will flow back to you in greatly increased measure. Meanwhile, if the expanding flood of wages that has come with the revival of industry is not permitted to pour entirely into our retail market, there will be no marked inflation in prices and no resultant hardship on many of us.

This bond sale is being conducted without high pressure methods or coercion. It is a voluntary step on the part of every one who purchases a stamp or a bond and every Defense Bond is backed by the credit of the United States of America, the safest investment in the world, and one that will continue to be the safest so long as there is any government anywhere.

Every item on the long list of defense necessities costs a lot of money. The program will probably entail an expenditure of forty billions of dollars.

(Continued on page 1103.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

MAYOR'S ADDRESS.

(Continued from page 1101.)

ALL SHOULDER EXPENSES.

The other day the battleship "Massachusetts" was launched at Quincy. It will cost, when completed, about seventy-five million dollars. A single aircraft carrier costs fifty millions, a cruiser represents an outlay of from twenty to thirty millions. To build just one four-engined bombing plane, of which we must have a tremendous number, costs nearly half a million dollars. We must fill the skies with planes of several types, we must build a two-ocean navy and we must provide the armament for every unit in that vast fleet. In addition to those items, it has been necessary for the Government to finance three fourths of the new plants needed to fill defense orders.

That is why you and I are being asked to shoulder as much as possible of the expense. We are requested to loan as much as possible of our capital and our earnings to our Government, but we are assured of a bountiful cash return, as well as the satisfaction of knowing we have done our share toward perpetuating freedom of speech, of religion and of the press and toward assuring the future of the greatest democracy the world has ever known.

I am sure that the people of Boston will respond to this appeal in the same wholehearted manner in which they have always rallied to the support of other great money-raising campaigns.

In this case you are nailing that flag, that symbolizes liberty and tolerance, to the top of the mast and you are assuring your own future and that of those who will come after you.

General Order No. 45.

FIRE PREVENTION WEEK PROGRAM.

Fire Prevention Week will be observed in the City of Boston and throughout the nation during the week of October 5, 1941. The Fire Department will observe the week in the following manner:

Fire stations will be open to the public between the hours of 12 noon and 9 p. m. for inspection and information concerning Fire Department functions and fire prevention matters. If visitors should come to the station the man on house patrol should summon the commanding officer who will either show the visitors around or assign some member to do it. Children under twelve years of age should not be allowed in the fire station unless accompanied by adults.

The Maintenance Division will deliver to the various fire stations canvas signs to be hung over the front doors of those stations that have not been previously provided with them. The signs will have ropes attached to them, so that all that will be necessary for display will be the tying of ropes at designated places. Fire stations already provided with these Fire Prevention signs will have them displayed over the front doors from October 4 to October 11, inclusive.

All schools will be visited by a district chief, or such officers as he may detail to assist. School fire drills are to be held and permission requested to address the pupils on the subject of fire and fire prevention, the pupils to be assembled for that purpose. Officers speaking before schools will follow the material contained in the "Suggestions for Speakers," copies of which have been provided each officer in the department.

On Sunday, October 5, 1941, at 3 p. m., the entire off-platoon will assemble at the quarters of Engine Company 26, Broadway, to participate (with certain apparatus detailed) in the Third Annual Fire Prevention Parade to take place in Boston. The parade will be more elaborate than ever before and a good showing of men is earnestly desired. The route will be as follows: Broadway and Washington street; down Washington street to Winter street, to Tremont street to Boylston street, to Charles street, to Boston Common. On the Boston Common the military drill of the Department Drill Team will take place, followed by the Massachusetts Women's Civilian Defense Corps and the American Red Cross, Boston Metropolitan Chapter, who will give an exhibition defense drill. The drill team of the Boston Auxiliary Fire Force will give an exhibition on the portable drill tower on the parade grounds of the Common.

The Fire Department Band will take part in the parade and other men will be detailed to be stationed on the floats being constructed for the parade.

The Fire Prevention Division will make inspections during the week and distribute Fire Prevention literature in East Boston, Charlestown, North End, Roxbury and South Boston.

Special radio broadcasts and news releases will be forthcoming daily. Signs and store windows will be utilized to display fire prevention messages.

By order of Fire Commissioner WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PUBLIC WORKS DEPARTMENT.

Upon September 29 the Mayor approved a contract with Martin J. Kelly for bituminous concrete pavement in Albion, Burgess, Batchelder, Longmeadow, Marshfield, Leyland and Moreland streets, Ward 8, at an estimated cost of $20,610. An informal bid was submitted by the National Engineering and Contracting Company and was rejected, as the bidder failed to bid on Item 7 (b) calling for 12,100 square yards of bituminous concrete paving mixture, binder and top course. The following bids were received September 25:

Martin J. Kelly, concrete base, $20,610; bituminous macadam base, $21,215; Samuel J. Tomasello Corporation, concrete base, $23,661; bituminous macadam base, $21,967; Baker & Co., concrete base, $22,128; bituminous macadam base, $22,612.

OMISSION AND SUBSTITUTION OF EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Baker & Co. have been directed to omit and substitute the following work under the contract for laying bituminous concrete pavement, etc., in Glover court, Melville lane, etc., dated September 2, 1941. Items ordered: Omit hip gutter and Type X sidewalks in St. Brendan road, from Gallivan Boulevard to Milton street and substitute the setting of edgestone and the furnishing and laying of artificial stone sidewalks and driveways. Prices to be paid for the substituted work are to be the same as those bid for similar work in the contract. Estimated cost of omitted work, $1,540; estimated cost of substituted work, $2,505; estimated increase in cost, $965.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the widening and construction of Parker street, Roxbury district, as a highway, on the northwesterly side, from Delle avenue southwesterly for a distance of about one hundred feet, bounded and described as follows:

The highway named Parker street is hereby widened on the northwesterly side, from Delle avenue southwesterly for a distance of about one hundred feet, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the Boston Society of Redemptorist Fathers, bounded:

Northwesterly by other land supposed to belong to said Fathers, by three measurements, seventeen and 58-100 feet, nine and 97-100 feet on a curve of fifty-five and 93-100 feet radius, and ninety-eight and 13-100 feet; westerly by the same, nineteen and 77-100 feet; northeasterly by Delle avenue, eight and 35-100 feet; easterly by junction of Delle avenue and Parker street, fourteen and 58-100 feet on a curved line, and southeasterly by Parker street, one hundred thirty-one and 8-100 feet, containing five hundred and forty-four square feet, more or less.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Parker street, as hereby widened, is bounded:

Northwesterly by the northwesterly line of said Parker street, as hereby widened, by three measurements, seventeen and 58-100 feet, nine and 97-100 feet on a curve of fifty-five and 93-100 feet radius, and ninety-eight and 13-100 feet; westerly by the westerly line of said Parker street, as hereby widened, nineteen and 77-100 feet on a curve of ten feet radius; northeasterly by the southwesterly line of Delle avenue, as it existed previously to this widening, eight and 35-100 feet; southerly by the junction line of Delle avenue and Parker street, as it existed previously to this widening, fourteen and 58-100 feet on a curved line; and southeasterly by the northwesterly line of said Parker street, as it existed previously to this widening, by two measurements, one hundred eleven and 96-100 feet and nineteen and 12-100 feet, containing five hundred and forty-four square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that the undermentioned estate sustains damages by the making of the public improvement consisting of the widening and construction of Parker street, Roxbury district as a highway, on the northwesterly side, from Delle avenue southwesterly for a distance of about one hundred feet, under the order of the Board of September 18, 1941, in the amount hereinafter mentioned and awards said amount therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Mercier avenue, bounded:

Easterly by easement taken by the City of Boston June 24, 1941, for sewerage purposes, thirty-five feet; southerly by the southerly line of Mercier avenue, by two measurements, two hundred fifty-one and 97-100 feet and one hundred four and 52-100 feet; westerly by Alicia road, thirty-five and 68-100 feet; and northerly by the northerly line of said Mercier avenue, by two measurements, one hundred four and 41-100 feet and two hundred fifty-one and 13-100 feet, containing twelve thousand four hundred and forty-five square feet, more or less.

Included in the above-mentioned taking are parts of the following-named parcels of land registered in the Land Court, said parcels being shown on the plan hereinbefore referred to, said parts being the portions of said registered parcels which lie between the side lines of said Mercier avenue and the middle line thereof:

William J. Driscoll Construction Company, registered title Certificate No. 39,135, Book 101, page 155.

The sewerage works to be constructed are as follows:

One hundred and eighty linear feet of ten-inch pipe sanitary sewer and one hundred and eighty linear feet of twelve-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Mercier avenue, between Alicia road and easement taken by the City of Boston for sewerage purposes June 24, 1941, in Mercier avenue as hereinafter mentioned, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1262, Sewerage Works, Mercier Avenue, Dorchester, August 14, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

POLICE DEPARTMENT ORDERS.

General Order No. 641.

The following named person, now serving as a Military Substitute Patrolman, is hereby appointed a permanent patrolman, effective as of Wednesday, September 24, 1941, at ten o'clock a. m., and he is assigned as follows:

Patrolman Edward J. Mitchell, assigned to Division 10.

The Superintendent of Police will promulgate this order.

Joseph F. Timilty,
Police Commissioner.

General Order No. 642.

On March 22, 1938, the following act of the General Court of Massachusetts, chapter 122, was approved:

"An Act Providing For One Day Off in Every Seven Days for Police Officers in the City of Boston.

Be it enacted, etc., as follows:

Section 1. Members of the police department of the city of Boston shall be excused from duty for one day out of every seven without loss of pay. The time and manner of excusing members of said police department from duty shall be determined by the police commissioner for said city. A member so excused shall be exempt from duty and from attendance at a police station or other place, but otherwise shall be subject to all laws, rules and regulations relating to members of said department. Said police commissioner, in case of any public emergency, or any unusual demand for the services of the police in said city, may prevent any member of said department from taking the day off at the time when he is entitled thereto, or at the time assigned therefor; provided, that such day off shall be granted to him as soon thereafter as is practicable. In no case shall the number of such days off be less than fifty-two in each year and they shall be in addition to any annual vacation now or hereafter allowed to members of said department, and such annual vacation shall not be diminished on account thereof.

Section 2. This act shall take full effect upon its acceptance by vote of the city council of said city, subject to the provisions of its charter. Approved March 22, 1938."

The above act was passed by the City Council on September 15, 1941, and approved by the Mayor on September 19, 1941.

It is hereby ordered that the provisions of the above act be in effect on and after Wednesday, October 1, 1941, at 7.45 a. m.

In order that the specifications of the above law may be carried out in the best interests of the department, and so that the members of the department who perform night duty may enjoy the benefit of having their day of relief on a long day and the department will not lose the services of men for first half duty when most urgently required, commanding officers shall arrange a schedule for night men so that they will be excused from duty one day in every six days in one period and one day in every eight days in the second period.

The Superintendent of Police will promulgate this order.

Joseph F. Timilty,
Police Commissioner.

General Order No. 643.

The following amendments to the Rules and Regulations of the Police Department are hereby ordered effective as of Wednesday, October 1, 1941, at 7.45 o'clock a. m.:

1. Upon page 37, under heading of "Powers and Duties," strike out section 80, and insert a new section, which shall read as follows:

"80. Members of the police force to be relieved of duty without loss of pay one day in every seven. (See General Order of September 24, 1941.)"

. . . . .

2. Upon page 377, under caption of "Index," strike out the fifth entry under the letter "d" relating to "day off in every eight," and insert a new entry which shall read as follows:

"Day Off in Every Seven members of force to be relieved of duty without loss of pay one day in every seven, ——see General Order of September 24, 1941." . . . . . Page 37

The Superintendent of Police will promulgate this order.

Joseph F. Timilty,
Police Commissioner.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To raze the building at 416 East Third street, Ward 6.

For permission to secure the front wall and the party wall of building at 386 and 388 Hanover street, Ward 3.

As a protection to the Paul Revere House while the building adjoining at 21 to 27 North square, Ward 3, owned by the City of Boston, is being razed, the Building Commissioner has entered into an agreement with Daniel Marr & Son Co., Inc., 384 Dorchester avenue, South Boston, to erect a bridged barricade over the roof of the Paul Revere House.

To raze the structurally unsafe condition of the building at 19 Athens street, Ward 6, owned by Elizabeth Plevack of 948 East Broadway, South Boston.

To raze the structurally unsafe condition of the building at 21 to 27 North square, Ward 3, owned by the City of Boston and adjoining the Paul Revere House.

36,400 MOTOR DEATHS IN 1935.

According to the findings of the National Safety Council motor traffic deaths in 1935 totaled 36,400, compared with 1934's record of 36,000.

The only decrease was among school children up to fifteen years of age. Motor vehicle accidents to children have increased much less than those of adults since 1922, when safety education began on a national scale. October, November and December were the reddest months. Two-thirds of the accidents were in places under 10,000 population; more than 40 per cent of the victims pedestrians.

Thirteen states decreased traffic deaths 7 per cent or more: Delaware, Illinois, Kentucky, Massachusetts, Minnesota, Montana, North Dakota, Oregon, Rhode Island, Utah, Vermont, Wyoming and Washington.

William J. Burns of 54 Wilmington avenue, Ward 17, to be constable, with term ending April 30, 1942, without power to serve civil process and to serve without bond, *vice* Leonard Pike, deceased.

Severally laid over a week under the law.

LOSS OF MOTOR LICENSES BY WELFARE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the secretary of the Public Welfare Department relative to your order of August 25, 1941, concerning the discontinuing of the unfair practice of taking away from male recipients of welfare their license to drive motor vehicles in the Commonwealth of Massachusetts.

Respectfully,
Maurice J. Tobin, Mayor.

—

City of Boston,
Public Welfare Department,
September 16, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.
Attention of Mr. William T. Doyle.

Dear Sir,— This department has received your communication with inclosed copy of an order from the City Council, dated August 25, 1941, reading as follows:

"Ordered, That the Overseers of Public Welfare be directed, through his Honor the Mayor, to discontinue the unfair practice of taking away from male recipients of welfare their license to drive motor vehicles in the Commonwealth of Massachusetts."

May I state that there is no rule in this department to take away from recipients of welfare their licenses to drive motor vehicles in the Commonwealth of Massachusetts.

Sincerely yours,
William G. O'Hare,
Secretary.

Placed on file.

DISTRIBUTION OF FUEL TO WELFARE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the secretary of the Public Welfare Department relative to your order of September 8, 1941, concerning the taking of immediate steps to arrange for the distribution of fuel oils and coal to welfare recipients during the winter months.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Public Welfare Department,
September 16, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.
Attention of Mr. William T. Doyle.

Dear Sir,— This department has received your communication with inclosed copy of an order from the City Council, dated September 8, 1941, reading as follows:

"Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to take immediate steps to arrange for the distribution of fuel oils and coal to welfare recipients during the winter months so that no unnecessary suffering may be caused because of the present fuel emergency."

May I state that every precaution has been taken through the cooperation of your Honor with this department and the Supply Department to secure sufficient fuel, both coal and oil, for distribution as soon as the cold weather comes in.

Sincerely yours,
William G. O'Hare,
Secretary.

SERVICE ON JAMAICA-DUDLEY STREET SURFACE LINE.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of September 8, 1941, concerning the investigation of the service on the Jamaica-Dudley street surface line.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway.
September 18, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,— Since the receipt of your letter of September 11, with accompanying order of the City Council, the fall time table has been placed in effect on the Jamaica Plain-Dudley street line.

Recent counts show that the service is adequate to meet present riding requirements, but the riding will be carefully watched and additional service will be provided if required.

Very truly yours,
EDWARD DANA,
President and General Manager.

DEMOLITION OF BUILDING AT 23 CHICKATAWBUT STREET.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of the Building Department relative to your order of August 25, 1941, concerning the taking of immediate steps to condemn as unsafe and notify the owner to proceed with the demolition of the building at 23 Chickatawbut street, Ward 16.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Building Department, September 11, 1941.

Hon. Maurice J. Tobin.
Mayor of Boston.

Subject: 23 Chickatawbut street, Ward 16.

Dear Sir,—Concerning your communication of August 28, 1941, subject—City Council order of August 25, 1941,—ordering that "the Building Commissioner be requested to take immediate steps to condemn as unsafe and notify the owner to proceed with the demolition of the building at 23 Chickatawbut street, Ward 16," please be informed that this department has had a legal notice of violation of law served by constable upon the owner of the property referred to, namely, the Home Owners Loan Corporation, and will make every effort possible to have said organization raze the building, as I am reluctant to spend public funds for razing a building owned by a financially stable organization. However, this department is taking estimates for the razing of the building so that a contract could be negotiated if the owners fail to act within a reasonable time.

Respectfully yours,
JAMES H. MOONEY,
Building Commissioner.

Placed on file.

CITY COUNCIL PROCEEDINGS.

(*Continued from page 1111.*)

SALE OF EARTH MATERIAL, COBBLESTONES, ETC.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,—I am in receipt of a communication from the Commissioner of Public Works in which he requests authority to sell approximately 7,000 cubic yards of earth material, cobblestones, granite blocks, old artificial stone, and old flagging. This material is no longer required for any purpose by the Public Works Department and is made available because of the proposed reconstruction of Farragut road in South Boston.

The Commissioner of Public Works has already advertised the sale of this material and the highest bid therefor was $2,170. I inclose herewith an order authorizing the Commissioner of Public Works to sell the above described material to the highest bidder and respectfully recommend its adoption to your Honorable Body.

Respectfully,
Maurice J. Tobin, Mayor,

—

City of Boston,
Public Works Department,
September 18, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Although Farragut road, South Boston, was laid out as a public highway in 1909, from the Reserve channel to East Sixth street, only that section located between East First street and East Sixth street has been constructed. I feel that it would be advantageous to the city and the owners of the abutting properties to construct that section that extends from the Reserve channel to East First street. This proposed street construction work would make an ideal winter project for the W. P. A. forces, as it is in an isolated location and the proposed construction work would not inconvenience any residents.

On street construction work the city generally has to pay from 30 to 40 cents per cubic yard for the removal of earth material. At the present time, however, there is a great need for a large volume of earth filling at the Army Base and South Boston Navy Yard, and, in view of this, a contract was advertised by the department in the *City Record*, which provided for the purchase from the city of all earth material, in the approximate amount of 7,000 cubic yards, removed from the latter-referenced section of Farragut road; it being the intention of the department to sell the excess material prior to the start of the proposed street construction project by the W. P. A. forces. As a result of the above-referenced public advertisement, bids were opened in this department on September 9, 1941, and the highest bidder was the J. F. White Contracting Company of 900 East First street, South Boston, who agreed to remove the material and pay the city 31 cents per cubic yard, or a total of $2,170 for an estimated 7,000 yards of excess material. The material referred to includes all cobblestones, granite blocks, old artificial stone, and old flagging that is dumped in the location at the present time.

In order to award this contract it will be necessary to receive the approval of the City Council. I respectfully recommend, therefore, that the inclosed order be introduced in the Council authorizing, in substance, the Commissioner of Public Works to sell approximately 7,000 cubic yards of material to the above-referenced highest bidder, in the total amount of approximately $2,170.

Respectfully yours,
George G. Hyland,
Commissioner of Public Works.

—

Ordered, That the Commissioner of Public Works be, and is, hereby authorized to sell to the highest bidder, in accordance with bids received after publicly advertising, which bids were opened on September 9, 1941, approximately 7,000 cubic yards of earth material, cobblestones, granite blocks, old artificial stone, and old flagging, that is located in that section of Farragut road that extends from the Reserve channel to East First street, for 31 cents per cubic yard, as the material is not required by the Public Works Department.

Referred to Executive Committee.

TRANSFER OF $5,000 FORECLOSED REAL ESTATE DIVISION.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1941.

To the City Council.

Gentlemen,—I am advised by the Custodian of Foreclosed Real Estate that, in order to provide for the requirements of the Foreclosed Real Estate Division during the remainder of the current year, it is essential to transfer the sum of $5,000 from the rentals received from the property under his jurisdiction as provided by statute.

This division has under its care all the property foreclosed by the city and the efficient handling of the property has substantially increased the rentals over last year. For the entire year 1940 rentals to the amount of $36,888.79 were received. Up to August 31, this year rentals to the amount of $35,106.38 have been collected and it is estimated that at the end of the year the total rentals will amount to about $50,000. This increase in rentals has, of necessity, expanded the activities of the division and correspondingly increased its operating expenditures. These operating expenditures during 1940 amounted to $25,179.40. To date this year it has expended $22,600 and it is estimated the above mentioned sum of $5,000 will be sufficient to meet its operating expenditures for the remainder of the year.

I submit herewith an order providing for such a contingency and recommend its adoption by your Honorable Body.

Respectfully,
Maurice J. Tobin, Mayor.

—

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1941, an additional sum of $5,000 be, and the same hereby is, appropriated from the income of the Foreclosed Real Estate Division, exclusive of proceeds from the sale of foreclosed property, for the following purpose:

Foreclosed Real Estate Division, Special Appropriation, $5,000.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Rebecca Aronson *et al.*, for compensation for damage to car and injuries caused by city car.

George F. Beeman, for compensation for damage to car caused by pail thrown from City Hall roof.

Charles Burtman, for compensation for damage to property at 93 and 95 Heath street, caused by water not being shut off.

Patrick A. Gargan, to be reimbursed for accident which occurred while in performance of duty as employee of Suffolk County.

Home Owners' Loan Corporation, for compensation for damage to property at 2397 and 2399 Centre street, West Roxbury, during sidewalk construction.

William F. Linehan, to be reimbursed as result of accident which occurred while in performance of duty.

Margaret G. McMahon, for compensation for damage to property at 28 Worthington street, caused by city truck.

William F. Mitchell, for compensation for damage to car by ladder truck No. 17.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

1. Report on petitions for driveway openings, viz.:

Petition of Hunt-Spiller Manufacturing Corporation at 383 Dorchester avenue (referred August 4).

Petition of United States Government, Franklin M. Hull, at A street (referred September 8)—recommending that licenses be granted on usual conditions.

Report accepted, said licenses granted on usual conditions.

2. Report on petition of Boston Elevated Railway Company for license to operate motor vehicles between junction of Huntington avenue and Massachusetts avenue and junction of Boylston street and Charles street—that same ought to pass.

The report was accepted and the question came on the granting of the license.

Coun. CAREY—Mr. Chairman, for some time the Elevated has been trying to get a 5-cent line from the corner of Massachusetts avenue and Huntington avenue down to Park square. Shortly after I entered this Council I succeeded in obtaining for the people of my district something that they had waited for for many years, namely, a 5-cent line from Brigham Circle to the entrance of the subway at Arlington street. I can't for the life of me understand why the Elevated will not recognize that in the Ward 10 section of the city there are thousands of people who daily must come in town, the largest number of whom pay a 10-cent fare. The people of my district are certainly entitled to a 5-cent line from Brigham Circle to the Park square section, and the attitude of the Elevated in refusing to put that line into effect is daily sending hundreds of shoppers from my district over to Waltham and over to Brookline, where they can buy more attractively, get better facilities, and have more enjoyment of their shopping. The trustees of the Elevated Railway for the most part are Boston men, and I charge here and now that they are doing nothing to help the City of Boston from the standpoint of helping the business men and the merchants who must pay taxes here in this city. I very much regret to see that the committee has approved the granting of this license. I do not think it is fair to me, I do not think it is fair to the people of my district, I do not think it is fair to most of the people in Ward 4. There are, as I said a moment ago, thousands of people who could be benefited by this line in my district. There are thousands, maybe, in Ward 4, who live beyond Massachusetts avenue, in the section between Massachusetts avenue and Brigham Circle, who are being denied this 5-cent privilege. The only excuse that the Elevated gives is that such a line would compete with their subway. That is the line from Brigham Circle to Park square. Well, if that is true, the 5-cent line from Massachusetts avenue to Park square certainly is going to compete with the subway. There is a subway station at Symphony Hall, and another one at Mechanics Buildings, so that the people from Massachusetts avenue intown have ample opportunity to get into the street cars. I certainly feel that that attitude of the Elevated officials, the trustees, is most unfair to the people of my district. I am going to vote against the granting of this permit. I hope that the Council will hold it up until such time as we have an opportunity to bring the members of the Board of Trustees of the Elevated down here in a body. It doesn't do much good to have Mr. Dana come down here alone. He cannot speak for the five members of that Board. I am therefore going to ask, not that they be unfair to the people in the section from Massachusetts avenue

to Park square, but I think that justice is due the people from Massachusetts avenue up to Brigham Circle,— those living in Wards 4 and 10. I hope that the Council will lay this matter on the table until such time as we have an opportunity to bring all of the trustees before the Council and see if we cannot get that line that formerly was in effect, the 5-cent line from Brigham Circle into Park square.

The question came on Coun. Carey's motion that the matter be laid on the table.

Coun. CHASE—Mr. Chairman, the councilor from Ward 10 and I have for many months been urging the Boston Elevated Trustees to install a bus line from Brigham Circle to the Park square area. The records will show that on five or six different occasions we have secured passage of City Council orders urging the trustees, through his Honor the Mayor, to do this, and were prompted, Mr. Chairman, to make this request in behalf of the public in our districts, in behalf of the merchants who are losing thousands of dollars, and in behalf of the property owners and taxpayers who are suffering or were suffering in that area because of lack of a bus line. Now, Mr. Chairman, the Boston Elevated Company has installed a bus line from Park square to Massachusetts avenue. This particular short line serves a goodly portion of my district. The people in that particular area are using this bus line, and while I sympathize with the councilor from Ward 10, and while I feel that the Elevated trustees are shirking their public duties in not providing adequate transportation to the public in general along Huntington avenue, I frankly feel that we have no alternative but to grant the permit for this short bus line, for in the event we do grant it thousands and thousands of people will be benefited by it. It serves a business area, it tends to assist the merchants in the particular area that it serves, it is providing service to thousands of people who are solely within the confines of my ward. However, Mr. Chairman, I reiterate that I more than sympathize with the councilor from Ward 10. As a matter of fact, I intend to line up with him on the trustees of the Elevated because I contend that they are shirking their public duty in not providing adequate transportation to the public of Wards 4 and 10. Now, sir, if this bus line was extended from Massachusetts avenue to Brigham Circle, it would benefit me much more than it would the councilor from Ward 10, but as I have already said, if we do not grant this bus line for a short haul thousands of people will be affected by it, and I do not care to place myself in the position of denying to the public in my area any transportation facilities. However, I intend to do something about securing an extension of this bus line. I think the Elevated trustees, and I think that Mr. Dana—the $50,000 a year man who is being paid through these small fees from the carfares that the public is paying—should recognize the dire need for adequate transportation facilities on Huntington avenue. I say, Mr. Chairman, and I say publicly, that if Mr. Dana feels or if the trustees feel that this proposed line from Brigham Circle to Park square could only be operated at a deficit, then they should make up the deficit out of his $50,000 a year salary and out of the trustees' $5,000 a year salaries. I say that the thousands of people in my area and in Roxbury are entitled to adequate transportation facilities, and with that in mind, sir, I intend, with the councilor from Ward 10, to continue to work to have this line extended. But I do not believe that we should deny the public the line already provided, and I trust that the Council will pass the order.

Coun. FISH—Mr. Chairman, as chairman of that license committee I say now, and I think you can bear me out, that there is a difference of opinion between the two councilors affected, and since the councilor from Ward 10 has recommended that this be laid on the table I will say for the committee that it will not hurt its feelings in any way if the Council should, rather than laying on the table, refer the matter back to the committee. As Councilor Chase from Ward 4 states, the Elevated is unfair, it has always been unfair, and I think according to the present setup, with the strong Republican financial backing they have, they always will treat the citizens of Boston in an unfair manner, and if by holding it up it will force the Elevated to extend the service to the people of Ward 10, then I myself would be inclined to think that it would be better to have it referred back to the committee and have the trustees heard.

Coun. CAREY—Mr. Chairman, I just want to add further that once the Elevated is given a permit to run a 5-cent line from Massachusetts avenue to Park square my possibility of getting an extension of that line is going to be very remote, and I only want to repeat that I have in mind the thousands of voters and citizens of Ward 4 who live in the section from Massachusetts avenue to the end of the ward, as well as the thousands of people in my district. I am perfectly willing to have this go back into committee with the suggestion that the committee call in the officials of the Elevated and see if we cannot have this thing done properly. I make that as a motion, Mr. Chairman.

Coun. CHASE—Mr. Chairman, I believe that the Council as a whole should realize that there is the possibility that the Elevated trustees may realize the particular predicament that Councilor Carey and I are in. We would not actually like to see the Council deny the granting of this particular permit so that the Elevated could turn around to the public in my district and say, "We provided a line for you but your councilors turned it down." Now, Mr. Chairman, there is no question about it, that particular short haul line provides some service to the people in my district, namely, to all the public who reside on Huntington avenue from Massachusetts avenue to Park square, and on the side streets running off of Huntington avenue in that area. That service is providing them with transportation facilities. If we deny this license and take away those transportation facilities, I believe that we will be doing a wrong thing. Frankly I am of the opinion that the proper way to go about this matter is to grant the present license and to fight for an extension of that bus line. And I say, Mr. Chairman, that I am just as vitally concerned in an extension of this bus line as the councilor from Ward 10 is, and I intend to do everything within my power to have this line extended, but I would not like to see the Council as a whole be put in a position for the Elevated trustees to say, "We offered a bus line for the people on Huntington avenue but the Boston City Council is against it and they are to blame for turning it down." I don't think——

Coun. FISH—Mr. Chairman——

Chairman WARD—Will the gentleman yield?

Coun. CHASE—I shall be glad to.

Coun. FISH—May I ask the councilor from Ward 4 under what permit they are operating now, and what date it expires?

Coun. CHASE—As I understand it, they have secured a permit from the Department of Public Utilities for a sixty-day trial.

Coun. FISH—On what date will that expire?

Coun. CHASE—Sixty days from the date that the bus service was inaugurated, which was about a week ago.

Coun. FISH—A week ago? That would give them sixty days from that date?

Coun. CHASE—But I am not certain of that, however.

Chairman WARD—Coun. Chase has the floor.

Coun. CHASE—Now, Mr. Chairman, I am just as much concerned about a bus line from Brigham Circle to Park square as the councilor from Ward 10, and I intend, Mr. Chairman, to see that the line is extended to those limits. But I do not think that we should do anything now to interrupt a service which is being rendered to a substantial portion of the public in my district. I think that is the wrong way to go about it. And so, Mr. Chairman, I hope that the members of the Council will recognize this peculiar condition and grant the license.

Coun. FISH—Mr. Chairman, the reason I asked that question was to find out how long they could operate without Council action. I find out now that they can possibly operate another ten or eleven weeks, and in that event I see no real serious harm coming to the councilor from Ward 4 if this should be referred back to the committee, if by doing so it should extend a helping hand to one of our colleagues, Councilor Carey.

The question came on motion of Councilor Carey that the order be referred back to the committee on licenses. The order was so referred.

Coun. FISH then asked unanimous consent to make a statement. There being no objection, Coun. FISH said:

I just want to make this one statement,—that I will hold a meeting of the committee on licenses on Thursday at 2 o'clock.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. WICKES, for the Committee on County Accounts, submitted the following:

Report on message of Mayor and order (referred from Executive Committee, August 18) for amendment of county classification plan by establishing classification of managing custodian of Suffolk County Court House—that same ought to pass.

The report was accepted. On request of Coun. M. H. SULLIVAN the order was referred to the Executive Committee.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. RUSSO, for the Committee on Public Lands, submitted the following:

1. Report on message of Mayor and order (referred September 15) for exchange of land between city and Sears, Roebuck Company for traffic circle at Brookline avenue and Park Drive —that same ought to pass.

Report accepted; said order passed, yeas 18, nays 0, viz.:

Yeas—Coun. Carey, Chase, Coffey, Englert, Fish, Galvin, Goode, Hurley, Hutchinson, Kelly, Linehan, Lyons, Russo, Scannell, D. F. Sullivan, M. H. Sullivan, Ward, Wickes—18. Nays—0.

SIDEWALK ON TACOMA STREET.

Coun. GOODE offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Tacoma street (both sides), Wood avenue to Bradlee street, Ward 18, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

IMPROVEMENT OF CONDITIONS IN WEST STREET SECTION, HYDE PARK.

Coun. GOODE offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make a survey of the district in the vicinity of Myopia road and the George Wright Golf Course in the West street section of Hyde Park, and to formulate plans for piping or deviating the course of the brook running through surrounding properties, which detracts from the value of said properties and constitutes a menace to the health and safety of the residents of this neighborhood.

Passed under suspension of the rule.

Coun. M. H. SULLIVAN in the chair.

ELEVATED BUS SERVICE FOR SACRED HEART CHURCH, ROSLINDALE.

Coun. GOODE offered the following:

Ordered, That the Trustees of the Boston Elevated be requested, through his Honor the Mayor, to confer with the pastor of the Sacred Heart Church in Roslindale, relative to the taking over by the Boston Elevated the Sunday morning bus service now in operation under the personal jurisdiction of the pastor and to continue the same service and schedule now in operation under this private control.

Passed under suspension of the rule.

SIDEWALK, FREMONT STREET.

Coun. GOODE offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to construct a sidewalk along that part of Fremont street, Mattapan, from Babson street to the property line of the St. Angela's Church.

Passed under suspension of the rule.

SULLIVAN SQUARE AND BARRY PLAYGROUNDS.

Coun. GALVIN offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to place the Sullivan Square Playground and the Barry Playground in suitable condition for the activities of the football season.

Passed under suspension of the rule.

REOPENING OF TYLER STREET LIBRARY.

Coun. RUSSO offered the following:

Ordered, That the trustees of the Boston Public Libraries be requested, through his Honor the Mayor, to reopen the branch library on Tyler street, and Red Cross Branch, Ward 3.

The question came on the suspension of the rule and the passage of the order.

Coun. RUSSO—Mr. Chairman, for some time the people in my district, in that particular section, have been deprived of the use of the branch library on Tyler street. I don't believe that that is true wisdom, the closing of the Tyler street branch library. We down in the South End section of the City of Boston are confronted with Americans of all racial groups, and I believe that those individuals should have the same privileges that are enjoyed in other sections of the City of Boston. I ask the trustees of the Public Library for the immediate reopening of this branch in the name of good judgment, in the name of education and knowledge, and I do hope that his Honor the Mayor will see to it that it is reopened. I do not believe that the trustees can say to the Council that they closed that particular library branch due to the fact that they are trying to save money for the City of Boston. I know that the budget of the library has been increased in the last few years. Therefore, I hope that the trustees will take action and immediately reopen the branch library on Tyler street, Ward 3.

Coun. DANIEL F. SULLIVAN—Mr. Chairman, if agreed to by the gentleman from Ward 3, I would like to amend that order by also including the words "and Roxbury Crossing."

Chairman WARD—Do you agree?

Coun. RUSSO—I do.

The order as amended was passed under suspension of the rule.

AFTERNOON REGISTRATION OF VOTERS.

Coun. CAREY offered the following:

Ordered, That the Election Commission be requested, through his Honor the Mayor, to consider the advisability of arranging for the registration of voters during the afternoon hours,

as well as in the evening, during the period from October 1 to October 15, in the various wards of the city.

The question came on the suspension of the rule and the passage of the order.

Coun. CAREY—Mr. Chairman, I don't believe it is too late for the Election Commissioners to make such an arrangement. In past periods of registration I have found that it is very inconvenient for most people to register between six and eight o'clock in the evening, and, as we know, the hours being from six to ten, deprives those voters who would like to register of two hours that they cannot possibly call at the various ward registration booths. I think there are many people who might be more inclined to take a more active interest in civic affairs if we could provide better registration opportunities for them, and I hope the Election Commissioners will find it possible to permit registration between October 1 and October 15 in the afternoon as well as during the evening.

The order was passed under suspension of the rule.

ENTRANCE AGE FOR SCHOOL CHILDREN.

Coun. CAREY offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to consider the advisability of changing their rules in order to allow children who become four and one half years of age on or before October 15 to enter the kindergarten class, and those who become five and one half years of age on or before October 15 to enter the first grade.

The question came on the suspension of the rule and the passage of the order.

Coun. CAREY—Mr. Chairman, I do not like to interfere with the conduct of the affairs of the School Committee, but during the last two weeks I have had cases called to my attention of children who were, for instance, four and a half years of age on September 17 and five and a half years of age on September 19, or possibly five and one-half years of age on September 29. Under the present rules of the School Committee those children must wait one solid year before they are allowed to enter a school. Years ago I think most of us began our schooling at the age of five, and we did not have to be five on or before the day the school opened, as a matter of fact. Therefore, I do not think there will be much harm if a little leeway is allowed to the school children so as to permit those who become four and a half before October 15, and those who become five and a half before October 1, to enter the kindergarten and the first grade respectively.

Coun. GALVIN—Mr. Chairman, I want to go along with Councilor Carey on that order. I see by the newspapers that our schools have dropped down extremely low in attendance for the past two or three years. I find in my own district that some of the schools have the rooms only half filled. I believe that the School Committee should allow these children to go in at a younger age and then only get a few teachers to take care of them. I an heartily in accord with Councilor Carey on that particular order, and I believe it is the duty of the School Committee to enforce the order and bring about a higher attendance in our schools.

The order was passed under suspension of the rule.

IMPROVEMENT OF STREET LIGHTING.

Coun. CAREY offered the following:

Ordered, That the Commissioner of Public Works be requested by his Honor the Mayor to conduct a survey in Ward 10 and throughout the entire city with a view to improving the lighting facilities on the various streets where electric lighting is used.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to confer with officials of the Boston Consolidated Gas Company relative to the possibility of improving the efficiency of gas lighting on the streets throughout Ward 10 and the entire city,

The question came on the suspension of the rule and the passage of the two orders.

Coun. CAREY—Mr. Chairman, speaking on both the last two orders, I have here before me an editorial appearing in the Boston *Post* yesterday that I think is deserving of the attention of the city officials, the Boston Consolidated Gas Company, and the Edison Light. This editorial brings out the fact that at a convention held in Swampscott recently it was stated that five thousand lives a year are lost because of poor street lighting. I think it is a very fine matter to bring to the attention of the municipal authorities. I notice in my district many streets where we have gas lighting provided, and while I don't know what content there is to those lamps, they might as well take them off the streets entirely in some cases. It seems to me that the Gas Company ought to have some method of furnishing more efficient lighting. We cannot change all of the gas lamps into electric lights throughout the city, but we should have some cooperation with the Gas Company officials as far as the gas lamps go. Now, there are definitely many streets, not only in my district but throughout the other wards of the city, where there are not ample lighting facilities. Better lighting not only will save lives but it will prevent the work of pickpockets and those who might assault women in the evening hours. It is a matter that certainly deserves most careful consideration by the Mayor, from whom I am sure it will get it, from the officials of the Public Works Department, the lighting companies and the Council. And I hope that some definite action will be taken by them in this matter.

The orders were passed under suspension of the rule.

"STOP" SIGNS AT MOZART AND LAMARTINE STREETS.

Coun CAREY offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect stop signs at the intersection of Mozart and Lamartine streets, Ward 10.

The question came on the suspension of the rule and the passage of the order.

Coun. CAREY—Mr. Chairman, just a word on that order. I asked some time ago that those stop signs be erected at that intersection. It is a very dangerous intersection, especially for the last couple of years, since Lamartine street was reconstructed. There are blind corners on all four intersections there. I cannot understand the delay in installing various stop signs requested by me and other members of the Council. A stop sign certainly doesn't cost much. I hope that the day will soon come when the Traffic Commission will recognize these orders for stop signs. I have several of them in my district, and I know that the other councilors have them in their districts as well. I therefore hope that attention will be given to this order and that this stop sign will be erected within the very near future.

The order was passed under suspension of the rule.

CONFIRMATION OF APPOINTMENTS.

Chairman M. H. SULLIVAN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointment submitted by the Mayor September 15, 1941, of Louis Lunin, Evelin Zwick, Charles Schoen and Robert White, to be Weighers of Coal; and John F. Flanagan, Hazel Latham and Evelin Zwick, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Carey and Hutchinson. The appointments were confirmed, yeas 16, nays 0.

OPHIR STREET, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface and construct sidewalks upon Ophir street, Ward 11.

Passed under suspension of the rule.

SURVEY OF INCREASED VALUATIONS, WARD 16.

Coun. FISH offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to have a survey made of the increases which were made in the assessed valuations in Ward 16 during the past year, with a view to reducing same to their former assessment.

The question came on the suspension of the rule and the passage of the order.

Coun. FISH—Mr. Chairman, I don't think that I can be labeled unfair on matters before this Council, and I do not propose to go too deeply into the abuses of the local assessors. I do not think anybody in the City of Boston today, except the two local assessors in my district, feels that the time has yet come where homes that have been constructed fully a half-century should now, this year, carry an increased valuation of 25 per cent. That is one item that I have against these assessors. Another, which, if it was not so serious with the property owner would really be laughable, is where an assessed valuation of $7,000 was placed on a vacant house lot. This particular house lot is flanked by homes constructed on each side and in the rear, and in no case do they carry an assessment of over $6,000, and yet they assessed a vacant lot for $7,000. I am publicly calling upon the Board of Assessors to remove those two local assessors—not to discharge them but to relieve them of their present duties and place them in a far less responsible position, where they cannot make an annual raid on the home owners of Dorchester. You may say that they have an opportunity to file for an abatement. They do. But how many of them hear from the Board of Assessors when they do take action upon that request for abatement and it is denied? How many of them hear of it? Very seldom have I heard of a case. Yet they have the right to go beyond the Board within sixty days by bringing an appeal to the Board of Appeals. How are they to know whether they can bring it before the Board of Appeals when they have not been notified by the assessors that their request for an abatement has been denied? How many women with a family of thirteen children, who are denied an abatement, have the opportunity to go before the Board of Appeals when they have never been notified that the local board has denied their request? As I have said, I am not going too strongly into this today, but I do propose to act upon every abatement that is being filed. I understand that if we had an assessing department that knew values and placed proper values there would be no need of the hundreds and thousands of mistakes they make, which is proved by the number of abatements being filed annually.

The order was passed under suspension of the rule.

BONUS TO CITY EMPLOYEES IN NATIONAL SERVICE.

Coun. HURLEY offered the following:

Ordered, That the municipal government of the City of Boston pay a bonus of $100 to each of its employees now in the military and naval service of the United States upon their discharge from active duty and return to civilian life, and be it further

Ordered, That there be no delay in making of such payment and that said bonus be paid immediately upon presentation of certificate of discharge to director of the city department in which the worker is regularly employed.

Passed under suspension of the rule.

SIDEWALKS, BROOK AVENUE, WARD 13.

Coun. HUTCHINSON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on Brook avenue, Ward 13, in connection with the resurfacing work that is now going on there.

Passed under suspension of the rule.

SIDEWALKS, SARGENT STREET, WARD 13.

Coun. HUTCHINSON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on Sargent street, Ward 13, as a W. P. A. project.

Passed under suspension of the rule.

RESURFACING OF KANE STREET.

Coun. KELLY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Kane street, Ward 15, as a W. P. A. project.

Passed under suspension of the rule.

RELOCATION OF FIRE ALARM BOX 3343.

Coun. WICKES offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to consider the advisability of relocating fire alarm box No. 3343, at the corner of School and Harvard streets, Dorchester, or installing an additional fire alarm box in a more conspicuous place, to be equipped with red lights or globes in Ward 17.

Passed under suspension of the rule.

FENCE AT REAR OF 28 RICHMOND STREET, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to have a fence erected at the rear of 28 Richmond street, Ward 17, so that the private property at said address may be separated and effectively protected from those using the adjacent city property.

Passed under suspension of the rule.

SIDEWALK CONSTRUCTION, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Alteresko avenue in front of No. 49, Ward 17, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

—

Ordered, That the Commissioner of Public Works make a sidewalk along Gallivan Boulevard in front of Nos. 125, 127 and 129, Ward 17, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

Coun. LINEHAN in the chair.

BUS LINE, FRANCIS STREET–PARK SQUARE.

Coun. CHASE offered the following:

Resolved, Whereas the Boston Elevated Railway Trustees contend that a bus line from Francis street to Park square can only be operated at a deficit, and

Whereas, The Boston Elevated is not in a position to know whether or not such a line would be operated at a deficit because they have never tried to test such a bus line, and

Whereas, There is a great public demand for better transportation facilities along Huntington avenue, therefore, be it

Resolved, That the Boston City Council, in recognition of this public need, goes on record as requesting the Boston Elevated Trustees, through his Honor the Mayor, to provide this essential bus line even at the cost of making up any possible deficit by lowering the high salaries of some of the top-heavy and super-paid deficit-minded Boston Elevated executives.

The question came on the suspension of the rule and the adoption of the resolution.

Coun. CHASE—Mr. Chairman, I know from past experience in this Body that many councilors, in crying for better transportation facilities in their districts, and in contacting the Elevated trustees in behalf of the public for better transportation facilities, have been answered in most cases by the Elevated trustees that to provide such a necessary service would only add to the deficit. Now, Mr. Chairman, the Boston Elevated Railway Company is a quasi-public institution, it is a creature of the state today, and the state has taken this company over and directed how it shall be operated, because they recognized that it was providing a monopolistic service to the public. And, Mr. Chairman, the state even went so far as to provide that in the event the Elevated Railway Company was to operate at a deficit, the taxpayers of Boston would be called upon, and other metropolitan cities and towns would be called upon to make up their proportionate share of the deficit. Now, Mr. Chairman, this law was made under the guise that the Elevated Company was operating in behalf of the public, that it had a public monopoly, that no other institution in the city or in metropolitan Boston could compete with it, and that in view of the fact that it was a public or a quasi-public company the taxpayers of Boston would have to stand any deficit. Now, the Elevated trustees constantly claim that they cannot provide the essential and necessary transportation facilities, not only in my district but in other districts of Boston, because of this great deficit. Well now, Mr. Chairman, if the public—and it is the public which is paying for this deficit—is crying for better transportation facilities, then why do not the Elevated Railway trustees recognize that fact? Why don't they give the people who are paying for the cost of this transportation facility the necessary and full and adequate service that they are justly entitled to? If they are constantly crying about the deficit, why don't they take other means to cut down this deficit besides trying to do away with necessary lines that the working people and the public in general have to have? Have they done anything about their super-salaried executives? Why, there is one man in the company getting $50,000 a year. For what? Where does he get his money? From the little man who drops a ten-cent piece in the coin box, or the little man who drops a five-cent piece in the coin box. Has he done anything about doing anything equitable about his big salary? No, no. He takes it out of the little man by denying him all proper service that they should give him. And I say, Mr. Chairman, that the sooner the Elevated trustees recognize the fact that it is the public that is paying for the deficit and it is the public that is demanding adequate transportation facilities, the quicker it will be that the public sentiment throughout the City of Boston will be better disposed toward the Elevated trustees. I trust that the Council will pass this resolution.

The resolution was adopted under suspension of the rule.

EXTENSION OF DAYLIGHT SAVING.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to prepare Legislation to be presented to and acted upon by this session of the Legislature whereby the benefits of daylight saving will be extended.

Passed under suspension of the rule.

MONTHLY BONUS TO MEN IN NATIONAL SERVICE.

Coun. HURLEY and M. H. SULLIVAN offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to prepare legislation to be presented to the Legislature whereby selectees, National guardsmen and others in the military and naval service will be given a bonus of $10 per month by the Commonwealth of Massachusetts.

The question came on the suspension of the rule and the passage of the order.

Coun. MAURICE H. SULLIVAN—Mr. Chairman, I was rather astonished during the past few weeks to read in a metropolitan daily that came from the conservative State of Vermont, that the conservative Republican Legislature there has recently passed legislation to the effect that $10 per month shall be paid by the state to the various selectees and other men in the military service or naval service of the nation. That is in the State of Vermont. And I read further that the Governor of that state, noted for his conservative background, has stated that when the legislation gets to his desk he will definitely affix his signature to it. Now, the Commonwealth of Massachusetts has been far more progressive and far more liberal in its social legislation than possibly any other state of the New England district, and certainly I feel that when the coldly conservative State of Vermont has enacted legislation to the effect that $10 per month shall be paid to the selectees and other military men from the State of Vermont by the State of Vermont, certainly the Commonwealth of Massachusetts might well follow the example which has been so well set and that the Commonwealth of Massachusetts might well enact legislation to be presented to the Governor whereby $10 per month will be paid to the men of Massachusetts who are now earning their $21 per month in the military service. I say this without criticism of many of the draft boards throughout the state, which have been most liberal in their interpretation of the Selective Service Act, but say that many of the boards throughout the state have been too strict in their interpretation of the law, and I know in many instances, from various sections of this city, men are now serving under the Selective Service Act who never should have been called, that as far as the financial status of their families was concerned and as far as the need of their service at home was concerned, those men could probably do more for local and for national defense by helping their own families than they will ever do by serving eighteen months or two and a half years in a military camp. And I feel that in many instances $10 a month, if paid to these men by the Commonwealth of Massachusetts, might alleviate the distress under which certain of the families of the selectees in Boston are laboring, and I think that where this legislation was first broached and first passed by the Legislature of Vermont and is now awaiting the signature of the Governor of Vermont, it might well be passed in the Commonwealth of Massachusetts.

The order was passed under suspension of the rule.

RECESS.

On motion of Coun. M. H. SULLIVAN the Council voted, at 3.45 p. m., to take a recess, subject to the call of the Chair. The members reassembled at 4.15 p. m., and were called to order by President GALVIN.

EXECUTIVE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

Report on message of Mayor and order (referred today) for transfers within departmental appropriations — that same ought to pass.

Report on message of Mayor and order (referred today) transferring $5,000 from income of Foreclosed Real Estate Division to Special Appropriation, Foreclosed Real Estate Division—that same ought to pass.

The reports were accepted and the question came on the passage of the orders.

The orders were passed, yeas 16, nays 0, viz.:

Yeas Coun. Carey, Chase, Englert, Fish, Galvin, Goode, Hurley, Hutchinson, Kelly, Langan, Russo, Scannell, Shattuck, D. F. Sullivan, M. H. Sullivan, Wickes—16.

Nays—0.

SIDEWALK ON WACHUSETT STREET.

Coun. LANGAN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Wachusett street, from River street 590 feet easterly, Ward 19, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

ARC LIGHT AT ROBERTS STREET AND BELGRADE AVENUE.

Coun. LYONS offered the following:

Ordered, That the Public Works Commissioner be requested through his Honor the Mayor, to install an arc light at the junction of Roberts street and Belgrade avenue, Ward 20, for the convenience and safety of the Weld street bus patrons.

Passed under suspension of the rule.

SHELTER AT BELGRADE AVENUE AND ROBERTS STREET.

Coun. LYONS offered the following:

Ordered, That the trustees of the Boston Elevated Railway be requested, through his Honor the Mayor, to construct a shelter at the corner of Belgrade avenue and Roberts street, Ward 20.

Passed under suspension of the rule.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

INTERSTATE MUNICIPAL COOPERATION.

At a recent meeting in New York City a new type of interstate municipal cooperation was launched by officials of cities in New York, New Jersey, and Pennsylvania. The plan is based on direct cooperation among officials of a region on pressing problems of local government.

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of $1,200-plus up to $200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of $400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT AND SEWERAGE WORKS IN WENDOVER STREET, WARD 7, DUDLEY TO END; AND ARM TO HUMPHREYS STREET; GLENVALE TERRACE, WARD 19, LAMARTINE STREET TO CHESTNUT SQUARE; AND BITUMINOUS CONCRETE PAVEMENT IN CLOVER STREET, WARD 16, GALLIVAN BOULEVARD TO MINOT STREET; GOODENOUGH STREET, WARD 22, NORTH BEACON STREET TO FANEUIL STREET.

The Commissioner of Public Works of the City of Boston, office 508, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement, etc., in Wendover street and other streets. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked, "Proposal for Bituminous Concrete Pavement, etc., in Wendover street and Other Streets," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, October 15, 1941, with a certified check for fifteen hundred (1,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The Commissioner of Institutions of the City of Boston invites sealed proposals for the erection and completion of a Utility Building on Long Island, Boston Harbor. Forms of proposals may be obtained at the office of the Commissioner, Room 809, City Hall Annex. Each proposal must be signed by the bidder, placed in an envelope properly sealed and marked "Proposal for Erection and Completion of a Utility Building on Long Island, Boston Harbor," and left at the office of the Commissioner, Room 809, City Hall Annex, before 12 noon, October 10, 1941, accompanied by cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company payable to the City of Boston in the sum of $3,000 to become and be the property of the City of Boston as liquidated damages if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers, in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Commissioner, Room 809, City Hall Annex. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

Plans and specifications may be obtained at the office of the Commissioner of Institutions, Room 809, City Hall Annex, Boston, on or after September 29, 1941. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of fifty dollars ($50) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition.

A bond of a surety company, approved by the Commissioner, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required. The Commissioner reserves the right to reject any and all bids if it be in the public interests so to do. The Commissioner also reserves the right to reject all sub-bids on any item or items provided that it is agreed by and between the bidders and the Commissioner that none of such bids represents the bid of a person or firm competent to perform the work as specified, or that only one such bid was received and that the price is not reasonable for acceptance without competition.

HUGH J. CAMPBELL,
Commissioner of Institutions.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, OCTOBER 11, 1941. NO. 41

MAYOR TOBIN PLAYS LEADING PART IN COLUMBUS DAY CELEBRATION DURING EXERCISES AT PARKMAN BANDSTAND, ON MONDAY — EXERCISES TAKE ON UNUSUAL SIGNIFICANCE BECAUSE OF WORLD CONDITIONS — PAN-AMERICAN ASPECTS OF OBSERVANCE MADE PROMINENT BY CELEBRATIONS COMMITTEE WITH A COLORFUL PROCESSION OF PARTICIPANTS — CONSULS OF PAN-AMERICAN COUNTRIES INVITED TO SHARE IN CEREMONIES.

Plans for the open-air public exercises on Boston Common, Monday, October 13, starting at 11.30 a. m., in commemoration of Columbus Day and its significant Pan-American aspects, as part of the official City of Boston observance, have been completed at a meeting of the Columbus Day Committee of the Citizens' Public Celebrations Association.

Committee chairman Joseph A. F. O'Neil announced that the main features begin with a colorful opening procession of participants that will assemble on the Common at Boylston and Tremont streets and proceed to the Parkman Bandstand for the formal exercises.

Following a prelude of band selections, proclamations for Columbus Day as issued by President Roosevelt and by Governor Saltonstall will be read by two students, one from the High School of Commerce and the other from a parochial high school.

The "Story of Columbus" will be dramatized and staged in eight action tableaux with a narrator relating the historic account:

a. Columbus, the Student, at Genoa, about 1470.
b. Before the Court of Spain, 1485.
c. Conference with the Four Wise Men.
d. Queen Isabella Approves the Plans, December, 1491.
e. Columbus Prepares to Sail, August, 1492.
f. On Board the Ship "Santa Maria."
g. The First Sighting of Land.
h. Columbus and Party Ashore; San Salvador, October 12, 1492.

The pageantry will conclude with the singing of "Te Deum Laudamus" ("We Praise Thee, O Lord"), with soloist and band. Narrator will be Joseph A. Crossen; soloist, Marie Murray. Participants from W. P. A. Community Recreation Project.

The Pan-American elements of the program will feature a ceremonial salute to the Flag of each of the twenty-two countries of North, Central and South America, with the national airs of each country played by the band as the flags, with bearers in national colors, with escorts, pass in review before the assembled people.

Consuls or other official representatives of these countries located in Boston are invited to attend. Cooperation of the Pan-American Union and of the Coordinator of Inter-American Affairs at Washington was given in arranging this demonstration of friendship and unity. Besides the timely reasons for such a feature, it becomes especially fitting for Columbus Day, because this anniversary is the only one of its kind that is observed in every one of the twenty-two countries of the Americas. It has been the Boston custom to note this annually on this anniversary.

The invocation will be by Rev. Carl J. Webb, of the staff of the Cathedral Church of St. Paul, by arrangement of Bishop Henry K. Sherrill. The benediction will be by Rev. Harry M. O'Connor, Administrator of Cathedral of the Holy Cross parish, as arranged for the occasion by Cardinal O'Connell. Mayor Tobin will be the permanent chairman for the formal portions of the program. A student of Emerson College, Ralph Patterson, will recite a portion of Longfellow's poem, "The Ship of State".

In harmony with the spirit of the day and the times in which the nation stands at the moment, a special feature will be singing by the assembled audience of several familiar and inspirational patriotic songs, with the band, the soloist, and a male chorus from the W. P. A. Music Project. The songs will include:

"Hail, Columbia"! 1798; "America", Boston, 1832; "Battle Hymn of the Republic", 1861; "Red, White and Blue"; and the "Star-Spangled Banner".

An assembly of all the flags and the costumed participants with special symbolic individuals: "Indian", "Columbia", "Columbus", "Pan-America", in a final mass tableaux for the national anthem will conclude the exercises.

Bishop Cheverus Assembly, Fourth Degree, Knights of Columbus, will furnish an honorary escort in the opening procession, as well as participating in the exercises later. The Latin-American flags will be carried by young women in the national colors of the countries being represented, from South Boston Community Center. A military touch will be given by a detachment from the Massachusetts State Guard, the Marine Corps League, and High School Cadets, with Capt. Charles W. Creaser, M. S. G., Marshal.

The committee of arrangements, from the Citizens' Public Celebrations Association, functioning in conjunction with the City Director of Public Celebrations, Louis J. Brems, comprises:

Chairman, Joseph A. F. O'Neil; Vice-Chairman, Leo P. Doherty; Secretary, E. B. Mero; John B. Archibald, John J. S. Fahey, John A. Scanga, Henry I. Lazarus, Charles H. Connelly, M. Henry McInerney, Meyer Weker, Charles W. Creaser; and officers of the Association, *ex officio*, Joseph A. Crossen, President; Joseph M. O'Leary, Vice-President; Henry J. D. Small, Treasurer; E. B. Mero, Secretary.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

Health Department.

Upon October 1 the Mayor approved a contract with R. J. Connolly as contained in the following request:

Boston, September 26, 1941.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— On Thursday, September 18, 1941, the following bids were received in response to an advertisement inserted in the *City Record*, September 6, 1941, for a new health clinic, etc., at the Washington Allston School on Cambridge street, near Harvard avenue, Allston.

The following bids were received from general contractors:

R. J. Connolly, 1146 Dorchester avenue, Boston, $2,986.

Martin J. Kelly, 95 Prince street, Jamaica Plain, $4,848.

Sub-bids for heating and plumbing were as follows:

Heating.— E. J. Fennessey, $303; J. M. McCusker Company, $780; J. W. Praught Company, $888.

Plumbing.— E. J. Fennessey, $370; J. F. Murphy, $647; J. M. McCusker Company, $675; William H. Mitchell & Co., $835.

I have conferred with one of the engineers in one of the city departments who is familiar with this line of work, and I am informed by him that a price of $600 would be a minimum estimate for the heating, and that a sum of $750 would be his estimate for the plumbing items. The low prices made by E. J. Fennessey were, I understand, the result of errors made by him.

It is my opinion that, in order to assure satisfactory work, it would be in the best interest of the city to reject the E. J. Fennessey sub-bids and use the next lowest sub-bids submitted for these items. Accordingly, I request your approval to award a general contract to R. J. Connolly, including the next lowest sub-bid for heating of $780, and the next lowest sub-bid for plumbing of $647, making a total contract price, with these substitutions, of $3,740.

Yours respectfully,

G. Lynde Gately, M. D.,
Health Commissioner.

Public Works Department.

Upon October 1 the Mayor approved a contract with the Prompt Contractors, Inc., for sewerage works in Mercier avenue, Dorchester, the lowest bidder, at an estimated cost of $1,942.50. The following bids were received September 23:

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, etc., for supplies, labor, etc. Communications from the heads of the several departments interested were as follows:

Public Works Department.

Boston, September 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,— With reference to the current so-called ten-year contract with the Coleman Disposal Company for the disposal of garbage and refuse, the specifications provide, in substance, that the Commissioner of Public Works may designate a representative to examine the books of the contractor which, under the provisions of the contract, are required to show, in detail, all receipts, expenditures, maintenance costs, operating costs, etc., resulting from or incurred in connection with the prosecution of the contract.

As the contract terminates on July 1 of 1942, it is my desire at this time to engage the services of a certified public accountant to conduct an examination of the books of the above-referenced contractor, for the purpose of determining such items as the amount of revenue received by the contractor, the yearly operating costs, the profits or losses resulting to him from the contract, and any other pertinent information in connection with the financial accounting of the company that might be of value to this department in connection with the studies now being made as to the best system for the city to adopt for the disposal of garbage and refuse, at the termination of the present contract.

I respectfully request, therefore, that you approve my designating the firm of Charles F. Rittenhouse & Co., of 10 Post Office square, Boston, certified public accountants, to examine the books of the Coleman Disposal Company that are kept in connection with the ten-year contract. While it is impossible to determine the exact amount that it will cost the city to have the above-referenced examination made, I estimate at this time that the cost will be approximately $1,200.

Respectfully yours,

George G. Hyland,
Commissioner of Public Works.

—

Boston, September 25, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Your approval is respectfully requested to the award of a contract for repairing hull, etc., of ferryboat "Daniel A. MacCormack" to the Quincy Dry Dock & Yacht Corporation, 108 Follett street, Quincy, the only bidder, at an estimated cost of $13,970.

The work to be done under this contract is to be completed within seven weeks after the Mayor has signed the same.

An advertisement for doing this work was inserted in the *City Record* September 13, 1941, and the bid was publicly opened and read September 23, 1941.

Respectfully,

George G. Hyland,
Commissioner of Public Works.

—

Boston, October 1, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Authority is requested to incur an expenditure of $1,680 for hire of the steamer "Balmy Days" from Capt. Charles H. Wade of Hull, Mass., in an emergency, without advertising (service orders 32, 33, 34, effective August 31 through September 30).

Our steamer "Stephen O'Meara" went into dry dock August 29 for repairs covered by the General Ship and Engine Company, 336 Border street, East Boston.

This expense is incurred because of the necessity for boat hire during the absence of the "O'Meara," which repairs are still in process.

The charges made by Captain Wade appear to be reasonable and are the best that could be had. Therefore, because I feel that nothing can be gained by advertising, I hope your Honor can approve this request.

Respectfully,

Hugh J. Campbell,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 46.

Fire Prevention Parade.

On Sunday, October 5, 1941, at 3 p. m., a parade will be held in Boston in observance of the opening of Fire Prevention Week. The starting point of the parade will be at Washington street and Broadway. All units participating will form in their respective divisions at 2.30 p. m., ready to march at 3 p. m.

In order that the representation from this department may be one of the most impressive features of the parade, arrangements have been made to have the Fire Department Band, various types of apparatus and floats depicting Fire Department operations, in line. In addition, the Fire Commissioner desires to have the officers and men of the department support this demonstration by volunteering to march on their time off. All uniformed officers and privates are requested to participate. The Volunteer Auxiliary Fire-Fighting Force will take part in this parade.

District chiefs will personally interview every member in their respective districts and ask each individual member if he will march on October 5, provided he is off duty.

The uniform of the day for all members of the department will be regulation uniform with sack coat and white gloves. Members of the department are requested to give special attention to their appearance on that day. All officers participating in the parade will wear white caps.

Members of the band who are on the day tour of duty will be excused at 12 noon, Sunday, October 5, 1941; members on the night tour of duty will be excused until 9 p. m.; members on the twenty-four tour of duty will be excused from 12 noon until 9 p. m.

Members of the band will bring their small band books and music lyres. They will leave their instrument cases at the quarters of Engine Company 26, Broadway, and the officer in charge of the house will detail a member to look after this equipment in the event the company is required to leave quarters in response to an alarm.

Through the courtesy of the Mayors, Selectmen, Fire Commissioners, Chiefs of Fire Departments of cities and towns adjoining Boston, and the Police Commissioner of Boston, additional contingents will participate in this parade.

POLICE DEPARTMENT ORDERS.

General Order No. 644.

Commanding officers of all divisions are directed to have their officers pay particular attention to the contents of pictorial magazines, as well as literature, that may be offered for sale in their respective divisions.

The sale of magazines containing indecent pictures, as well as salacious literature, in violation of the law will not be tolerated.

Arrest and prosecution will be made of any distributor, vendor or any other person concerned in the distribution and sale thereof.

Lieut. Frank H. Sliney, Bureau of Criminal Investigation, has been specially assigned to assist in this type of work.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 645.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement on account of accidental disability, Patrolman Francis S. Tipping of the Bureau of Operations, and a member of said Contributory Retirement System; such retirement to take effect at midnight, Friday, October 31, 1941.

Wherefore, In view of this operation of law, the Police Commissioner states that on and after October 31, 1941, at the hour stated, the said Patrolman Francis S. Tipping shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 646.

A trial board consisting of Captains Joseph McKinnon, William D. Donovan and Hugh F. Brady, having heard by reference a complaint made by Thomas F. Casey, captain, Division 1, against Patrolman William C. Pinkham, Division 1, for alleged violation of the Rules and Regulations of the Police Department, charging him with conduct unbecoming an officer and neglect of duty, has reported to the commissioner a finding of guilty as charged.

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William C. Pinkham be suspended for a period of ten days, effective as of 7.45 a. m., September 15, 1941, and at the expiration of said suspension, he perform 210 hours' punishment duty.

General Laws, chapter 31, section 46C, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C. An officer or employee of the commonwealth or of a city or town who has become separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown the director may, subject to section forty-six G, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 647.

The police officer hereinafter named having performed faithful service in the Police Department for the years stated, and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the police force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the Department Pension Roll with pay at the rate set out (to be paid monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, effective as of Tuesday, October 7, 1941, at 7.45 o'clock a. m.:

Patrolman James M. Durkin, Division 16, 21 10-12 years of service, amount of pension, $1,050 per year.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 648.

Patrolman Noye F. Mosher, attached to Division 4, is commended for efficient police duty performed on October 1, 1941, in effecting the arrest while off duty of a person who was wanted for questioning by the police of a town in New Hampshire in connection with the alleged kidnapping of a little girl.

As the result of a newspaper article and teletype item of the person wanted, Patrolman Mosher observed a man in the downtown district answering the description given, who admitted upon questioning that he was the man wanted, and who was taken to the station as a suspicious person.

Although this man taken into custody has not been officially charged with the kidnapping, the commissioner is pleased to commend Patrolman Mosher for his initiative and keen observation shown on this occasion.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 649.

The police officer hereinafter named having performed faithful service in the Police Department for the years stated; and the Medical Board, provided for by Section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the police force of the City of Boston,—it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department under provisions of chapter

353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the Department Pension Roll with pay at the rate set out (to be paid monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, effective as of Tuesday, October 7, 1941, at 7.45 o'clock a. m.:

Patrolman Frank N. Reynolds, Division 4, 21 11-12 years of service; amount of pension, $1,050 per annum.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

A PROCLAMATION BY MAYOR TOBIN.

Whereas, The education and training of a child is heightened by visual contact; and

Whereas, In this respect, properly selected museum displays are of great value in impressing youthful minds; and

Whereas, Boston has, in its Children's Museum, an outstanding institution of its kind, which is operated under the direction of a group of civic-minded women and men; and

Whereas, Any presentation that draws public attention to this museum, while aiding in its maintenance, is to be commended; and

Whereas, In connection with a forthcoming benefit performance, arranged for the Children's Museum, there is to be a display of jungle motion pictures, with a lecture by the well known African explorer, Mrs. Osa Johnson; and

Whereas, This feature of the program will be of interest to adults as well as to children; and

Whereas, It is to be hoped that as many as possible will avail themselves of the opportunity to hear of life in the jungle and to see it portrayed; now, therefore,

I, Maurice J. Tobin, Mayor of Boston, do designate Friday, October 17, 1941, as Osa Johnson Day in our city, and I urge the citizens of Boston to show their interest in the Children's Museum by attending the performance on that day.

MAURICE J. TOBIN,
Mayor.

ADDITIONAL SERVICE FOR THE TAXPAYING PUBLIC.

Through Mayor Tobin, arrangements have been made for the opening of branch offices of the Collecting Department, for the convenience of taxpayers.

The 1941 real estate and personal property tax bills are now due, and if they are paid before November 1, 1941, they will not carry any interest charge.

These bills, as well as any other City of Boston tax or water bills, may be paid at the stations announced. These stations will be open between the hours of 10 a. m. and 3 p. m.

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the **Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over $200,000,000.**

PROCEEDINGS OF CITY COUNCIL.

Monday, September 29, 1941.

Regular meeting of the City Council in Council Chamber, City Hall, at two p. m., Coun. WARD presiding, and all the members present.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighers of Goods: C. B. Currie, 500 Rutherford avenue, Charlestown, Mass; John F. Miley, 15 Huckins street, Roxbury, Mass.

Laid over a week under the law.

TRANSFER OF LAND TO PARK DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I am in receipt of the inclosed communication from the Custodian of Foreclosed Real Estate in which he recommends the transfer of two parcels of land, one at 245 Sumner street and the other on Orleans street, both in East Boston to the Park Department. Both of these parcels of land will be developed by the Park Department and used for playground purposes.

I am very much in favor of the transfer of parcels of land of this character which come into the hands of the city through tax foreclosures and which can be developed suitably for recreation purposes. I therefore recommend the passage of the inclosed order for the transfer of these parcels of land to the care, custody, control and management of the Park Department.

Respectfully,
Maurice J. Tobin, Mayor.

—

City of Boston,
Foreclosed Real Estate Division,
September 26, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston,

Dear Mr. Mayor,— I am presenting for your approval and that of the City Council, three copies of an order for the transfer from the Foreclosed Real Estate Division to the Park Department of two parcels of vacant land, owned by the City of Boston by virtue of foreclosure, to be used for playground purposes.

This property is located at 245 Sumner street, East Boston; Orleans street, East Boston, NWs.

Yours respectfully,
Daniel M. Driscoll,
Custodian of Foreclosed Real Estate.

—

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated March 26, 1940, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5668, page 120, on about sixteen thousand (16,000) square feet of land on the southwesterly side of Sumner street, numbered two hundred forty-five (245) in the numbering of said Sumner street, making the westerly corner of Orleans street in the East Boston District; and

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated March 26, 1940, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5668, page 119, on about ten hundred sixty-eight (1,068) square feet of land on the northwesterly side of Orleans street adjoining the parcel of land hereinbefore described in the East Boston District; and

Whereas, The said parcels of land hereinbefore described are now in the care, custody, control and management of the Custodian, Foreclosed Real Estate Division; and

Whereas, The said parcels of land are to be improved for playground purposes and play spaces; now, therefore, it is hereby

Ordered, That the said parcels of land, hereinbefore described be, and the same are, hereby transferred from the care, custody, control and management of the Custodian, Foreclosed Real Estate Division, to the care, custody, control and management of the Park Department to be used for playground purposes.

Referred to Executive Committee.

RELOCATING FIRE ALARM BOX NO. 3343.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of the Fire Department relative to your order of September 22, 1941, concerning the advisability of relocating fire alarm box No. 3343, at the corner of School and Harvard streets, Dorchester, or installing an additional fire alarm box in a more conspicuous place, to be equipped with red lights or globes in Ward 17.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Fire Department, September 26, 1941.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— Receipt is acknowledged of the following City Council order:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to consider the advisability of relocating fire alarm box No. 3343, at the corner of School and Harvard streets, Dorchester, or installing an additional fire alarm box in a more conspicuous place, to be equipped with red lights or globes in Ward 17.

In City Council September 22, 1941. Passed.

Attest:

J. B. HYNES,
Acting City Clerk."

An investigation is being conducted concerning this fire alarm box and I will forward a report to your Honor in the near future concerning the matter.

Very truly yours,
WM. ARTHUR REILLY,
Fire Commissioner.

Placed on file.

TRAFFIC LIGHTS, DORCHESTER STREET AND EIGHTH STREET, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the installation of traffic lights at the intersection of Dorchester and Eighth streets, Ward 7.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, September 24, 1941.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I have received Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install traffic lights at the intersection of Dorchester and Eighth streets, Ward 7.

At the present time there is a traffic signal at the intersection of Dorchester street and Old Colony avenue, within two short blocks of Eighth street.

It is the opinion of the traffic engineers that the signalization of Dorchester street, East Eighth street and West Eighth street, because of its light accident record, is unnecessary.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

SURVEY OF HAZARDOUS INTERSECTIONS, ROSLINDALE.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the making of a survey of the Roslindale section of Boston for the purpose of determining hazardous intersections where the installation of traffic lights would be deemed advisable.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, September 24, 1941.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a survey of the Roslindale section of Boston for the purpose of determining hazardous intersections where the installation of traffic lights would be deemed advisable.

We consider any intersection where four or more accidents, involving personal injuries, have occurred in one year to be a hazardous intersection. Below are listed the four non-signalized intersections in Ward 20 where four or more accidents have occurred since January 1, 1936:

* Belgrade avenue and West Roxbury Parkway, 1936, 2; 1937, 2; 1938, 3; 1939, 2; 1940, 6; 1941, 3; total, 18.

Beech, Walworth and Washington streets, 1936, 1; 1937, 1; 1938, 1; 1939, 1; 1940, 5; 1941, 3; total, 12.

Centre, Church and South streets, 1926, none; 1937, 1; 1938, 2; 1939, 5; 1940, 2; 1941, 1; total, 11.

WHITE LINES ON CROSSWALKS NEAR SCHOOLS.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council:

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the painting of white lines on the crosswalks in the immediate vicinity of all schools to insure more safe passage of children across streets.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Traffic Commission, September 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to paint white lines on the crosswalks in the immediate vicinity of all schools to insure more safe passage of children across streets.

This commission, in the past year and a half has increased the roadway markings over 250 per cent. We have endeavored to paint crosswalks in the vicinity of all schools and churches.

If Councilor Langan has any particular location that he desires painted, which we have not already done, we would gladly oblige him.

Very truly yours,
William P. Hickey, Commissioner.

TRAFFIC LIGHTS, ROXBURY CROSSING.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the erecting of traffic lights in Roxbury Crossing at the junction of Tremont street and Columbus avenue.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Traffic Commission, September 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston:

Dear Sir,—This is in reply to Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect traffic lights in Roxbury Crossing at the junction of Tremont street and Columbus avenue.

The matter of signalizing Roxbury Crossing has come to our attention on various occasions and it is the opinion of our engineers that because of the complicated traffic turns, street car and bus movements, and the large area, it would be impossible to signalize this intersection effectively.

Respectfully yours,
William P. Hickey, Commissioner.

"STOP" SIGNS, HILLSIDE AND CALUMET STREETS, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the installation of "stop" signs at the intersection of Hillside and Calumet streets, Ward 10.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Traffic Commission, September 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install "stop" signs at the intersection of Hillside and Calumet streets, Ward 10.

Our accident record shows that there have been only three accidents at this intersection since 1936.

Two of them were rear-end collisions and the third was automobile versus automobile, making a right turn.

It is the opinion of the engineers of this commission that the accident record at this intersection does not warrant the expenditure involved by the erection of "stop" signs.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

TRAFFIC LIGHTS, ALLSTON AND KELTON STREETS, WARD 21.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the erecting of traffic lights at the corner of Allston and Kelton streets, Ward 21.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, September 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I have received Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect traffic lights at the corner of Allston and Kelton streets, Ward 21.

Because of the limited amount of money available for the installation of traffic signals, it is the opinion of the engineers of this commission that the signalization of this intersection should be deferred until other more hazardous locations have been taken care of.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

TRAFFIC SITUATION, NEW OLD COLONY DEFENSE PROJECT.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the commissioner of the Boston Traffic Commission relative to your order of September 8, 1941, concerning the making of a study of the traffic situation in the new Old Colony Defense Project, South Boston, with a view to making appropriate traffic rules and installing proper signs.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, September 24, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated September 8, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a study of the traffic situation in the new Old Colony Defense Project, South Boston, with a view to making appropriate traffic rules and installing proper signs.

As the result of a conference of the Defense Housing Project officials and myself, the following rules were made effective on September 11, 1941, for a trial period of sixty days: Parking was prohibited in both sides of Mercer street from Columbia road to East Eighth street. Mercer street was made one way from East Ninth street to East Eighth street, and from Reverend Richard A. Burke street to Columbia road.

It is the belief of those persons present at the conference that these rules will prove helpful and lessen the accident hazard at the Housing Project.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

TRAFFIC LIGHT SURVEY, JAMAICA PLAIN-ROSLINDALE.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the commissioner of the Boston Traffic Commission relative to your order of September 15, 1941, concerning the making of a survey of the Jamaica Plain-Roslindale section of Boston for the purpose of determining dangerous intersections for the installation of traffic lights, paying particular attention to the following-named sections: Forest Hills section; Boylston street and South Huntington avenue; the circle at Centre street and Arborway; Prince street and the Arborway.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Traffic Commission, September 24, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I have received Council order dated September 15, 1941, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a survey of the Jamaica Plain-Roslindale section of Boston for the purpose of determining dangerous intersections for the installation of traffic lights, paying particular attention to the following named sections:

Forest Hills section; Boylston street and South Huntington avenue; the circle at Centre street and Arborway; Prince street and the Arborway.

This commission maintains a continuous survey for determining dangerous intersections in every section of the city.

The Forest Hills section — the matter of signalizing Arborway and Washington street — has been discussed on many occasions, and it is the opinion of the engineers of this commission that only a major traffic change, such as an overpass or a traffic circle, would be effective at this intersection.

Boylston street and South Huntington avenue: Posts have been erected with flashing yellow indications on them to slow down the traffic at this intersection.

Regarding the circle at Centre street and Arborway and at Prince street and the Arborway, it might be possible at these circles at some future time when money is available to install push button actuated pedestrian signals.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of September 15, 1941, concerning the establishing a bus line with a five-cent fare, to run from Brigham Circle to Park square, along Huntington avenue.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
September 23, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,— In response to your letter of September 19 with order of the City Council requesting establishment of a bus line with a five-cent fare to run from Brigham Circle to Park square via Huntington avenue, I would refer you to my letter of August 28 in which I advised you that the matter had been considered by the trustees and they do not feel that the request can be granted because it would be inconsistent with the five-cent fare arrangements that pertain all through the system. We are, of course, now operating bus service on Huntington avenue between Massachusetts avenue and Park square for a five-cent fare.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

TRANSFER OF LAND ON MATTHEW STREET

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen, — I am in receipt of the attached communication from the Commissioner of Public Works in which he requests that a certain parcel of land located on Matthew street, Dorchester, be transferred from the Custodian of Foreclosed Real Estate to the Public Works Department. At the present time this parcel of land is in use by the Public Works Department as a local district yard, and it is the purpose of the Public Works Commissioner to continue said use provided the land is transferred to his department.

I therefore recommend that the enclosed order transferring this land be given the approval of your Honorable Body and that the said land be transferred to the care, custody, control and management of the Public Works Department of the City of Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 26, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,— At the present time the department is using as a local district yard, property located on Matthew street, Dorchester, that is under the jurisdiction of the Custodian of Foreclosed Real Estate.

The custodian has agreed to transfer the property to the jurisdiction of this department for the above-referenced purpose, as he has no use for the land at the present time, nor does he anticipate being able to dispose of it at any time in the future to private parties.

I therefore respectfully recommend that you forward the enclosed order, that was prepared by the Law Department, to the City Council, for approval by that body, authorizing the transfer of the land from the jurisdiction of the Custodian of Foreclosed Real Estate to the Public Works Department.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

—

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated August 14, 1939, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5545, page 200, on about twenty-four thousand five hundred thirty-nine (24,539) square feet of land on the northwesterly side of Matthew street, adjoining an estate now or formerly of Standard Oil Company of New York, Inc., being lots 9 and 10, John H. Burroughs plan, dated April 7, 1924, recorded with Suffolk Deeds, Book 4568, page 106; and

Whereas, The Commissioner of the Public Works Department of the City of Boston is desirous of using the said premises as a district yard of the said department.

Now, therefore, it is hereby

Ordered, That the Custodian of Foreclosed Real Estate of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to transfer the care, custody, control and management of the hereinbefore described premises to the Commissioner of the Public Works Department of the City of Boston.

Referred to Executive Committee.

AMENDMENT OF "COMPENSATION AND CLASSIFICATION PLANS."

The following was received:

City of Boston,
Office of the Mayor, September 29, 1941.

To the City Council.

Gentlemen,—I transmit herewith for consideration by your Honorable Body the attached proposal by the Budget Commissioner to amend the "Compensation and Classification Plans for the Officers and Employees of Suffolk County."

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Budget Department, September 29, 1941.

To the Mayor and City Council.

Honorable dear Sirs,—Rule 7, "Amendment of the Compensation Plan" of the "Compensation and Classification Plans for the Officers and Employees of Suffolk County," provides that: "Whenever in his judgment the compensation for any class or group of classes, as provided in the compensation plan, is in need of revision, the Budget Commissioner shall report such fact, in writing, to the City Council, together with his reasons therefor and with revised schedules of compensation for such class or classes and also for any related class, the compensation for which would be thrown out of due relation by the adoption of such revised schedules. Any proposed amendment shall become effective upon approval by the City Council, subject to the provisions of the City Charter."

On the basis of a recommendation received from the Superintendent of Public Buildings, with which I feel your Honor and the Council will heartily concur, and in accordance with the provisions of this rule, it is recommended that the "Range of Compensation" in the classification "Cleaner, Janitress, etc.," be amended to read, "Weekly $20."

Respectfully,
FRANCIS X. LANG,
Budget Commissioner.

—

Ordered, That the Range of Compensation as now set forth under the classification "Cleaner, Janitress, Etc.," in the "Compensation and Classification Plans for the Officers and Employees of Suffolk County" be, and the same hereby is, amended by striking out the words and figures "Weekly $18" and substituting therefor "Weekly $20."

Referred to Committee on County Accounts.

Placed on file.

CALL FOR CITY ELECTION.

Coun. WARD offered the following:

Ordered, That meetings of the citizens of this city qualified to vote for city officers be held at the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the fourth day of November, 1941, to give in their votes for Mayor, for two members of the School Committee for a term of four years, and for one member of the City Council in each ward.

The polls at said meetings shall be opened at eight o'clock a. m. and closed at eight o'clock p m.

Ordered, That the City Clerk be directed to give notice of said meetings by publishing the same as required by law.

Passed under suspension of the rule.

SIDEWALK ON SUTHERLAND ROAD.

Coun. WARD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Sutherland road in front of No. 111, Ward 21, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALKS, WRENTHAM STREET, WARD 16.

Coun. FISH offered the following:

Ordered, That the Public Works Commissioner, though his Honor the Mayor, be instructed to replace the present granolithic sidewalks on Wrentham street, Ward 16.

Passed under suspension of the rule.

"SLOW" SIGNS AT CLAYTON AND PARK STREETS, WARD 16.

Coun. FISH offered the following:

Ordered, That the Traffic Commission, through his Honor the Mayor, be instructed to install "slow" signs at the corner of Clayton and Park streets, Ward 16.

Passed under suspension of the rule.

USE OF LAND ON THORNTON STREET AS PLAY AREA.

Coun. ENGLERT offered the following:

Ordered, That his Honor the Mayor be requested to confer with the trustees of the George Robert White Fund and the Custodian of Foreclosed Real Estate for the purpose of utilizing a certain parcel of land on 134 Thornton street as an additional play area for small children.

Passed under suspension of the rule.

ACCEPTANCE OF ZAMORA COURT WARD 10.

Coun. CAREY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Zamora court, Ward 10, as a public way under the W. P. A. plan of construction.

Passed under suspension of the rule.

"STOP" SIGNS AT HILLSIDE AND CALUMET STREETS.

Coun. CAREY offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install "stop" signs at the intersection of Hillside and Calumet streets, in Ward 10.

The question came on the suspension of the rule and the passage of the order.

Coun. CAREY—Mr. Chairman, I introduced that identical order on September 15. I am sorry to note in a communication received from the Mayor's office today, to which is attached a letter from the Traffic Commissioner, that he comments as follows: "Our accident record shows that there have been only three accidents at this intersection since 1936. Two of them were rear end collisions, and the third was automobile versus automobile, making a right turn." To continue the quotation: "It is the opinion of the engineers of this commission that the accident record at this intersection does not warrant the expenditure involved by the erection of 'stop' signs." As I stated at the time I introduced my order on September 15, I certainly cannot understand the attitude of the Traffic Commissioner's office in refusing to spend the small amount — and I do not feel that it is anything but a small amount—necessary to erect a "stop" sign or two at a dangerous intersection, where no doubt the erection of that sign may prevent serious injury and possible death. Now, I realize—and I have good friends there in the Traffic Department—that they are sincere when they make a report of this kind. But I do not think we should be governed entirely by a report of an engineer who will take a record of the accidents over a period of time, or who will make an inspection of the intersection in question, perhaps for a few minutes at a time, and form his conclusion based on what he has seen there. I have been prompted to introduce these orders because of the demands of the people in that section, the fathers and mothers of hundreds of children who daily go to the Mission School. I have been at that intersection time and time again myself, and I know that it certainly is dangerous, and the only reason there have not been many serious accidents and perhaps fatal injuries is because the good God was good to those children. I think it is about time that the Traffic Department took these requests more seriously. A "stop" sign cannot cost

a great deal of money. I hope that the members of this Body will start a campaign—because I am not the only one here who is asking for these signs—which will bring more cooperative action on the part of the Traffic Department, in order that we may spend a few dollars to save lives. Let me say again that the fact that there has not been anybody killed at this intersection does not say that it is not dangerous. I certainly hope that as a result of this order today we will soon see some "stop" signs erected at that intersection.

The order was passed under suspension of the rule.

TRANSFERS ON JAMAICA-DUDLEY STREET LINE.

Coun. CAREY offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to re-establish the practice of issuing transfers to patrons of the Jamaica-Dudley street line who desire to change at Centre street and South Huntington avenue to the Subway-Huntington avenue line.

The question came on the suspension of the rule and the passage of the order.

Coun. CAREY—Mr. Chairman, just a few words on that order. Very recently the Elevated officials have discontinued the practice of issuing transfers on the Jamaica Plain-Dudley line. That line happens to be a five-cent line, but we all know that every five-cent line carries with it a transfer privilege for those who want to pay 10 cents. It is my understanding that the reason the Elevated officials have cut out the transfer privilege on that line is because certain people who were issued transfers gave them to other people who eventually did use them. I do not think that that is a common sense attitude to take on the part of the officials. Because there might be one or two here and there who might abuse the privilege by giving that transfer to somebody else should not deny other hundreds of people who are using the line of the right to make that transfer. By refusing to issue transfers to people on the Jamaica Plain-Dudley line it necessitates a long walk to the intersection of Boylston street, South Huntington avenue and Centre street, and I don't think it is fair to force them to do that in order to be able to take the Subway-Huntington avenue car in town.

The order was passed under suspension of the rule.

TRAFFIC SIGNALS, HUNTINGTON AND SOUTH HUNTINGTON AVENUES.

Coun. CAREY offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Huntington and South Huntington avenues, in Ward 10.

Passed under suspension of the rule.

APPEAL TO APPELLATE TAX BOARD FROM COMMISSIONER'S RULINGS.

Coun. TAYLOR offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take the necessary steps to induce the Committee on Rules of the Legislature to place before the Legislature a bill now pending which bill if enacted into law will give the cities and towns and the taxpayers the right to appeal to the Appellate Tax Board when aggrieved by any ruling which the Commissioner of Corporations makes in listing manufacturing concerns.

The question came on the question of the suspension of the rule and the passage of the order.

Coun. TAYLOR—Mr. Chairman, under our present law there is a distinction in the assessment of manufacturing concerns as to their equipment and the personal estate of various concerns or persons. Now, it is the sole duty of the Commissioner of Corporations to determine whether or not a concern is to be listed as a manufacturing concern. If the Commissioner of Corporations makes such determination, then the City of Boston will receive nothing in taxes from that particular concern; if the Commissioner of Corporations determines that the particular concern is not a manufacturing concern, then we receive the regular tax rate of $39 and some odd cents as a tax on personal property. The ruling of the Commissioner of Corporations is final in determining this tax. Now, it is unfair to any city or town to allow this condition to exist, and consequently a bill was filed in the Legislature for the purpose of giving any city or town or person aggrieved by any ruling of the Commissioner of Corporations an opportunity to appeal to the Appellate Tax Board, but somehow or other that bill got into committee and then was referred to the next session of the Legislature. This, of course, is going to handicap the City of Boston in the collection of many hundreds of thousands of dollars of taxes where in my opinion the Commissioner of Corporations has listed a concern as a manufacturing concern when in reality it is not a manufacturing concern. It is only fair that the cities or towns be given the opportunity to appeal to somebody in connection with this matter. If our Corporation Counsel will take it upon himself to go before the Rules Committee for the purpose of bringing the bill back before the Legislature before it adjourns, in the hope that some favorable action may take place so that not only the City of Boston but other cities and towns, and even concerns which are listed wrongly by the Commissioner of Corporations, may have some opportunity to correct a wrong, I think it will be a good thing.

The order was passed under suspension of the rule.

PAYMENT OF TAXES PENDING APPLICATION FOR ABATEMENT.

Coun. TAYLOR offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to draw up and file a bill for the purpose of repealing the existing law which compels applicants for abatement on a tax in excess of $1,000 to pay said tax at the time of filing of application.

The question came on the suspension of the rule and the passage of the order.

Coun. TAYLOR—Mr. Chairman, under the present ruling in filing an application for tax abatement it is necessary, where the tax is over $1,000, for the applicant to pay more than fifty per cent of his tax upon filing and then the balance before the case is heard. While on the face that might seem to be good law for the purpose of getting revenue into the treasury of the city, nevertheless it has its drawbacks, because in the event the Appellate Tax Board grants an abatement, which may run into large sums of money, the city then, two, three, or four years later, must pay four per cent interest on the money, when as a matter of fact the interest that the City of Boston has to pay to borrow money is a fraction of one per cent, and consequently the City of Boston will probably lose many hundreds of thousands of dollars on interest, which money they could borrow at a much cheaper rate. I think that this law upon the books will tend to deplete our treasury rather than to help it in years to come, so that I ask that the Corporation Counsel do something for the purpose of helping the City of Boston in this respect.

Coun. LINEHAN—Mr. Chairman, I don't know that I got the subject matter of the order straight, but it seems to me that the order is not in any instance whatsoever benefiting the small home owner. It seems to me that the law is now that if you have a tax under $1,000 you do not have to pay half the taxes. That, I think, helps the small home owner. But the person who has a large tax, in order to go before the Appellate Tax Board—if I get it right, subject to correction by the gentleman who filed the order—he has to pay half the taxes. It seems to me that is fair, and it gets the money into the treasury of the City of Boston without waiting for a decision to come out from the Appellate Tax Board. I personally hope that the law stays on the books as it is.

The order was referred to the Executive Committee.

USE OF KENDALL STREET LAND FOR PLAY AREA.

Coun. D. F. SULLIVAN offered the following:

Ordered, That his Honor the Mayor be requested to consider utilizing the vacant land at 54–58 Kendall street, Ward 9, which has been taken over by the Real Estate Division of the city for a play area under the George Robert White Fund.

Passed under suspension of the rule.

NURSERY SCHOOL FOR LENOX STREET HOUSING PROJECT.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Boston Housing Authority be requested, through his Honor the Mayor, to consider the advisability of establishing a nursery school in the Lenox Street Housing Project by utilizing W. P. A. and N. Y. A. assistance.

Passed under suspension of the rule.

REPAVING OF LENOX STREET, WARD 9.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Public Works Commissioner, through his Honor the Mayor, be requested to repave Lenox street, Ward 9.

Passed under suspension of the rule.

RAISING OF W. P. A. WAGE SCALE.

Coun. GOTTLIEB offered the following:

Whereas, The cost of National Defense has been responsible for an increase in the price of necessary food commodities and generally raised the costs of living, and

Whereas, Many citizens of Boston cannot be absorbed in National Defense industries and are compelled to seek W. P. A. assistance, therefore, be it

Resolved, That the Boston City Council at a meeting assembled memorialize Congress to raise the prevailing W. P. A. wage scale in order that W. P. A. workers may receive sufficient money to cope with increased costs of living.

Passed under suspension of the rule.

ACCEPTANCE OF WALLACE COURT, WARD 2.

Coun. GALVIN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway, Wallace court, Ward 2.

Passed under suspension of the rule.

ACCEPTANCE OF LEXINGTON AVENUE.

Coun. GALVIN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway, Lexington avenue, Ward 2.

Passed under suspension of the rule.

CELEBRATION OF OPENING OF HUNTINGTON AVENUE UNDERPASS.

Coun. CHASE offered the following:

Ordered, That the Director of Public Celebrations be requested, through his Honor the Mayor, to make proper arrangements for an adequate celebration on the opening of the Huntington Avenue Underpass in Ward 4.

Passed under suspension of the rule.

PEDESTRIAN LIGHTS, BROOKLINE AVENUE–DEACONESS ROAD.

Coun. CHASE offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install traffic lights for pedestrians on Brookline avenue at the corner of Deaconess road and to take every other possible means to make this particular section a safety zone.

The question came on the suspension of the rule and the passage of the order.

Coun. CHASE—Mr. Chairman, on Brookline avenue, at the corner of Deaconess road, there is a very dangerous intersection, caused by the tremendous flow of motor traffic on Brookline avenue. At that particular section, Mr. Chairman, we have the Massachusetts Home for Aged Women, and there is also the Deaconess Hospital there. Thousands of people daily find it necessary to cross the streets, and I know from experience that the conditions up there are far from being safe. I trust that the Traffic Commissioner, when receiving notice of these conditions from the Council, will do everything within his power to remove the conditions existing in that particular section.

The order was passed under suspension of the rule.

ERECTION OF GOAL POSTS.

Coun. RUSSO offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to erect goal posts on the football field at the Esplanade Playground, the North End Park, and the Randolph Street Playground.

Passed under suspension of the rule.

SIDEWALKS, HOOPER STREET, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to construct sidewalks along both sides of Hooper street, Ward 17.

Passed under suspension of the rule.

SIDEWALK, 37 MATHER STREET, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested through his Honor the Mayor, to arrange for the construction of a sidewalk in front of 37 Mather street, Ward 17.

Passed under suspension of the rule.

KENBERMA ROAD, ONE WAY.

Coun. WICKES offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make Kenberma road one way from Washington street to Whitfield street, Ward 17.

Passed under suspension of the rule.

CLEANING OF SEWERS, ALPHA ROAD, WARD 17.

Coun. WICKES offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to clean the sewers on Alpha road, Ward 17.
Passed under suspension of the rule.

MATRON AT ROBERTS PLAYGROUND FIELD HOUSE.

Coun. WICKES offered the following:
Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to arrange for the attendance of a matron at the Field House of the Roberts Playground, during the football and skating seasons.
Passed under suspension of the rule.

STREET CLEANING, WARD 17.

Coun. WICKES offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to institute a street cleaning program in Ward 17.
Passed under suspension of the rule.

SHOWERS AT ROBERTS PLAYGROUND FIELD HOUSE.

Coun. WICKES offered the following:
Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to arrange to have the Field House on the Roberts Playground kept open so that players may take showers after the games.
Passed under suspension of the rule.

SURVEY OF MANUFACTURING CONCERNS, TOKIO STREET.

Coun. GOODE offered the following:
Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to make a survey of manufacturing concerns on Tokio street in the Mattapan section of Ward 18, for the purpose of eliminating the present health menace caused by these concerns using a certain process in the manufacture of materials which causes a vile stench, noxious odor, fumes and smoke, and constitutes unpleasant living conditions and a detriment to the health of the residents of this community.
Passed under suspension of the rule.

SURVEY OF PROPERTY HELD BY DEFUNCT FEDERAL NATIONAL BANK.

Coun. GOODE offered the following:
Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to make a survey of all property held by the defunct Federal National Bank of Boston, with a view of determining the true worth of said real estate holdings.
Coun. GOODE—Mr. Chairman, the Federal receiver for this bank has announced that the buildings owned by the bank must be sold on or before October 7, 1941. Present assessed values on the parcels of real estate in the banks named are supposed to total around $650,000 and the tax income to the City of Boston is $25,741. To attract purchasers for the buildings, it is essential that the assessment be in line with reduced value on property in the financial district. I believe that this action will not only be of benefit to former depositors in this bank, but will be of benefit to the city, which needs all the assessment tax revenue possible. I do not believe that a proper valuation has ever been set on this property, so I hope this action will be immediately taken.
The order was passed under suspension of the rule.

EXTENSION OF TIME FOR FILING TAX ABATEMENT APPLICATIONS.

Coun. GOODE offered the following:
Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to extend the time allowed for filing applications for tax abatements to November 30, to allow ample time for property owners in Ward 18 and other sections of Boston, to file applications for abatement and receive proper consideration.
Passed under suspension of the rule.

SOLARIUMS IN HOUSING PROJECTS.

Coun. GOODE offered the following:
Ordered, That the Boston Housing Authority be requested, through his Honor the Mayor, to consider the advisability of constructing at all housing projects a solarium for the benefit of mothers and children resident in these low-cost housing apartments.
Passed under suspension of the rule.

ACCEPTANCE OF BRADLEE STREET.

Coun. GOODE offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway, Bradlee street, Ward 18.
Passed under suspension of the rule.

ACCEPTANCE OF GLEN HILL ROAD.

Coun. GOODE offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway, Glen Hill road, Ward 18.
Passed under suspension of the rule.

WATERING OF SAVIN HILL PLAYGROUND.

Coun. HUTCHINSON offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to water the Savin Hill Playground at least twice a week to prevent the dust from blowing into the homes of adjacent residents.
Passed under suspension of the rule.

RECESS.

On motion of Coun. TAYLOR the Council voted at 2.52 p. m. to take a recess subject to the call of the Chair. The members reassembled and were called to order by Chairman WARD at 3.30 p. m.

EXECUTIVE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following reports:
1. Report on message of Mayor and order (referred today) transferring from Custodian of Foreclosed Real Estate to Park Department two parcels of land in East Boston for playground purposes—that same ought to pass.
Report accepted; said order passed.
2. Report on message of Mayor and order (referred today) transferring from Custodian of Foreclosed Real Estate to Public Works Department land on Matthew street, Dorchester—that same ought to pass.
Report accepted; said order passed.
3. Report on message of Mayor and order (referred September 22) for sale of old material by Public Works Department — that same ought to pass.
Report accepted; said order passed.

Report accepted; said order passed, yeas 18, nays 0.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. WICKES, for the Committee on County Accounts, submitted the following:
1. Report on message of Mayor and order (referred today) for amendment of "Compensation and Classifications Plans for Officers and Employees of Suffolk County"—that same ought to pass.
The report was accepted and the question came on the passage of the order.
Coun. WICKES—Mr. Chairman, as chairman of the Committee on County Accounts, I want to say that our committee, after giving this matter rather careful consideration and realizing what hard work these ladies perform morning, noon and night, hope that this order will pass giving these ladies a $2 increase in their salaries.
The order was passed.

TRAFFIC SIGNALS IN FRONT OF HOLY NAME CHURCH.

Coun. LYONS offered the following:
Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals, with push buttons, on Centre street, Ward 20, in front of the Holy Name Church.
Passed under suspension of the rule.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:
1. Report on petitions for driveway openings, viz.: The Texas Company (referred May 26) at Greenbrier and Claybourne streets; General Motors Truck & Coach (referred August 18), at Arthur street, Ward 22; Boston Edison Company (referred September 8), at 173 Alford street, Ward 2; Franklin Savings Bank (referred September 15), at 175 Ipswich street, Ward 5; recommending that licenses be granted under usual conditions.
Report accepted; licenses granted under usual conditions.
2. Report on petition of H. C. B. Realty Company (referred August 18), for driveway opening at Kenberma road, Ward 17—that same ought not to pass.
Report accepted; petitioner given leave to withdraw.

ACCEPTANCE OF OAK AVENUE, WARD 20.

Coun. LYONS offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Oak Avenue, Ward 20, as a public way under the W. P. A. plan of construction.
Passed under suspension of the rule.

CONFIRMATION OF APPOINTMENTS.

Chairman WARD called up, under unfinished business, Nos. 1 and 2 on the calendar, viz.:
1. Action on appointment submitted by the Mayor September 22, 1941, of William J. Burns, to be a Constable, without power to serve civil process.
2. Action on appointment submitted by the Mayor September 22, 1941, of Willard F. O'Brien, to be a Constable, without power to serve civil process.
The question came on confirmation. Committee, Coun. Coffey and M. H. Sullivan. The appointments were confirmed, yeas 10, nays 5.

ABATEMENT OF EXCISE TAXES ON AUTOS OWNED BY MEN IN SERVICE.

Coun. LYONS offered the following:
Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to abate excise taxes on automobiles owned by men who have been called to serve in the military or naval forces of the United States.
The question came on the suspension of the rule and the passage of the order.
Coun. LYONS—Mr. Chairman, I think that this order has great merit. I have been requested the last week by twelve to fifteen men who have been drafted within the last year, who have their own automobiles down at Camp Edwards and up at Fort Devens, to see if something could not be done about this matter. They have been confronted with the excise tax bills relative to their cars. I think the city should abate these excise taxes for those men who are giving their time to the United States Government. I think that the city should give them due consideration before their plates are taken away by the Police Department within the next two weeks. The cars are their only means of transportation back and forth to their homes. I think that the city should give them every consideration possible.
Coun. M. H. SULLIVAN—Mr. Chairman, I think that the order introduced by the councilor from Ward 20 is commendable. I was speaking with a chap from one of the local army centers the other day and he informed me of the fact that the morale in the army camps locally is to a certain extent bad, because the men in the army camps get off at four in the afternoon, and unless they have their own cars they are unable to go to places where they can find worthwhile amusement. An automobile adds greatly to the morale of the army camps. In addition to that, $21 a month is not a great deal. A lot of them would have to pay more than a month's pay if they were to pay their excise taxes on cars purchased last year and this year. I also think that this should be done because other means of transportation are not adequate to transport the numbers of men desiring transportation, and these fellows are transporting them around, and back and forth from the camps to their homes at the times of furloughs and week-ends, and taking them to worthwhile recreation. I think that the City of Boston should, at the first available opportunity, if the law allows it, abate the excise taxes on cars of those men who are in the United States Army Service.
Coun. CHASE—I believe that the order introduced by the councilor from Ward 20 is a very meritorious one, and I am in full accord with it. I too can appreciate the situation of these young men who left very good positions, were taken away from their families, and are now in the service. They are having a difficult struggle to get along on $21 a month. Frankly, I feel that the very least the city can do for them is to abate these excise taxes on their automobiles, and I hope that the Council will pass the order.
The order was passed under suspension of the rule.

EXTENSION OF FOOD STAMP PLAN.

Coun. SCANNELL offered the following:
Ordered, That his Honor the Mayor be requested to confer with the proper Federal agency with a view to allowing widows, without dependent children, who receive aid from the Soldiers' Relief Department, to participate in the Food Stamp plan.
Passed under suspension of the rule.

Adjourned, on motion of Coun. GALVIN, at 3.45 p. m., to meet on Monday, October 6, 1941, at 2 p. m.

DEPARTMENT OF SCHOOL BUILDINGS.

PROPOSALS FOR PLUMBING WORK AT THE FRANK V. THOMPSON SCHOOL, MAXWELL AND SELDEN STREETS, DORCHESTER, Boston, Mass.

The Superintendent of Construction, Department of School Buildings, City of Boston, invites sealed proposals for plumbing work at the Frank V. Thompson School, Maxwell and Selden streets, Dorchester, Boston, Mass. Forms of proposals may be obtained at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Plumbing Work at the Frank V. Thompson School, Maxwell and Selden Streets, Dorchester, Boston, Mass," and left at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass, before 2 p. m., October 21, 1941, accompanied by cash or certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston in the sum of $250 to become and be the property of the City of Boston as liquidated damages, if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

NOTICE TO SUB-BIDDERS.

All sub-contractors bidding on the work designated in the proposal form shall deliver or mail to the awarding authority record copies of all bids sent by them to the general contractor. All such bids shall be in sealed envelopes plainly marked on the outside with the sub-contractor's name, the nature of the work bid upon and the name or names of bidders they include in their bids, for any portion of the work, involving labor and materials. All such bids must be delivered to, or mailed to and received by the awarding authority, and mailed to and received by the general contractor, no later than 12 noon, Friday, October 17, 1941.

No sub-bid shall be considered in the final selection of sub-bidders except those filed with the awarding authority.

Plans and specifications may be examined at the Superintendent's office, fourth floor, 26 Norman street, Boston.

Sub-bidders shall use the proposal form for sub-bidders set forth in Chapter 480 of the Acts of 1939, copies of which may be obtained at local stationers or at the office of the awarding authority.

The names of all sub-bidders who file their bids with the awarding authority will be mailed by the awarding authority on the date of receipt to the general contractors bidding on the project and no sub-bidder not included on the list of sub-bidders shall be used by the general contractor in his bid.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

Plans and specifications may be obtained at the office of the Superintendent of Construction, Department of School Buildings, fourth floor, 26 Norman street, Boston. All plans and specifications must be returned in good condition to said office at the time of the filing of bids.

A bond of a surety company, approved by the Superintendent of Construction, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required. The Superintendent of Construction reserves the right to reject any and all bids if it be in the public interest so to do. The Superintendent of Construction also reserves the right to reject all sub-bids on any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, OCTOBER 18, 1941. NO. 42

MAYOR TOBIN PAYS GLOWING TRIBUTE TO POLISH PEOPLE AND COUNT CASIMIR PULASKI ON OCCASION OF ANNIVERSARY OF HIS DEATH — DURING ANNIVERSARY EXERCISES HE ALSO SCATTERED FLOWERS ON THE WATERS OF THE HARBOR TO SYMBOLIZE DEATH AND BURIAL AT SEA OF NOTED REVOLUTIONARY PATRIOT — TELLS WORLD, IN RADIO ADDRESS, THAT AMERICA TODAY IS THE HOPE OF THE CIVILIZED WORLD AND ASKS ALL CITIZENS TO SEE THAT OUR COUNTRY DOES NOT FAIL IN DETERMINATION TO HAVE LIBERTY AND JUSTICE ALWAYS TRIUMPH.

The following is the address of Mayor Tobin, over Station WHDH, Saturday, October 11:

The history of the Polish people is studded with the names of men who shone as patriots. America has known some of them and has been greatly aided by their efforts in the cause of liberty and justice.

Today marks the 162d anniversary of the death of one of that legion. It is eminently fitting that the American people pause to honor him, for Count Casimir Pulaski showed the fullest measure of devotion by giving his life to the embryo nation he had befriended in a critical time.

One year ago, President Roosevelt proclaimed October 11 as Pulaski Memorial Day, and in that proclamation he said: "In this grave crisis, when our precious liberties are greatly menaced by the spread of conquest and tyranny abroad, we may gratefully recall the efforts and sacrifices of those who helped to establish this free nation."

Of Noble Birth.

Of noble birth, Casimir Pulaski joined a confederation formed by his father and some other patriots for the purpose of freeing Poland from foreign influence. They attacked government forces, and in the battle Casimir lost his father and two brothers. He continued the struggle and captured the Polish king who had been placed on the throne through the machinations of the Russian empress, Catherine II, but he was soon forced to release his captive.

Germany, Austria and Russia had secretly arranged to divide Poland among them. When the partition was made in 1772, Pulaski's property was confiscated and he was sentenced to death. He escaped to Turkey, served some time in the army of that country and then went to France, where he lived in poverty and obscurity. He met Benjamin Franklin, who was abroad as the emissary of the Continental Congress, and as a result he decided to take up arms for America in its fight for independence. He crossed the Atlantic to Philadelphia, where his love of liberty and his hate of oppression caused him to volunteer as a private in the Continental Army.

At Brandywine, he was volunteer aide to General George Washington, and because of his gallantry in action he was made a brigadier-general and was given command of a body of cavalry with which he operated in New Jersey, in the winter of 1777–1778.

In that year, he organized Pulaski's Legion, with the names of many prominent citizens of Baltimore on its rolls, and came to be known as the Father of American Cavalry.

In the spring of 1779, he successfully held Charleston, South Carolina, against the attack of General Prevost's retreat to Savannah.

It was in October of that year, while in command of both the French and American troops in the assault on Savannah, that he rushed to the front and received the wound that resulted in his death at the age of thirty-two.

We cannot visit Pulaski's tomb, for he was buried at sea. He died aboard a warship that was taking him to South Carolina, and so the dauntless Polish soldier who became an American general was given a sailor's burial.

However, there is a beautiful custom by which we may pay tribute to those who rest beneath the waves. I have just returned from casting flowers upon Boston Harbor in memory of the gallant young Pole who gave his all to free America.

Love of Liberty.

What was the force that impelled Pulaski, as it did Kosciusko, to serve in the American Army? He already had tasted the horrors of war. There was no tie that drew him to our defence. It was simply the inborn love of liberty and the hate of oppression and misrule that has always distinguished the Polish people in their struggle for national independence.

And it is that same spirit that has made the Poles such admirable citizens of America. It was though they appreciated to the utmost the liberties and the opportunities afforded them by the democratic form of government that prevails in their adopted land.

Does anyone dare prophesy that Poland will not rise again, out of the ruin into which the armed might of the dictators crushed an industrious, liberty-loving nation? Is there any who can safely assert that the eagle of Poland's banner will not again wave triumphantly over its own territory? Somehow, thinking men cannot but believe that justice shall triumph and that the effort of centuries will see Poland restored, with the blocks of her reconstruction cemented with the blood of those who fought to defend and preserve her.

(Continued on page 1147.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

TRIBUTE TO POLISH PEOPLE.

(Continued from page 1145.)

The heartfelt sympathy of the American people goes out to stricken Poland, and when peace once more settles over a harried world, it may well be that we can repay some part of our debt to the Polish people by aiding in their restoration to their rightful place.

Meanwhile, it is well for all of us to give thought to the emergency which has arisen in our United States. The future of democracy is menaced by powers that have announced their intention to overthrow our form of government.

Today, America is about the only stronghold of freedom and independence. We have announced our intention of aiding to the utmost those nations that are actively combating that sinister force, and we have set ourselves to the gigantic task of not only arming our own country but strengthening the resistance of our allies against Hitlerism.

Tremendous Task.

We are facing a tremendous task. To accomplish it will require great sacrifices by every citizen, for this vast and costly program is of such a nature that it reaches into the lives of each of us.

Already we are under a heavy burden of increased taxation. We are beginning to realize that we shall be deprived of many of the things we have become used to and we are told that the deprivation will extend even farther as the months pass by.

However, we know that this transition is but temporary and that once the full might and strength of the American nation makes itself felt, the war will draw to an end and once more we shall enjoy all the benefits that go with the American way of life.

But there can be no slacking of the pace until that is accomplished. Meanwhile, it is the duty of each of us to uphold our government. Unity is one of the great needs of the day, for only by showing to the rest of the world that we are squarely behind our leaders can we make the aggressor nations understand that the United States is too solidly welded together to be separated by their propaganda and their subversive actions.

I need not remind all people of Polish descent that America affords them all of the privileges, the blessings and the opportunities that Poland would provide were it a free country. No one can appreciate these blessings more than a person whose ancestors have always fought fiercely for liberty and who, by patriotic inheritance, would gladly continue that fight, even though the homeland is, at present, nothing more than a vassal state.

So I say to you, take every step to see to it that nothing seeps in that can disrupt a single American institution. Preach Americanism at every opportunity. Honor the flag that symbolizes tolerance and equality and stamp out every effort to sow dissension, whether it be the effort of foes from within or those who are without our gates.

We residents of Boston live in the community where the very ideals that gave us free America were fostered and where the plans that led to the Revolution were formed. In and near our city are many historic spots that every patriot should visit, because they are milestones on the march of the United States from the status of a colony to the greatest nation on the face of the earth.

Accordingly, as Boston once pointed the way for the rest of Colonial America, so should it now provide for the rest of our country a shining example of unified Americanism, which is patriotism at its best. No matter what our racial antecedents may be, we are all citizens of a country that is determined to maintain its great status and to continue in existence as a haven for the oppressed.

America today is the hope of the civilized world. It is up to you and to me to see that our country does not fail in its avowed determination to see liberty and justice triumph.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor has approved contracts with firms and supply houses and contractors for furnishing supplies, etc. Communications from the several heads of the several departments were as follows:

Department of School Buildings.

Boston, October 7, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

My dear Mr. Mayor,— I respectfully request your approval to an expenditure of eleven hundred and four dollars ($1,104) for the purchase of steel beams and plates for the new gymnasium in the Frank V. Thompson School.

I have endeavored to obtain bids on the steel requirements for this building and have succeeded in obtaining two bids as follows:

West End Iron Works, $1,104; Stahl Iron Works, $1,250.

My reason for making this request is as follows: It is impossible to obtain structural steel at this time owing to National Defense requirements, therefore no benefit would accrue to the city by publicly advertising for this material. It so happens that the West End Iron Works has on hand the steel required by this department and I therefore ask permission to purchase it in order that the construction of this building will not be delayed.

Respectfully submitted,

James J. Mahar,
Superintendent of Construction.

Supply Department.

Boston, September 30, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Attached is tabulation of bid received on proposals for furnishing fire alarm box sections, etc., to the Fire Department. This bid was publicly opened and read in this office September 26, 1941.

The only bid received was from the Mechanics Iron Foundry Company and as this company has been engaged in the manufacture of this equipment for a number of years, your permission is respectfully requested to award the contract without further advertising.

The approximate amount of the contract will be $1,640, less a 3 per cent cash discount for payment in ten days.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

Mechanics Iron Foundry Company: 20 sub-bases, $20 each; 20 middle sections, $17 each; 20 box sections, $45 each; total, $1,640; cash discount ten days, 3 per cent; net total, $1,590.80.

BOSTON, October 1, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of September 22, 1941, bids were publicly opened and read at this office on proposals for furnishing denatured alcohol for automobile radiator use to the various city departments.

Owing to governmental control, no bids were received on denatured alcohol as called for under the original specifications, and but one bid was received from the Automotive Distributors, Inc., which offered a bid of 54 cents per gallon on an anti-freeze compound, namely, DuPont Five Star. In order to obtain prices on comparable anti-freeze products, supplementary quotations were received as follows:

Littlefield Greene Company, 54 cents a gallon, Norway Methanol.

Firestone Tire and Rubber Company, 54 cents a gallon, Firestone Super.

Standard Auto Gear Company, 54 cents a gallon, Zerona.

Shell Oil Company, 54 cents a gallon, Shell 200 Ethyl and Methyl.

In view of the fact that we have been unable to obtain responsive bids on denatured alcohol in compliance with specifications and as it is my considered opinion that the DuPont Five Star quoted upon in the publicly opened bid will be fully as satisfactory for the needs of the various departments, your permission is respectfully requested to award a contract without further advertisement to the Automotive Distributors, Inc., for furnishing approximately 3,750 gallons of DuPont Five Star anti-freeze at a price of 54 cents a gallon.

The approximate amount of the contract will be $2,041.20, less a cash discount of 2 per cent for payment in ten days.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

—

BOSTON, October 1, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without public advertisement, to Remington Rand, Inc., for the rental of the following, for the use of the Assessing Department:

Technical bookkeeping machine service and accessories, as follows:

13 bookkeeping machines: 10 bookkeeping machines for a period from May 13, 1941, to August 31, 1941, approximately; 3 bookkeeping machines for a period from August 4, 1941, to September 4, 1941, approximately; rental price, $75 each machine per month.

12 column registers for a period from March 13, 1941, to June 22, 1941, approximately; rental price, $3.25 each register per month.

Approximate amount of contract, $2,621.25.

The rental of this equipment was made necessary for the preparation of the tax list and commitment upon real estate, which list was required by the tax commissioner for the first time in 1941.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

—

BOSTON, October 3, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising, to the Hersey Manufacturing Company for furnishing meter parts to the Water Division of the Public Works Department.

These parts are for Hersey meters now in use and as the Hersey Manufacturing Company is the manufacturer, no advantage would accrue to the city through public advertisement.

The approximate amount of the contract will be $2,525.41, less a 2 per cent cash discount for payment in ten days.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

Due to the structurally unsafe condition of the building at 428 Medford street, Ward 2, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 181 West Second street, Ward 6, owned by Eugene F. and Thomas C. Lally of 213 West Fifth street, South Boston, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 177 West Second street, Ward 6, owned by the City of Boston, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 179 West Second street, Ward 6, owned by Joseph Bassill of 14A Mercer street, South Boston, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 2938 Washington street, Ward 11, owned by one John H. Ryder, to enter the premises and remove the building.

To raze the building at 780 Parker street, Ward 10.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

Edward M. Matz, Inc., have been granted an extension of the time of completion of the contract for construction work in Burgoyne street, Cedar Grove street, Faunce road, Rita road and Wooddale street, dated July 7, 1941, from October 1, 1941, to November 1, 1941. This extension is requested for the reason that the contractor was delayed by operations of the Gas Company relaying main in Wooddale street.

MAYOR TOBIN OBTAINS PENNY MILK FOR BOSTON SCHOOL CHILDREN.

After continual negotiations with the Surplus Marketing Administration, Mayor Tobin was finally able to announce that the initial contract bids covering the sale of penny milk in some of the schools of Boston will be opened on Thursday of this week. Other schools in Boston will be taken care of when the necessary questionnaires on number and eligibility are received by the Surplus Marketing Administration.

Efforts are being made by the Mayor to see to it that at least every school that participated in the program last year will again be permitted to do so this year. The Mayor is desirous of going beyond what was accomplished last year, however, and is attempting to have the plan extended to all schools in the city.

Under the plan, each child who can afford it will pay but a penny for a half a pint of milk. The Mayor has turned over to the School Committee a check for $2,000 which he received from the Variety Club to help in taking care of those young children who are unable to pay the penny. This contribution will care for 200,000 servings of milk.

The result of the taking of chest plates of the school children in Boston clearly shows that many children are suffering from malnutrition and this plan should be of great benefit in building up the health of these youngsters.

REVISION OF ASSESSMENT.

The Mayor has approved the following order of the Board of Street Commissioners:

In the matter of the application for revision of an assessment levied on account of the construction of sewerage works, the Board of Street Commissioners, acting under the provisions of chapter 359 of the Acts of 1896, and deeming it just and proper that such action should be taken,

Ordered, That the amount hereinafter specified being the annual apportionment of said assessment for the year undermentioned be, and the same is hereby, abated.

Albert E. Peiper, Birchcroft road, lot 6, 1941 apportionment, $16.14, assessed May 2, 1940.

SEWER ORDER REVOKED.

The Mayor has approved the following order of the Board of Street Commissioners:

Whereas, An order of the Board of Street Commissioners, approved by the Mayor February 12, 1938, and recorded in Suffolk Registry of Deeds February 15, 1938, provided for the taking of an easement for sewerage purposes in Cowing street, West Roxbury district, and the construction of 332 linear feet of 10-inch pipe sanitary pipe sewer and 333 linear feet of 10-inch pipe surface drain therein; and

Whereas, The Public Works Department, under date of September 23, 1941, has informed this Board it is unnecessary at this time for public necessity to construct sewerage works in that part of Cowing street, beginning at a point approximately 140 feet northwest of Searle road and extending 184 feet northwesterly to end of said taking; it is hereby

Ordered, That said part of said order providing for the construction of sewerage works in the above mentioned portion of said taking be, and the same hereby is, revoked and made void.

Ordered, That the assessment liens created by said order of February 12, 1938, be, and the same hereby are, cancelled in part.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period of Boston College Football Games at Fenway Park, the following rules are effective on October 18, October 25, November 1, November 8, November 15, November 22 and November 29, 1941:

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Westminster street, bounded:

Northeasterly by Lewis street, by two measurements, twenty-seven and 52-100 feet and twenty-two and 56-100 feet; southeasterly by the southeasterly line of said Westminster street, two hundred and 41-100 feet; southwesterly by Ayles road, fifty and 10-100 feet; and northwesterly by the northwesterly line of said Westminster street, two hundred and 52-100 feet, containing ten thousand and twenty-two square feet, more or less.

The sewerage works to be constructed are as follows: 220 linear feet of 12-inch pipe sanitary sewer and 214 linear feet of 18-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Westminster street, between Ayles road and Lewis street, excluding the lot at the southerly corner of Ayles road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1263, Sewerage Works, Westminster street, Hyde Park, August 14, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

1.	Oakland Gardens Land Trust	$200 36
2.	William F. Morang, Trustee of Oakland Gardens Land Trust	100 00
4.	Oakland Gardens Land Trust	104 20
5.	Oakland Gardens Land Trust	100 00
	Total	$504 56

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes in Westminster street, Hyde Park district, under the order of the Board of October 7, 1941, and awards no damges therefor.

Owners unknown, 10,022 square feet, nothing.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Codman Hill street, Roxbury district, as a highway, from Washington street northwesterly with the name of Corliss street or some other distinctive name, bounded and described as follows:

The highway named Corliss street is hereby laid out from Washington street northwesterly for a distance of approximately two hundred and fifty feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Washington street, thirty and 4-100 feet; southwesterly by the southwesterly line of said Corliss street, as hereby laid out, two hundred forty-eight and 25-100 feet; northwesterly by the northwesterly line of said Corliss street, as hereby laid out, thirty feet; and northeasterly by the northeasterly line of said Corliss street, as hereby laid out, two hundred forty-nine and 92-100 feet.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northeasterly and southwesterly sides of said Corliss street, as hereby laid out, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Corliss Street, Roxbury, Assessment Plan, April 1, 1939, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

VACATION TO WATCHMEN

Chairman: Before we adjourn: I spoke to Mr. Norton this evening and I now want to take up with the other members the question of giving the watchmen a couple of weeks' vacation. During the year, they work from six o'clock P. M. to six o'clock A. M., on six days a week, without any vacation. I am asking if it is the desire of this Committee that the watchmen be given two weeks' vacation.

The members favored the suggestion which was referred to the Schoolhouse Custodian for consideration and report.

Mr. Lee: Mr. Chairman, we are entering another year in the most dangerous profession on earth. It has been said, whoever shall humble himself as a little child is greatest in the kingdom of heaven, and whosoever shall offend one of these little ones, it were better for him that a mill stone were nanged about his neck and that he were drowned in the depth of the sea

Mr. Norton: Mr. Lee, will you allow me to interrupt in order to place this list of the thirty-four schools erected from federal funds in New York City on file? It may be effective in spurring on our own group to see if it is not possible for us here in Boston to secure some of that money.

Chairman: It may be spread upon the records.

The following is the letter referred to:

I trust that this information will meet your requirements.

Very truly yours,
(s) John E. Wade.

Deputy and Associate Superintendent.

Mr. Norton: Also may we place on the record a letter from Congressman McCormack which came to me unsolicited regarding his idea of education.

I am not going to take the time of the Committee to read it now, but I'd like it on record so others may read it. Congressman McCormack is a believer in vocational education and in preparing the youngsters to do something in life. He wrote under date of Aug. 7th this letter which embodies his ideas of what education should do. I know you will all like to read it. We are honored at hearing from the Congressman, and with your permission I will insert this letter in the record.

Chairman: No objection.

OFFICE OF THE MAJORITY LEADER
House of Representatives U. S.
Washington, D. C.

August 7, 1941

Clement A. Norton
Member
Boston School Committee
15 Beacon Street
Boston, Mass

Dear Clem·

It is my thought that education is going through a very changed, if not revolutionary period. The days of training young men and young women solely from the mental angle, as I visualize it are over. There must be additional training to those who desire it, along trade lines.

The intense economic conditions of today and tomorrow are such that young people must be equipped with some commodity that they can sell. While the education of the mind will always remain as the primary objective, nevertheless the education of the boy and girl of today must be along lines that will equip them with something that they can go out into the world to sell. They must be trained for some particular position which they can fill.

Having this thought in mind, I am passing it along to you because I know how thoroughly you delve into such matters, and I know that if you agree with me you can use this idea to advantage. I think the man in public life today who sees this change coming and who advocates it, will benefit greatly from such action. I know you are one man who could effectively discuss this matter and build up public sentiment in favor of it.

I think our school systems in all our cities, particularly the large ones, must have more trade schools. Our colleges should be fashioned with the same purpose of not only educating the mind along academic lines but the minds and hands along practical lines, so that a substantial number of students have obtained at least, a basic experience in something that can be utilized in the field of trade, manufacture and industry.

I have not given this thought the full consideration I would like to and which I intend to give it but the fundamental idea is that educators of today must give serious consideration to the practical side of life that confronts a student as soon as school days are over. The purpose of this letter is to simply pass this thought along to you so that you can give it your consideration and if you agree, to develop it.

We cannot let the young man and young woman today face the world with a feeling of helplessness, but rather with hopefulness, and I think that this can be accomplished to a great extent by a combination of academic and practical training. You and I know that obtaining a position is a matter of competition and the one with the special training, additional qualifications and superior ability is the one who comes out ahead.

There are persons in the educational field who will oppose this idea, and that is to be expected. There are some persons who oppose any change, no matter how beneficial it might be to the public, particularly when they are satisfied with their own status quo.

There must be a hopeful outlook for the youth of today and the basis of this, can to a large extent, be established while the young person is still attending school.

Knowing, as I do, your interest in matters pertaining to the welfare of the public, I am passing this idea along to you. If you feel there is something to it, I am firmly convinced that the people would quickly grasp its significance. The man who advocates this change, in my opinion, and who is one of the leaders in this movement would not only contribute to the welfare of the youth of America but would be recognized by the people as a leader and would personally reap the political benefits that would flow therefrom. I would like to receive your reaction to this idea, which I am transmitting to you.

With kind regards, I am
Sincerely yours,
(signed) John W. McCormack.

Mr. Lee: Gentlemen, I do not think this Committee has been remiss in its workings, and it has tried to avoid the situation of having a mill stone tied around its neck and being drowned.

I think the School Committee has tried to draw out its sympathies very much during even the last three months, so as to make sure that we do not mistreat the lives of these youngsters who are in our care

Being a person myself of some ceremony, who likes to take note of our work at these periods at the beginning of every year, I'd like to take stock of the things to which we have dedicated ourselves now in an effort to broaden and deepen our insight into the youngsters.

Mr. Sullivan: Could that be read into the record?

Mr. Lee: I can finish in a very few seconds. So, I again call attention to three or four things which I think we can contemplate in the next few months for the greatest possible insight and protection of the child in our schools.

Among those things are (1) The almost double, proposed number of vocational guidance officers, who are trying to get a real, personal, and close understanding of the pupils. (2) The Bureau of Child Accounting. After a partial year of trial, that is now in fuller swing. (3) We have Mr. Norton's suggestion of the Jersey City plan for handling juvenile delinquency. We have Mr. Donovan's report on that. He quotes: "The teachers no longer conceive their function solely in terms of instruction in arithmetic, grammar, . . . etc. . . . We are regardful of their (the children's) health, their educational and vocational guidance, their emotional stability, their social adjustments their civic relationships, and their character trends. We are casting aside the . . . philosophy that school is a thing apart from life." (4) We now have more home and school associations, making a better link with the child's home.

Thus we are opening up opportunities better to make the schools not a thing in competition with the home, but something that works with the community and with the home.

I think this year we will see our teachers walk outside the class room and take part in the community problems which confront the child, and walk along with the child through the community more than ever before.

I like at these times to note what the Committee is doing, with the thought of laying our course ahead of us for the next couple of months.

I thank you, gentlemen.

CITY COUNCIL PROCEEDINGS.

(*Continued from page 1161.*)

City of Boston,
Board of Election Commissioners,
September 30, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—This is in reply to your communication of September 25 with attached City Council order which was dated September 22.

May we explain that some years ago (but since women have had the franchise) we experimented with afternoon registration but found the response very poor. We were put to considerable expense by this trial, and we felt that the returns did not justify the money spent.

We always endeavor to cooperate with the councilors when possible, but we feel that in this particular case our experience does not seem to indicate any possible gain to the city or the people from trying this experiment again.

Very truly yours,
Board of Election Commissioners,
William A. Motley, Jr.,
Chairman.

Placed on file.

GRANOLITHIC SIDEWALKS, BROOK AVENUE, WARD 13.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 22, 1941, concerning the installation of granolithic sidewalks on Brook avenue, Ward 13.

Respectfully,
Maurice J. Tobin, Mayor.

—

City of Boston,
Public Works Department,
September 30, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Brook Avenue, Ward 13.

I return herewith order in City Council that the Commissioner of Public Works install granolithic sidewalks on Brook avenue, Ward 13, in connection with the resurfacing work that is now going on there.

Please be advised that the W. P. A. officials have been requested to allow the installation of artificial stone sidewalks on this street in place of bituminous concrete sidewalks as originally called for.

George G. Hyland,
Commissioner of Public Works.

Placed on file.

SHELTER, BELGRADE AVENUE AND ROBERT STREET.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of September 22, 1941, concerning the construction of a shelter at the corner of Belgrade avenue and Robert street, Ward 20.

Respectfully,
Maurice J. Tobin, Mayor.

Boston Elevated Railway,
September 29, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—In reply to your letter of September 25, with order of the City Council requesting the construction of a shelter at the corner of Belgrade avenue and Robert street, I would say that the matter of providing shelters at stopping places and transfer points on the system has been given careful consideration by the trustees, but in view of the expense involved and frequency of service operated, they do not feel that shelters can be justified. Their maintenance would, of course, add considerably to the deficit.

Very truly yours,
Edward Dana,
President and General Manager.

Placed on file.

REMOVAL OF UNUSED CAR TRACKS, CODMAN SQUARE.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of August 18, 1941, concerning the removing the unused car tracks from Norfolk street at Codman square, Ward 17.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Public Works Department,
September 20, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Norfolk Street.

I return herewith order in City Council that the Commissioner of Public Works cooperate with the officials of the Boston Elevated in removing the unused car tracks from Norfolk street, at Codman square, Ward 17, and this will advise you that this matter will be given consideration for submission for approval as a W. P. A. project.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

BONUS TO CITY EMPLOYEES IN SERVICE.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen.—I transmit herewith communication from the Corporation Counsel relative to your order of September 22, 1941, concerning the Municipal Government of the City of Boston paying a bonus of $100 to each of its employees now in the military and naval service of the United States.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, September 29, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—I am replying to your request of Septemoer 25 for consideration of and report upon the following order of the City Council, passed on September 22, 1941:

"Ordered, That the Municipal Government of the City of Boston pay a bonus of $100 to each of its employees now in the military and naval service of the United States upon their discharge from active duty and return to civilian life; and be it further

"Ordered, That there be no delay in making of such payment and that said bonus be paid immediately upon presentation of certificate of discharge to director of the city department in which the worker is regularly employed."

In my opinion such an order, if adopted by the City Council and approved by the Mayor, would be without legal validity. The City Government does not have the power under the charter to act in regard to the subject-matter under consideration. Payment under such an order could be successfully restrained by a ten-taxpayers' petition, brought under the provisions of G. L. (Ter. Ed.), c. 40, s. 53, on the ground that the expenditure would be illegal.

The power of the city to make expenditures is restricted to the public purposes sanctioned by law. Ducey *v.* Webster, 237 Mass. 497.

At the present time there is no statute in the Commonwealth permitting a city to provide for bounties to its employees in the military and naval service upon their discharge from active duty.

On November 4, 1940, I rendered an opinion to his Honor the Mayor on a related subject. In that opinion I referred to a memorandum which the Law Department had prepared at the request of the National Institute of Municipal Law Officers regarding the power of Massachusetts cities to provide for continuation of compensation to city employees who are serving in the armed forces of the United States, and inclosed with my opinion a copy of that memorandum. The conclusion of the memorandum was that special legislation by the General Court was essential to enable a municipality to use public money for the payment of compensation to public employees serving with the armed forces of the United States.

Much of the reasoning set forth in that memorandum also applies to the payment by a municipality of a bounty to a discharged soldier.

The raising and support of soldiers for the defense of the government is not a municipal duty unless expressly made so by act of the Legislature. Stetson *v.* Kempton, 13 Mass. 272; Freeland *v.* Hastings, 10 All. 570; Lowell *v.* Oliver, 8 All. 273; Agawam *v.* Hampden, 130 Mass. 528, 534. The Massachusetts Legislature so far to date has not passed any enabling statute. Accordingly, the City of Boston is powerless to act.

In commenting on an earlier attempt by a municipality to make payments to soldiers, Chief Justice Parker pointed out:

"To give additional wages, in order to encourage such as may be drafted, may evince the sense of danger, and the patriotism of a town, but it does not fall within any duty imposed by law; and it is not certain that it would produce any valuable end. *For instead of a uniform and equal payment of all those, who in other respects are on a footing of equality, it would probably cause jealousies and dissesions, which might be highly injurious to the public service.*" (Underscoring mine.)

Stetson *v.* Kempton, 13 Mass. 272, 280. In view of the fact that the orders here under consideration refer only to Boston municipal employees who have been discharged from military and naval service and not to *all* Boston citizens, the remarks of the Chief Justice seem pertinent.

At the present time there is pending before the General Court a bill, which may become law within a very short time, designed to meet certain contingencies arising in connection with the service of public officers and employees in the military or naval forces of the United States during the present national emergency. This bill (House No. 2829) has been passed by the House and Senate and is now in the House of Representatives, waiting for action to be taken upon the emergency preamble which would permit the bill to become law immediately upon its signing by the Governor.

The pending bill provides, in substance, as follows:

Section 1. The resignation of any person on or after January 1, 1940, from an office or position in the commonwealth or any city, for the purposes of serving in the army or navy, shall be treated as a leave of absence.

Section 2. Any person referred to in Section 1, who holds a civil service position, may be reinstated upon application within one year of his discharge.

Section 3. Any person permanently appointed to a civil service position who enters the Army or Navy, before commencing to serve in that position shall be permanently employed at the end of his military or naval service, subject to a probationary period of six months.

Section 4. Any person whose name is on an eligible list of the civil service at the time of his commencing military or naval service, shall be continued on or restored to such list after his discharge, for a period equal to the remainder of his eligibility at the time he commenced his training.

Section 5. This section confers upon the director of civil service the broad power to protect the civil service rights of all persons not specifically mentioned in the act.

Section 6. Any person referred to in section 1, not subject to civil service, may be reinstated if he so requests within one year after the termination of his military or naval service.

Section 7. This section relates to problems which arise where a state department head becomes a member of the military or naval forces.

Sections 8 and 9. These sections cover the subject matter of rights of a member in a contributory retirement system during his period of military or naval training.

Section 10. This section covers the case where a "mayor of a city is unable to perform the duties of his office by reason of said military or naval service."

Section 11. Refers to an elective city officer.

Section 12. This section refers to a "selectman or any other elective town officer" who are unable to perform the duties of their office by reason of military or naval service.

Section 13. This section defines the term "elective officer."

Section 14. This section relates to the case where a medical examiner or associate medical examiner becomes a member of the military or naval forces.

Sections 15, 16, 17, 18, 19, 20, 21, 22 and 23. These sections refer to circumstances which may arise in the cases of private citizens upon their discharge from the military or naval forces and do not especially affect public employees.

It is possible that other sections may be added to this bill before its final adoption. Unless the Legislature, in this bill or some other enactment, expressly provides that a city may "pay a bonus of $100 to each of its employees now in the military or naval service of the United States upon their discharge from active duty and return to civilian life," the City Council, irrespective of the patriotism motivating the passage of its order of September 22, 1941, has not the power to adopt such an order.

Very truly yours,
ROBERT CUTLER,
Corporation Counsel.

GYMNASIUM, SOUTH BOSTON MUNICIPAL BUILDING.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,—For some years there has been a recognized necessity for gymnasium facilities in the South Boston section of our city. After several conferences with the City Councilors from this section, and other interested parties, a plan has been devised to provide these facilities.

The present program calls for the erection of a gymnasium building connecting with the present Municipal Building in South Boston. The new building will be approximately one hundred feet long by sixty-five feet wide, and will be of sufficient size and sufficiently equipped to meet the require ments for gymnasium purposes.

Preliminary plans have been made and work can be started on this improvement shortly after money is available. The attached order which calls for the transfer of $50,000 from sales of city property for South Boston Gymnasium will cover the cost of land and buildings. I am exceedingly anxious that this project be started as soon as possible, and I therefore respectfully request prompt passage of the accompanying order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Building Department, October 6, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I respectfully request that funds in the amount of $50,000 be made available through a special appropriation to be used for the erection of a new gymnasium in South Boston.

With the added activity at the Army Base, the new Navy Yard Annex and other industrial plants stepping up production for defense work, it can readily be seen that this undertaking is a necessity for this section of the city.

Preliminary plans have already been made and a site selected. I feel that the work can be started in a very short time after this money is made available.

Respectfully yours,
LEO F. POWER,
Superintendent of Public Buildings.

—

Ordered, That the sum of $50,000 be, and hereby is, appropriated from the sales of city property, to be expended under the direction of the Superintendent of Public Buildings, for the following:

Gymnasium, South Boston, establishment of..... $50,000

Referred to Executive Committee.

BUS LINE, FRANCIS STREET TO PARK SQUARE.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of September 22, 1941, concerning a bus line from Francis street to Park square.

Respectfully,
MAURICE J. TOBIN, Mayor.

Boston Elevated Railway.
September 29, 1941.

Mr. Wlliam T. Doyle,
Chief Clerk-Secretary.

Dear Sir,— In reply to your letter of September 25, with resolve of the City Council relative to a bus line from Francis street to Park square,I would say that as the result of an agreement with the Boston City Council Jitney Committee and a temporary permit from the Department of Public Utilities, motor bus service will be operated between Francis street (Brigham Circle) and Park square, via Huntington avenue, as an experiment for sixty days beginning October 4.

Appreciating your interest in the matter, I am,

Very truly yours,
EDWARD DANA,
President and General Manager.

RECONSTRUCTION OF HYDE PARK AVENUE.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of September 15, 1941, concerning the reconstruction of Hyde Park avenue, from Metropolitan avenue to Cleary square.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Hyde Park avenue.

I return herewith order in City Council that the Commissioner of Public Works reconstruct Hyde Park avenue, from Metropolitan avenue to Cleary square, and this will advise you that this work will be given consideration for submission for approval as a W. P. A. Project during the coming year.

ROPING OFF STREETS, COLUMBUS DAY PARADE.

Coun. SHATTUCK, for Coun. Galvin, offered the following:

Ordered, That the City Messenger be requested to have the necessary roping done on the streets requested by the Police Department in connection with the Columbus Day parade, October 12, 1941, to be held in East Boston, the expense attending same to be charged to the City Council appropriation for that purpose.

Passed under suspension of the rule.

EXTENSION OF FIVE-CENT FARE PRIVILEGE.

Coun. CAREY offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to extend the five-cent fare privilege on the Jamaica-Dudley Street line from Roxbury Crossing to the entrance of the Dudley Street Terminal, and return.

Coun. CAREY—Mr. President, at the present time there is a five-cent fare privilege on the Jamaica-Dudley street line, of which people going from the car barn to Roxbury Crossing can avail themselves. But that privilege extends only from the car barn to Roxbury Crossing, and beyond that, going through Roxbury street and Dudley street to the vicinity of the Dudley Street Terminal entrance, passengers are obliged to pay ten cents. I believe that five-cent fare privilege should be extended by the Elevated from Roxbury Crossing to the vicinity of the Dudley Street Terminal, and I cannot understand why the Elevated should not permit those people to ride the two or three extra blocks further along that line. At the present time, many people naturally leave the car at Roxbury Crossing to avoid the extra fare, and frequently walk the remaining distance in order to avail themselves of the shopping facilities in the neighborhood of the Terminal. There would certainly be no hardship to the Elevated in carrying the people the short extra distance of two or three blocks, and a public service would be rendered by granting such an extension. I sincerely trust, therefore, that the trustees of the Elevated will extend the five-cent fare privilege on the Jamaica-Dudley street line from Roxbury Crossing to the entrance of the Dudley Street Terminal, and return.

The order was passed under suspension of the rule.

USE OF TRAILER CARS DURING RUSH HOURS.

Coun. CAREY offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to use trailer cars on the Subway—South Huntington avenue line, especially during the rush hours.

Passed under suspension of the rule.

DEATH OF JUDGE BRANDEIS.

Coun. GOTTLIEB, TAYLOR, GOODE, WARD, HUTCHINSON AND WICKES offered the following:

Resolved, That the Boston City Council, at a meeting assembled, expresses its deep regret and sorrow at the death of Judge Louis Dembitz Brandeis, whose service on the Supreme Court of the United States was outstanding in its contribution to the law of this country.

Coun. GOTTLIEB—Mr. President, a critical analysis of the life of Louis Brandeis would be a fit text-book for the school children of this country. His qualities of humaneness, his cherished regard for the rights and freedom of the people and his shining example of fine Americanism will always have an afterglow in the hearts of Americans of every race and creed. A wise counselor and a just judge who profoundly influenced the history of his time, it was Louis Brandeis who predicted many years ago the eventual collapse and bankruptcy of the N. Y., N. H. & H. R. R. and the Old Colony Railroad unless these companies amended their economic ways and served the people. His wide experience and his extraordinary ability will for long have effect on the business and political life of this country. In speaking of this great American of the Jewish faith, the late President Wilson said: "He is a friend of all just men and a lover of the right, and he knows more than how to talk about the right — he knows how to set it forth in the face of its enemies." I hope that some fitting monument to his memory will soon be named here in Boston.

Coun. GOODE—Mr. President, the death of Mr. Justice Brandeis, who was formerly a member of the Boston Bar and a brilliant trial lawyer in this Commonwealth, is a tremendous loss to the world. Much has been said of his brilliant legal intellect which he used unselfishly as the champion of liberty and justice. This servant of the common people, who devoted his life to protect our God-given liberty and security will leave a monument to remind American men and women of his work in their behalf. In these trying times when liberty and justice are suppressed in many parts of the world, we could ill-afford to lose him. Brandeis gave much of his life fighting for the underprivileged and for the correction of social injustice. He was a pioneer for many of the reforms in our judicial structure which have become the established laws of today. The curse of dictatorship and the doctrines of conquest for force were always a challenge to his innate sense of justice. We shall always be proud to remember that Massachusetts and Boston has given to America the doctrines and the law of Louis D. Brandeis and Oliver Wendell Holmes, two great Americans.

The resolution was passed by a unanimous rising vote.

TRAFFIC SIGNALS, WARD 15.

Coun. KELLY offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the intersection of Columbia road and Quincy street, Ward 15.

Passed under suspension of the rule.

FLAT RATE OF CAR INSURANCE.

Coun. M. H. SULLIVAN offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to draw

up and introduce legislation to bring about a flat rate of automobile insurance for the Commonwealth of Massachusetts.

Passed under suspension of the rule.

AUTOMOBILE INSURANCE RATES FOR BOSTON CAR OWNERS.

Coun. M. H. SULLIVAN offered the following:

Resolved, That the membership of the Boston City Council in meeting assembled voice strong disapproval of the failure of the Insurance Commissioner of Massachusetts to afford a warranted reduction in the rates for automobile insurance for 1942 to owners of cars registered in Boston.

Coun. M. H. SULLIVAN—Mr. President, I certainly feel that we of this Council should voice our strong condemnation, on behalf of the people of Boston, of the failure of State Insurance Commissioner Harrington to give a warranted reduction in the rate for automobile insurance for 1942 in this city. This failure is in line with other action that has been taken on Beacon Hill for years where the rights of the citizens of Boston are concerned. There has been little consideration shown by State administrations for Boston's interests. While I believe, during the past year or two the City of Boston has had somewhat better treatment on Beacon Hill, in the matter of automobile insurance, as well as in some other matters, there has been little consideration shown to the automobile owners of this city. Their rights have been completely disregarded. While the insurance rate has been supposed to be founded on the number of deaths in respective communities, as a matter of fact, the deaths in Boston for the last few years have been reduced through the good work of the police and other agencies although there has been no recognition of that fact in the rates. It is also a fact that many of such deaths have been caused by drivers who have come in from outside communities, another fact which should have been but which has not been recognized in the rates issued. Therefore, while the people of Boston had every reason to believe that there would be a reduction in the 1942 rates for cars registered in this city, car owners are now completely overwhelmed by the fact that they continue to receive unfair treatment. I find that the opinion of the people of Boston, as voiced generally, is that the Insurance Commissioner at the present time is not playing fair with them. And so, for 1942, we have no reduction in the auto insurance rates of this city, regardless of the fact that the Police Department has done unusually fine work, in which we may all take pride, in reducing the number of fatal accidents in Boston during the present year, a greater reduction than there has been for some years. But despite the good work that the Police Department has done in this city in reducing such accidents, we now find that the tax on automobiles is not less than in preceding years. In other words, that commendable work is absolutely ignored. Such treatment, Mr. President, is absolutely unfair. In the past we have been given to understand that the rate charged was based on the number of accidents in different communities. The number of accidents in this city has now been reduced, but there is no recognition of that fact by the Insurance Commissioner of the state, nor is there recognition of the fact that many of these accidents in our city are caused by drivers who came in from communities outside of Boston,—Rowley, Florida, and other towns of the state,—who have these accidents while using the streets of Boston, accidents for which the citizens of Boston have to pay. It is absolutely unfair to this city. As I say, we have had these automobiles coming into our city from all over the state, in greater numbers than ever, and in spite of that fact, due to the work of our Police Department, we have had fewer accidents than before. Still, that situation is not recognized by our state Commissioner, who seemingly has failed to take into consideration the fact there that has been a reduction of the fatal accidents in this city, because he still charges the car owners in this city for 1942, $50.73, the same amount that was charged last year. That is absolutely unfair to the car owners of the City of Boston. I think something should be done by the Commonwealth of Massachusetts to rectify this situation. In spite of the fact that we have had fewer accidents the past two years, the car owners of this city continue to be charged the same rate, an unfairly discriminatory rate as far as Boston is concerned. Certainly, action should be immediately taken which will recognize the simple justice due to owners of cars registered in Boston.

Chairman SHATTUCK—The resolution will be referred to the Executive Committee.

PRIORITY RIGHTS FOR MUNICIPAL CONSTRUCTION.

Coun. M. H. SULLIVAN offered the following:

Resolved, That the Boston City Council in meeting assembled respectfully urges that the members of the Massachusetts Delegation in Congress exert every possible influence to provide priority rights on all necessary construction work by municipalities; and be it further

Resolved, That the members of the Massachusetts Delegation in Congress make every effort to obtain priority rights for steel to be used in the Municipal Building in Brighton.

Coun. M. H. SULLIVAN—Mr. President, for nearly half a century the people of Brighton have been endeavoring to obtain a municipal building, and recently their efforts were apparently successful. During several administrations their efforts failed, but recently, in the administration of Maurice J. Tobin, their efforts have apparently been crowned with success. With the help of Mayor Tobin, we were finally granted a municipal building, for which the 37,000 voters of the district have been sincerely thankful. The building is now under process of construction, but the work has recently been held up through the operation of priorities. Certainly, if it is not completed on time, it will not be due to any lack of effort upon the part of Mayor Tobin or on the part of the members of the City Council from that district for the past three years. If there is an undue delay, it will simply be because of the operation of Federal priorities, involving the question of the necessity of the building. There is, of course, no real question of its necessity and desirability, but I am afraid that the work that has already been expended on its construction will be wasted unless the steel is obtained before the winter weather is upon us. I am, therefore, asking every member of the Massachusetts Delegation in Congress to exert every possible influence to provide priority rights for the steel to be used in the municipal building in Brighton, as well as property rights on all necessary construction work by municipalities. I think every effort should be made to see that Brighton and other municipalities shall obtain materials necessary for construction in important municipal work. I notice that the American League of Women Voters a few days ago asked for a cut of expenditures that were not essential. Of course, in a certain technical sense the construction of a municipal building may not be considered absolutely essential, but when we think of the vast number of young men called to the service, and unable to be placed in active service for one reason or another, it certainly does seem that such men might be engaged in some useful work and that a municipal building might help to that end. I think, therefore, in the public interest, the members of the Massachusetts Delegation in Congress should exert every possible influence to provide priority rights on necessary construction work by municipalities, and that, in that connection, every effort should be made to obtain priority rights for steel used in the municipal building in Brighton. I think that represents a necessary activity at this time.

Coun. GOODE—Mr. President, when we consider the great lack of employment that is being occasioned at the present time through priorities, I think we must all realize the menace that is arising and that will continue to arise from this type of private unemployment. Of course, the effort of such unemployment can only be to throw greater burdens on our relief work. I believe, therefore, that the Massachusetts Delegation in Congress should be requested to take immediate action towards preventing such unemployment. Private industry should certainly receive proper consideration in times like these, when fathers of families are threatened with layoffs. I believe it is extremely important, therefore, that action should be taken to prevent, as far as possible, such unemployment.

The resolutions were passed under suspension of the rule.

REFERENDUM ON FLAT AUTOMOBILE RATES.

Coun. TAYLOR offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to initiate legislation or take whatever steps are necessary to place upon the ballot a referendum allowing the voters of the Commonwealth to vote on the question of "Flat Rate Automobile Insurance."

Coun. TAYLOR—Mr. President, I feel that the councilor from Brighton (Coun. M. H. Sullivan) has well stated the effect of action on Beacon Hill favoring the small towns of Massachusetts as against the City of Boston in the matter of automobile insurance. From time immemorial it appears that the legislators from the small towns of this Commonwealth have always placed unwarranted burdens on the shoulders of the taxpayers of the City of Boston. Those legislators have the votes, and it does not seem that anything has ever restrained them from action along that line. We have suffered so much at the hands of these members of the Legislature coming from outside towns that we have been gradually becoming used to it, although realizing that it is gradually destroying the City of Boston. They have never at any time come to the aid of Boston. The Commonwealth of Massachusetts has not even helped the city out on its unjust welfare burden. Those coming from small outside towns have never considered in any way the welfare of the people of this city. They have even thrust upon us the share of the county expenses that should be borne by Chelsea, Revere and Winthrop, which places do not have to pay one cent toward the county expenditure. They have placed upon our shoulders for years burdens which they themselves should share. Then, among other burdens, we have for years been bearing an undue proportion of the automobile insurance expense. Year in and year out, despite the decrease in our fatal accidents, they have imposed upon us the same unfair automobile insurance. The outside car owners pay very small insurance compared with what the car owners in Boston have to pay. I say that something should certainly be done. A flat rate automobile insurance law should be placed upon the statute books, and a proper way to arrive at such a solution of the question is to place upon the ballot a referendum allowing the voters of the Commonwealth to vote on the question of flat rate automobile insurance. I believe we will then have the cooperation of some of the other cities and towns who believe that they also are paying a higher rate than they should. But until something is done, the people of Boston must suffer. Therefore, I ask that the Mayor request the Corporation Counsel to initiate legislation or take whatever steps are necessary to place upon the ballot a referendum allowing the voters of the Commonwealth to vote on the question of flat rate automobile insurance. We will at least be doing something constructive if we can have placed on the ballot at the next election such a referendum, allowing the people of the Commonwealth an opportunity to express themselves upon this matter.

The order was referred to the Executive Committee.

REPORTS OF COMMITTEE ON SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted reports recommending the passage of orders for payment of aid to soldiers and sailors and their families in the City of Boston for the months of September and October.

Reports accepted; said orders severally passed.

RECONSTRUCTION OF N STREET, WARD 6.

Coun. SCANNELL offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to reconstruct N street, Ward 6, with a concrete pavement and to install granolithic sidewalks thereon.

Passed under suspension of the rule.

ADDITIONAL PIERS FOR SOUTH BOSTON WATERFRONT.

Coun. SCANNELL offered the following:

Ordered, That his Honor the Mayor contact the Governor and the Port Authorities in an effort to have additional piers constructed on the South Boston waterfront.

Coun. SCANNELL—Mr. President, about two months ago I presented an order here in the Council with reference to the government taking the piers in South Boston for national defense. As a result of the action being taken over there, there is to be a very severe unemployment situation. Men working on the waterfront, at the docks, longshoremen, have been unemployed for the past few weeks, and if something is not done, there will be indefinite unemployment. Certainly, some action should be taken to relieve the unemployment situation on the waterfront. As I understand it, today there is but one boat coming in over there, supplying work for about fifteen, and there is no relief in sight for the longshoremen's union unless the Governor, the Mayor and the Port Authorities make an effort to have additional piers constructed on the South Boston waterfront. If something is not done very soon, the waterfront employment situation will be at a very low ebb. Certainly, a determined effort should be made to continue the waterfront facilities either at the existing or at additional piers. The Federal Government has taken over two thirds of the facilities of the Commonwealth Pier and other docking facilities, and unless some relief is given the unemployment situation, as well as the threat to the waterfront business of Boston, will be very serious. It is a threatening situation, and unless something is done, there will be a tremendous addition to our welfare burden. I trust that a strong effort will be made by the Mayor, the Governor and the Port Authorities to have additional piers constructed on the South Boston waterfront.

The order was passed under suspension of the rule.

BUS LINE FROM ROSLINDALE SQUARE TO CLEARY SQUARE.

Coun. GOODE and LANGAN offered the following:

Ordered, That the Board of Trustees of the Boston Elevated Railway be requested, through his Honor the Mayor, to make a study of the Hyde Park and Roslindale sections of Wards 18 and 19 with a view to establishing a bus line along Poplar and West streets, from Roslindale square to Cleary square, Hyde Park, with the transfer privilege from the Hyde Park avenue and Washington street car lines.

Passed under suspension of the rule.

ESTABLISHMENT OF MUNICIPAL PARKING AREA.

Coun. GOODE offered the following:

Ordered, That the legislative agent and his Honor the Mayor confer for the purpose of obtaining legislation which would empower the City of Boston to establish municipal parking areas and to seek the extension of local and state laws for municipal parking and to obtain legal power to cover the purchasing and building of parking areas.

Coun. GOODE—Over the week-end, I conducted an experiment, driving my car into the city from three different points to determine the average speed of traffic through the city. I found the average speed to be about 7 miles an hour, but this was cut down to about 4.3 by the time I had the car in a parking space. Now, Mr. President, because the House Ways and Means Committee shelved for two years the proposed plan for a traffic artery through the City of Boston and indorsed a state-wide survey to study municipal traffic congestion, I believe that this plan for municipal parking spaces should receive proper consideration. First of all we need legislation to empower the city to take this initiative. This means the extension of state and local laws for municipal parking. We also need legal power to cover purchase and building of parking areas. I am well aware that the first cry will be that this plan will compete with private interests. However, the fact is that our present crowded street parking definitely competes with private interests. For each dollar taken in by commercial parking lots about ten cents pays taxes, 54 cents operating cost and 36 cents represents return on investment or profit. Parking facilities operated by the city would pay no tax, or business license fee—thus cutting charges more than half. Land can be obtained through tax delinquency and demolition of out-worn buildings. I feel certain that it will be possible to obtain an initial Federal loan to start the idea or borrow funds from the State. The obvious solution to the problem in Boston is more off-street parking. I hope that the commission appointed by the Governor will give this plan some thought.

Obviously, with municipal parking areas there would be better police protection and, for the reasons I have stated. the parking fees would be lower.

Coun. GOTTLIEB—Mr. President, seconding the order offered by the councilor from Ward 18, looking to municipal parking areas, I think something of the sort should be carried out in the near future, eliminating the problem of congestion in the city and also enabling the citizens of Boston to drive into our city and not have to pay the high charges they are compelled to pay on the private parking lots at the present time. The men in charge of these private lots are charging a fee sufficient for a man to attend a movie in the heart of the city. I do not believe the proposed plan would be unfair to private enterprise, when we consider that the parking spaces would serve the citizens of our city. Nor do I believe the proposed plan would have an adverse effect on the revenue of the city. We have in Boston today many old buildings, as the councilor from Ward 18 has stated, which return no revenue at all to the city, and which would not be sold for any purpose at all except as a parking lot. I question whether the revenue received from the private parking lots is sufficient to warrant the city in refraining from creating municipal parking areas. I certainly hope, therefore, that action along the line proposed in this order will be taken in the near future.

The order was passed under suspension of the rule.

$25 MAXIMUM RATE FOR ALL CARS.

Coun. LYONS offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to prepare legislation for immediate presentation to the Legislature providing for a maximum insurance rate of $25 on all automobiles registered in the Commonwealth of Massachusetts.

The order was declared referred to the Executive Committee.

Coun. LYON—Mr. President, I ask unanimous consent to make a statement.

(There was no objection.)

Coun. LYONS—Mr. President, in looking through the newspapers the last week we have seen a good deal of comment on the Massachusetts automobile insurance rates, especially in Boston. For the past ten years or so, year after year, there have been various bills presented in the Legislature relative to the automobile rates in Boston, sponsored by Boston representatives, and when the vote was counted, the result was 45 or 46 in favor and 300 against. Representatives from Barnstable or Provincetown, or other outlying parts of the state, have been perfectly satisfied with the small rates that were charged in their sections, and have not been at all interested in giving fair play to the citizens of Boston. In California, the amount paid is $30 for the whole state, and if a driver has a good record, there is a reduction of $2.30 the first year and $2.75 or $3 the next year, thus bringing the amount down in such cases to the neighborhood of $25. In Vermont, I believe the rate charged is $15, and in Rhode Island around $29. Massachusetts is one of the few states in the Union, I think, that has compulsory automobile insurance. I think it is high time that the Commissioner of Insurance should sit down with some responsible Boston committee and discuss the exorbitant rates for Boston, and I believe some such get-together would result in a fair rate. I am suggesting as a maximum insurance rate for all automobiles in the Commonwealth $25. I believe such a rate would equalize automobile insurance in Massachusetts, so that there would not be such low rates on the Cape and other parts of the state, and such high rates in the City of Boston and other large cities. While the insurance interests claim that they are not making money, I feel that they are doing very well under the automobile rates in this state today. I should like to see immediate action taken so that Commissioner Harrington will be induced to assess a flat rate, say of $25, if that is found upon investigation to be a fair rate, upon the automobile drivers of the whole state.

The order was referred to the Executive Committee.

RECESS.

By direction of Chairman SHATTUCK, the Council at 3.25 p. m. took a recess subject to the call of the Chair. The members reassembled and were called to order by Chairman SHATTUCK at 3.50 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) transferring $50,000 from sales of city property for establishment of gynmasium, South Boston Municipal Building—that same ought to pass.

Report accepted; said order passed, yeas 18, nays 0.

Later in the session, Coun. LINEHAN said—Mr. President, I ask unanimous consent to make a statement.

(No objection.)

Coun. LINEHAN—I am speaking on behalf of the citizens of South Boston, and I believe my colleague will also have a few words to say. In what I say I am speaking not only for myself and for my colleague, but, I believe, for every resident of South Boston. I speak at this time because for more than twenty years there have been public office holders from our section trying to get back for South Boston something that was taken away from that section twenty-two years ago. Time after time in the past twenty years, appeals have been made to the various Mayors of this city to O. K. an order looking to a remedy for the injustice done to our section, an order which the Legislature could not consider until it had been O. K'ed by the Mayor and that O. K. has not come from previous administrations. The two past City Councils approved an order to borrow outside the debt limit to restore what had been taken from South Boston; and I now want to thank the members of the Council and Mayor Tobin for making it possible to restore the gymnasium to our section this year. Five years ago, when Mayor Tobin was running for Mayor, he was asked whether he would give the money for this purpose. At that time, however, he said that the city was unable to do so, and he would not make the promise, although under ordinary circumstances he would favor the project. He showed great courage in taking the position he did at that time, because of the financial condition of the city. Now, however, after four years of his administration he finds an improved financial condition, and feels that the city is financially able to provide the money. So he is now giving something back to the citizens of South Boston that, under the conditions of five years ago, he felt that he could not do. Again, I say that I thank every member of the City Council and his Honor the Mayor for giving something back to us that we have been trying to get restored for twenty years. I will certainly welcome the opportunity in the future of reciprocating the good offices of the other members of the Council to us, in this matter.

Coun. SCANNELL—Mr. President, I rise to a question of personal privilege. I want to thank the Mayor and the City Council for restoring to us something that the people of South Boston have been looking for for twenty years, restoring something that was taken from them twenty years ago. I want to thank the members of the Body for the cooperation we have received the past two years in trying to get this gymnasium for our district. We feel grateful to those who have assisted us in this matter, and will be glad to reciprocate when they are looking for something that the people of their districts should have. We will always be glad to cooperate with other members in such matters.

SIDEWALKS ON SELDEN STREET, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to consider the advisability of constructing sidewalks on Selden street, at the rear of the Thompson School, Ward 17.

Passed under suspension of the rule.

"DEAD END" SIGN, REGINA ROAD AND WASHINGTON STREET.

Coun. WICKES offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to consider the advisability of erecting a "Dead End" street sign at the junction of Regina road and Washington street, Ward 17.

Passed under suspension of the rule.

IMPROVEMENTS TO FULLER STREET, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to have repairs made on the sidewalk at 78 Fuller street, Ward 17, and also to have a survey made of sidewalks on the even-numbered side of Fuller street with a view to considering the advisability of making extensive repairs, Ward 17.

Ordered, That the Commissioner of Public Works be requested, through His Honor the Mayor, to have the water pipes in the vicinity of 78 Fuller street repaired, Ward 17.

Severally passed under suspension of the rule.

THE NEXT MEETING.

The Council voted, on motion of Coun. SCANNELL, that when it adjourns it be to meet on Monday, October 20, 1941, at 2 p. m.

Adjourned, at 4.30 p. m., to meet on Monday, October 20, 1941, at 2 p. m.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN EVERDEAN STREET, WARD 16, FROM ASHLAND STREET TO FREEPORT STREET, EVERETT STREET, WARD 16, MILL STREET TO PARK STREET AND NORWOOD STREET, WARD 16, CONLEY STREET TO ABOUT 320 FEET SOUTH.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Everdean street, Ward 16, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Everdean Street, Ward 16, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, October 29, 1941, with a certified check for six hundred (600) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

UNITED STATES GROSS DEBT.

November 30, 1932, total gross debt of the United States was $20,806,013,836, of which $20,476,034,190 was interest-bearing. This is a reduction of $6,120,667,458 from the peak of $26,596,701,648 on August 31, 1919. The gross debt on June 30, 1931, was $16,801,281,492

OWNED AND RENTED HOMES IN UNITED STATES, NEW ENGLAND AND MASSACHUSETTS, 1930—ALSO BOSTON.

Total homes in United States, 29,904,663, of which 14,002,074 or 46.8 per cent were owned, 15,319,817 or 51.2 per cent were rented, and 582,772 were of unknown tenure. "RELIEF" DECLINING.

Two-thirds of the nation's relief expenditures in recent years has been centered in ten industrial states, the "Year Book's" section on Financing Relief and Recovery points out. Half the Federal Work Relief Funds and two-thirds of all available funds have been expended in the fifty largest cities, including about 25 per cent of the population. Industrial urban population is more vulnerable to unemployment. In addition, living costs are higher, requiring greater relief allotments, and the cost of giving employment to a city group is higher than in rural areas.

STATUS OF MUNICIPAL EMPLOYEES CALLED TO DEFENSE.

A steadily increasing number of cities and states are amending their personnel policies to protect the status of their employees called to defense training, the Civil Service Assembly of the United States and Canada reports.

The state of Michigan and eight cities —Columbus, Ohio; Detroit, Flint, Michigan; Evanston, Illinois; Los Angeles; St. Petersburg; Akron and Seattle— are among those that most recently have adopted measures affecting regular employees called for training, persons eligible for jobs, and substitutes for regular employees. All grant leaves to employees called, but only Evanston provides for supplementary pay. Employees with at least three months' service with Evanston get leave and, for the first three months of training, they receive the difference between military and city pay, the difference not to exceed $150 a month. Various rights, benefits and privileges—such as promotion, retirement, vacation and sick leave—are protected by the rulings of Detroit, Evanston, Akron, St. Petersburg and Seattle.—*American City Magazine.*

CITIES AND NATION PAY MOST OF AIRPORT COSTS.

The civil aeronautics authority has reported that on January 1, 1939, there had been expended upwards of $330,000,000 on existing civil airports and landing fields. Of this amount, about $140,000,000, or 42 per cent of the total, represented Federal funds; in excess of $100,000,000, or 31 per cent, represented the funds of municipalities; while private and commercial concerns had expended 24 per cent, or slightly less than $80,000,000; and the states had contributed only $6,500,000, or 1.8 per cent of the total.

New York City alone has expended practically three times as much money out of its own treasury on one airport than all the forty-eight states combined. Several other cities, including San Francisco, Cleveland, and Newark, have each and individually expended nearly as much on their own airports as all the forty-eight states combined.—*American City Magazine.*

BOSTON'S LIABILITY FOR METROPOLITAN DEBT, 1937.

Boston's liability for this contingent debt of the State (*i. e.,* in the form of annual assessments for sinking funds and interest) incurred for Metropolitan parks, sewers, water, etc., was $28,559,995 (net) on July 1, 1937, or $1,283,454 more than in 1936 and $6,473,404 more than in 1927. It is divided thus: Water debt, $25,314,274; Park debt, $904,738; Sewer debt, $1,639,878; Charles River Basin debt, $701,105. The percentages paid by Boston in 1937 were 63.4515 on Water Debt; 48.6623 on most of the Park Debt; 36.25 on most of the Sewer debt, and on Charles River Basin debt the same as on Park debt.

Metropolitan assessments paid by Boston in 1937 amounted to $4,752,277.22, of which 64.23 per cent was for debt requirements and 35.77 for maintenance. Water assessment, $3,282,201 (usually paid from water revenue); park, $786,974; sewer, $470.545; Charles River Basin, etc., $212,557.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

BOSTON'S POPULATION ON APRIL 1, 1930, BY WARDS.

Ward 1, 61,454; Ward 2, 31,663; Ward 3, 66,219; Ward 4, 31,010; Ward 5, 30,571; Ward 6, 34,689; Ward 7, 32,482; Ward 8, 31,943; Ward 9, 30,362; Ward 10, 29,694; Ward 11, 29,938; Ward 12, 36,123; Ward 13, 29,019; Ward 14, 55,914; Ward 15, 27,729; Ward 16, 31,329; Ward 17, 30,099; Ward 18, 41,152; Ward 19, 27,519; Ward 20, 31,540; Ward 21, 29,752; Ward 22, 30,987.

Total population by U. S. Census, 781,188.

POLICE DEPARTMENT (STATISTICS FOR 1938).

Number of police force, December 1, 1938, was 2,229, viz., the superintendent, 4 deputy superintendents, 30 captains, 66 lieutenants, 4 lieutenant-inspectors, 187 sergeants and 1,937 patrolmen, distributed in 19 divisions and a traffic division. Signal service men, 16; clerks, janitors, etc., 163.

Cost of maintenance for 1938, $5,997,107 or $16,491 less than in 1937.

Total number of arrests in year ending November 30, 1938, 97,187 or 1,239 more than in previous year; persons arrested on warrants, 14,745; without warrants, 52,490; summoned by the courts, 29,952; of those arrested, 6,931 were discharged and all others held for trial; foreign-born persons arrested, 12,116 or 12.46 per cent of total; boys under 17 years of age, 2,787; women and girls, all ages, 8,485; non-residents, 27,441, or 28.23 per cent of all arrested.

Drunkenness the cause of 40,815 arrests, an average of 111 per day or 42 per cent of total. This is 4,919 less than the number of such arrests in 1937 and 1,368 less than the average for the past five years. The prosecutions for homicide numbered 142; arrests for refusing to support family, 1,015; violation of automobile law, 15,544; violation of liquor law (State), 137; violation of City ordinances, 269; violation of street traffic regulations, 15,477; suspected persons, 5,400.

Sick and injured persons assisted, 9,410; insane persons taken in charge, 494; lost children restored to homes, 1,533; persons imprisoned, 7,017; persons fined, 17,957, the fines amounting to $157,817; stolen property recovered, $447,021.50; licenses issued, 21,356 (including 12,621 for dogs and 5,334 for vehicles and drivers), for which $67,209 was received. Of 2,629 applications for licenses to carry loaded revolvers, 2,431 were granted.

Accidents from all causes in the streets, parks and squares caused death of 122 and injury to 7,289. Automobile accidents killed 76 and injured 4,431. The automobile fatalities were 62.3 per cent of the 122 deaths.

Annual salaries: Commissioner, $8,000; superintendent, $7,000; deputy superintendents, 4 at $4.500 each; captains, $4,000; lieutenants and lieutenant-inspectors, $2,700; sergeants, $2,500; patrolmen, $1,600 the first year, with $100 yearly increase until maximum of $2,100 is reached. The Traffic Division numbered a force of 211 in 1938.

In 1938, the Police Charitable Fund amounted to $207,550 and $7,900 was paid to 54 beneficiaries during said year.

METROPOLITAN DISTRICT, 1938.

Total valuation of the 43 cities and towns in the Metropolitan District in 1938 was $3,499,398,193 and the property tax on the same was $130,474,309. The average tax rate was $33.28. Strictly speaking, tax rates cannot be averaged. A rate of $37.28 would be required to raise $130,474,309 on a valuation of $3,499,398,198. Of the total valuation, 44.37 per cent applied to property in Boston.

The total valuation of the 13 cities in the district was $1,126,838,735 with a total property tax of $42,494,084, requiring a tax rate of $37.71.

Boston's tax rate of $41.30 was exceeded by Chelsea ($46.20), Revere ($47.00), Saugus ($46.00) and Somerville ($43.90).

REVENUE BOND ACTS.

The 1936 issue of the "Municipal Index" contains a detailed study of the revenue bond acts in the thirty-three states which have enabling acts, and reports of all forty-eight states, showing what advantage has been taken of these acts by cities to finance the construction, operation and maintenance of sewerage systems and sewage treatment plants by service charges.

The table shows the status of revenue bond acts and other enabling acts in the different states, the dates when the acts became effective, and whether or not cities have taken advantage of the opportunity offered for financing bonds by service charges. In the case of states with no enabling acts, the table shows whether cities are charging sewer rentals under some other authority.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

BUDGETARY CONTROL.

Prior to installing the present system of budgetary control, effective as of January 1, 1939, the city of Newark had no centralized accounting control over its budget commitments. The city's general ledger contained accounts for the various budget appropriations, and reflected disbursements out of the appropriations. However, commitments for work and material were not recorded in the city's accounts until after bills submitted by the vendors had been approved for payment by the Board of Commissioners. Consequently, financial reports could only show the amount of appropriated moneys that had not been disbursed out of any account. No recognition could be given in these reports to the unpaid purchase commitments, since the amount was not known. *The American City.*

TAUNTON'S ASPHALT PLANT.

One of the functions of a city public works or street department is to operate as effectively as possible in the construction and maintenance of its streets and sidewalks and to produce the necessary materials for paving at the lowest possible cost. In some cities this is effected by the purchase of all paving materials in either the raw or the mixed stage. Taunton has used a city-owned 100-ton asphalt plant for street paving and maintenance and for sidewalk construction for ten years. Located in the city yard with the equipment repair shop and garage, the plant is housed in a 60 by 90 foot building with a 30 by 100 foot wing, which was formerly used as a foundry. *The American City.*

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, OCTOBER 25, 1941. NO. 43

THRONGS OF CITIZENS OF BOSTON JOIN IN PAYING TRIBUTE TO LATE MRS. MARGARET M. TOBIN, MOTHER OF MAYOR TOBIN — PASS IN STEADY PROCESSION BEFORE BIER AS SHE LAY IN DEATH AT LATE HOME — HIGHEST OFFICIALS OF STATE, CITY AND CIVIC BODIES EXTEND SYMPATHY TO SORROWING FAMILY AND ATTEND FUNERAL SERVICES AT MISSION CHURCH, IN ROXBURY — MEN AND WOMEN OF EVERY WALK OF LIFE SHARE IN CEREMONIES AND MOURN WITH FAMILY.

The heart of all Boston bowed in grief and sympathy with Mayor Maurice J. Tobin and his family in their bereavement over the death of his mother, Mrs. Margaret M. Tobin, whose funeral took place on Tuesday morning from the Church of Our Lady of Perpetual Help, Roxbury's Mission Church, with a Solemn High Mass of Requiem being celebrated.

The church was crowded to the doors with sorrowing and sympathetic friends, while thousands who could not enter assembled on the outside, eager to pay their last respects to one whose influence had been felt for the good of the community during the long period of years in which she lived in the Roxbury district. In gentle serenity she had lived her life of usefulness and helpfulness to all who came under her kindly influence, and tenderly she was laid at rest in Old Calvary Cemetery, all her earthly services completed.

Among those attending the services were hundreds of officials high in the state and municipal services, and the leaders in civic organizations.

The Solemn High Mass of Requiem was conducted by the celebrant, Rev. James Powers, C. SS. R., acting rector of the parish. The deacon was Rev. Mark DeCoste, C. SS. R., one of the clergy of the parish; the subdeacon was Rev. James Keane, C. SS. R., another of the parish clergy; the master of ceremonies was Rev. Thomas J. Fallon, C. SS. R., also of the parish clergy, and the thurifer was John Mulkern, assisted by boys of the senior class of the Mission Church Grammar School, from which Mayor Tobin was graduated.

Professor F. E. Fassnacht was at the organ. The male choir of one hundred boys and men chanted the Gregorian Mass. There were no solos. Prior to the Mass, Professor Fassnacht played Chopin's "Marche Funebre."

The pall bearers were Timothy P. Daly, a nephew, of Quincy; James J. Daly, a nephew, also of Quincy; Thomas Richardson, a grand-nephew, also of Quincy; Dr. Roger T. Doyle of Roxbury, John M. Kelly of Roxbury and Edward Burke of Dorchester.

Serving as ushers were Angelo Berlandi, of the Mayor's secretarial staff; William T. Doyle, the Mayor's chief clerk; Louis J. Brems, Director of Public Celebrations; Fire Commissioner William Arthur Reilly; Corporation Counsel Robert Cutler; former City Treasurer James J. McCarthy; Leo F. Power, Superintendent of Public Buildings; Frank J. Fay, City Registrar; Hugh J. Campbell, Institutions Commissioner; Francis X. Lang, Budget Commissioner; William Greeley, Thomas Donahue, Thomas Brennan, Frank Power, Timothy McCarthy, John Hallissey, John Flannery, Joseph P. McManus, Leo Kelly; Frederick Moncewicz of the Municipal Survey Committee; Daniel O'Connell and Daniel McGillicuddy, both of the Transit Department; Andrew J. Dazzi of the Board of Commissioners of School Buildings; James J. O'Keefe, Frank Kelly, William Kelly, Eugene Hudson; James H. Flanagan of the Boston Finance Commission; John A. Breen, chairman of the Housing Board; Patrick F. X. Nagle, William L. Baxter; Stephen J. Hughes, Director of the Municipal Employment Bureau; Edward English, Henry E. Baker; Assistant City Clerk John B. Hynes; Thomas Mahoney, William Monahan, John Daley, Henry Parkman, William Harrison, Walter Nolan, Joseph Donovan, John Cook; Frank X. Lane of the Housing Board, and Louis Hoffman.

Burial was in Old Calvary Cemetery. Prayers were said at the grave by Reverend Father Powers.

Among the honorary pall bearers was former Mayor Frederick W. Mansfield.

Legislative Delegation.

A delegation from the Massachusetts House and Senate was present, composed of Chester H. Dolan, David M. Owens, Catherine Falvey, Susan Donovan, Richard Kelley, Thomas Coyne, Enrico Cappucci, John Powers, Louis Lobel, Lawrence McHugh, Thomas MacCready, Thomas Feeney and Edward Cappidullo.

Additional members of the delegation from the State House were: Representatives James McAndrews, Charles Kaplan, Theodore A. Glynn, Jr., Gerald Skally, William McMorrow, Gerald Crowley, John Carroll, Charles Driscoll, George Mitchell, Patrick McDonough, William Nyhan, James McDevitt and Senator William Grant.

Others present included Election Commissioner Francis McKinney, James J. Mahar, Superintendent of City School Buildings; Frank L. Murphy, and Arthur Sullivan, Register of Probate; Dr. J. Lynde Gately, City Health Commissioner; Capt. William Donovan of Station 14, Police Department; Deputy Superintendent William J. Carey; Clement A. Norton of the School Committee; Mrs. Elizabeth C. Giblin of Jamaica Plain, president of the Gold Star Mothers of Massachusetts; John Quinn, secretary of the Boston Braves; State Commander Richard Cunningham of the American Legion; National Commander Max Singer of the V. F. W., and Joseph T. Kelley and Thomas Freeley, secretaries to the Mayor.

Leaders Attend.

Among the many public figures attending were the other three candidates for Mayor in the November election. Present were former Governor and Mrs. James M. Curley, former Mayor and Mrs. Malcolm E. Nichols, and School Committeeman Joseph Lee.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

Boston, October 9, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Under date of October 6th, 1941, bids were opened for one 2 to 3½ ton dump truck for use at Long Island, Institutions Department.

The Massachusetts Motor Car Company is the low bidder and meets the specifications set up for this truck, bidding on a Dodge, Model WHA 45, 1942 series.

Permission is therefore respectfully requested to award this contract to the Massachusetts Motor Car Company, of 1186 Commonwealth avenue, Boston, in the amount of $1,749, less $15.40 cash discount for payment in ten days, making a net total of $1,733.60.

Respectfully yours,

Francis X. Lang,
Acting Superintendent of Supplies.

—

Upon October 16 the Mayor approved a contract with the Thomas W. Reed Company for furnishing twenty-four Standard South Department cribs, as per specifications, for the Boston City Hospital, at a price of $44.50 each, less 2 per cent cash discount for payment in ten days. *Contract awarded.

Transit Department.

Upon October 16 the Mayor approved a contract with J. P. O'Connell Company for furnishing Portland cement. Bids, opened October 9, were as follows:

J. P. O'Connell Company, $5,200.

WITHOUT ADVERTISING.

Upon October 15 the Mayor approved the request of the Suffolk County Court House Commission as contained in the following communication:

Suffolk County Court House.

Boston, October 14, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—Your approval is hereby requested by the Suffolk County Court House Commission for authority to make an arrangement, without advertisement, with the George A. Fuller

Company of Boston for repair of the hollow tile fireproofing at the back and ends of the four corner elevator shafts in the new portion of the Court House. In the back of the hollow tile fireproofing in these four corner elevator shafts are the structural steel wind braces for the block of elevators, and some cracks and other indications of having been insufficiently anchored for withstanding the vibration of the rapidly moving elevators have developed. The hollow tile fireproofing in the back of the other four elevator shafts, two in the center on each side of the building and between the corner elevator shafts needing repair, need no attention.

The George A. Fuller Company, the contracting concern which had the general contract for the construction of the new portion of the Suffolk County Court House is familiar with its elevator fireproofing construction, will do the work of repair, to the satisfaction of the Building Department of the City of Boston and to the owner, at its cost, which is to be made up of the cost of the labor and materials necessary for doing the work, the cost of Social Security insurance, and the cost of public liability insurance, without any inclusion in that cost of any other charges for overhead, or for supervision or otherwise, and of the foregoing costs the George A. Fuller Company will contribute two thirds and the Suffolk County Court House Commission one third. The Court House Commission, in addition, will furnish elevator service operated by its regular employees for doing the work, and is to reimburse the George A. Fuller Company for such amounts as it shall necessarily expend for any additional help to operate the elevators; and the commission will also provide the necessary structural engineering drawings for the repair work and the engineering inspection of it.

The total cost of the repair work which the George A. Fuller Company is to do, of which the Court House Commission is to contribute one third, cannot be accurately determined in advance, but it is estimated as not to exceed $9,000. The use of the Court House elevators while operated by the regular Court House operators will not cause additional pay roll expenditures. The cost of the structural engineering drawings will approximate about $200, and the outlay for engineering inspection of the repair work as it progresses, while depending upon the time consumed, will be at cost and is estimated as not to exceed $400.

There is no outstanding contractual liability, the Law Department advises, upon the George A. Fuller Company to make these repairs either under its general contract for the construction of the Court House or upon its surety bond for the performance of the contract, the period of such guaranty having expired.

Sufficient funds, it is believed, are available in the 1941 Suffolk County Court House Budget for defraying the cost of this work upon the above basis, without any additional appropriation.

It is imperative that this work of repair, now that the Building Department of the City of Boston has approved how it is to be done, should be started forthwith, and, therefore, it is respectfully requested, under the provisions of chapter 156 of the Acts of 1939 that you indicate at your earliest convenience your approval for entering into the foregoing arrangements for repair of fireproofing without public advertisement.

Very truly yours,

Suffolk County Court House Commission,
by Charles M. Davenport,
Chairman.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Fowler and Mabel Fowler, husband and wife, as tenants by the entirety; that the amount $285 be, and the same hereby is, awarded to Edward G. Fowler and Mabel Fowler, husband and wife, as tenants by the entirety, for the damages so sustained.

TO PURCHASE BRICKS FOR GYMNASIUM.

The Mayor has approved the following request of the Superintendent of Construction:

Hon. Maurice J. Tobin,
Mayor of Boston.

My dear Mr. Mayor,—I respectfully request your approval to an expenditure of $1,300 for the purchase of bricks for the erection of a gymnasium in the Frank V. Thompson School. The price quoted by the contractor furnishing this material is $35 per thousand.

My reason for making this request is as follows: The exterior of the original building is constructed of Barrington brick manufactured by the Barrington Brick Company, Barrington, Rhode Island. It is my desire to construct the addition using the same color and type of material as in the original structure.

I believe that there is no other brick material obtainable which would match the present brickwork. No benefit would accrue to the city by publicly advertising bids for this material.

The contractor will render an itemized bill giving in detail the quantities delivered.

Respectfully submitted,

James J. Mahar,
Superintendent of Construction.

FOOD FOR NURSERY SCHOOLS.

The Mayor has approved the following request of the Overseers of the Public Welfare:

Boston, October 7, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—At the meeting of the Board of Overseers held on October 6, 1941, it was voted to appropriate the sum of $600 toward the cost of food for the W. P. A. Nursery Schools for the period from October 1, 1941, to December 31, 1941, inclusive, subject to your approval.

May we have your approval to this expenditure?

Sincerely yours,

William G. O'Hare,
Secretary.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

Forty feet of 12-inch pipe sanitary sewer and one special manhole in Maverick street at Border street, in the East Boston district, at an estimated cost of $800.80.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

CITY AUDITOR FOX ISSUES INSTRUCTIONS TO HEADS OF DEPARTMENTS CONCERNING FEDERAL EXCISE TAX LEVIES AND COLLECTIONS—URGES CONSIDERATION OF CLOSING ACCOUNTS FOR FISCAL YEAR.

The following instructions have been issued to heads of departments concerning Federal excise taxes and collections:

BOSTON, October 22, 1941.

To Department Heads and Officials.

FEDERAL EXCISE TAXES.

Under the Revenue Act of 1941 recently enacted by Congress, and effective generally October 1, new excise taxes have been imposed, increases in existing taxes have been placed in effect and rates formerly designated as temporary have been made permanent. In practically every instance, the taxes are imposed upon either the manufacturer or the retailer. In either event, purchases by city and county departments are exempt from the tax. The manufacturer or retailer can secure relief from the tax by filing with Federal officials a certificate of exemption executed by the municipal official to whom the sale was made.

In the case of purchases under contracts executed by the Supply Department, it is the general policy of this latter department to make provision in the contract proposal for the proper deduction of any excise tax. In purchase of items which are not covered by contract, however, there is a danger that the excise tax exemption may be overlooked, thus causing the city to pay higher prices than are necessary. This can be obviated by requiring vendors in submitting their invoices to show the sale price, the amount of the tax and the net price to the municipality. This procedure will remove any possibility of the city paying a tax from which it is specifically exempt by law.

The schedule of Federal excise taxes from which exemption may be claimed by city departments is as follows:

Business machines	10%
Electric, gas and oil appliances	10%
Electric light bulbs and tubes	5%
Electric signs	10%
Firearms, shells, cartridges	11%
Gasoline, per gallon	1½ c.
Inner tubes, per pound	9 c.
Lubricating oils, per gallon	4½ c.
Luggage	10%
Matches, paper or plain wooden, per M	2 c.
Matches, wood with fancy or colored stem or stick, per M	5½ c.
Mechanical refrigerators, air conditioners and parts	10%
Motor vehicles:	
Passenger automobiles—chassis and/or body	7%
Busses, trucks and semi-trailers—chassis and/or body	5%
Automobile parts and accessories (except radios, tires and inner tubes)	5%
Motorcycles	7%
Musical instruments	10%
Optical equipment (not including eyeglasses),	10%
Photographic apparatus	10%
Pistols and revolvers	11%
Radio receiving sets, tubes, parts (including automobile radios)	10%
Rubber articles (except footwear and articles for surgical or hospital use)	10%
Sporting goods (except uniforms and sport clothes)	10%
Tires, per pound	5%
Bituminous coal, per ton	1 c.

Invoices covering deliveries of any of the above items should be carefully checked by department officials and contacts made with vendors in case there is any question as to the proper deduction of the tax.

In addition to the foregoing taxes, the new Revenue Act provides for excise taxes on certain facilities, such as telephone and telegraph services and transportation charges. While city and county departments are automatically exempt from any taxes on telephone and telegraph services, thus relieving the companies furnishing such services from the necessity for listing the taxes on the bills rendered, nevertheless there is always a possibility that through inadvertence such charges may appear on bills submitted to city and county departments. In the event of such a happening the tax should be eliminated, since, as governmental units, the city and county are exempt.

Officials and employees who are required to use railroad and Pullman accommodations in connection with their official duties should make the official nature of their travel known to the agent from whom they purchase their tickets. Failure to do this will impose on the city treasury the 5 per cent excise tax provided in the new Revenue Act.

Strict observance of the instructions contained in the foregoing paragraphs will mean in the course of a year substantial savings to the municipal treasury. Under no circumstance should approval be given to any charge involving an excise tax from which the municipality is exempt.

CLOSE OF THE FISCAL YEAR.

With five sixths of the current year practically over, departments should start to give consideration to the closing of the accounts of the fiscal year. In order that 1941 expenditure figures may be available before the close of January to the Budget Department, it is my present intention to set January 10, 1942, as the last date for the submission of bills to be charged against 1941 appropriations. Since this is the shortest period to be allowed in recent years for cleaning up accounts of the old year, it will be necessary for departments to anticipate their needs for the balance of the current year and to cover these requirements by the issuance of requisitions and orders not later than the middle of December. In view of the growing scarcity of many supplies and materials, it is doubly important that departments adopt a forward-looking policy in the matter of requisitioning supplies and ordering services.

INSUFFICIENCY OF APPROPRIATION NOTICES.

Orders received in this department are approved for issuance only if available funds are present in budget accounts to be charged. When sufficient funds are not available, the orders are held in this office and a notice is sent to the head of the department concerned. Receipt of such a notice should be followed by immediate action either to secure the necessary funds by transfer or re-allocation or to request cancellation of the orders. Under no circumstances should the notices be placed on file and the orders allowed to remain "in suspense" in this office for an indefinite period.

DAMAGE TO DEPARTMENTAL PROPERTY.

The following procedure should be observed when departmental equipment or property is damaged or destroyed by persons not connected with the city:

1. Notify the Law Department immediately so that the necessary legal steps may be taken to protect the city's interests.
2. Issue a service order chargeable to the appropriate departmental budget item authorizing the repair of the damage.
3. When the extent of the damage has been ascertained, prepare a bill against the party responsible and send the same with a commitment notice to the City Collector.

In the event collection of the damage amount is made by the City Collector, this amount will be credited to the general revenue of the city. Under existing law, collections of this character cannot be applied to payment of the cost of repairing the damage.

CHARLES J. FOX,
City Auditor.

POLICE DEPARTMENT ORDERS.

General Order No. 650.

The police officer hereinafter named having performed faithful service in the Police Department for the years stated; and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the police force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate set out (to be paid monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired; effective as of Saturday, October 18, 1941, at 7.45 o'clock a. m.:

Patrolman Oscar F. Pennington, Division 6, 21 11-12 years of service, amount of pension $1,050 per year.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

Edward M. Matz, Inc., has been granted an extension of the time of completion of the contract for bituminous pavement, etc., in Herbertson road, etc., streets, dated August 1, from October 15 to December 1. This extension is requested for the reason that a shortage of skilled labor and mechanical equipment has caused the work to proceed more slowly than anticipated.

TRAFFIC CHANGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board having passed the order of notice relating to the public improvements hereinafter described, and having caused a copy of said order to be published September 26, 27, 1941, and September 29, 30, 1941, in the *Boston Globe* and *Boston Post,* two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience and necessity so require, does hereby order that specific repairs be made as follows:

The installation of so-called divisional islands six feet in width in the roadway area of Boylston street that extends

from and including Charles street to Arlington street, and the installation of two pedestrian safety islands in Boylston street and in Charles street, at the southerly street line of Boylston street;

In order to facilitate the movement of traffic, the curb line at the southeasterly side of the traffic circle located at the intersection of Nashua and Leverett streets be increased to a radius of forty-five feet;

In order to facilitate the movement of traffic, the curb located on the northerly side of East Eighth street, west of Gates street, South Boston, is to be changed to a radius of 73.5 feet;

The narrowing of the sidewalks on both sides of that section of Huntington avenue, Roxbury, that extends from a point near Calumet street to a point near Wait street, from their existing widths of approximately 13 feet each to a proposed width of 8 feet each, thereby increasing the roadway area from its present width of 54 feet to a proposed width of 64 feet;

The changing of the curb line on the northerly side of Boylston street from the intersection of the westerly curb line of Arlington street to a point approximately 80 feet west of the latter-referenced curb line, in order to provide for a reduced width of sidewalk on Boylston street varying from a 10-foot width at the westerly street line of Arlington street to the present width of 15 feet, at a point approximately 60 feet west of the westerly street line of Arlington street.

EXTRACT FROM MINUTES OF MEETING OF THE CITY PLANNING BOARD.

Tuesday, September 9, 1941.

Upon motion of Professor Gramstorff, seconded by Miss Fitzgerald, it was:

Voted, In view of the fact that the Board had elected Mr. Malley, Executive Director, it appears that the best interests of the department will be filled by his withdrawing from the position of Secretary in order that it be filled by some other member of the staff.

Upon motion of Miss Herlihy, seconded by Mr. Mitchell, it was:

Voted, That Miss Downey be appointed Secretary in view of her particular suitability, together with her eighteen years of service in the department.

MAYOR TOBIN PROTESTS NEW INSURANCE RATES.

The Mayor of Boston has filed a brief with the Insurance Commissioner, stating two objections to the 1942 rates for Boston. These objections have been urged at the hearing at 10 a. m., Thursday, October 16, by Robert Cutler, Corporation Counsel.

The first objection is that the Boston losses for the past five years, which are used in fixing the rate, are not a fair measure of what Boston car owners should have to pay for insurance. These losses occur largely in Boston, because Boston cars are largely operated in Boston. The risk of driving in Boston is greatly increased by the volume of traffic in Boston.

At the hearing, Mr. Philip Desmond, chief traffic engineer of the Boston Traffic Commission, testified that there is a greater volume of traffic in Boston than anywhere else in the Commonwealth, and that according to traffic counts, two thirds of such traffic consists of cars registered outside of Boston. Tabulations of such counts and traffic traps were put into evidence. The risk to Boston cars, and the losses charged to them, is, therefore, greatly increased by the operation of "foreign" cars in Boston. Boston cars are not responsible for this extra risk, and should not be made to pay for it.

The Mayor has asked for data from the Insurance Commissioner which will show the number of claims against Boston cars, and the number of claims against "foreign" cars arising out of operation in Boston. Similar data has been asked for other parts of the state.

When this data is available, the Mayor is confident that it will show that Boston has a much higher percentage of "foreign" claims arising within its limits than any other community. From this data it will be possible to arrive at a figure which can be used to correct the present Boston rate.

The second objection relates to that part of the rates which consists of an allowance to the companies for expenses and profit. The Insurance Commissioner was asked to consider whether the proportion of these expenses now assigned to Boston was not unfairly high, and was further requested to consider, with respect to this question, data in his files relating to the actual expenditures by the companies on account of Boston policies.

CONTRIBUTIONS TO SALVATION ARMY.

To the Heads of All Departments.

Gentlemen,—The closing date for the final report of the city employees' contribution to the Salvation Army Drive is October 30, 1941.

We are particularly anxious to have the city employees' contribution exceed that of other years, and if this is to be accomplished, the drive will require an extra boost.

Won't you please help to give it that extra impetus?

Any questions concerning the Salvation Army Drive should be directed to Mr. William L. Dowling in the City Treasurer's office.

Sincerely yours,

Merritt Thompson,
City Collector.

TRAFFIC COMMISSION RULINGS.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT, SEWERAGE WORKS, RETAINING WALL, REBUILDING STEPS, ETC., IN PARKER STREET, WARD 10, FROM DELLE AVENUE ABOUT 156 FEET SOUTHERLY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement, etc., in Parker street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement, Etc., in Parker Street, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, October 28, 1941, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, NOVEMBER 1, 1941. NO. 44

ABANDONED DORCHESTER TUNNEL INCLINE IN SOUTH BOSTON TO BE ELIMINATED—MAYOR TOBIN'S EFFORTS TO HAVE EYESORE AND LIFE MENACE REMOVED TO BE CROWNED WITH SUCCESS—PRESIDENT ROOSEVELT HAS APPROVED AN ALLOTMENT OF $44,000 OUT OF W. P. A. FUNDS FOR THE WORK, WITH CITY CONTRIBUTING $22,000, WHICH WILL BE CHARGED OFF TO DORCHESTER TUNNEL OPERATION ON WHICH ELEVATED ROAD PAYS RENTAL—WORK TO BEGIN SOON AND BE COMPLETED BY TRANSIT DEPARTMENT IN ABOUT FOUR MONTHS—ROADWAY TO BE BEAUTIFIED SIMILARLY TO BOYLSTON STREET.

As the result of studies made by the Mayor's Traffic Survey Committee and the City Planning Board, Mayor Tobin has been able to announce that one of the eye sores and menaces to the lives of autoists and citizens in the South Boston district will soon be eliminated. This will be the removal of the abandoned Dorchester Tunnel incline on Dorchester avenue, between West Fourth and West Fifth streets.

Mayor Tobin has been hopeful of being able to accomplish this improvement for some time but it is only now that assurance has been given that the work will be done. The Mayor received word from Washington this week that President Roosevelt had approved an allotment of $44,000 out of Works Progress Administration funds for the work.

The city's contribution toward the project is fixed at an estimated cost of $22,000 and will be made a cost of the Dorchester Tunnel on which the Boston Elevated Road pays an annual rental.

The Transit Department is already making plans to start the work immediately and it is estimated that four months will be required to complete the job. The removal of this incline, which has proven a very serious traffic hazard for many years, will not only benefit the community and the city by the elimination of a danger and a menace to life but will permit the widening of Dorchester avenue at this highly congested section to a width of 100 feet. There will also be safety islands erected at intervals in the center separating the inbound from the outbound traffic. The improvement will be of a kind similar to that just completed on Boylston street, opposite the Public Gardens. Mayor Tobin has been working toward this accomplishment for the benefit of South Boston for some time.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

Fire Department.

Upon October 27 the Mayor approved a contract as indicated by the following communication:

Boston, October 10, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—In response to an advertisement in the *City Record* of September 13, 1941, sealed proposals were received and opened at this office at 12 noon on September 24, 1941, for repairs to fenders and wharves at Northern avenue, Commercial street and South Ferry fireboat slips.

The work is to be done in connection with the Works Relief Program (Project No. 21707) now in operation in the department for repairing and painting of Fire Department buildings. Repairs to the fireboat fenders and wharves were written into this project with the approval of government authorities. As the W. P. A. personnel is unable to do the work it must be done by an outside contractor.

Proposals received from Buck-MacDonald Company, A. A. Hersey & Son Company, W. H. Ellis & Son Company and John P. Cavanagh were opened at this office at 12 noon, September 24, 1941.

A sealed proposal from James B. Rendle Company was received in the mail at this office at 2.27 p. m., September 24. However the proposal was postmarked "11.30 p. m., September 23, 1941." The duplicate proposal of the Rendle Company was deposited with the City Auditor before the time set for opening of bids.

The estimated work to be done consists of the following items:

Item 1.— About seventy piles pulled.

Item 2.— About 3,500 linear feet new oak piles, furnished, driven, fitted and fastened.

Item 3.— About 20 M. feet new yellow pine lumber, furnished, fitted and fastened.

Item 4.—About 100 gallons wood preservative, furnished, and applied to wood.

Item 5.—About 2,000 pounds bolts, etc., furnished and placed.

Item 6.—About 30 cubic yards of gravel, furnished and deposited.

Item 7.—About one clump of piles bound with wire cable.

Item 8.—About 4,500 pounds steel plate, furnished, fastened and fitted in place.

Subject to your Honor's approval, I will reject all proposals received for this work and award the contract, without advertising, to James B. Rendle Company, 27 Upland road, Malden, Mass., for the following unit prices:

Item 1.—$15 per pile.

Item 2.—$1 per linear foot.

Item 3.—$175 per M. feet.

Item 4.—$1 per gallon.

Item 5.—15 cents per pound.

Item 6.—$5 per cubic yard.

Item 7.—$50 per clump.

Item 8.—15 cents per pound.

In my opinion the award of the contract for repairs to fenders and wharves at the fireboat slips to James B. Rendle Company is in the best interests of the city as his proposal for doing the work is $2,000 less than the lowest of the four other bids received.

Very truly yours,

William Arthur Reilly,
Fire Commissioner.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with business firms, contractors, etc., for furnishing materials, etc. Communications from the heads of the several departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, October 16, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,— Subject to your Honor's approval, I will award, without advertising, the following repair work on Fire Boat Engine 31, "Angus J. McDonald," to the General Ship and Engine Works, 336 Border street, East Boston, for the sum of $1,500, the work to be as follows:

Circulating Pump and Engine: Open up circulating pump and remove impeller casing and impeller; make necessary repairs to impeller casing and apexior same; inspect impeller and make necessary repairs; renew stuffing boxes; remetal main bearings on circulating engine; repair discharge line from circulation pump to condenser; blank off same and test with city pressure; line up engine with pump; adjust all bearings and close up unit in good working order, $625.

Repairs and Renewals to Boat Deck: Remove all canvas on boat deck from companionway ladder aft; shore up smoke stack with angle clips to main deck to prevent sagging of stack and remove combing around stack; remove all sheathing that is found deteriorating and renew same; remove and renew beam and renew the combing around smoke stack; shore up the dock as found necessary; renew all canvas and lead flashing, canvas to be same weight as that now on deck; install lead sheet on gun foundation; all new work to be given two coats of lead paint; this work to be completed to the satisfaction of the Fire Commissioner, $875.

No advantage would be obtained by the city through publicly advertising the foregoing work as none of the other companies in Boston doing this type of repair work would accept the job owing to the pressure of other business. The repair work has been ordered done by the United States Steam Boat Inspectors. It is of an emergency nature and must be done immediately.

Very truly yours,

WILLIAM ARTHUR REILLY,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, October 15, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Authority is requested to incur an expenditure of $1,670 for hire of the steamer "Balmy Days," from Capt. Charles H. Wade of Hull, Mass., in an emergency, without advertising (Service Orders 37 and 40, effective October 1 through October 31).

Our steamer "Stephen O'Meara" went into drydock August 29 for repairs covered by the General Ship and Engine Company, 336 Border street, East Boston.

This expense is incurred because of the necessity for boat hire during the absence of the "O'Meara," which repairs are still in process. We now expect that work will be completed on or before October 31.

The charges made by Captain Wade appear to be reasonable and are the best that could be had. Therefore, because I feel that nothing can be gained by advertising, I hope your Honor can approve this request.

Respectfully yours,

HUGH J. CAMPBELL,
Commissioner.

PARK DEPARTMENT.

BOSTON, July 8, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—On July 1 I wrote your Honor a letter to the effect that it would be necessary for us to obtain outside contractural help to clean the beaches under control of this department. Since starting the cleaning of the beaches, we now find that it will be necessary for us to re-sand the men's, boys' and women's beaches at L street, South Boston. In order to get this work done at once, we will not have time to advertise and I have, therefore, entered into arrangements with the Boston Sand and Gravel Company to do this work.

It will be necessary for the contractor to move the existing sand ridges on the boys' bathing beach and excavate existing sand on the men's and women's beaches where new sand is to be deposited. The sand moved shall be used to fill in cavities and other depressions on the beaches.

The contractor is to furnish new Plum Island sand, to be spread on the beaches to an approximate depth of 6 inches, clean and heavy and free of stones, shells and all other objectionable substances. All sand shall be leveled off and graded.

The only concern I know of that can do this work at a moment's notice (and this work is of an emergency nature) is the Boston Sand and Gravel Company. This company is the one from whom the Supply Department purchases all the beach sand.

As nothing would be gained by advertising, I respectfully request that a contract be awarded the Boston Sand and Gravel Company, without advertising, for a sum not to exceed $3,900, same to be charged to B-39, Park Department, udg et.

Respectfully yours,

WILLIAM P. LONG,
Chairman.

—

BOSTON, Octo r , 94 .

HON. MAURICE J. TOBIN
Mayor of Boston.

DEAR SIR,—The Board of Park Commissioners respectfully requests your permission to enter into a contract with John A. McPherson, architect, 250 Huntington avenue, Boston, for the preparation of plans and specifications for repairs and alterations to the Cabot Street Bath House, Roxbury, Mr. McPherson to receive as fee for his services 10 per cent of the amount of the contract. It is estimated that the contract for this work will be between $7,000 and $8,000.

As Mr. McPherson is well qualified to do this work, we respectfully request that we be allowed to award him the architect's contract without advertising.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Park lane, West Roxbury district, from its present westerly end to Olmstead street, by means of steps, bounded and described as follows:

An extension of the highway named Park lane is hereby laid out, from its present westerly end to Olmstead street, by means of steps, with the name of Park Lane Footway, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southerly by the southerly end of said extension, five feet; westerly by the westerly line of said Park Lane Footway, as hereby laid out, seventeen and 75-100 feet; southerly by the southerly line of said Park Lane Footway, as hereby laid out, ninety-four and 55-100 feet; again westerly by Olmstead street, seven and 90-100 feet; northerly by the northerly line of said Park Lane Footway, as hereby laid out, ninety-nine and 65-100 feet; and easterly by the easterly line of said Park Lane Footway, as hereby laid out, twenty-five and 65-100 feet, containing eight hundred and seventy-six square feet, more or less.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Park Lane Footway, West Roxbury district, under the order of the Board of July 17, 1941, and awards no damages therefor.

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 6, 1941

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 8:01 o'clock P. M., the Chairman presiding.

Present: Messrs. Lee, McDevitt, Norton, and White.

—

APPROVAL AND AMENDMENT OF MINUTES

The reading of the minutes of July 21 and Sept. 10, 1941, was omitted, the Committee approving them as printed.

—

On motion, the minutes of June 2, 1941, were amended on page 119, by striking out in Order No. 12 of the orders making changes in and additions to the authorized list of text books, the following item:

Wells, L. R. Industrial History of the United States. Macmillan Company. cpt. 1926.

—

DEATHS

The Superintendent reported the death of the following-named principal:

John Winthrop District—Vincent A. Keenan, Sept. 26, 1941

Placed on file.

—

The Superintendent reported the death of the following-named teacher:

The Teachers College—Eleanore E. Hubbard, assistant professor, Sept. 19, 1941

Placed on file.

—

Mr. Lee: I have mentioned before my regret that often the members of the Committee do not personally know the teachers who have died after teaching throughout their lives in the schools and have always felt that they would be remembered in the lives of their students and I find consolation in paying tribute at moments like this.

As you know, I knew Dr. Hubbard well—whose passing has been mentioned here—from her work in developing economics courses in the schools, and I would like to point out here the great respect I had for her.

I believe she met a great challenge in pioneering in this work in the Boston School System, which was the first school system to thus develop courses in employment, money, financial and economic welfare problems.

—

The Superintendent reported the death of the following-named director emeritus who had been retired under the Boston Retirement System:

Department of Kindergartens—Caroline D. Aborn, director emeritus, Oct. 2, 1941.

Placed on file.

The Superintendent reported the death of the following-named teacher who had been retired under the Boston Retirement System:

Frank V. Thompson Intermediate District—Ida T. Weeks, July 27, 1941.

Placed on file.

—

The Superintendent reported the death of the following-named cafeteria attendant:

Roslindale High School — Margaret Wilson, Sept. 29, 1941.

Placed on file.

—

PROCEEDINGS OF CITY COUNCIL.

Monday, October 20, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair, and a quorum present.

The meeting was opened with the salute to the Flag.

RESOLUTION ON DEATH OF MRS. MARGARET M. TOBIN.

Coun. CAREY offered the following:

Resolved, That the City Council of the City of Boston, in meeting assembled, hereby extends to Mayor Maurice J. Tobin, and members of his family, its deep regret at the untimely passing of their beloved mother, Mrs. Margaret M. Tobin, whose life of willing sacrifice, devotion to her home, her church and her country, and fine example will always be remembered and cherished by those who knew her as one of God's true noblewomen.

The resolution was read a second time, and the question came on its adoption.

Coun. CAREY—Mr. President, for the second time in the short period of less than four years the heart of Mayor Maurice J. Tobin has been saddened by the hand of death. Shortly after the Mayor assumed office on January 1st, 1938, and almost without warning, his dear father was taken to his eternal reward, and now, within the last forty-eight hours, his beloved mother has been called out of this life. One's happiness in attaining public office is always shared by those who are near and dear to him, or, in other words, his father and mother, his wife and children, and his brothers and sisters. And great indeed was the joy of the mother of Maurice J. Tobin as she witnessed first his election to the House of Representatives from Ward 10; in later years his election to the Boston School Committee, and subsequently his election to the highly honored position of Mayor of the City of Boston. I can well remember a visit I made to the home of Maurice Tobin's mother within a few days after his election to the School Committee and how supreme was her joy in the realization that he had been chosen for that office by the voters throughout the entire city. Mrs. Margaret M. Tobin will be sadly missed, not only by her family, but by all of the people on Mission Hill, to whom she was known so well. In years when her health permitted it, and even in her more recent days of impaired health, her door was always open, and to her home went many seeking consolation and advice. Her kindly heart, and splendid qualities were known to all throughout the district, and their prayers, and the prayers of thousands throughout the city, were offered up daily for her recovery. Now that she has passed from this life we must bow in resignation to God's holy will, and in tribute to her memory I now move that we adjourn.

The resolution was adopted by a unanimous rising vote, and the Council stood adjourned at 2.26 p. m., to meet on Monday, October 27, 1941, at 2 p. m.

LAND-TAKING IN SOUTH BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land, being the rear parts of estates numbered 546 to 554, inclusive, East Fourth street, South Boston district, supposed to belong to Adam S. Komich and Elizabeth Greene, for municipal building purposes, as follows:

Whereas, The Board of Street Commissioners has passed the aforesaid order of notice and has caused a copy of said order to be published September 27 and October 4, 1941, in the *City Record,* and has given the public hearing notice of which was given in said order, and

Whereas, The Superintendent of Public Buildings of the City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for municipal building purposes the land hereinafter described, in that part of Boston known as South Boston, it is

Voted, That the Board of Street Commissioners of said City of Boston, acting under the provisions of chapter 486 of the Acts of the Legislature of 1909, and chapter 79 of the General Laws and all other authority thereto enabling, hereby takes in fee for said city, for municipal building purposes, the following described parcel of land, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Adam S. Komich, located in the rear of 546-548 East Fourth street, South Boston district, bounded and described as follows:

Northerly by land of the City of Boston, fifty feet; easterly by land supposed to belong to Elizabeth Greene, forty feet; southerly by land of said Adam S. Komich, fifty-eight and 62-100 feet; westerly by land supposed to belong to James A Wales, twenty-nine feet; again northerly by land supposed to belong to owners unknown, eight and 49-100 feet; again westerly by the same, eleven feet, containing twenty-two hundred and forty-six square feet, more or less.

A parcel of land, supposed to belong to Elizabeth Greene, located in the rear of 552 East Fourth street, South Boston district, bounded and described as follows:

Northerly by land of the City of Boston, thirty-two and 40-100 feet; easterly by land supposed to belong to Elizabeth Greene, forty feet; southerly by the same, thirty-two and 2-100 feet; westerly by land supposed to belong to Adam S. Komich, forty feet, containing twelve hundred and eighty-eight square feet, more or less.

A parcel of land, supposed to belong to Elizabeth Greene, located in the rear of 554 East Fourth street, South Boston district, bounded and described as follows:

Northerly by land of the City of Boston, twenty-five and 60-100 feet; easterly by other land of the City of Boston, forty feet; southerly by land supposed to belong to Elizabeth Greene, twenty-five and 98-100 feet; westerly by land supposed to belong to Elizabeth Greene, forty feet, containing ten hundred and thirty-one square feet, more or less.

Said parcels are shown on a plan marked "City of Boston, East Fourth Street, South Boston, September 20, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that the undermentioned estates sustain damages by the taking made for municipal building purposes in East Fourth street, South Boston district, under the order of the Board of October 16, 1941, in the amounts hereinafter set against them, and awards said amounts therefor.

Adam S. Komich, 2,246 square feet, $1.00.

Elizabeth Greene, 1,288 square feet, $1.00.

Elizabeth Greene, 1,031 square feet, $1.00.

LAND TAKING IN CITY PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the widening of the roadway of Boylston street, Boston Proper district, as a highway, between Arlington street and Dartmouth street, by moving present curbstone on northerly side of said street five feet north of its present location, bounded and described as follows:

The roadway of Boylston street is hereby widened on the northerly side, from the westerly curb line of Berkeley street to the easterly curb line of Clarendon street, by moving the curb on Boylston street five feet north of its present location, thus reducing the width of the Boylston street sidewalk from fifteen feet to ten feet, be all or any of said measurements more or less.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the widening of the roadway of Boylston street, Boston Proper district, as a highway, between Berkeley and Clarendon streets, under the order of the Board of October 20, 1941, and awards no damages therefor.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

Department of School Buildings.

Upon October 27 the Mayor approved a contract with P. J. Riley & Co. for plumbing work at the Frank V. Thompson School. Bids, opened October 21, were as follows:

P. J. Riley & Co., $2,743; Joseph P. O'Hearn, $2,835.

In connection with this price a request was made through the advertisement that sub-bids for slate work and pipe covering be deposited by the sub-bidders of record on October 17, 1941, before 12 noon. This department received in good order the sub-bid from the Freeport Tile and Marble Company for the installation of the slate work as called for in the specifications.

Through an inadvertence of the department the general contractors of record were notified that no sub-bids were received in accordance with chapter 480 of the Acts of 1939. P. J. Riley & Co. have agreed to award to the Freeport Tile and Marble Company, the sub-contractor for the installation of the slate work.

CHANGES IN CONTRACT.

Park Department.

The Central Construction Company has been ordered to make the following changes in the contract for furnishing and laying bituminous concrete pavement mixture on parkways, playgrounds and parks and in cemeteries signed July 12, 1941:

1. Where directed by the department excavate and dispose of the clay surface mixture from tennis courts. Prepare foundation for new asphalt surfacing. Cinder and gravel foundation to be levelled off to the proposed sub-grade. Additional cinders or gravel necessary will be furnished by the city. The foundation shall be thoroughly compacted by rolling with a roller weighing at least six (6) tons. For all this work in excavating and preparing the foundation for the new asphalt surfacing shall be paid on the basis of the cost of labor and equipment plus fifteen (15) per cent.

2. On binder course for tennis courts lay a Sealdrock asphalt top surfacing mxiture according to the standard specifications of the City of Boston instead of the semi-rough surfacing mixture as called for in the contract. For each ton of Sealdrock top surfacing mixture laid the sum of three and 2-100 (3.02) dollars over the contract price per ton will be added to the contract price.

3. Omit approximately 4,000 tons of bituminous concrete pavement mixture which cannot be laid due to shortage of W. P. A. workers. For each ton of bituminous concrete pavement mixture omitted the contract price of four and 22-100 dollars ($4.22) will be subtracted from your contract price.

Estimate of Quantities.

Additions: Removal of old clay surfacing mixture, etc., $4,500; 1,250 tons Sealdrock surfacing mixture at $3.02, $3,775; total, $8,275—deductions: 4,000 tons bituminous concrete pavement at $4.22, $16,880; total deductions, $16,880; total additions, $8,275; net deduction, $8,605.

POLICE DEPARTMENT ORDERS.

General Order No. 651.

The Superintendent of Police is hereby directed to make the following details for duty at the City Election in this city on Tuesday, November 4, 1941.

1. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the City Election at about 10 o'clock a. m., Monday, November 3, 1941, such details to continue until all ballots cast at the Election have been returned.

2. A detail of one patrolman for duty in parking area surrounding City Hall Annex at 5 o'clock p. m., Monday, November 3, 1941 (the night before election day), to keep the entire area clear for the following morning, so that motor trucks, coming to the Election Commissioners' office for ballots at early hours on election morning, will be able to park without interference or delay.

Note.— The Board of Election Commissioners states that the Traffic Commission has been written to for "No Parking" signs, to reserve space necessary for motor vehicles assigned to the Board on Tuesday, November 4, for election purposes.

3. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks from 5 o'clock a. m., Tuesday, November 4, 1941, until relieved, and a patrolman from 8 o'clock p. m., on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

4. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on City Election Day, to preserve order and protect voters in the full exercise of their rights.

Note.— The superintendent will arrange for an interchange of patrolmen at the respective polling places on City Election Day, as the Board of Election Commissioners has written to the Police Commissioner it has found that arrangement to be most satisfactory.

5. Twenty-three sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season, to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

Schedule for Hours of Departure of Sergeants so Detailed from Office of Board of Election Commissioners on Morning of November 4, 1941.

One motor vehicle for each of the twenty-two wards, excepting Ward 1, East Boston, for which two trucks have been engaged.

Wards 1 to 7, both inclusive, 6. a. m.
Wards 8 to 10, both inclusive, 5.30 a. m.
Ward 11, 5 a. m.
Ward 12, 5.45 a. m.
Wards 13 to 17, both inclusive, 5.30 a. m.
Ward 18, 4.45 a. m.
Wards 19 and 20, 5.20 a. m.
Ward 21, 5.25 a. m.
Ward 22, 5.30 a. m.

6. For proper coordination in the delivery of ballot boxes, ballots, etc., by the sergeants, as herein set forth, to the police officers detailed at the various precincts, it is of the utmost importance that such sergeants leave the City Hall Annex promptly on time as per schedule.

7. One patrolman to report at each of the three hundred and eighty-six precincts, as hereinafter set forth, on Tuesday, November 4, 1941, to receive ballot boxes, ballots, etc., from the sergeants detailed on motor trucks.

From the opening to close of the polls, there shall be detailed an additional police officer outside of each of the three hundred and eighty-six (386) polling places in the city.

This provision is made to prevent alleged continued violations of the election laws relative to distribution of campaign literature within 150 feet of a polling place, and to remedy conditions at poll-

ing places, reported by the Board of Election Commissioners, which have brought complaints from voters to the effect that campaign workers and loiterers outside of the polls have hampered their progress to and from voting.

NOTE.—The Board of Election Commissioners points out that a candidate running on stickers (or his representative) may stand at the entrance to the polling place to distribute his stickers.

In Ward 22, Precinct 3, from the opening to close of the polls an additional officer will be detailed outside the polling place, making two officers, in all, on the outside, at that location.

SCHEDULE OF THE HOUR FOR OFFICER TO REPORT IN EACH OF THE PRECINCTS TO RECEIVE BALLOT BOXES, BALLOTS, ETC., FROM SERGEANTS DETAILED ON MOTOR TRUCKS.

Ward 22, Precincts 13 and 14, 7 a. m.

8. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes as is plainly seen, with the balance of the delivery schedule.

9. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

10. Cards with the ward and precinct number and location of voting booth printed thereon will be forwarded to the several police divisions, on which the division commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of November 4, 1941, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' office on the morning of November 4, with the ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

11. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

12. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

13. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

14. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of polls.

15. When the polls are opened, the patrolman will mark in the place indicated on tag attached to the key the figures which the register shows before any ballots are cast.

16. At 8 p. m., Tuesday, November 4, when the polls close, one sergeant will report in each of the twenty-two wards (excepting Ward 1, East Boston, for which two sergeants and two motor trucks are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot box, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots, and check-lists, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

17. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in section 16 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put into the box for unused ballots and the box sealed and certified, to be delivered to the office of the Board of Election Commissioners as set out in the paragraph immediately preceding.

18. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

19. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

20. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official return, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

21. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else, shall be placed by the warden in the leatheroid box for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book, and press return to the City Hall Annex, Court

square, and deliver same to the Election Commissioners.

The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box.

22. While the polls remain open, an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division the officer in charge will communicate immediately with headquarters.

23. Attention is called to the fact that the polls at the City Election on Tuesday, November 4, 1941, shall open at 8 o'clock a. m. and close at 8 o'clock p. m.

24. Commanding officers of divisions will see that the officers detailed for duty on City Election Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Election Days."

25. The counting of ballots will be done on one table only with two inspectors counting and two inspectors watching the count.

Notes.

(A) Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on . . . Election Days," which reads: "The police officer is directed not to allow the official return, press return or record book to be placed in the leatheroid box."

On this subject the Board of Election Commissioners wrote on a previous occasion:

" . . . This matter is very important and we have stressed it for years; still we have difficulty in respect to it at every primary and election. This year we are again giving our election officers special instructions, and we believe that if the officer is alert he can remind the precinct workers that the three items named . . . (official return, press return and record book) are to be given to him to return to the office of the Election Commissioners."

The officer of rank who will visit the polling places in each division (provided for in section 22 of this order), shall at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officer who will deliver them as set out in the paragraph immediately following.

(B) The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book, which he shall safely deliver to the Election Commissioners with the leatheroid box, as provided in section 21 of this order.

(C) The Police shall enforce the order that smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 386 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice and provide means to correct the following conditions set out in a paragraph of a letter received by the Police Commissioner from the Board of Election Commissioners.

"May we again call your attention to the law which prohibits smoking in any polling place, and ask you to have the officers who are detailed to the three hundred and eighty-six (386) precincts make a special effort to see that there is no smoking during the entire day, while the polls are closed as well as after they are open."

(D) The following matter was on a previous occasion brought particularly to the attention of the Police Commissioner in writing by the Board of Election Commissioners.

Commanding officers will see that this cause of complaint, if it again occurs, is corrected.

"During the hours from 6 p. m. to 8 p. m. there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. May we ask that the police use every effort to relieve this congestion?"

(E) Under date of October 27, 1939, the Board of Election Commissioners wrote to the Police Commissioner as follows:

"We also request that the officers assigned to the polls be reminded that it is the privilege of the voters to watch the count of votes cast; the law specifically states 'The voting lists and all ballots removed from the ballot box shall be kept in open view of the voters present until enclosed and sealed up, and all proceedings in the canvass and counting of votes shall be public and in open view of the voter.'

"It is understood, of course, that no disturbance or crowding is to be allowed and that the voters are to remain outside the rails."

(F) In letter dated October 29, 1940, to the Police Commissioner from the Board of Election Commissioners, the following comment was made:

"May we emphasize once more the necessity for instructing your men to handle the ballot boxes with care. Despite our persistent repetition of this warning, we still have boxes returned looking as if they had been thrown or kicked. Since ballot boxes represent an investment of a considerable amount of money we ask once more that you request your officers to do all they can to protect the boxes from mistreatment."

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Norwood street, Dorchester district, as a highway, from its present northwesterly end to Conley street, bounded and described as follows:

An extension of the highway named Norwood street is hereby laid out, from its present northwesterly end to Conley street, and ordered constructed.

Said highway, and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Norwood street (highway), forty feet; southwesterly by the southwesterly line of said extension of said Norwood street, as hereby laid out, three hundred twenty and 94-100 feet; northwesterly by Conley street, forty-one and 40–100 feet; and northeasterly by the northeasterly line of said extension of said Norwood street, as hereby laid out, three hundred eleven and 19-100 feet.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of said extension of Norwood street to Conley street, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Norwood Street, Dorchester, Assessment Plan, October 21, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and

construction of an extension of Everdean street, Dorchester district, as a highway, from Ashland street to Freeport street, bounded and described as follows:

An extension of the highway named Everdean street is hereby laid out, from Ashland street to Freeport street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken is bounded and described as follows:

Southerly by Ashland street, forty feet; westerly by the westerly line of said extension of said Everdean street, as hereby laid out, by four measurements, eighty-nine and 13–100 feet, one hundred sixteen and 70–100 feet on a curve of two hundred feet radius, one hundred thirty-six and 53–100 feet, and two hundred four and 33–100 feet; northeasterly by Freeport street, forty feet; and easterly by the easterly line of said extension of said Everdean street, as hereby laid out, by four measurements, two hundred one and 71–100 feet, one hundred thirty-three and 88–100 feet, ninety-three and 36–100 feet on a curve of one hundred and sixty feet radius, and eighty-seven and 3–100 feet.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Everdean street, between Ashland and Freeport streets, will receive benefit or advantage beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Everdean Street, Dorchester, Assessment Plan, October 20, 1941, William J. LAND-TAKING IN EAST BOSTON.

The Mayor has approved the vote of the Board of Street Commissioners for the taking of land for public improvement, consisting of laying out, widening and construction of an extension of Porter street, East Boston district, as a highway, from Geneva street to Boston Air Port, bounded and described as follows:

The highway named Porter street is hereby widened and extended from Geneva street to Boston Air Port, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the City of Boston (part of William Amerena Playground, Park Department assenting), bounded:

Northwesterly by Geneva street, fifty feet; northeasterly by Porter street, three hundred and seventy feet; southeasterly by land hereinafter described as taken from owners unknown, Wellington street, fifty feet; and southwesterly by the southwesterly line of Porter street, as established under this order, three hundred and seventy feet, containing eighteen thousand and five hundred square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Wellington street, bounded:

Northwesterly by land hereinbefore described as taken from the City of Boston, fifty feet; northeasterly by Porter street, fifty feet; southeasterly by land hereinafter described as taken from Boston Port Development Company, City of Boston Tax Deed, fifty feet; southwesterly by the southwesterly line of Porter street, as established under this order, fifty feet, containing twenty-five hundred square feet, more or less.

A parcel of land, supposed to belong to Boston Port Development Company, City of Boston Tax Deed, bounded:

Northwesterly by land hereinbefore described as taken from owners unknown, Wellington street, fifty feet; northeasterly by Porter street, one hundred and seventy feet; southeasterly by land hereinafter described as taken from Boston, Revere Beach & Lynn Railroad, fifty and 1–100 feet; and southwesterly by the southwesterly line of Porter street, as established under this order, by two measurements, eight and 62–100 feet on a curve of five hundred feet radius and one hundred sixty-one and 38–100 feet, containing eighty-five hundred and one square feet, more or less.

A parcel of land, supposed to belong to Boston, Revere Beach & Lynn Railroad, bounded:

Northwesterly by land hereinbefore described as taken from Boston Port Development Company and by Porter street, one hundred and 1–100 feet; northeasterly by the northeasterly line of Porter street, as established under this order, forty and 6–100 feet, on a curve of six hundred feet radius; southeasterly by land hereinafter described as taken from City of Boston, one hundred and 40–100 feet; and southwesterly by the southwesterly line of Porter street, as established under this order, forty and 8–100 feet, on a curve of five hundred feet radius, containing four thousand and six square feet, more or less.

A parcel of land, supposed to belong to the City of Boston, bounded:

Northwesterly by land hereinbefore described as taken from Boston, Revere

Beach & Lynn Railroad, one hundred and 40–100 feet; easterly by the easterly line of Porter street, as established under this order, two hundred seventy-five and 60–100 feet, on a curve of six hundred feet radius; southeasterly by land hereinafter described as taken from the Commonwealth of Massachusetts, one hundred twenty-one and 17–100 feet; and westerly by the westerly line of Porter street, as established under this order, two hundred eighty-four and 4–100 feet, on a curve of five hundred feet radius, containing twenty-seven thousand nine hundred and thirty-one square feet, more or less.

A parcel of land, supposed to belong to the Commonwealth of Massachusetts (said Commonwealth assenting), bounded:

Northwesterly by land hereinbefore described as taken from the City of Boston, one hundred twenty-one and 17–100 feet; easterly by other land supposed to belong to said Commonwealth, one hundred forty-six and 96–100 feet on a curve of six hundred feet radius; northerly by the same, by three measurements, fourteen and 50–100 feet on a curve of twelve feet radius; ninety-two and 30–100 feet, and fifteen and 71–100 feet, on a curve of ten feet radius; again easterly by the same, seventy feet; southerly by the same, by three measurements, fifteen and 71–100 feet on a curve of ten feet radius; forty-nine and 79–100 feet and forty-two and 52–100 feet on a curve of twenty-two feet radius; again easterly by the same, one hundred eighty-four and 13–100 feet; again northerly by the same, twenty-one and 73–100 feet on a curve of seven and 82–100 feet radius; again easterly by the same, two hundred ten and 56–100 feet; again southerly by the same, fifty-three and 81–100 feet; and westerly by the same, by three measurements, twenty-one and 13–100 feet on a curve of fifteen feet radius, four hundred seventy-one and 32–100 feet and fifty-nine and 96–100 feet, on a curve of five hundred feet radius, containing fifty-nine thousand two hundred and thirty-four square feet, more or less.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said highway, as hereby widened and extended, is bounded:

Northwesterly by Geneva street and another part of Porter street, one hundred feet; northeasterly by the northeasterly line of said Porter street, as hereby widened and extended, five hundred eighty-one and 38–100 feet; easterly by the easterly line of said Porter street, as hereby widened and extended, four hundred seventy-one and 24–100 feet, on a curve of six hundred feet radius; northerly by the northerly line of said Porter street, as hereby widened and extended, by three measurements, fourteen and 50–100 feet on a curve of twelve feet radius, ninety-two and 30–100 feet and fifteen and 71–100 feet, on a curve of ten feet radius; easterly by the easterly line of said Porter street, as hereby widened and extended, seventy feet; southerly by the southerly line of said Porter street, as hereby widened and extended, by three measurements, fifteen and 71–100 feet, on a curve of ten feet radius, forty-nine and 79–100 feet and forty-two and 52–100 feet, on a curve of twenty-two feet radius; again easterly by the easterly line of said Porter street, as hereby widened and extended, one hundred eighty-four and 13–100 feet; again northerly by the northerly line of said Porter street, as hereby widened and extended, twenty-one and 73–100 feet on a curve of seven and 82–100 feet radius; again easterly by the easterly line of said Porter street, as hereby widened and extended, two hundred ten and 56–100 feet; southerly by the southerly line of said Porter street, as hereby widened and extended, fifty-three and 81–100 feet; westerly by the westerly line of said Porter street, as hereby widened and extended, by three measurements, twenty-one and 13–100 feet on a curve of fifteen feet radius, four hundred seventy-one and 32–100 feet and three hundred ninety-two and 70–100 feet on a curve of five hundred feet radius; and southwesterly by the southwesterly line of said Porter street as hereby widened and extended, five hundred eighty-one and 38–100 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on Porter street, as widened and extended under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Porter Street, East Boston, Assessment Plan, July 22, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, NOVEMBER 15, 1941. No. 46

MAYOR TOBIN ADDRESSES GOLD STAR MOTHERS ASSEMBLED IN FRONT OF STATE HOUSE FOR ARMISTICE DAY OBSERVANCE — PREDICTS PEACE OF FUTURE WILL VOUCHSAFE TO A WEARY WORLD A RENEWED SENSE OF SECURITY AND HOPE FOR CIVILIZATION TO PROVE THAT SACRIFICES OF THOSE WHO DIED IN FIRST WORLD WAR WILL NOT HAVE BEEN ENTIRELY FRUITLESS, AND ALSO MAKE SURE THAT DECENCY WILL HAVE TRIUMPHED — CONTRASTS CONDITIONS HERE WITH THOSE IN ENGLAND AND IN FRANCE, WHERE THE HEEL OF THE DICTATOR IS GRINDING DOWN AND CRUSHING THE SPIRIT OF LIBERTY.

The following is Mayor Tobin's address, in part, before Gold Star mothers, State House, Boston, Armistice Day, November 11, 1941:

There is no group in the United States to whom Armistice Day has a more poignant and personal meaning than you women whose sons made the supreme sacrifice in the first World War.

Your boys yielded their lives in a struggle that was to end all wars. Today we are observing the twenty-third anniversary of the signing of the armistice. We are conforming to custom, but we are doing so in a mood different from that which has prevailed in nearly all those other years.

For more than two years it has been obvious that the armistice of 1918 did not herald a permanent peace but merely the beginning of new preparations for conquest by forces of evil that had been temporarily beaten to their knees. It did nothing but provide a breathing spell in the long struggle that is once again being fought out on the battlefield, this time on the longest front that history has recorded.

Those young Americans who died did so in the belief that never again would tyranny lift its head among civilized nations. Our country endeavored to set a good example by disarming to a point of comparative weakness. Meanwhile, the power that had thrust the first World War upon us was secretly building up new strength and now the job must be done over again.

Today, in war-torn England, the observance of Armstice Day is being confined to brief church services. It will be just another work day in factories, offices and the armed forces.

Lesson in Europe Plain.

Thank God that is not necessary in our country. We can still suspend our normal operations to pay honor to our hero dead, but the lesson of Europe is plain. We cannot relax the great national effort we are making toward building up a defensive armament so powerful that no nation can successfully challenge our power. The best offence in this case is a mighty defence.

It is not given to us to foresee the immediate future, but we can look with confidence upon a vision of longer range and can comfort ourselves with the knowledge that the impact of America's mighty production will, ere long, make itself fully felt in vouchsafing to a weary world peace with a renewed sense of security and hope for civilization.

We can never sufficiently honor the memory of those who died for the Stars and Stripes on the battlefields of France and Belgium, but we can make sure that the sacrifices they so gallantly made were not entirely fruitless; we can wipe out the mistakes that have been made and we can lend our weight and our counsel to making sure that when the present struggle has ended, decency will have triumphed.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

SUPPLY DEPARTMENT.

BOSTON, October 22, 1941.
HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising, to J. H. Emerson Company, 22 Cottage Park avenue, Cambridge, Mass., to deliver to 751 Albany street, Boston City Hospital, the following:

One Emerson respirator, at a price of $1,200; less allowance on old machine to be turned in, $250; total, $950; discount, 2 per cent, ten days.

The Boston City Hospital has requisitioned for an Emerson respirator, and as J. H. Emerson Company are the manufacturers, nothing would be gained by publicly advertising.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

Mayor of Boston.

DEAR MR. MAYOR,—Under recent date, quotations were asked by this office from the classified list of bidders on yellow pine limber (ties, braces, fenders and blocks) for use at the Parsons Street Underpass, Brighton. The following prices were received:

George McQuesten Company, $1,268.57; discount, 2 per cent, ten days; V. J. Grande, $1,304.80; discount, 2 per cent, ten days; Barney and Carey, $1,639.64; discount, 2 per cent, ten days.

The Division Engineer of the Bridge Service has notified this department that this is an emergency requisition, as he desires to complete the work at this location at the earliest opportunity.

In view of the above, I would respectfully request that permission be granted me to award a contract, without public advertisement, to George McQuesten Company, the lowest bidder, for immediate delivery of this material, at a total cost of $1,268.57, less a cash discount of 2 per cent for payment in ten days.

I am attaching herewith copy of specifications and material covering this contract.

Respectfully yours,

FRANCIS X. LANG,
Acting Superintendent of Supplies.

Specifications, Parsons Street Materials.

128 new 8-inch by 8-inch yellow pine ties by 10 feet long (planed to an even thickness); 8 new or used 3-inch by 8-inch yellow pine braces by 12 feet long; 8 new or used 3-inch by 8-inch yellow pine braces by 10 feet long; 24 new or used 4-inch by 8-inch yellow pine fenders by 14 feet long; 250 new or used 8-inch by 8-inch yellow pine blocks by 2 feet 6 inches long; 50 new or used 2-inch by 8-inch yellow pine blocks by 2 feet 6 inches long; 75 new or used 6-inch by 8-inch yellow pine blocks by 2 feet 6 inches long.

Yellow pine to be of quality known as "Prime," the inspection and classification to be in accordance with the Interstate Rules of 1905. Inspection by ring rule shall also govern, supplementary to above. All timber must be sound, straight-grained, of full size, out of wind, rectangular in section, of even thickness and free from all imperfections reducing its strength and durability.

EXTRA WORK UNDER CONTRACT.

Samuel J. Tomasello Corporation has been directed to perform the following extra work under the contract for bituminous concrete pavement in Spring Garden and other streets, dated October 1, 1941. Items ordered: Remove existing bituminous macadam pavement in Dacia street, between Woodcliff and Dove streets, and replace with bituminous concrete (Type I) on a 4-inch bituminous macadam base. Prices to be paid the same as those bid in the contract for similar work, about 1,000 square yards. Estimated cost of extra work, $1,640.

Baker & Co. have been directed to perform the following extra work under the contract for bituminous concrete pavement and sewerage works in Glover court, Ward 7, and bituminous concrete pavement in Melville lane, Ward 17, Magnolia street, Ward 14, Wave avenue, Ward 13, Rosselerin road, Ward 16, Davison avenue, Ward 15, St. Brendan road, Ward 16, Gretter road, Ward 20. Items ordered: In Wave avenue, Ward 13, from Savin Hill avenue, 145 feet northerly; build two drop inlets complete at $50 each; remodel one catch-basin into a manhole at $125; furnish and place 3.40 cubic yards Class A concrete at $15 per cubic yard; furnish and lay 20 linear feet 15-inch catch-basin drain at $4 per linear foot; in Davison avenue, Ward 15, rebuild one old catch-basin at $50. The reason for this extra work in Wave avenue is that revised gutter grades require additional surface drainage inlets, and in Davison avenue it was due to a change in radius of the curb corner. Estimated cost of extra work, $406.

Baker & Co. have been directed to perform the following extra work under the contract for sewerage works in Blue Hill avenue, between Charlotte street and Columbia road, Dorchester. Items ordered: Remodel one ordinary catch-basin complete at Columbia road into a type No. 13 catch-basin. The reason for this extra work is that the new line of edgestone comes through the catch-basin, necessitating the alteration of it to fit new conditions. Estimated cost of extra work, $125.

TAKING OF BOSTON AIRPORT BY STATE.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1941.

To the City Council.

Gentlemen,—At 4.47 o'clock p. m. on October 24, 1941, the Governor of the Commonwealth signed "An Act Authorizing the Turning-Over of the Boston Airport, so-called, to the Commonwealth and Providing for the Improvement Thereof and Making Certain Changes in the Laws Relative to Airports." This act, a copy of which is attached, is chapter 695 of the Acts of 1941. By virtue of its emergency preamble, it became immediately effective.

The above-mentioned statute is the same in substance as the draft of similar legislation attached to my message to your Honorable Body, dated July 21, 1941. The principal difference between the statute as enacted and the draft of statute referred to is that in the draft statute the Commonwealth proposed to make payment to the city of the sum of $1,026,800 in part in cash and in part by assuming the payment of the city's outstanding Airport Bonds (at that time totalling $595,000 in principal amount), whereas in the statute as enacted the entire sum of $1,026,800 will be paid to the city in cash.

In my message to your Honorable Body, dated July 21, 1941, and in the communication from the Corporation Counsel to me dated July 19, 1941, attached to that message, there were set forth at considerable length the facts underlying the enactment of this legislation, the reasons why the passage of this legislation is beneficial to the City of Boston, and the advisability of your Honorable Body adopting an order to make the legislation effective.

In the draft of order which is now pending before your Honorable Body, the blanks should be filled by inserting the number of the act and the date of its approval.

Because of the time requirements of section 2 and section 11 of the statute, it is important that the City Council give consideration to taking immediate action on this order.

Very truly yours,
MAURICE J. TOBIN, Mayor.

TRANSFER OF LAND AT 134 THORNTON STREET.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1941.

To the City Council.

Gentlemen,—I am in receipt of the enclosed communication from the Custodian of Foreclosed Real Estate in which he recommends the transfer of a parcel of land at 134 Thornton street, Roxbury. This parcel of land will be developed by the Park Department and used for playground purposes.

I am very much in favor of the transfer of this parcel of land and parcels of land of this character which come into the hands of the city through tax foreclosures and which can be developed suitably for recreation purposes. I therefore recommend the passage of the enclosed order for the transfer of this parcel of land to the care, custody, and control and management of the Park Department.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston
Real Estate Division,
October 14, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I am presenting for your approval and that of the City Council, four copies of an order for the transfer from the Foreclosed Real Estate Division to the Park Department of a parcel of vacant land, owned by the City of Boston by virtue of foreclosure, to be used for playground purposes.

This property is located at 134 Thornton street, Roxbury.

Yours respectfully,
DANIEL M. DRISCOLL,
Custodian of Foreclosed Real Estate.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated August 12, 1941, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5672, page 456, on about twenty-eight hundred (2,800) square feet of land on the southeasterly side of Thornton street, numbered one hundred thirty-four (134) in the numbering of said Thornton street, in the Roxbury district; and

Whereas, The said parcel of land is now in the care, custody, control and management of the Custodian, Foreclosed Real Estate Division; and

Whereas, A play space is to be established on the said parcel of land; now, therefore, it is hereby

Ordered, That the said parcel of land, hereinbefore described, be, and it is hereby, transferred from the care, custody, control and management of the Custodian, Foreclosed Real Estate Division, to the care, custody, control and management of the Park Department to be used for playground purposes.

Referred to Executive Committee.

SALE OF LAND TO FANEUIL CONGREGATIONAL CHURCH.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1941.

To the Honorable the City Council.

Gentlemen,—I present herewith an order for the sale of a certain parcel of city-owned land containing approximately 5,818 square feet, together with the building thereon, situated on the easterly side of Brooks street in the Brighton district, to the Faneuil Congregational Church of Boston, at a minimum price of $1,200.

By an order passed by your Honorable Body on April 17, 1939, and passed again on May 1, 1939, and approved by me on May 11, 1939, this property was authorized to be sold at public auction at an upset price of $2,500. At the time of the passage and approval of this order there was a prospective purchaser but the authorized sale has not as of this date been executed.

This parcel of property is at the present time in need of extensive repairs, and in the past, due to its vacancy, has been the object of vandalism.

The Faneuil Congregational Church of Boston is the owner of church property situated on Brooks street, at the corner of Bigelow street, near the city-owned property, and is desirous of obtaining said property for church, social and recreational purposes.

I am of the opinion that a sale of this property at the price of $1,200 should be made to the Faneuil Congregational Church of Boston without public auction.

I recommend passage of the accompanying orders by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Whereas, The City of Boston is the owner of a certain parcel of land containing approximately 5,818 square feet together with the building thereon situated on the easterly side of Brooks street in the Brighton district. This parcel of land together with the building thereon was taken in fee for public library purposes under a resolve and order of the Board of Street Commissioners approved by the Mayor of the City of Boston, April 28, 1915, and recorded with Suffolk Deeds, Book 3877, page 71. A confirmatory deed thereto is recorded with Suffolk Deeds, Book 3917, page 311; and

Whereas, The said premises are no longer needed for public purposes; and

Whereas, By an order of the City Council of the City of Boston passed April 17, 1939, and passed again, May 1, 1939, and approved by the Mayor of the City of Boston, May 11, 1939; it was

"Ordered, That the Board of Street Commissioners of the City of Boston be, and hereby is, authorized to sell all the right, title and interest of the City of Boston in and to the said premises at public auction at an upset price of twenty-five hundred dollars ($2,500), and the said Board of Street Commissioners is hereby authorized to transfer all the city's right, title and interest in and to said premises to the purchaser of said premises at said public auction by a written instrument, satisfactory in form to the Law Department of the City of Boston, upon the payment to the City of Boston by said purchaser of the amount bid for said premises at said auction."

Whereas, No sale of the said property has been made; and

Whereas, The Faneuil Congregational Church of Boston, a corporation organized and existing under the laws of the Commonwealth of Massachusetts is desirous of obtaining the said premises for church purposes; now, therefore, it is hereby

Ordered, That the order of the City Council hereinbefore recited authorizing the sale of said property be, and it is hereby, rescinded; and, it is hereby further

Ordered, That His Honor the Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston to sell without public auction at a minimum price of one thousand two hundred (1,200) dollars to the Faneuil Congregational Church of Boston all the right, title and interest of the City of Boston in and to the said property and to execute and deliver a deed thereof satisfactory in form to the Law Department of the City of Boston. The said property is bounded and described as follows:

Westerly by Brooks street, fifty-seven and 68-100 (57.68) feet; northerly by land now or formerly of Charles H. Wing, one hundred one and 53-100 (101.53) feet; easterly by lands now or formerly of Minnie T. Wadleigh and John M. Shea, fifty-seven and 65-100 (57.65) feet; southerly by land now or formerly of Margaret Lucas, one hundred and 34-100 (100-34) feet, containing 5,818 square feet of land, more or less, together with the building thereon. The above-described parcel of land and all of said measurements are shown on a plan marked "City of Boston, Brooks Street, Brighton, February 12, 1915, F. O. Whitney, Chief Engineer, Street Laying-Out Department," on file in the office of the Street Laying-Out Department, City Hall, Boston, Mass.

Referred to the Executive Committee.

TRANSFER TO CONTINGENT FUND.

The following was received:

City of Boston,
Office of the Mayor, October 20, 1941.

To the City Council.

Gentlemen,—I am advised by the City Auditor that the Contingent Fund is practically exhausted, and that an additional sum of $10,000 will be necessary to meet expenditures from this fund for the balance of the year. This fund is appropriated to be used for the payment of claims, executions of court, court fees, expert witnesses, and legal and miscellaneous expenses, most of which are of a statutory nature. The additional $10,000 is available in the budget of the Boston Port Authority, and I submit herewith an order transferring this sum from the Boston Port Authority budget to the Contingent Fund, and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That under authority of section 3B of chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Boston Port Authority, A, Personal Service, $10,000, to the appropriation for Contingent Fund, $10,000.

Referred to Executive Committee.

TRANSFER FROM GEORGE F. PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, October 20, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached communications from the Board of Park Commissioners requesting the transfer of the sum of $20,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, October 1, 1941.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $10,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $10,000

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
W. P. Long, Chairman.

USE OF TRAILER CARS.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway relative to your order of October 6, 1941, concerning the use of trailer cars on the Subway-South Huntington Avenue line, especially during the rush hours.

Respectfully,
Maurice J. Tobin, Mayor.

—

Boston Elevated Railway.
October 23, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir.—Referring to your letter of October 9, the accompanying order of the City Council, requesting the use of trailer cars on the Subway-South Huntington Avenue line, was probably introduced in the belief that less service is now operated with single cars on the line than was formerly operated with two-car trains. That is not a fact, however, because we are now operating more cars during each of the rush hours than were formerly operated with trains. Thirty-three more car trips are now being operated than were operated last fall, and when the winter timetable goes into effect, there will be an increase of eighty-four car trips compared with last winter's service.

Single cars are able to make better time and we believe the service has been much improved as compared with the two-car train service.

Very truly yours,
Edward Dana,
President and General Manager.

TRANSFERS ON JAMAICA-DUDLEY STREET LINE.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from chairman of the Boston Elevated Railway relative to your order of September 29, 1941, concerning the re-establishing the practice of issuing transfers to patrons of the Jamaica-Dudley Street line who desire to change at Centre street and South Huntington avenue to the Subway-Huntington Avenue line.

Respectfully,
Maurice J. Tobin, Mayor.

—

Boston Elevated Railway.
October 21, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—Replying to your communication of October 9, the Board has carefully considered the question of local fares on the Jamaica Plain-Dudley Street line. They cannot restore the 5-cent fare on this line the entire length because it would be inconsistent with what has been accomplished on the system as a whole in order to secure more revenue and help the deficit.

In this particular case they felt that the greatest number would be served by a local fare from Jamaica Plain to Roxbury Crossing and divided the line in that way. It could have been divided at Heath street or even Hyde square but if that was done it would mean that people who now ride for 5 cents would have to pay 10 cents and people who now pay 10 cents would pay 5 cents.

As for making a single 5-cent zone again from the Jamaica Plain Carhouse to the Dudley Street Terminal, the trustees cannot acquiesce.

Very truly yours,
Edward E. Whiting, Chairman.

SURVEY OF WEST STREET SECTION, HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Public Works Department relative to your order of September 22, 1941, concerning the making a survey of the district in the vicinity of Myopia road and the George Wright Golf Course in the West street section of Hyde Park.

Respectfully,
Maurice J. Tobin, Mayor.

City of Boston,
Public Works Department,
October 6, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir.—This is in reference to the following order that was passed in the City Council on September 22, 1941:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make a survey of the district in the vicinity of Myopia road and the George Wright Golf Course in the West street section of Hyde Park, and to formulate plans for piping or deviating the course of the brook running through surrounding properties, which detracts from the value of said properties and constitutes a menace to the health and safety of the residents of this neighborhood."

Consideration will be given to effecting the above-referenced improvement as a W.P.A. project during the coming winter. Department engineers, have, during the past month, made a survey of the location, and, at the present time, plans are being prepared showing the extent and type of work to be done in order to provide for the covering of the existing brook.

Very truly yours,
George G. Hyland,
Commissioner of Public Works.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir.—I am in receipt of your memorandum of October 3, 1941, concerning the following order in Council, dated September 29, 1941:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to institute a street cleaning program in Ward 17."

Ward 17 is a part of Sanitary Division, Street Cleaning, District 6. During a recent week, there was a total of 58.2 miles of streets cleaned in that district.

Plans have now been adopted which will result in an increase in the amount of street cleaning done.

It should be borne in mind, however, that the full benefit of this procedure will not be appreciably noticed until the removal of autumn leaves has been completed.

Very truly yours,
George G. Hyland,
Commissioner of Public Works.

AGE OF ADMISSION TO KINDERGARTENS AND GRADE I.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the secretary of the School Committee of the City of Boston relative to your order of September 22, 1941, concerning the advisability of establishing the age for admission to the kindergartens at four years, six months, on October 15, and for admission to Grade I at five years, six months, on October 15, instead of, as now, September 15 in each case.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
School Committee, October 11, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—Recently there was forwarded to the School Committee from your office, order passed by the City Council, September 22, 1941, asking that your Honor request the School Committee to consider the advisability of establishing the age for admission to the kindergartens at four years, six months, on October 15, and for admission to Grade I at five years, six months, on October 15, instead of, as now, September 15 in each case.

The School Committee at last Monday evening's conference again considered the whole question of kindergarten and first grade admission age. The committee listened to the opinion of the Board of Superintendents and to the reading of statistics presented by that Board showing the admission age in other large cities comparable with Boston.

The Board of Superintendents is unanimously in favor of continuing the present admission regulations, believing that it is to the advantage of the child to delay admission to the first grade until the child is approximately six years of age, largely because of the difficulty of the young child in acquiring reading skill at an earlier age. The great amount of retardation in the second grade, it is felt is due largely to the inability of the children who have come in too young to do the work of Grade I.

The association of kindergarten teachers has recently gone on record as opposed to any change in the present entrance age requirement. The association points out that the great majority of children admitted to the kindergarten at four years, six months, are ready to take on the work of the first grade without any great difficulty after a year in the kindergarten. Notwithstanding the fact that the reduction in kindergarten numbers during recent years has materially affected the kindergarten teachers because of the reduction of kindergarten numbers and the consequent lessening of the number of appointments of teachers, the association has asked that the present entrance age requirement be maintained.

A survey of ten cities of the country with a population of more than 500,000 indicates that the age in these cities is four years, six months, or over, for admission to kindergartens. Where children are admitted to the kindergartens at earlier than four years, six months, it appears that a two-year kindergarten course is provided. This arrangement the School Committee of the City of Boston could not undertake at this time because of the expense involved. Various suggestions have been considered that would permit of admitting children close to the four-six age but none of the suggestions have seemed feasible. There will of course be borderline cases at whatever the age established.

The committee finally came to the conclusion that all things considered, it is to the advantage of the children and of the schools in general to maintain the present age requirement, and the previous action establishing this age was consequently reaffirmed, Mr. Norton dissenting.

Respectfully yours,
ELLEN M. CRONIN, Secretary.

AUTOMATIC TRAFFIC SIGNALS, CENTRE STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 29, 1941, concerning the installation of automatic traffic signals, with push buttons, on Centre street, Ward 20, in front of the Holy Name Church.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Traffic Commission, October 16, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council Order dated September 29, 1941, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals, with push buttons, on Centre street, Ward 20, in front of the Holy Name Church."

A similar request was made by Father Ryan, Pastor of the Holy Name Church, and he was advised that money had recently been made available for the installation of traffic signals at twenty-four intersections throughout the city; that the selection of these locations was based on the accident record, adaptability for signalization and geographical location.

Our records show that during the past five years there have been only four accidents involving personal injuries in the area in front of the church property and for this reason we believe that other intersections with higher accident rates should be given preference if more funds are made available.

Respectfully,
WILLIAM P. HICKEY, Commissioner.

"SLOW" SIGN, CALUMET STREET, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of October 6, 1941, concerning the installation of a sign reading "Slow, Children Playing" on Calumet street, just above the intersection of Hillside street, Ward 10.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, October 16, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council Order dated October 6, 1941, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install a sign reading 'Slow, Children Playing' on Calumet street, just above the intersection of Hillside street, Ward 10."

At a recent meeting of this commission it was voted to erect "Stop" signs in Calumet street, at Hillside street. I believe this will make unnecessary the erection of the sign requested in this order.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

—

City of Boston,
Traffic Commission, October 16, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council Order dated October 6, 1941, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make Bartlett street one way, from Washington street to Dudley street: and be it further

"Ordered, That 'Stop' signs be erected on Lambert avenue, at the corner of Bartlett street."

A survey will be made of Bartlett street to determine whether or not it is practicable to make Bartlett street one way. It is the opinion of the engineers of this commission that the accident record of Bartlett street and Lambert avenue does not warrant the erection of "Stop" signs.

Fire Department, October 6, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I am returning herewith to your Honor a City Council Order concerning the advisability of relocating Fire Alarm Box 3343 at the corner of School and Harvard streets, Dorchester, or installing an additional fire alarm box in a more conspicuous place, to be equipped with a red light.

For your information I am enclosing herewith a copy of report received from Superintendent A. L. O'Banion of the Fire Alarm Division concerning Box 3343 and other fire alarm boxes in this section of Dorchester.

As stated in Superintendent O'Banion's report it would be possible, with the permission of the School Buildings Department, to move Fire Alarm Box 12-3343 from the Champlain School and place it at the corner of Merlin and Athelwold streets.

I shall await further word from your Honor as to the wishes of the City Council in the matter.

I am attaching herewith a sketch showing the location of other fire alarm boxes in the vicinity of Box 3343.

Very truly yours,
WILLIAM ARTHUR REILLY,
Fire Commissioner.

—

City of Boston,
Fire Department, October 3, 1941.

From Superintendent, Fire Alarm Division.
To the Fire Commissioner.
Subject: City Council Order, September 22, 1941, Regarding the Advisability of Relocating Fire Alarm Box 3343.

The City Council Order of September 22, 1941, read as follows: ". . . to consider the advisability of relocating Fire Alarm Box 3343 at the corner of School and Harvard streets, Dorchester, or installing an additional fire alarm box in a more conspicuous place, to be equipped with red lights or globes in Ward 17."

In accordance with the above order, I inspected the section of the city around Box 3343, especially with regard to the location of Box 3343. The location of this box is given in the assignment cards as follows:

3343, School and Harvard streets (auxiliary), Oliver Wendell Holmes School.

This box is really at the intersection of School, Harvard and Thane streets. Harvard street at that point continues to the left at about an angle of 45°, and Box 3343 is located at the end of Harvard street, so that the box is visible down Harvard street for a distance of six or eight blocks. This Box 3343 was established August 22, 1905, or approximately thirty-five years ago, at this location. In my opinion this box is located in the very best place possible, visible in four directions,—directly across the street from the Oliver Wendell Holmes School as a master box with auxiliary stations in the school. This box is a lamp post type with a gas light and red globe.

As regards the installation of another fire alarm box in this section, I would point out that within a distance of about 1,000 to 1,200 feet of Box 3343, there are ten city fire alarm boxes, as follows:

3325, Harvard and Washington streets.
3326, Washington street and Harvard avenue.
3341, Norwell and Vassar streets.
3342, Elmont and Waterlow streets.
3344, Athelwold and Millet streets.
3345, Park and Spencer streets.
3346, Park and Washington streets.
3347, Washington, Bradlee and Algonquin streets.
12-3343, Champlain School, Athelwold street.
13-3346, Florence Nightingale School, Park street.

Four of these ten boxes are equipped with either electric or gas light. I attach a sketch showing the streets of this section with the boxes located so that you can see that this area is fairly well protected,—better than many other sections of the city.

This order of the City Council refers specifically to Fire Alarm Box 3343, located at the corner of School and Harvard streets. I am wondering if the person who introduced this motion is confused regarding the box number and location, and possibly he had in mind Fire Alarm Box 12-3343. This box is located on the building of Champlain School, Athelwold street. There is a fence around the school, and at night this box is not accessible.

Although the N. F. P. A. rules state that a municipal street box shall not be used as a master box, an exception has been taken to this rule by the City of Boston in the case of public schools, and in many cases the street box located on the corner serves as the master box for the school. Care has been taken in these cases to have the box within 100 to 200 feet of the school.

In the case of Box 12-3343, located on the Champlain School, it is possible that this box could be relocated on the corner of Merlin and Athelwold streets, about 100 to 150 feet from the school. No doubt the School Buildings Department would agree to this change. The cost of relocating this box would have to be borne by the Fire Department.

A. L. O'BANION, Superintendent.

RIGHT OF APPEAL FROM RULING OF COMMISSIONER OF CORPORATIONS.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel relative to your order of September 29, 1941, concerning the taking the necessary steps to induce the Committee on Rules of the Legislature to place before the Legislature a bill now pending, which bill if enacted into law will give the cities and towns and the taxpayers the right to appeal to the Appellate Tax Board when aggrieved by any ruling which the Commissioner of Corporations makes in listing manufacturing concerns.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, October 8, 1941.

Mr. William T. Doyle.
Chief Clerk, Mayor's Office.

Dear Sir,—I wish to acknowledge your letter of October 3, 1941, asking for consideration and report as to the below-quoted order of the City Council, passed September 29, 1941:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take the necessary steps to induce the Committee on Rules of the Legislature to place before the Legislature a bill now pending, which bill if enacted into law will give the cities and towns and the taxpayers the right to appeal to the Appellate Tax Board when aggrieved by any ruling which the Commissioner of Corporations makes in listing manufacturing concerns."

The order refers to "a bill now pending, which . . . will give the cities and towns and the taxpayers the right to appeal to the Appellate Tax Board when aggrieved by any ruling which the Commissioner of Corporations makes in listing manufacturing concerns."

I am not aware, on examination, that there is now pending any such bill as the order refers to.

The Commissioner of Corporations and Taxation, under the provisions of G. L. (Ter. Ed.), c. 58, s. 2, annually furnishes a classification of corporations to the local assessors which they are bound to follow in the assessment of machinery used in the conduct of the business. The provisions of the statute appear to be mandatory and in the event that a domestic manufacturing corporation is improperly listed or omitted from the commissioner's classification there is now no statutory remedy giving the Board jurisdiction. At the current sitting of the General Court, the Apellate Tax Board, in compliance with G. L. (Ter. Ed.), c. 30, s. 33, recommended to the Legislature that corporations aggrieved by the commissioner's action be given a right of appeal to the Board. Such an appeal, the Board pointed out in its recommendation, would give to the Board an opportunity by appropriate order to avoid the possibility of improper double taxation. Attached to the Board's recommendation was a draft of legislation, given the number House No. 3, entitled "An Act Authorizing the Appellate Tax Board to Classify Certain Corporations in the List Furnished to Towns and Cities by the Commissioner of Corporations and Taxation."

The City of Boston took no position in opposition to this legislation. It was heard before the Committee on Taxation and, I understand, opposed by the commissioner. On March 24, 1941, the House voted "Next General Court" in regard to House No. 3 and on March 27, 1941, the Senate concurred.

In view of the foregoing, I do not believe it feasible at this sitting of the General Court to attempt to reintroduce the subject matter of House No. 3. A point of order would lie.

In view of the commissioner's attitude, it is extremely doubtful if at this late date in the session the reintroduction of the general subject matter would be effective.

The Council's Order refers to legislation which would give to *municipalities*, as well as to *taxpayers*, a right af appeal from the commissioner's classification. Such a right might be of value in occasional cases. On the whole, however, neither the Law Department nor members of the Board of Assessors feel that the matter is of such urgency as to warrant possible prejudice to other pending legislation by attempting to force this new matter out of the Committee on Rules. The session is almost at an end; the members are anxious to adjourn; there still remains a considerable grist of pending matters upon which the Legislature must act.

Yours very truly,
ROBERT CUTLER,
Corporation Counsel.

City of Boston,
Office of the Mayor, October 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of September 29, 1941, concerning the erection of goal posts on the football field at the Esplanade Playground, the North End Park, and the Randolph Street Playground.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston
Park Department, October 9, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of October 3, with order from the City Council to erect goal posts on different playgrounds.

Please be informed that the goal posts on the Charlesbank Playground, North End Park and Rotch Playground, Randolph street, have been in place for the last twenty days and were still in position on Tuesday, October 7. We have had considerable trouble on many of our playgrounds with the boys tearing down the goal posts, but so far we have not experienced this difficulty at these locations.

Very truly yours,
WILLIAM P. LONG, Chairman.

EXTENSION OF PARTICIPATION IN FOOD STAMP PLAN.

The following was received:

City of Boston,
Office of the Mayor, October 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the secretary of the Public Welfare Department relative to your order of September 29, 1941, concerning the conferring with the proper Federal Agency with a view to allowing widows, without dependent children, who receive aid from the Soldiers' Relief Department, to participate in the Food Stamp Plan.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Overseers of the Public Welfare,
October 15, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Attention of William T. Doyle.

Dear Sir,—This department has received your communication with enclosed copy of an order from the City Council, dated September 29, 1941, reading as follows:

"Ordered, That his Honor the Mayor be requested to confer with the proper Federal Agency with a view to allowing widows, without dependent children, who receive aid from the Soldiers' Relief Department, to participate in the Food Stamp Plan."

May I state that this matter has been under consideration by officials of the Surplus Marketing Administration for some time. It is my understanding that widows without dependent children, who are householders and who are recipients of Soldiers' Relief, will be permitted to participate in the Food Stamp Plan within a very short time.

Sincerely yours,
WILLIAM G. O'HARE, Secretary.

HEALTH MENACE, TOKIO STREET, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, October 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Health Department relative to your order of September 29, 1941, concerning the manufacturing concerns on Tokio street, in the Mattapan section of Ward 18, for the purpose of eliminating the present health menace caused by these concerns.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Health Department, October 10, 1941.

To Hon. Maurice J. Tobin, Mayor of Boston.

From G. Lynde Gately, M. D., Commissioner, Health Department.

Subject: Stedfast Rubber Company, Inc., 34 Tokio Street, Mattapan.

Replying to an order of the City Council relative to an alleged nuisance caused by the operation of a plant operated by the above company at Tokio street, in the Mattapan section:

This factory, employing approximately 125 persons and at present filling defense orders, has been under observation by the Health Department for a number of years.

At one time certain steps in the manufacturing process caused complaints of odors to be received by this department, but, at our suggestion, that part of the work was discontinued at Tokio street and carried on at another factory of the company at Easton, Massachusetts. Since the above change was made, although we have kept Tokio street plant under constant observation, no cause was found for action by the Health Department.

Since the receipt of the present order of the City Council we have made an intensive investigation both in and out of the plant of the Stedfast Rubber Company, and cannot see that any reason exists for complaint or

action. We have, however, recommended one change in the operations where it was believed improvement might be made.

We will continue to keep in close touch with the situation and, if cause arises, take prompt action.

G. LYNDE GATELY, M. D.,
Health Commissioner.

"SLOW" SIGNS, CLAYTON AND PARK STREETS, WARD 16.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 29, 1941, concerning the installation of "Slow" signs at the corner of Clayton and Park streets, Ward 16.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Traffic Commission, October 17, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council Order dated September 29, 1941, which reads as follows:

"Ordered that the Traffic Commissioner, through his Honor the Mayor, be instructed to install 'Slow' signs at the corner of Clayton and Park streets, Ward 16."

Clayton and Park streets form a "T" intersection. From observations made by the engineers of this commission we do not believe that "Slow" signs are necessary.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

ONE-WAY TRAFFIC, KENBERMA ROAD, WARD 17.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 29, 1941, concerning the making Kenberma road one way, from Washington street to Whitfield street, Ward 17.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, October 17, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council Order dated September 29, 1941, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make Kenberma road one way, from Washington street to Whitfield street, Ward 17."

The true limits of Kenberma road are Washington street to Elwyn road. It is the opinion of our engineers that conditions do not warrant making Kenberma road one way.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

ADDITIONAL COPIES OF "SPECIAL STATUTES" FOR LAW DEPARTMENT.

The following was received:

City of Boston,
Law Department, October 17, 1941.

To the Honorable the City Council.

Gentlemen,—By an order of your Honorable Body, passed August 18, 1937, and approved by the Mayor on October 20, 1937, the Superintendent of Printing was directed to deliver to the Corporation Counsel a limited number of copies of the book entitled "Special Statutes Relating to the City of Boston" for distribution by the Corporation Counsel.

Thereafter, by a letter dated November 14, 1938, the then Corporation Counsel advised the City Council that distribution of the copies delivered to him had been made and submitted a detailed statement relating to such distribution. This distribution included the allocation of sixteen sets for use in the Law Department.

It has now developed that ten additional sets are required to meet the needs of this department. Accordingly I respectfully request that your Honorable Body authorize the delivery of this additional number of sets to this department.

I enclose a form of order which may be used under these circumstances.

Very truly yours,
ROBERT CUTLER,
Corporation Counsel.

—

Ordered, The Superintendent of Printing is hereby authorized and directed to deliver to the Corporation Counsel for Law Department use, ten sets of the book entitled "Special Statutes Relating to the City of Boston."

NAMING OF "JAMES AND MARGARET M. TOBIN PLAY AND REST SPACE."

Coun. SHATTUCK offered the following:

Ordered, That his Honor the Mayor be requested to name the play and rest space now under course of construction at the corner of Albion and Lucas streets the "James and Margaret M. Tobin Play and Rest Space."

Coun. SHATTUCK—Mr. President, when the play and rest space at the corner of Albion and Lucas streets was authorized and I undertook to provide the funds for improving it, the very kind suggestion was made that it bear my name. At my request no action was taken on that suggestion, but in making the request I expressed the hope that I might be permitted to suggest a name at a later time. I now suggest—and if I may be permitted the liberty I request—that this play and rest space be named for the late James and Margaret M. Tobin, the honored parents of our Mayor, Maurice J. Tobin. It was not my privilege to be acquainted with Mr. and Mrs. James Tobin, but I have known their son Maurice since we first served together in the State House of Representatives in 1927, and through my acquaintance with him I know of the fine heritage they gave him. In honoring them I wish also to honor him. It was our Mayor, the son of James and Margaret Tobin, who inaugurated the plan of establishing a comprehensive system of neighborhood play and rest spaces in the congested living quarters of our city. He did me the honor of placing me on the committee to recommend sites for the construction of such spaces from the income of the George Robert White Fund. For some time there was doubt whether the will would permit expenditures for this purpose. The question was taken into court by Mr. Cutler, the Corporation Counsel of the city. I felt confident of the result, but fearing that a decision might be delayed, and believing that an example of what could be accomplished might be helpful, I offered to undertake the Albion street work myself. Fortunately, however, a favorable decision was obtained promptly, and now four White Fund projects are under construction, and I feel sure that they will prove such a success that more will follow. In addition, through His Eminence Cardinal O'Connell land has been given for two more projects, which are being constructed with city funds. These play and rest spaces will bring beauty, recreation, and a restful retreat to many districts in which these amenities of life have been sadly lacking. They represent a novel and I believe unprecedented forward step in civic improvement. All honor to Mayor Tobin, who conceived the plan: and all honor to his parents, the late James and Margaret M. Tobin, whose teaching and example have guided him through life.

The order was passed under suspension of the rule.

RECESS.

At 2.50 p. m., by direction of Chairman WARD, the Council went into executive session. The members reassembled and were called to order at 3.16 p. m. by Chairman WARD.

The receipts in 1937 of the Boston & Albany Railroad are the lowest on record for that railroad.

The maximum receipts of milk and also of cream in 1937 were in August; the minimum in February.

POLICE DEPARTMENT ORDERS.

General Order No. 654.

The commissioner is pleased to commend the department for its fine work which resulted in the successful culmination of the Halloween program.

The splendid organization and smooth schedule of the parties themselves proved that a great deal of hard work was done by the members of the department to provide an enjoyable evening for the youngsters of the city.

Many compliments have been received regarding conditions in general throughout the city, particularly with reference to the reduction of vandalism and property damage which, in fact, is the underlying purpose of the entire Halloween program.

The commissioner extends to all members of the department his heartfelt thanks and appreciation of their fine spirit of cooperation.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 657.

A trial board consisting of Captains Grace, Donovan and Justin McCarthy, having heard by reference a complaint made by Captain John F. McCarthy, Division 13, against Patrolman Edward J. Burns, Division 13, for alleged violation of the rules and regulations of the Police Department, charging him with conduct unbecoming an officer and absence without leave, has reported to the commissioner a finding of guilty as charged.

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Edward J. Burns be suspended from duty for a period of thirty days, effective as of July 1, 1941, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension he perform 210 hours of punishment duty.

General Laws, chapter 31, section 46C, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C. An officer or employee of the commonwealth or of a city or town who has become separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown the director may, subject to section forty-six G, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, NOVEMBER 22, 1941. NO. 47

"RECREATION AND ITS RELATION TO NATIONAL MORALE AND THE NORMAL NEEDS OF CHILDREN," SUBJECT OF DISCUSSION BY SCHOOL AUTHORITIES AT THE ANNUAL CONVENTION — REPORT ON MEETING MADE TO SCHOOL COMMITTEE BY JAMES T. MULROY, DIRECTOR OF THE EXTENDED USE OF THE PUBLIC SCHOOLS — SUBJECTS DISCUSSED AT NATIONAL RECREATION CONGRESS.

The following is the report of James T. Mulroy, Director of the Extended Use of the Public Schools, on his attendance at the National Recreation Congress, where recreation and its relation to the national morale and the normal needs of children were discussed.

BOSTON, October 20, 1941.

To the School Committee.

Following is the report of my attendance at the 26th National Recreation Congress, Baltimore, Maryland, September 29 to October 3, 1941:

The Congress was the best attended convention ever held by the National Recreation Association, attracting 1,700 of the leading recreation people in the United States and Canada. The general theme of the Congress proceedings was "The America We Defend." Recreation for the men in uniform, recreation in defense production centers, recreation and national morale, recreation and normal needs of children, men and women — these and other responsibilities of the recreation movement were dealt with in the same cooperative and democratic way as obtained at past Congresses.

The opening day was devoted to a special conference on the "Community's Responsibility for Defense Recreation," at which Community committees, defense councils, recreation boards, representatives of Federal and State agencies handling recreation near military camps and defense production centers exchanged information and experience, made reports and discussed accomplishments, needs, programs, organization, finance and relationships.

General sessions were held evenings, beginning Monday, September 29. Forenoons daily, from Tuesday to Friday, the Congress divided itself into several discussion groups, carried on simultaneously. No papers or addresses were given. The meetings, presided over by skilled chairmen and aided by discussion leaders, were devoted to cooperative discussion. In the late forenoons of Wednesday, Thursday and Friday, the entire Congress met to hear summarized reports of the previous discussion groups. Afternoons were assigned to special events, additional discussion groups, tours, demonstrations and meetings of allied topics.

At the opening general session, Mayor Jackson of Baltimore gave the address of welcome; the main address was given by Hon. Paul V. McNutt, Federal Security Administrator, on the topic, "Recreation in the America We Defend." Tuesday evening, David Cushman Coyle, architect and author, of Washington, D. C., spoke on "Recreation After the Present Emergency." Wednesday evening, "Recreation and the Pursuit of Happiness," was the subject of an address by Henry Noble McCracken, President, Vassar College.

Charles W. Eliot, 2d, Director, National Reserves Planning Board, Washington, D. C., was the chief speaker on Thursday evening, with "Recreation and Municipal Planning" as his topic.

Some of the many topics for the different group discussion meetings with names of speakers follow:

"Arts and Crafts in Creative Living," Leslie Cheek, Director, Baltimore Museum of Art.
"Recreation for Girls and Women," Wilma Clizbe, Supervisor, Department of Recreation, Dearborn, Michigan.
"Modern Industry and Recreation Needs of Employees," Harold Mayfield, Personnel Division, Owens Glass Company, Toledo, Ohio.
"Gardening, A Year-Round Hobby," Dennis M. Crowley, Jamaica Plain High School, Boston, Mass.
"Music and Morale," Capt. H. C. Bronson, United States Army, Washington, D. C.
"Drama in Recreation," Claire McCarthy, Richmond, Virginia.
"Athletics in the Present Emergency," J. J. Syme, Superintendent of Playground Commission, Hamilton, Ontario, Canada.
"Training for Recreation Service," Prof. G. M. Gloss, State University, Louisiana.
"Planning and Use of School Buildings for Community Recreation," John W. Lewis, Assistant Superintendent of Schools, Baltimore, Maryland.
"Play and the Totalitarian States," Rev. Edward B. Bonn, S.J., President of Loyola College, Baltimore, Maryland.

Worthy of special mention is the attendance of the Chairman of our School Committee, Hon. Joseph C. White. Mr. White attended many of the meetings and conferences, seeking information and new ideas from delegates from other sections of the country beneficial to Boston's recreation services. He participated in the discussions, pointing out the pioneer and increasingly effective indoor and outdoor recreation work conducted for the past thirty years or more in Boston. Early in the week of the Congress he graciously tendered a surprise luncheon to the delegates from Boston, among whom were Mr. Stephen J. Cabot, President of Community Recreation Service of Boston, Inc., and Miss Susan M. Lee, daughter of the late Joseph Lee, father of the playground movement in the United States and former chairman of the Boston School Committee.

Upon the conclusion of the Congress the delegates departed for their home states, cities and towns with renewed inspiration, zeal and enthusiasm, thankful to their respective school committees, boards of education, recreation commissions and superintendents for affording them the opportunity of attending the Congress.

Respectfully yours,

JAMES T. MULROY.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

POLICE DEPARTMENT ORDERS.

General Order No. 666.

Copies of my recent address delivered to the new patrolmen on November 10, 1941, are being forwarded to all divisions and units in order that a copy may be available for each member of the force.

The information contained therein is to be used as a guide when dealing with certain types of cases that an officer encounters in the performance of his duties. The attention of all officers is called to my remarks regarding the suppression of rackets (particularly lotteries), the wisdom of exercising courtesy and good judgment by being reasonable and sympathetic, the handling of drunks and juvenile delinquents, and especially in regard to the use of unnecessary force in effecting the arrest of intoxicated persons.

Although this speech was written originally for the benefit of the new officers, it applies, nevertheless, to all members of the force.

As the department stands today, I am pleased to say that its efficiency is held in high esteem by the general public. However, we cannot be blind to the fact that there is room for improvement. I regret to say that the nature of the complaints called to my attention are those which are critical of some officers using unnecessary force and discourtesy. Investigation has proven that such complaints would have been needless if the officers involved exercised the good judgment and sympathetic understanding of which they are capable.

Let me impress upon every member of the department how important it is that he familiarize himself with the suggestions contained in my address. I have stated my feelings simply and clearly so that each man will understand what is expected of him as a law enforcement officer.

I am confident that the bond of friendship that exists between the public and the department will be further strengthened by following the suggestions outlined in the address.

The Superintendent of Police will promulgate this order.

Joseph F. Timilty,
Police Commissioner.

Upon October 30 the Mayor approved a contract with the Graybar Electric Company, Inc., for furnishing 10,000 feet 3-inch No-Crete conduit, in accordance with Federal specifications WC 581, Type 2, for the Fire Department, at 13.8 cents per foot. The approximate total of the contract was $1,380.

Bids, opened October 10, were as follows:

10,000 Feet 3-Inch No-Crete Conduit, to Meet Federal Specifications, WC 581, Type 2, Per Foot.—General Electric Supply Corporation, 13.8 cents; total, $1,380; Harry M. Condit, Jr., Company, 13.8 cents; total, $1,380; Graybar Electric Company, Inc., 13.8 cents; total, $1,380.

—

Upon November 7 the Mayor approved a contract with M. Van Waveren & Sons, Inc., for furnishing the following list of tulip bulbs for use in the Park Department:

3,000 White Swan at $46 per M., $138; 3,000 Keizerskroon at $50 per M., $150; 3,000 Duchess de Parma at $46 per M., $138; 3,000 Fred Moore at $44 per M., $88; 3,000 Prosperity at $45 per M., $135; 4,000 Iris at $46 per M., $184; 3,000 Crimson Brilliant at $44 per M., $132; 2,000 Rising Sun at $45 per M., $90; 1,000 Pride of Haarlem at $48 per M., $48; 1,000 Bartigon at $45 per M., $45. Total, $1,148.

Subsequent to the signing of this permission, I received a communication from M. Van Waveren & Sons in which they said that they were unable to furnish some of the tulip bulbs specified in the original permission and, in agreement with Mr. Long, Chairman of the Park Commission, the following changes had been made as per schedule below:

3,000 White Swan at $46 per M., $138; 3,000 Keizerskroon at $50 per M., $150; 3,000 Duchess de Parma at $46 per M., $138; 3,000 Fred Moore at $44 per M., $132; 3,000 La Reine at $45 per M., $135; 3,000 Calypso at $46 per M., $138; 3,000 Crimson Brilliant at $44 per M., $132; 3,000 Rising Sun at $45 per M., $135; 1,000 Pride of Haarlem at $48 per M., $48; 1,000 Bartigon at $45 per M., $45. Total, $1,191.

In view of the fact that these tulips are imported from Europe and some of the original species specified are unobtainable, permission has been given to award as per the revised schedule.

POLICE DEPARTMENT ORDERS.

General Order No. 660.

The police officers hereinafter named having performed faithful service in the Police Department for the years stated, and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that they are incapacitated for useful service on the police force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that they be retired from active service in the Police Department under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that their names be placed upon the department pension roll, with pay at the rate in each case set out (to be paid monthly), said sums being one half of the amount of compensation received by each in the office from which he is retired; effective as of Thursday, November 13, 1941, at 7.45 o'clock a. m.

Patrolman Edward H. Gallagher, Bureau of Operations, 22 years of service, amount of pension $1,050 per annum.

Patrolman Michael J. Flynn, Division 9, 22 1-12 years of service, amount of pension $1,050 per annum.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 661.

A trial board consisting of Captains Grace, Donovan and Justin McCarthy, having heard by reference a complaint made by Capt. Francis J. Murphy, Division 19, against Richard L. Hennessey, patrolman, Division 19, for alleged violation of the Rules and Regulations of the Police Department, charging him with conduct unbecoming an officer and incapacity, has reported to the commissioner a finding of guilty on Charge 1 and specification thereunder, and not guilty on Charge 2 and specification thereunder.

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Richard L. Hennessey be suspended from duty for a period of 171 days, effective as of April 5, 1941, at 7.45 o'clock a. m.

General Laws, chapter 31, section 46C, as amended, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C. An officer or employee of the commonwealth or of a city or town who has become separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown the director may, subject to section forty-six G, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 662.

The following-named persons now serving as "Military Substitute" patrolmen are hereby appointed permanent patrolmen, to be effective Friday, November 14, 1941, at 10 o'clock a. m., and are assigned as follows:

John J. Gibbons, assigned to Division 11.

Joseph L. Gallagher, assigned to Division 17.

George J. T. McGarrell, assigned to Division 18.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 663.

The following-named persons are hereby appointed as "Military Substitute" patrolmen, to take effect Friday, November 14, 1941, at 10 o'clock a. m., and they have been assigned as follows:

James Larkin, assigned to Division 19, replacing Patrolman Robert E. Bradley of Division 9.

Harold M. Gibbons, assigned to Division 10, replacing Patrolman John E. Crowley of Bureau of Criminal Investigation.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 664.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement on account of accidental disability, Patrolman John C. Walker of Division 3, and a member of said Contributory Retirement System, such retirement to take effect at the close of business, Sunday, November 30, 1941.

Wherefore, In view of this operation of law, the Police Commissioner states that on and after November 30, 1941, at the hour stated, the said Patrolman John C. Walker shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 665.

The resignation of Patrolman Edward J. Burns of Division 13, having been presented, is hereby accepted, to take effect Saturday, November 15, 1941, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

LIGHTING SURVEY, READVILLE.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of October 27, 1941, concerning the making a survey of the Readville section of Ward 18 for the purpose of installing traffic signal lights at the intersection of Sprague street, Readville street and West Milton street, and "slow" signs at the Readville Station Bridge, also proper street markings on Hyde Park avenue, Readville.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffice Commission, November 4, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated October 27, 1941, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make a survey of the Readville section of Ward 18 for the purpose of installing traffic signal lights at the intersection of Sprague street, Readville street and West Milton street, and "slow" signs at the Readville Station Bridge, also proper street markings on Hyde Park avenue, Readville."

A survey has recently been made in the Readville section of Hyde Park in the vicinity of Sprague street, Readville street and West Milton street.

The completion of a W. P. A. Project in building granite block walls on these streets has created a menace and set up an accident hazard by blocking the view of drivers in the approaches to various intersections. We have recently painted crosswalks and erected warning signs which we trust will be beneficial to this entire area.

Respectfully yours,
WILLIAM P. HICKEY Commissioner.

REOPENING OF TYLER STREET AND ROXBURY CROSSING LIBRARIES.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Director of the Boston Public Library relative to your order of September 22, 1941, concerning the reopening of the Tyler Street Branch Library and the Roxbury Crossing Branch Library.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Library Department, October 20, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—To the trustees of the Public Library at their meeting on October 17, 1941, there was presented the order adopted by the City Council on September 22, 1941, for the reopening of the Tyler Street Branch Library and the Roxbury Crossing Branch Library.

The trustees gave careful consideration to the possibility of effecting such reopenings. They found to their regret that action is not possible along these lines inasmuch as there appears to have occurred no change in the conditions which led to the closing of these two branch libraries in the original instance.

Yours very sincerely,
MILTON E. LORD, Director.

City of Boston,
Public Works Department,
October 16, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council on October 6 of the current year:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to have the water pipes in the vicinity of 78 Fuller street, Ward 17, repaired."

Two separate surveys were made by members of this department on Fuller street, between Dorchester avenue and Washington street, a distance of approximately 1,800 feet, and they could find no surface indication of water leakage, and I can find no repairs necessary to be made to the water pipes in that street.

Visits were made to No. 78 and the woman on the premises stated that she had no complaint regarding defective pipes.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston,
Public Works Department,
October 25, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Fuller Street.

I return herewith order in City Council that the Commissioner of Public Works make repairs to the sidewalk at 78 Fuller street, Ward 17, and also to have a survey made of sidewalks on the even numbered side of Fuller street, with a view to considering the advisability of making extensive repairs.

This will advise you that the reconstruction of this street and the installation of artificial stone sidewalks will be given consideration for submission for approval on a W. P. A. Project.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SIDEWALKS, SELDEN STREET, WARD 17.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of October 6, 1941, concerning the advisability of constructing sidewalks on Selden street, at the rear of the Thompson School, Ward 17.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
October 27, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Selden Street.

I return herewith order in City Council that the Commissioner of Public Works consider the advisability of constructing sidewalks on Selden street, at the rear of the Thompson School, Ward 17.

This will advise you that this work will be given consideration for submission for approval on a W. P. A. Project.

GEORGE G. HYLAND,
Commissioner of Public Works.

TRANSFER WITHIN PUBLIC WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,— In order to continue the sewing project sponsored by the Public Welfare Department, and meet the city's obligations for participation with the Federal Government in the costs of its operation for the balance of the year, it is necessary to transfer the sum of $67,000 from the F, Special Items, group of the budget of the Public Welfare Department to the Work Relief Program

appropriation. There is forwarded herewith an order providing for this transfer, and I recommend its adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That under authority of section 3B of chapter 604 of the Acts of 1941 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Welfare Department, Central Office, F, Special Items, $67,000, to the appropriation for Work Relief Program, $67,000.

Referred to Executive Committee.

LOANS AGAINST TAX TITLES.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,— Under the provisions of chapter 49 of the Acts of 1933, as amended, municipalities are authorized to borrow from the Commonwealth against tax titles. In the case of Boston the proceeds of such loans must be utilized to meet notes issued in anticipation of revenue. On December 19 notes of this character totalling $5,000,000 will come due. I am advised by the City Auditor that the total of tax titles in possession of the city warrants the borrowing at this time of $1,500,000.

In view of this fact I submit herewith an order authorizing the borrowing of this amount and the application of the proceeds when received to assist in the financing of the temporary loan previously mentioned.

I respectfully recommend adoption of this order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That under the provisions of chapter 49 of the Acts of 1933 as most recently amended by chapter 288 of the Acts of 1939 the City Treasurer be authorized to obtain the approval of the Emergency Finance Board to the issuance of one million five hundred thousand dollars ($1,500,000) in notes, bonds or certificates of indebtedness of the city, said notes, bonds or certificates to be sold at their face value to the Commonwealth and the proceeds be, and hereby are, appropriated for the purpose of meeting outstanding revenue loans.

Referred to Finance Committee.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $27,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, November 1, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $27,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of	$27,000

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of $27,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of	$27,000

Referred to Executive Committee.

TRANSFER TO CITY PLANNING BOARD.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1941.

To the City Council.

Gentlemen,—The City Planning Board, through its chairman, William Stanley Parker, has requested that the sum of $780 be transferred to the 1941 appropriation of this department in order that it may operate efficiently during the remainder of the current year.

In compliance with this request, I submit herewith an order transferring the sum of $780 from the Reserve Fund to the City Planning Board appropriation, and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That under authority of section 3B of chapter 604 of the Acts of 1941 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $780, to the appropriation for City Planning Board, B, Contractual Services, $725; D, Supplies, $55.

Referred to Executive Committee.

TRANSFER OF RIGHTS TO COMMONWEALTH.

Chairman SHATTUCK called up, under unfinished business, No. 2 on the calendar, viz.:

2. Order for the transfer to the Commonwealth, in connection with the taking over of the East Boston Airport, of the city's rights in Governor's Island, Apple Island and flats, and a portion of flats appurtenant to World War Memorial Park.

On October 27, 1941, the foregoing order was read once and passed, yeas 19, nays 0.

The question came on the second reading and passage of the order.

Coun. COFFEY—Mr. Chairman, I wonder if I can be informed whether or not the employees of the airport have been taken care of. I have not yet been able to find out that that is so.

Chairman SHATTUCK—The Chair is informed that the Park Department employees who were working in the airport will be assimilated in the Park Department by other assignments.

Coun. TAYLOR—Mr. Chairman, Commissioner Long in committee said definitely that they would be taken care of in the Park Department.

The order was given its second reading and passage, yeas 18, nays 0.

SALE OF LAND IN BRIGHTON.

Chairman SHATTUCK called up, under unfinished business, No. 3 on the calendar, viz.:

3. Order for the sale to the Faneuil Congregational Church of Boston of a parcel of land on Brooks street, Brighton, containing 5,818 square feet.

On October 27, 1941, the foregoing order was read once and passed, yeas 17, nays 0.

The order was given its second reading and passage, yeas 18, nays 0.

CONFIRMATION OF EXECUTIVE COMMITTEE APPOINTMENTS.

Chairman SHATTUCK called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor October 27, 1941, of Robert Cody and Jack Zall, to be Weighers of Goods; and Samuel A. Myers and Thomas E. Birmingham, to be Weighers of Coal.

The question came on confirmation of the appointments. Committee, Coun. Wickes and Coffey. Whole number of ballots 12, yeas 12, and the appointments were confirmed.

ORDERS LOOKING TO LEGISLATION.

Coun. M. H. SULLIVAN called up from the calendar assignment No. 4, and order on the table, No. 6, viz.:

4. Resolved, That the City Council of the City of Boston be recorded in favor of the passage of legislation permitting the City of Boston to borrow, outside the limit of indebtedness, for the purpose of constructing a municipal stadium, provided that such legislation contains a referendum to the Mayor and the City Council of the City of Boston.

6. Ordered, That his Honor the Mayor be requested to confer with the Corporation Counsel and the members of the Boston Housing Authority to consider the advisability of introducing legislation at the next session of the General Court to place all employees of the Boston Housing Authority under the authority of the Civil Service.

Coun. M. H. SULLIVAN—Mr. Chairman, in view of the fact that the Legislature has adjourned, I move that action on Nos. 4 and 6 be indefinitely postponed.

The motion to indefinitely postpone action on Nos. 4 and 6 was carried.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

Report on petitions for driveways openings—recommending that permits be granted, on usual conditions, viz.:

Gulf Oil Corporation (referred today), 219 Old Colony avenue.

John W. Harron (referred today), 348 Shawmut avenue and Pelham street, Ward 9.

Report accepted; said permits granted.

REPORT OF COMMITTEE ON CLAIMS.

Coun. M. H. SULLIVAN, for the Committee on Claims, submitted the following, viz.:

Report on petition of William J. Doherty (referred October 27) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Traffic Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of three hundred six dollars and eighty-six cents ($306.86) be allowed and paid to William J. Doherty in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Traffic Department, said sum to be charged to the Contingent Fund.

Report accepted; said order passed.

PRICES OF GASOLINE AND OIL PRODUCTS.

Coun. M. H. SULLIVAN offered the following:

Whereas, The substantial increase of the retail price of gasoline was ascribed by distributors to be the result of the lack of tankers for the transportation of same; and

Whereas, Such a shortage no longer exists; and

Whereas, The City of Boston is a large purchaser of gasoline and oil products; therefore, be it

Resolved, That the Director of the Necessities of Life for the Commonwealth of Massachusetts be requested to conduct a survey into the seemingly unwarranted high prices of gasoline and oil products; and be it further

Resolved, That the members of the Massachusetts delegation in Congress likewise be requested to conduct a similar survey, to the end that a considerable sum of money may be saved by the City of Boston.

Coun. M. H. SULLIVAN — Mr. Chairman, a few months ago, because of the reported lack of transportation facilities for gasoline, arising, as we were told, from our sending abroad a large number of tankers, there was what now appears to be an unwarrantable increase in the price of gasoline. In view of the statement of Mr. Ickes a few weeks ago that the tankers referred to were being returned to the United States and that there are now sufficient transportation facilities, that situation no longer exists. We learn that fifty-two such tankers are being returned to the United States and that they can be used for transportation over here. Prior to the hysteria created by this so-called emergency, gasoline could be purchased here at the rate of seven gallons for the dollar, but as a result of the emergency that was being claimed in transportation facilities at the time, the price hurriedly jumped to six gallons for $1.05. There are over 100,000 auto owners in Boston, and over 300,000 in metropolitan Boston, all of whom, of course, are vitally affected by the increase in gasoline prices. At the present time there seems to be absolutely no justification for the increase that we have suffered, and instead of continuing this half nelson around the necks of the automobile drivers in the metropolitan area, this unjustifiably high price should be discontinued. The gasoline companies have been charging and are charging unwarranted high prices on account of this so-called emergency or threat, which has now disappeared, and I feel, therefore, that the Director of the Necessities of Life for the Commonwealth and that the members of the Massachusetts delegation in Congress should be requested to conduct a survey into this matter of seemingly unwarranted high prices of gasoline and oil products, to the end that a considerable sum of money may be saved throughout the community. It now appears that there was not and is not any justification for the increase in prices of gasoline, and it seems evident that the price should now be reduced.

The order was passed under suspension of the rule.

CHANGES IN PRESENT ELECTION LAWS.

Coun. GOODE offered the following:

Ordered, That the Legislative Agent of the City of Boston be instructed to petition for legislation which will provide changes in the present election laws, which law now allows last-minute substitution of names of candidates for election, and prevents city office holders from rightfully retaining the first place on the ballot — a privilege now enjoyed by state and county office holders.

Passed under suspension of the rule.

150th ANNIVERSARY OF PROCLAMATION OF BILL OF RIGHTS.

Coun. GOODE offered the following:

Whereas, The 15th of December, 1941, commemorates the 150th anniversary of the Proclamation of the Bill of Rights; and

Whereas, The Bill of Rights in its distinct test provides freedom of religion, freedom of the press and speech, and the right to petition to Government for redress, and trial by jury, and for other mighty American principles and doctrines which are the very foundation of our American way of life; be it so

Resolved, That the Boston City Council does heartily agree with the Hearst newspapers that Bill of Rights Day, December 15th, should be a national holiday.

Passed under suspension of the rule.

SIDEWALK CONSTRUCTION, WARD 16.

Coun. FISH offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Gallivan Boulevard, in front of Nos. 494 and 496, Ward 16, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works make a sidewalk along Kenmore road (easterly side), approximately 184 feet northerly from Gallivan Boulevard, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

PERAMBULATION OF BOUNDARY LINES.

Coun. LYONS offered the following:

Ordered, That two members of the City Council, the assistant city clerk, and the chief engineer o the Street Laying-Out Department, or their duly appointed substitutes, be, and hereby are, appointed in behalf of the City Council to perambulate the boundary lines and to examine the bound marks between Boston and the adjacent cities and towns of Revere, Everett, Somerville, Newton, Brookline, Dedham and Milton, to report descriptions of the same and to cause bound marks to be erected or removed wherever necessary; the expense incurred under authority of this order, if any, to be charged to the Contingent Fund.

Passed under suspension of the rule.

EXCAVATION ON FREEPORT STREET.

Coun. KELLY offered the following:

Ordered, That his Honor the Mayor be requested to instruct the proper department heads to take the necessary steps to prevent the present excavating work at the old gas house site on Freeport street, near Dorchester avenue, which will ruin waterfront taxable property that could be used for war industries or for wartime purposes and which is very objectionable to residents of Ward 15, who claim that after the excavation work is completed, the land will be used for a dump.

Coun. KELLY—Mr. President, many of the residents of the lower section of Ward 15 have contacted me during the past week with reference to excavation now going on at the old gas house site on Freeport street, near Dorchester avenue, which, in their minds, will ruin waterfront taxable property which could be used for war industries or for wartime purposes. They claim also that after the work is completed the land will be used as a dump. People of that section of Ward 15 are now satisfied with their surroundings. Many of them have invested their life savings in their property, and they now object to a dump coming into the lower end of the ward and ruining it. It does seem that every time when anything of the sort is proposed for the Dorchester section, they pick out the lower part of Ward 15. The people there have had occasion before to rise up in arms when other things detrimental to the area were proposed; and they are now very much worked up over this excavation work that is going on, because it is the understanding that after it is completed the land will be used for a dump. I trust, therefore, that the order will be passed under suspension of the rule.

The order was passed under suspension of the rule.

INCREASED LIGHTING, HUNTINGTON AVENUE.

Coun. CAREY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to immediately arrange for greatly increased lighting facilities on Huntington avenue, between Longwood avenue and South Huntington avenue, Ward 10.

Coun. CAREY—Mr. President, on Thursday last the new underpass at the intersection of Huntington and Massachusetts avenues was opened, and, as a result, greatly increased vehicular traffic now passes through Huntington avenue. That section of this avenue between Longwood and South Huntington avenues has always been very poorly lighted and pedestrians have encountered great risk to life in endeavoring to cross from one sidewalk to the other. In spots, as a matter of fact, it is almost pitch dark. On Friday evening last I observed people trying for eight minutes to cross this street just above Brigham Circle, and it was so dark there that their figures were hardly discernible. The time has now come when something must be done immediately to provide some safety through improved lighting. Further down Huntington avenue, between Massachusetts avenue and Copley square, a white way now exists because of increased lighting facilities, and I am compelled to ask that similar lighting be provided between Longwood and South Huntington avenues. I ask, therefore, that this request be transmitted at once to the Public Works Commissioner with the request that immediate action be taken by him to afford this much needed improvement.

The order was passed under suspension of the rule.

SIDEWALKS, WARD 7.

Coun. LINEHAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on both sides of the following streets in Ward 7: East Fifth street, between G and H streets; G street, between East Fourth street and Columbia road.

Passed under suspension of the rule.

REGISTRATION OF BICYCLES.

Coun. D. F. SULLIVAN offered the following:

Ordered, That section 11A of chapter 85 of the General Laws, relative to the registration of bicycles, inserted in said chapter by chapter 710 of the Acts of 1941, be, and hereby is, accepted.

Referred to Executive Committee.

IMPROVEMENTS, WARD 9 STREETS.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface and install sidewalks and edgestones on the following-named streets in Ward 9: Highland avenue, Norfolk street, Kenilworth street.

Passed under suspension of the rule.

SPEED IN MASSACHUSETTS AND HUNTINGTON AVENUES UNDERPASS.

Coun. CHASE offered the following:

Ordered, In order to prevent serious accidents that may be caused by speeding automobiles passing through the new underpass at Massachusetts and Huntington avenues, that the Traffic Commissioner be requested, through his Honor the Mayor, to install appropriate signs in the said underpass, warning motorists to slow their speed upon leaving the exits of the underpass.

Coun. CHASE—Mr. President, the new underpass at Massachusetts and Huntington avenues has been a great asset in relieving congested traffic in that area. As a matter of fact, however, motorists go through the underpass at such a speed that when they leave the exits of the underpass they place the public in jeopardy. I believe if the Traffic Commissioner will install appropriate signs in the underpass, warning motorists to slow their speed upon leaving the exits, it will have a restraining effect upon the present undue speed of those leaving the underpass, and that it will remedy the present hazardous situation.

The order was passed under suspension of the rule.

SIDEWALK CONSTRUCTION, WARD 21.

Coun. WARD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Chestnut Hill avenue, in front of No. 158, Ward 21, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SHELTER AT CENTRAL SQUARE, EAST BOSTON.

Coun. COFFEY offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to erect a shelter for patrons at Central square, East Boston.

Passed under suspension of the rule.

RECESS.

On motion of Coun. LYONS, the Council voted at 2.45 p. m. to take a recess, subject to the call of the Chair. The members reassembled and were called to order by Chairman SHATTUCK at 3.10 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. SHATTUCK, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) transferring $27,000 from income of George F. Parkman Fund to Maintenance and Improvement of Common and Parks in Existence on January 12, 1887—recommending that same ought to pass.

Report on message of Mayor and order (referred today) transferring $67,000 from Public Welfare Department, F, Special Items, to Work Relief Program—recommending that same ought to pass.

Report on message of Mayor and order transferring $780 from Reserve Fund to City Planning Board—recommending that same ought to pass.

Report on message of Mayor and orders for transfers within departmental appropriations amounting to $21,205—recommending that same ought to pass.

The question came on the acceptance of the report and the passage of the orders.

The report was accepted, and the orders severally passed, yeas 15, nays 0.

2. Report on petition of Teresa F. Zopf (referred February 17) to be paid annuity on account of death of her husband, George F. Zopf, former member of Fire Department—recommending passage of accompanying order, viz.:

Ordered, That under the provisions of chapter 340 of the Acts of 1933 an annuity of one thousand dollars be allowed and paid to Teresa F. Zopf, widow of George F. Zopf, a member of the Fire Department, who died on January 6, 1941, on account of injuries received in the performance of his duty, said annuity to continue so long as she remains unmarried; the payments to date from January 6, 1941, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Report accepted; order passed.

PETITION OF BOSTON ELEVATED FOR BUS PERMIT.

A petition was received from the Boston Elevated Railway for license to operate motor vehicles between junction of Huntington avenue and Francis street (Brigham Circle), and junction of Boylston and Charles streets, over Huntington avenue and Boylston street.

Coun. CHASE—Mr. President, I would like to have the Committee on Licenses hold a meeting on this matter as early as convenient, because on December 2 the emergency permit granted by the Department of Public Utilities will have expired, and unless we obtain some sort of understanding with the Railway Trustees they will be forced to the position of taking off that bus line. I hope, therefore, that the chairman of the Committee on Licenses will hold the meeting as early as opportune.

The petition was referred to the Committee on Licenses.

Coun. CAREY—Mr. Chairman, I understand that at the present time Mr. Dana, of the Elevated System, is out of town, and if a meeting of the committee should be held some day this week, possibly on Thursday afternoon, it would probably be impossible for Mr. Dana to be present at the meeting. It might be, of course, that another member of the Board of Trustees could be delegated to come here in Mr. Dana's place. I would suggest, therefore, that the Clerk of Committees send out a notice for a hearing to be held this week, if that is the wish, and that every effort be made to get Mr. Dana back to town at that time, or else that some member of the Board of Trustees be sent here who can qualify in his place. I would add, also, that it will be hard for some of us to attend the meeting this week, on account of the recount; but if it is necessary to hold the meeting this week, I suggest again that a qualified member of the Board of Trustees be sent here to take Mr. Dana's place.

THE NEXT MEETING.

Coun. HURLEY—Mr. Chairman, I move that when the meeting adjourn, it be to meet two weeks from today.

Coun. FISH—Mr. President, I object to that, and would like a roll call upon it.

Before the roll call was finished, Coun. HURLEY withdrew his motion.

Adjourned, on motion of Coun. HURLEY, at 3.45 p. m., to meet on Monday, November 17, 1941, at 2 p. m.

EXTRA WORK UNDER CONTRACT.

Samuel J. Tomasello Corporation has been directed to perform the following extra work under the contract for bituminous concrete pavement in Spring Garden, Judson, Ingleside and Dacia streets, dated October 1, 1941. Items ordered: Lay approximately 1,500 square yards of bituminous concrete on a 4-inch bituminous macadam base in Judson street. Prices to be paid, the same as those bid for similar work in the contract. This area was left off in the original contract. Estimated cost of extra work, $2,460.

—

Quincy Dry Dock and Yacht Corporation have been directed to perform the following extra work under the contract for repairing hull, etc., of ferryboat "Daniel A. MacCormack," dated October 7, 1941. Items ordered: 1, installing thirty-four new studs for boiler mountings, drilling out and retapping broken studs, estimated cost, $102; 2, renewing damper of starboard boiler, including overhaul, estimated cost, $250; 3, cutting out certain stiffeners in stack and renewing, estimated cost, $50. This work is required by the United States Steamboat Inspection Service and could not be anticipated, since the requirements were not made until the ship was at the repair yard and the conditions uncovered as work under contract progressed. Estimated cost of extra work, $402.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

H. DiTullio & Co., have been granted an extension of the time of completion of the contract for stairs and ramps for Monastery path, from Warren street southwesterly about 875 feet, Brighton, dated October 16, 1941, from November 15, 1941, to December 15, 1941. This extension is requested for the reason that the contractor has been delayed by the slow delivery of steel necessary to carry on the work.

STATE VALUATIONS IN 1937.

Total assessed value of real estate on January 1, 1937, in the thirty-nine cities and 316 towns of Massachusetts, $5,742,161,541 ($18,194,654 less than on January 1, 1936), of which 65.62 per cent applied to buildings and 34.38 per cent to land; of personalty, $525,039,493; aggregate valuation, $6,267,201,034 (2.74 per cent decrease from 1936), on which the total tax was $222,184,422. To raise this amount of taxes on the property assessed at a uniform rate throughout the State would have required a tax rate of $35.45+ on $1,000 valuation. Boston's valuation, $1,590,544,700, equal to 25.38 per cent of total valuation in the State.

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of $1,200-plus up to $200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of $400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, NOVEMBER 29, 1941. NO. 48

MAYOR TOBIN DISCUSSES PROBLEMS OF MUNICIPAL GOVERNMENT WITH REFERENCE TO CITY PLANNING — ADDRESSES 28TH ANNUAL CONFERENCE OF MASSACHUSETTS FEDERATION OF PLANNING BOARDS ON SUBJECT OF PLANNING AS SEEN FROM THE MAYOR'S DESK — SAYS PLANNING FOR FUTURE GROWTH OF CITY PREVENTS, MANY TIMES, SERIOUS MISTAKES FROM BEING MADE — MORE PROBLEMS AHEAD FOR CITY THAN AT ANY TIME IN THE PAST, MANY DUE TO TRAFFIC, AND DISTRIBUTION WILL HAVE TO BE SOLVED.

The following is the address of Mayor Maurice J. Tobin at the 28th Annual Conference of the Massachusetts Federation of Planning Boards, October 3, on "Planning as Seen From the Mayor's Desk":

As Mayor of Boston, I am delighted to have this opportunity of welcoming you all here. I have taken a deep interest in planning, because I now know, after looking back over a period of four years, that it would have been a great mistake if I had listened to those people who, at the outset of my administration, attempted to convince me that planners were just dreamers and planners were people a Mayor should avoid.

I have come to the conclusion that such a thought is very dangerous in municipal government, because unless we have those who will set aside and give thought to the future growth of the city, great mistakes are bound to be made, and we certainly can see them on all sides in the City of Boston.

Planning is nothing new for the city, because when the Massachusetts Colony decided to send a group of colonists here three hundred years ago, they sent over with the first group of colonists a gentleman by the name of Thomas Graves, whose duty it was to lay out a town. He started in Salem, stayed a short period of time, and then, with one hundred other colonists, moved to Charlestown. There you can see the evidences of the planning he performed, and he was a capable engineer.

Planning Necessary.

It does seem odd that men in high places in government, at this late date, three hundred years after the founding of the Massachusetts Bay Colony, would be attempting to convince governmental leaders that planning is unnecessary and that planners were people to be avoided.

I am convinced that there are more problems ahead that should be given consideration than probably at any time in the past. Cities had but very little difficulty until the advent of the automobile, although, of course there are a great many other contributing factors to the financial condition in which municipal governments find themselves today. I would place the automobile as the Number 1 factor. I would place changed methods of distribution as the second factor. And the third factor, technological advances that result in tremendous unemployment.

Those are the three great factors that will have to be solved, if our municipalities are to continue on a sound, solvent basis. In the absence of that, there will have to be a complete re-vamping of the whole tax structure, or the burdens that are now placed upon municipalities will have to be taken over by other agencies of government.

As Mayor, I can tell you that the municipalities of the nation cannot carry through another depression under the present financial set-up or the present apportionment of the burdens among the various branches of government,— the city, the state and the nation.

When I became Mayor, we had five members of the City Planning Board. They came to me and convinced me that the Planning Board should be broadened to nine members, one of whom should be an engineer, one an architect, one a landscape architect, or planner, and continuing the old provision that we have one woman member of the Board.

It was the City Planning Board that sold me the idea of the Central Traffic Artery with an elevated roadway. I hope that in the not far distant future the Central Traffic Artery will be brought to completion. I am satisfied, as are most engineers who have given very much consideration to traffic problems, that the only way to handle the automobile in the modern-day congested areas is by grade separation. Street widening only provides additional parking spaces, and, in the downtown areas, of course, it isn't possible to underpass and overpass each intersection. Therefore, there are only two alternatives — to tunnel, or to elevate.

In Boston it was decided to elevate.

Fortunately or unfortunately, in the ideal section of the city for the route of this traffic artery, there have been tremendous reductions in the assessed valuations of the properties, and it will be possible, I feel confident, in the not far distant future to bring about the construction of this Central Traffic Artery.

(*Continued on page 1287.*)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

ADDRESS OF MAYOR TOBIN.

(*Continued from page 1285.*)

Auto Big Factor.

You can imagine how much of a problem the automobile creates for Boston when I tell you that in 1928 we had 170,000 pleasure vehicles a day entering and leaving the slightly more than one square mile which comprises downtown Boston. The last traffic count, which was taken in 1941, was substantially in excess of 300,000, or almost one hundred per cent increase, in a period of thirteen years.

I believe that if a traffic count were to be taken a year from today, we would find not alone a good percentage of increase in registration present as a factor in the traffic count, but a far greater increase in Metropolitan Boston. We have practically reached the saturation point, and unless some major operation is performed upon the downtown section of the city to accommodate the business area to the traffic of the automobile, inevitably greater distress is bound to come to the business establishments in that area.

Either the great centers of population are going to accommodate themselves to the automobile, or the automobile is going to result in the destruction of the great centers. And that applies not only to Boston but to practically every big city in the United States that has a population of over a quarter of a million people.

Many communities have gone ahead with programs that have fairly satisfactorily handled the situation. But, in Boston, the situation is more acute than in any other city in the country, because of the peculiar lay-out of our downtown streets. There is only one through street going from north to south, and that is Washington street. When you get two thirds of the way going towards the north, the traffic from the north actually cuts across the traffic from the south, opposite Faneuil Hall. So even the one through street we have in the city is not a through street in the sense that the traffic can flow north and south on the street.

The only solution is the Central Traffic Artery, and with courage and confidence, we will be able to bring about the completion of that much desired project, I trust, at the next sitting of the Legislature.

In addition to the Central Traffic Artery, there are a great many other traffic items proposed. A good many of them have been put into effect.

To Proceed With Plan.

We are going to go ahead, even though the Central Traffic Artery was not approved, with many of the items that were a part of the bill in the original instance. The Huntington Avenue Subway, recently completed, and Huntington avenue itself, making a double highway that directly connects with the Worcester Turnpike, should contribute greatly to the relief of traffic entering Boston from the west.

We are going to build a big traffic circle on Brookline avenue which should eliminate one of the worst bottle-necks in Boston. We have built a circle at the southerly end of Jamaica Pond. Another project started is on Dorchester avenue, after you pass the Broadway Station; we have had an exit from the old Dorchester Avenue Subway that has obstructed traffic for a great many years. I hope that by next spring that will be completed, so that we shall have a good broad highway that will relieve another point of congestion.

The City Planning Board in Boston has always been very strong for public housing. Their first studies were made a great many years ago. To date, in Boston, there have been completed five projects that house about forty-three hundred families. There are five other projects in the process of construction. When the program has been completed, there will be housing for approximately seventy-three hundred family groups.

I believe experience has proven that it is the part of wisdom to fight tuberculosis, pneumonia and other diseases with houses as well as with hospitals, and with slum clearance as well as with Christmas seals. I am certain that if you people could have an opportunity to view the areas that have been demolished, you would agree with this.

One of the outstanding results of the public housing is to be found in the Old Harbor Village project, a project I didn't agree with, because of the fact that it was built upon empty land, and it should have been built in an area that was cleared of slums. During the course of the past two years, despite the fact that there are eighteen hundred children living in the project, there has not been one single case of juvenile delinquency, a record that couldn't be found in any other part of Boston. That is one of the best evidences of the fact that placing people in good environment will have a tendency to improve the moral standards of the people.

Recently, upon the recommendation of the City Planning Board, we appointed a Committee on Community Rehabilitation. They selected twenty areas of the city as prospective section to study. At the present time, they are working in the South End area.

I made mention of the changed methods of distribution, and I would like to cover just a few of the wholesale sections of Boston that are now only shadows of their size.

We had a great wholesale grocery district in Boston, and due to the coming of the chain grocery stores, that wholesale grocery section is now a small area. We have great storage space now empty that formerly was filled with grocery products.

We also had a substantial wholesale stove district, and the business in that area comprised about a 10 per cent sale of new stoves and about 90 per cent parts and repairs. In those days a great many stoves would be stored in the downtown section, in this particular stove district. Today, the old stove ranges are gone, and in their place has come the electric stove and the gas stove.

Instead of shopping in the wholesale stove district, or in a stove store (and we had thousands of retail stove stores in the city years ago), today the mother of the household will go to one of the branch agencies to pay the gas or electric bill, and there she will see a nice, shiny, new stove and she will decide she is going to order one. Immediately an order is sent on to the factory and it is delivered directly to the home. The replacement of parts amounts to a trivial business as compared with the old days, and, as a result, another great wholesale district is wiped out. The real estate values have dropped 75 per cent in that area.

This is not Boston's problem alone. It is nation-wide in scope. But, it is the duty of the city government to attempt to cope with these situations, and there is where city planning becomes really valuable.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

Hospital Department (Sanatorium Division).

Upon November 19 the Mayor approved a contract with Frank J. Jacobs Company for furnishing and installing new window sash and mullions in Ward I of the Sanatorium Division. Bids, opened at the Sanatorium on October 15, were as follows:

Frank J. Jacobs Company, $3,300; Martin J. Kelly, $3,870; alternate bid of $150 less.

Library Department.

Upon November 18 the Mayor approved a contract with Pitcher & Co., Inc., in the amount of $6,470, for acoustical treatment and electric lighting for the branch library quarters which the library is shortly to open in the Old Colony Housing Project in South Boston. Bids, opened September 25, were as follows:

W. T. Roberts Construction Company, Inc., $6,181; Pitcher & Co., Inc., $6,470.

Since the low bidder did not submit a bid in accordance with the specifications set forth in the library's notice to bidders, the bid submitted by that firm was declared to be invalid. The trustees therefore voted to award the contract to Pitcher & Co., Inc., the lowest qualified bidder.

PUBLIC WORKS DEPARTMENT.

Upon November 13 the Mayor approved a contract with J. A. Singarella Company, the lowest bidder, for construction work on the Longfellow Bridge over the Charles river, at an estimated cost of $38,580. The work to be done under this contract is to be completed within six months after the date of the execution of the contract. The following bids were received November 12:

J. A. Singarella Company, $38,580; A. Orlando, Inc., $39,000; Berke-Moore Company, $47,900; Grossier and Shlager Iron Works, $48,155; Marinucci Brothers & Co., $48,250; Oscar H. Horovitz Company, $49,400.

SUPPLY DEPARTMENT.

Upon October 30 the Mayor approved a contract with the Sheehan, O'Brien Company, the lowest bidder, for furnishing steamfitting supplies for the Boston City Hospital. Upon November 7 the Mayor approved a contract with Marshall & Co. for furnishing 1,660 feet 259 conductor, No. 19 solid latex, anhydrex jacket and duck-taped control cable for the Sumner Traffic Tunnel. Marshall & Co. through a clerical error quoted a price for 1,000 feet. In view of the prices submitted, all being the same, that is, $2.33 per foot, it was recommended that a contract be awarded to Marshall & Co. without further advertising for furnishing 1,660 feet of this cable at $2.33 per foot for the reason that Marshall & Co. have submitted a delivery date which is three weeks better than that of any other bidder. Bids, opened October 31, were as follows:

1,660 Feet, Four 415-Foot Lengths, 259 Conductor, No. 19 Solid Latex, Anhydrex Jacket and Duck-Taped Control Cable, as Per Specifications, Per Foot.—Simplex Wire and Cable Company, $2.33; total, $3,867.80; Wetmore-Savage Division, Westinghouse Electric Supply Company, $2,330 per M. feet; total, $3,867.80; Marshall & Co., Inc., $2.330 per M. feet; total, $3,867.80; Graybar Electric Company, Inc., $2,330 per M. feet; total, $3,867.80; United States Rubber Company, $2.33; total, $3,867.80.

Cash Discount, Ten Days.—Simplex Wire and Cable Company, one half of 1 per cent; Wetmore-Savage Division, Westinghouse Electric Supply Company, one half of 1 per cent; Marshall & Co., Inc., one half of 1 per cent; Graybar Electric Company, Inc., one half of 1 per cent; United States Rubber Company, one half of 1 per cent.

Net Total.—Simplex Wire and Cable Company, $3,848.46; Wetmore-Savage Division, Westinghouse Electric Supply Company, $3,848.46; Marshall & Co., Inc., $3,848.46; Graybar Electric Company, Inc., $3,848.46; United States Rubber Company, $3,848.46.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Wiltshire road, Brighton district, as a highway, from Chestnut Hill avenue westerly for about seven hundred feet, also the laying out and construction of an extension of said street from its present westerly end to Foster street, through land supposed to belong to the heirs of Horace W. Baxter, bounded and described as follows:

A highway named Wiltshire road is hereby laid out, from Chestnut Hill avenue to Foster street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Frank H. Baxter *et al.,* bounded:

Westerly by Foster street, by two measurements, one and 67-100 feet and thirty-eight and 49-100 feet on a curve of five hundred sixty-one feet radius; northerly by the northerly line of Wiltshire road, as laid out under this order, by two measurements, four hundred eighty-seven and 33-100 feet and ten and 53-100 feet; easterly by Wiltshire road, thirty-four and 81-100 feet, and five and 20-100 feet; southerly by the southerly line of Wiltshire road, as laid out under this order, by two measurements, six and 31-100 feet and four hundred seventy-nine and 50-100 feet, containing nineteen thousand six hundred and sixty-six square feet, more or less.

The land, owners unknown, being the private way known as Wiltshire road.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Wiltshire road, as hereby laid out, is bounded:

Easterly by Chestnut Hill avenue, forty and 25-100 feet, on a curve of three hundred and thirty-four feet radius; southwesterly by the southwesterly line of said Wiltshire road, as hereby laid out, three hundred twenty-seven and 16-100 feet; westerly by the westerly line of said Wiltshire road, as hereby laid out, by three measurements, seventy-four and 76-100 feet on a curve of one hundred and forty feet radius, fifty and 23-100 feet and forty-five and 67-100 feet on a curve of one hundred feet radius; southwesterly by the southwesterly line of said Wiltshire road, as hereby laid out, two hundred thirty-two and 40-100 feet; and southerly by the southerly line of said Wiltshire road, as hereby laid out, four hundred seventy-nine and 50-100 feet; westerly by Foster street, by two measurements, one and 67-100 feet and thirty-eight and 49-100 feet; northerly by the northerly line of said Wiltshire road, as hereby laid out, four hundred eighty-seven and 33-100 feet; northeasterly by the northeasterly line of said Wiltshire road, as hereby laid out, two hundred thirty-six and 76-100 feet; easterly by the easterly line of said Wiltshire road, as hereby laid out, by three measurements, sixty-three and 96-100 feet on a curve of one hundred and forty feet radius, fifty and 23-100 feet and fifty-three and 40-100 feet on a curve of one hundred feet radius; and northeasterly by the northeasterly line of said Wiltshire road, as hereby laid out, three hundred twenty-two and 88-100 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Wiltshire road, as laid out under this order, from Chestnut Hill avenue to Foster street, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Wiltshire Road, Brighton, Assessment Plan, October 29, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of September 22, 1939, as amended November 17, 1941, determining damages caused by the making of the public improvement consisting of the laying out of Dyer street, be, and the same hereby is, amended, by adding to said order the amount $25 as an award to Abraham Silverman; that the amount $25 be, and the same hereby is, awarded to Abraham Silverman for the damages so sustained.

—

Voted, That the order of the Street Commissioners and Mayor of September 22, 1939, as amended November 17, 1941, determining damages caused by the making of the public improvement consisting of the laying out of Dyer street, be, and the same hereby is, amended, by adding to said order the amount $26.75 as an award to William Silverman; that the amount $26.75 be, and the same hereby is, awarded to William Silverman for the damages so sustained.

—

Voted, That the order of the Street Commissioners and Mayor of August 27, 1941, as amended November 17, 1941, determining damages caused by the making of the public improvement consisting of the extension of Howitt road, be, and the same hereby is, amended, by adding to said order the amount $325 as an award to Graham J. Norton and Grace V. Norton, husband and wife, as tenants by the entirety; that the amount $325 be, and the same hereby is, awarded to Graham J. Norton and Grace V. Norton, husband and wife, as tenants by the entirety, for the damages so sustained.

—

Voted, That the order of the Street Commissioners and Mayor of August 27, 1941, determining that no person sustains damages by the making of the public improvement consisting of the extension of Howitt road, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word "no." That said order be further amended by adding thereto, Margaret B. Dickenscheid, $316.40. That the amount $316.40 be, and the same hereby is, awarded to Margaret B. Dickenscheid for the damages sustained by the making the said improvement.

—

Voted, That the order of the Street Commissioners and Mayor of July 22, 1941, determining damages caused by the making of the public improvement consisting of the widening and relocation of Wood avenue, be, and the same hereby is, amended, by striking from said order the amount $1 awarded to Peter Kosluski and Theodora Kosluski, husband and wife, as tenants in common, in said order and inserting in place thereof the amount $150; that the amount $150 be, and the same hereby is, awarded to Peter Kosluski and Theodora Kosluski, husband and wife, as tenants in common, for the damages so sustained.

EXTRA WORK UNDER CONTRACT.

E. L. Oak has been directed to perform the following extra work under the contract for sewerage works in Chestnut Hill avenue (easterly side), between Hatherly road and Chiswick road, Brighton, dated September 29, 1941. Items ordered: Set 148 linear feet + of granite edgestone, including removal of existing hip gutter and all incidental work at agreed price of 50 cents per linear foot. Furnish and lay 1,300 square feet of foundation, concrete base and wearing surface for artificial stone sidewalk, including all incidental work at agreed price of 30 cents per square foot. All work to be done in accordance with standard specifications of the Highway Division. Reason: New store properties have been erected at the upper section of our sewer. Our structures were built in the sidewalk. Instead of restoring the gravel sidewalk and hip gutter it is deemed advisable to place a granolithic sidewalk and granite edgestone within the limits of the store property. Estimated cost of extra work, $464.

—

Baker & Co. have been directed to perform the following extra work under the contract for bituminous concrete pavement and sewerage works in Glover court, Ward 7, and for bituminous concrete pavement in Melville lane, Ward 17, Magnolia street, Ward 14, Wave avenue, Ward 13, Rosselerin road, Ward 16, Davidson avenue, Ward 15, St. Brendan road, Ward 16, Gretter road, Ward 20, dated September 2, 1941. Items ordered: In Gretter road, Ward 20, reconstruct three manholes, at agreed lump sum price of $100. Reason: Three manholes that were built to existing grade had to be torn down and rebuilt to meet construction grade. Estimated cost of extra work, $100.

—

Earl M. Carriere has been directed to perform the following extra work under the contract for bituminous concrete, etc., in Jaeger terrace, etc., streets, dated August 1, 1941. Items ordered: Remove loam and other unsuitable material below subgrade in Augustus avenue and replace with gravel fill, approximately 500 tons of gravel fill to be furnished and placed at 80 cents per ton. Excavation to be paid for under item in the concrete. Estimated cost of extra work, $400.

—

Edward M. Matz, Inc., has been directed to omit and substitute the following work under the contract for bituminous concrete pavement in Howitt road, from St. Theresa avenue to La Grange street, dated October 1, 1941. Items ordered: Omit artificial stone sidewalks where directed and substitute seeded loam spaces. (*a*) For furnishing and setting about 694 linear feet of forms for framing sidewalks, the sum of 15 cents per foot. (*b*) For excavating, grading, furnishing loam and seeding about 136 square yards of loam spaces, the sum of $1.50 per square yard. Estimated cost of omitted work, $208.08; estimated cost of substituted work, $308.60. Estimated increase in cost, $100.52.

City of Boston,
Public Works Department,
November 14, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Almont Street.

I return herewith order in City Council that the Commissioner of Public Works resurface with smooth pavement and install granolithic sidewalks on Almont street, Ward 18, from Blue Hill avenue to Walk Hill street.

We have recently submitted a project for the construction of a smooth pavement on this street between Walk Hill and Alabama streets. The people in this area have requested the installation of artificial stone sidewalks and this work has also been included in this project.

Recently a bituminous concrete sidewalk has been constructed on this street between Blue Hill avenue and Walk Hill street at the request of the people. The roadway in this area is in fair condition and in no immediate need of reconstruction.

TRANSFER OF ANDREW SQUARE BRANCH LIBRARY.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Director of the Public Library of the City of Boston relative to your order of October 27, 1941, concerning the reconsideration of the proposed transfer of the Andrew Square Branch Library to the end that it may be allowed to remain in its present location.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Library Department, November 14, 1941.

William T. Doyle, Esq.,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—To the trustees of the Public Library at the meeting on November 7, 1941, I presented your transmittal under date of October 30, 1941, of the order passed by the City Council on October 27, requesting the trustees of the Public Library, through his Honor the Mayor, to reconsider the proposed transfer of the Andrew Square Branch Library to the end that it may be allowed to remain in its present location.

The trustees gave careful consideration to the order of the City Council. In addition, they heard in person representatives of the Andrew square district.

Following careful reconsideration of the matter in all aspects, the trustees were of the opinion that the reasons for effecting the proposed change of location for the Andrew Square Branch Library appeared to be as valid as in the original instance. They found also that the steps taken to prepare the new quarters had been so far completed and obligations in connection with them had so far materialized that it appears to be in the interest of the City of Boston to abide by them.

Greatly improved library service to the citizens of South Boston will be possible in the new enlarged quarters at an annual cost which will be less than at the present quarters. In addition to carrying through these improved internal arrangements, steps are contemplated also for enlisting the aid of the Traffic Commission and the Police Department for adequate external arrangements as well for the protection of those who will be coming to use the branch library in its new quarters.

Yours sincerely,
MILTON E. LORD, Director.

Placed on file.

CITY COUNCIL PROCEEDINGS.

(Continued from page 1295.)

ADDITIONAL SERVICE TO ARMY BASE.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of October 27, 1941, concerning the arranging for additional service in the early morning hours on the lines running to the Army Base.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
November 7, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—Since the receipt of your letter of October 30, with accompanying order of the City Council, checks have been made of the early morning riding on the lines running to the Army Base. Riding was found to be heavy during one short period and additional trips have been arranged to adequately meet the riding requirements.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

SERVICE ON GENEVA AVENUE LINE.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Vice President and Treasurer of the Boston Elevated Railway relative to your order of October 27, 1941, concerning full-time service on the Geneva avenue line.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
November 12, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—In reply to request in order of the City Council, received with your letter of October 30, for establishment of full-time service on the Geneva avenue line, I would say that we at one time operated all day car service between Fields Corner and Dudley street, via Geneva avenue, and later bus service between Fields Corner and Grove Hall, but were obliged to discontinue the all day service due to lack of patronage.

We are now operating weekday service between Fields Corner and Dudley street, via Geneva avenue and Warren street from 6.40 a. m. to 8.42 a. m. and from 4.26 p. m. to 5.49 p. m., with a few trips in the middle of the day for school children, and on Saturdays from 6.30 to 8.45 a. m. There is, of course, other service in the district served by the Geneva avenue line and it has been demonstrated that all day service cannot be justified.

Very truly yours,
J. H. MORAN,
Vice President and Treasurer.

Placed on file.

TRANSFER OF LAND TO CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I am informed by the Custodian of Foreclosed Real Estate that a certain parcel of land on Albany and Sharon streets, now in his custody, is a desirable site for automobile parking for the Boston City Hospital. The transfer of this area of land comprising 8,548 square feet will relieve, to some degree, the congestion in and about the streets adjacent to the hospital.

I am in favor of the transfer of this land and respectfully request the approval of your Honorable Body that this land be transferred to the care, custody, control and management of the trustees of the Boston City Hospital.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Foreclosed Real Estate Division,
November 14, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I am presenting for your approval and that of the City Council, four copies of an order for the transfer from the Foreclosed Real Estate Division to the trustees of the City Hospital of a parcel of vacant land, owned by the City of Boston by virtue of foreclosure, to be used for parking space purposes. This property is located at 617 and 619 Albany street and 621 Sharon street, Boston.

I highly recommend this transfer because it will relieve traffic congestion on the streets in and about the City Hospital area. If we had a prospective purchaser for the property, Doctor Manary, Superintendent, said that the hospital authorities would be willing to relinquish the same.

Respectfully yours,
DANIEL M. DRISCOLL,
Custodian.

—

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated September 11, 1939, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5479, page 548, on about eight thousand five hundred forty-eight (8,548) square feet of land on the northwesterly side of Albany street, numbered six hundred seventeen, six hundred nineteen (617–619) in the numbering of said Albany street, making the northerly corner of Sharon street, in the South End district of the City of Boston; and

Whereas, The said parcel of land is now in the care, custody, control and management of the Custodian, Foreclosed Real Estate Division; and

Whereas, The trustees of the City Hospital of the City of Boston desire to use this parcel of land for parking space purposes; now, therefore, it is hereby

Ordered, That the said parcel of land, hereinbefore described, be, and it is hereby, transferred from the care, custody, control and management of the Custodian, Foreclosed Real Estate Division, to the care, custody, control and management of the trustees of the City Hospital of the City of Boston to be used for parking space purposes.

Referred to Executive Committee.

PURCHASE OF LAND ADJACENT TO PLAY AREA.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—In connection with the development of a play area at Rochester and Troy streets, South End, an offer has been received from the owner of an adjacent lot of land to sell this parcel to the city at the assessed valuation. Acceptance of this offer will remove a jog or angle in the proposed play space and will also increase the play area.

I feel it desirable to accept this offer and submit herewith an order authorizing the appropriation from the special fund, Sales of City Property, of an amount sufficient to cover the purchase of this land. I respectfully recommend adoption of the order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Ordered, That the sum of $1,600 be, and the same hereby is, appropriated from Sales of City Property to be expended by the Park Commission for acquiring land for playground purposes in the vicinity of Rochester and Troy streets, South End.

Referred to Executive Committee.

APPROPRIATION FOR FORECLOSED REAL ESTATE DIVISION.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached request from the Custodian of Foreclosed Real Estate for an additional sum of $5,000 from rentals received by that department in order to carry on the operations of the department for the balance of the year.

I submit herewith an order providing for the additional appropriation of $5,000 from the income of this department and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Foreclosed Real Estate Division,
November 14, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—We have approximately $400 remaining in our 1941 budget. Our salaries from November 18, 1941, to January 1, 1942, will be about $2,000. We estimate the expenses will be about $3,000.

Due to the increase in the cost of coal, carpentry, plumbing, etc., greater demands have been made upon our budget than was previously estimated. We also have had three emergency demolition projects ordered by the Building Department which cost approximately $1,000. In addition, in preparing quarters for the National Defense Program at 9 Park street, Boston, we have had an unexpected expense of $2,387.88.

Will you kindly note that up to the end of October, 1941, this Division has taken in $43,040.37 on income from rentals as compared to $36,888.79 for the entire year of 1940.

Referred to Executive Committee.

TRANSFER FOR AIRPORT IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached request from the Chairman of the Park Department for the transfer of $1,040 from the Reserve Fund to the special account, Airport Improvements. This sum is necessary for the operation of the Airport until it is taken over by the Commonwealth on or about December 1.

In compliance with this request I am forwarding herewith an order transferring the sum of $1,040 from the Reserve Fund to the special account, Airport Improvements, and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, November 7, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I respectfully request a transfer of $1,040 from the Reserve Fund to the Airport Improvements account.

Our appropriation for the Airport Improvements account was exhausted with the pay roll for the week ending November 4. Under present plans the Commonwealth will not take over the Airport until December 1 and, of course, in the meantime it is necessary for us to operate the Airport. In order to do this we must have the help which we are now charging to the Airport Improvements account.

It will cost $800 to carry these employees to December 1 and it is necessary, because of the work at the Airport and the cleaning up prior to the state taking over to put two extra men on, which will cost $240 more.

I respectfully request that you approve this transfer so that we may have sufficient money to pay these men on next week's pay roll.

Respectfully yours,
WILLIAM P. LONG, Chairman.

—

Ordered, That under authority of section 3B of chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $1,040, to the appropriation for Airport Improvements, $1,040.

Referred to Executive Committee.

APPROPRIATION FOR PRINTING DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I am advised by the Superintendent of Printing that in order to operate the Printing Department on an efficient basis during the remainder of the current year it is essential to transfer from the revenue account of this department to the following budgetary groups:

B.	Contractual Services	$12,540
D.	Supplies	600
E.	Materials	6,860
	Total	$20,000

I submit herewith an order providing for such a contingency and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Printing Department, October 27, 1941.

To Francis X. Lang, Commissioner, Budget Department.

From John J. Twomey, Superintendent, Printing Department.

Subject: Transfer of Appropriations.

Dear Sir,—Regarding the transfer of appropriations requested by this department on October 22, I am here noting some of the reasons for this transfer.

B–1. The following printing items have been completed or are now in the process of completion at our office. None of these orders have been printed for several years. The index for the Probate Court; Rules and Regulations for the Police Department; Boston House Numbers and Census Tract for the Health Department; Electrical Code for the Wire Division of the Fire Department; the Boston Word List, Revised; A New Boston Plan for Teaching Spelling for the School Department. The 1941 Voting List was the largest we have ever printed. An increase of 35 per cent in the cost of printing fanfold forms became effective in January of this year. A year's supply of Relief Printing Process on letterheads and envelopes for the Mayor's Office has been stocked owing to the difficulty in obtaining paper stock.

B–13. The first of this year a telephone of the W. P. A. Project connected with the Auditing Department, located in the basement of our building, was placed on our switchboard.

B–18. An increase in the cost of materials and the cleaning of windows in our office and factory.

D–3. A 1940 fuel bill was paid in 1941.

E–13. Owing to the unsettled condition of the paper market and the restrictions imposed upon paper mills through the Defense Program, it was deemed absolutely necessary to place orders for at least a six months' supply of stock for 1941.

B–39 and E–9. This department being a manufacturing department it is impossible to estimate the expenditures in advance on these items.

Very truly yours,
JOHN J. TWOMEY,
Superintendent of Printing.

—

Ordered, That to meet the current expenses payable during the financial year beginning with the first of January, 1941, an additional sum of $20,000 be, and the same hereby is, appropriated from the income of the Printing Department for the following purposes:

APPROPRIATION FOR HANOVILLE VETERANS' TABLET.

The following was received:

City of Boston,
Office of the Mayor, November 17, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Chairman of the Art Department requesting an appropriation of $600 for a tablet with eighty-seven names of the Hanoville Veterans, for Union square, Brighton. The expense of this tablet may properly be charged against the income of the Phillips Street Fund, a trust fund in the possession of the city which may be expended to adorn and embellish the streets and public places of the city.

I submit herewith an appropriation order and recommend its adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Art Department, October 23, 1941.

To Maurice J. Tobin, Mayor.

From Robert P. Bellows, Chairman, Art Department.

Subject: Hanoville Veterans' Tablet.

Dear Mr. Mayor,—After many efforts to secure the most economical and appropriate design and setting for the tablet with eighty-seven names of the Hanoville Veterans, for Union square, Brighton, we are glad to report that the total cost will be $600. We therefore request, as you suggested at the unveiling, that this sum be allowed from the Phillips Street Fund.

Yours respectfully,
ROBERT P. BELLOWS.

—

Ordered, That the sum of $600 be, and the same hereby is, appropriated, to be expended under the direction of the Art Commission, for Hanoville Veterans' Tablet, Union square, Brighton, said amount to be charged to the Phillips Street Fund income.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

George W. Dakin, for compensation for injuries caused by an alleged defect at 32 Highland avenue.

Louise F. Dorey, for compensation for damage to car caused by an alleged defect in Harvard street.

John J. Grant, to be reimbursed as result of accident which occurred while in performance of duty.

Littlefield Trust, for compensation for damage to property at 1–21 Fairmount avenue, caused by falling flagpole.

Mary E. Rush, for compensation for injuries caused by an alleged defect at 11–15 Templeton street, Dorchester.

Placed on file.

NOTICE OF INTEREST IN CONTRACT.

Notice was received from John T. McMorrow of interest in contract awarded Frank J. Jacobs Company, of which he is treasurer.

Placed on file.

REPORT OF COMMITTEE ON FINANCE.

Coun. HUTCHINSON, for the Committee on Finance, submitted the following:

1. Report on message of Mayor and order (referred November 10) authorizing borrowing of $1,500,000 against tax titles for purpose of meeting outstanding revenue loans—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. HUTCHINSON—Mr. President, the Committee on Finance, at a meeting the other day, at which the auditor was present, were informed that the tax titles of the city amounted to about two million dollars more than the loans against them. This order proposes to borrow $1,500,000 to help meet outstanding revenue loans which come due December 19. The amount of the borrowings at the end of the year will be about a million dollars less than at the first.

The order was given its first reading and passage, yeas 18, nays 0.

RECESS.

The Council voted at 2.50 p. m., on motion of Coun. KELLY, to take a recess subject to the call of the Chair. The members reassembled and were called to order by President GALVIN at 3.15 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) that $600 be transferred from Phillips Street Fund income to be expended by Art Commission for Hanoville Veterans' Tablet, Union square, Brighton—that same ought to pass.

Report on message of Mayor and order (referred today) transferring $5,000 from rentals of Foreclosed Real Estate Division for current expenses—that same ought to pass.

Report on message of Mayor and order (referred today) transferring $20,000 from revenue of Printing Department to appropriation for department—that same ought to pass.

Report on message of Mayor and order (referred today) transferring $1,040 from Reserve Fund to appropriation for Airport Improvements—that same ought to pass.

Coun. WARD in the chair.

The reports were accepted, and the orders were passed, yeas 17, nays 0.

2. Report on message of Mayor and order (referred today) transferring land on Albany and Sharon streets from Foreclosed Real Estate Division to City Hospital—that same ought to pass.

Report accepted; said order passed.

3. Report on message of Mayor and order (referred today) appropriating $1,600 from Sales of City Property for land for playground purposes at Rochester and Troy streets—that same ought to pass.

Report accepted; said order passed, yeas 18, nays 0.

4. Report on message of Mayor and order (referred June 9) authorizing Hospital Trustees to sell obsolete X-ray films—that same ought to pass.

Report accepted; said order passed.

PERAMBULATING COMMITTEE.

Chairman WARD announced the appointment by President Galvin of Councilors Lyons and

Taylor to be a committee to perambulate with others the boundaries of the City of Boston and adjoining municipalities.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

1. Report on petitions for driveway openings, viz.:

Superior Realty Company, Inc. (referred today), 8 Lyon street.

Trustees of Emmanuel College (referred today), St. James and Providence streets, Ward 5.

Lincoln Service Stations, Inc. (referred October 6), Dover and Hingham streets—recommending that leave be granted under usual conditions.

Report accepted; licenses granted under usual conditions.

2. Report on petition of Boston Elevated Railway (referred October 27) for license to operate motor vehicles from Brookline line to Cleveland Circle—that same ought to pass.

Report accepted; said license granted under usual conditions.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Chairman WARD called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor November 10, 1941, of Israel Sternberg, to be a Weigher of Goods; and Raymond Harris and Robert Calder, to be Weighers of Coal.

The question came on confirmation of the appointments. Committee, Coun. M. H. Sullivan and Russo. Whole number of ballots 14; yes 13, no 1, and the appointments were confirmed.

SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of November.

Report accepted; said order passed.

FELICITATIONS TO CARDINAL O'CONNELL.

Coun. LINEHAN and CAREY offered the following:

Resolved, That the Boston City Council, in meeting assembled, hereby extends its hearty felicitations to his Eminence William Cardinal O'Connell on the thirtieth anniversary of his elevation to the Cardinalate, which will be celebrated on November 27, and wishes for his Eminence many more fruitful years in the vineyard of the Lord, and continued health and strength to carry on the noble work to which he has devoted his life.

The resolution was unanimously adopted under suspension of the rule.

CLEANING OF WARD 15 STREETS.

Coun. KELLY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to arrange for the cleaning of the streets in Ward 15.

Passed under suspension of the rule.

BILLS FOR NEW COURT HOUSE REPAIRS.

Coun. LYONS offered the following:

Ordered, That the City Auditor be requested, through his Honor the Mayor, to hold up the payment of all bills for repairs in the new court house until such time as the City Council, as County Commissioners, has an opportunity to study the matter.

Passed under suspension of the rule.

RESURFACING OF MARTIN STREET, WARD 20.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Martin street, from Bellevue to La Grange streets, Ward 20, either as a W. P. A. project or otherwise, and to install granolithic sidewalks thereon.

Passed under suspension of the rule.

ARC LIGHT, PATTEN AND WACHUSETT STREETS.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out, with steps, and the construction of Glenwood Avenue Footway, Hyde Park district, as a highway, from State Highway to the Neponset river, under the order of the Board of November 6, 1941, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 667.

The resignation of Patrolman John A. English of Division 17, having been presented, it is hereby accepted, to take effect Friday, November 21, 1941, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 668.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement, on account of ordinary disability, Patrolman John R. Mee of Division 6, and a member of said Contributory Retirement System; such retirement to take effect at the close of business, Sunday, November 30, 1941.

Wherefore, In view of this operation of law, the Police Commissioner states that on and after November 30, 1941, at the hour stated, the said Patrolman John R. Mee shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 669.

Sergt. Joseph F. Condon, Patrolmen Perfer P. Fortin and Albert A. Hurst, all attached to the Bureau of Criminal Investigation, are commended for efficient police duty performed on the

night of November 12, 1941, in accomplishing the arrest of a young colored man.

This person had run amuck and had brutally beaten and viciously assaulted and robbed four women and one man by grabbing his victims by the throat, knocking them to the ground and banging their heads on the sidewalk until they became unconscious.

The commissioner is pleased to recognize and commend these officers for their prompt response, keen observation and devotion to duty shown in affecting the capture of this dangerous criminal.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the vote of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the citys' intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Farrar avenue, bounded:

Westerly by another part of said Farrar avenue, fifty feet; northerly by the northerly line of Farrar avenue, four hundred thirty-nine and 59-100 feet; easterly by another part of said avenue, fifty feet; and southerly by the southerly line of Farrar avenue, four hundred thirty-nine and 59-100 feet, containing twenty-one thousand nine hundred and eighty square feet, more or less.

The sewerage works to be constructed are as follows: 498 linear feet of 10-inch and 12-inch pipe sanitary sewer and 498 linear feet of 12-inch and 15-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on Farrar avenue, between easement taken by the City of Boston for sewerage purposes September 16, 1937, and easement taken by the City of Boston for sewerage purposes May 16, 1930, excluding assessment lots 8, 9 and 17, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1264, Sewerage Works, Farrar Avenue, Hyde Park, November 3, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

NO COST CONTROL FOR REFUSE DISPOSAL.

American cities on the whole may be clean housekeepers, but they don't know how much it is costing them to be clean or whether they are spending too much. Only a few cities are able to report accurately the unit cost of removing garbage and other refuse and of cleaning streets, according to the Public Administration Service of Chicago, Ill., which further reports that at least 90 per cent of the cities in this country have no cost control over this service.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CONSTRUCTION WORK ON THE SUMMER STREET BRIDGE OVER THE RESERVED CHANNEL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction work on the Summer Street Bridge over the Reserved Channel, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Construction Work on the Summer Street Bridge over the Reserved Channel," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m., on Monday, December 8, 1941, with a certified check for five thousand (5,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Act so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals should he deem it to be for the best interest of the city so to do.

GEORGE G. HYLAND,
Commissioner of Public Works.
(Nov. 29-Dec. 6.)

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING APPROXIMATELY 3,000 TONS OF SAND FOR ICY STREETS.

The Supply Department of the City of Boston invites proposals for furnishing sand for the Public Works Department, as per specifications contained in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for $100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Sand." There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* The bids will be publicly opened and read Friday, December 5, 1941, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, DECEMBER 6, 1941. NO. 49

MAYOR TOBIN CALLS FOR REAFFIRMATION OF FAITH IN AND FREEDOM OF RELIGION AS MEANS OF PRESERVATION OF AMERICAN DEMOCRACY — ADDRESSES CONVENTION OF AMERICAN JEWISH CONGRESS (NEW ENGLAND DIVISION), AT HOTEL BRADFORD, WHILE BRINGING GREETINGS OF CITIZENS TO DELEGATES — URGES ALSO ELIMINATION OF SUBVERSIVE PROPAGANDA AND, ACTING AS UNITED NATION, TO BRING ABOUT LASTING AND JUST PEACE IN THE WORLD WHEN PRESENT TURMOIL IS OVER.

Upon Sunday, November 30, Mayor Maurice J. Tobin addressed the convention of American Jewish Congress, New England Division, at the Hotel Bradford, in part, as follows:

Both in my individual capacity and as Mayor of the City of Boston I am happy to extend greetings to this convention of the New England Division of the American Jewish Congress.

Boston, birthplace of American democracy, can appropriately welcome delegates to this convention whose main concern is the preservation of American democracy, and the establishment of equality of rights and opportunities for the Jewish people throughout the world. It is well to remember that here in Boston, before he took his place on the Supreme Court of the United States, a great citizen of Boston, a great justice, a great Jew, a great Zionist, and a great American, Louis D. Brandeis, played a leading part in organizing the American Jewish Congress.

Today, as we live in the midst of world turmoil and conflict, and more and more, day by day, our activities in behalf of national defense call for greater sacrifices on the part of each individual citizen, it is important that we take stock; that we consider carefully what are the roots of this struggle; what mistakes we made in the past, and how we are to try to avoid those mistakes in the future; what shall we do when this war is over so that injustices may be removed; and how shall we try to influence world peace for an economic and political readjustment and for a social and moral regeneration. And, finally, how are we to try to solve the problem of those who are among the scapegoats and the worst victims of this war, the Jewish people?

Indifference to Religious Ideals.

To me the root of most of our trouble can be traced directly to a decline in our devotion to religious ideals. In some cases there is a growing indifference; in others it is an organized attempt to undermine religion. Only in the past few days, a great Catholic prelate, his Eminence Cardinal O'Connell, whose thirtieth anniversary as a Cardinal we have just celebrated, decried this tendency; and the words he used might have just as well been spoken by Rabbi Stephen S. Wise, or Rabbi Joshua Loth Liebman, or by any other responsible religious leader irrespective of his particular faith — I quote — "There is no question but that there is a tremendous propaganda campaign going on which is subversive in its character. You can call it Nazism, Communism, or Atheism — which it is better called — but at the root of it all is hatred and irreligion, class hatred and Atheism — or at least contempt for religion.

"'And America had better beware in time, because these things are like a creeping paralysis which in the beginning seems quite trivial, but as time goes on strangle all that is best in human and national life.'"

I say that it is important that we stamp out quickly and effectively this disease of anti-religion. That we do more, that we also eliminate, once and for all, completely and unequivocally, the notion that merely because a person is a member of a certain religious group he shall be deprived of equal opportunities, degraded, discriminated against, persecuted, expelled,— even destroyed. This injustice, inflamed in recent years by Hitler and those who talk his language in this country, must be exterminated.

As we celebrate the one hundred and fiftieth anniversary of the establishment of the Bill of Rights in this country, it is important that we reaffirm our faith in religion and freedom of religion, and that we re-emphasize our belief that freedom of religion means not only that every man and woman and child shall be free to worship God in his or her own way; but that it also means that if a person adheres to a religious belief, even if it be in the minority, he shall have equal rights and opportunities, civil and political and economic, with every other person. There is no room in the world for discrimination because of religious differences, whether such discrimination is open or secret, obvious or subtle, and whether it affects men and women in their family lives, looking for a job, holding public office, or seeking equal justice.

A Twofold Task.

The task before us is twofold: First, to have a religious awakening, to wipe out anti-religious and anti-Semitic propaganda and to prevent imported foreign hates from disrupting the democratic traditions of American life. And second, to strive tirelessly for equal opportunities, irrespective of racial or religious or cultural differences; and to strive for a universal bill of rights, so that after the war, this world can be a more peaceful and a more humane place within which to live.

ADDRESS OF MAYOR TOBIN.

(*Continued from page 1305.*)

If faith in a divine justice permeates the next peace congress, if petty selfishness and jealousy and the artificial fanning of hates can be wiped out, and if a brotherly attitude born out of the eternal truths of the Hebrew prophets and the Sermon on the Mount prevail, then we shall have a meaningful and a lasting peace. Otherwise, our sacrifices, just as our sacrifices in the first World War, will have been in vain.

The Jewish people have suffered tremendously during this war. Their position has become alarmingly acute as a result of Hitler's ruthlessness.

Their problems will require special consideration during the next peace conference. How shall these problems be approached? What measures should be taken to find homes for the hundreds of thousands of homeless Jews? What shall be done to restore to the Jewish people the rights and privileges of which they have been deprived? After Hitler's defeat, what shall be done to counteract and to correct the harm that has been caused by this propaganda and the artificial hatreds that he created? What shall be done to restore the Jewish people to their proper place politically, to undo the damage that has been done to them economically, to cure the ills that have been engrained psychologically?

The answers to all of these questions will depend upon the decency and the intelligence of the entire world; to a large extent upon public opinion of the United States, but, most of all, upon the attitude and the action of the Jewish people themselves. The answers will depend primarily upon whether Jewish people can present a clearcut statement of their case to the peace conference with unity and with certainty. I am confident that with the kind of planning in which your congress is engaged, and with careful thought and action by responsible Jewish leaders in this country, a proper solution can result. I also have every confidence that it will include the establishment and the continuance of a Jewish commonwealth in Palestine for the homeless Jews of the world; and equal rights and opportunities, civil, political and religious, for the Jewish people, like all minority peoples, everywhere.

To both of these fundamental principles I have given my approval in the past, and you can count upon my continued unhesitating support in the future.

If my voice can help in any way to remind Great Britain of its obligations under international law for the establishment of a Jewish homeland in Palestine, and to ask that the Jewish people, since they so desire, be permitted to mobilize in Palestine a Jewish army to help fight for their homeland and democracy, then I want my voice to be heard, and in no mistaken terms.

None of the objects for which your congress is working will be achieved unless our American way of life is preserved; unless we can eliminate anti-religious and anti-semitic subversive propaganda, and unless we can act as a united nation under the leadership of our great President, Franklin D. Roosevelt.

To your delegates and your officers go my wishes for a significant and productive convention.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

HOSPITAL DEPARTMENT.

Upon December 1 the Mayor approved a contract with the Viking Automatic Sprinkler Company for furnishing and installing a sprinkler system in Gate Lodge Building, Boston City Hospital. The following bids were received:

Globe Automatic Sprinkler Company, $2,921; Rockwood Sprinkler Company, $2,838; Viking Automatic Sprinkler Company, $2,625.

On July 16, 1941, Hon. William J. Galvin, Acting Mayor, approved the award of the contract to the Viking Automatic Sprinkler Company, the lowest bidder, at $2,625.

Contract forms were then prepared by the Supply Department and submitted to the Law Department for its approval. Later the Law Department ruled that the contract was not one coming under the jurisdiction of the Supply Department, because of the labor involved in installing the sprinklers. The contract forms were accordingly returned to the

Supply Department, who, in turn, referred the matter back to the trustees of this hospital.

In view of the fact that the price submitted by the Viking Automatic Sprinkler Company is a fair one, the trustees feel that nothing can be gained by further advertising, and approval was given for the award of the contract to the Viking Automatic Sprinkler Company in the sum of $2,625, this being the amount of the original bid submitted to the Supply Department.

The contract price for the above work is to be paid from the Work Relief Program.

INSTITUTIONS DEPARTMENT.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 24, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair. Absent, Coun. Shattuck and Ward.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighers of Goods: Charles W. Lenaghan, 8 George street, North Cambridge, Mass.; Alden G. DeCourcy, 34 Gilbert street, West Newton, Mass.

Severally laid over a week under the law.

SPEEDING OF CARS THROUGH UNDERPASS.

The following was received:

City of Boston,
Office of the Mayor, November 24, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of November 10, 1941, concerning the speeding of automobiles passing through the new underpass at Massachusetts and Huntington avenues.

Respectfully,
WILLIAM J. GALVIN, Acting Mayor.

—

City of Boston,
Traffic Commission, November 19, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated November 10, 1941, which reads as follows:

"Ordered, That in order to prevent accidents that may be caused by speeding automobiles passing through the new underpass at Massachusetts and Huntington avenues, the Traffic Commissioner be requested, through his Honor the Mayor, to install appropriate signs in the said underpass, warning motorists to slow their speed upon leaving the exits of the underpass."

Since the opening of the underpass constant observation has been made by our engineers.

Eight "Slow" signs have been painted at the exits to the underpass and in addition lane lines have been painted along the narrow portion of the roadway adjacent to it, and at the next meeting of this commission it is expected that certain parking prohibitions will be put into effect to make a more easy traffic flow at the intersection of Huntington avenue and Gainsborough street and Huntington avenue and Massachusetts avenue.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

USE OF GEORGE STREET SCHOOL PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, November 24, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the secretary of the Boston School Committee relative to your order of October 27, 1941, concerning the transfer title of the property, formerly the site of the George Street School, Ward 8, to the Park Department, for the purpose of constructing a play area for the children of the section.

Respectfully,
WILLIAM J. GALVIN, Acting Mayor.

—

City of Boston,
School Committee, November 17, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—At a meeting of the City Council on October 27, 1941, an order was passed requesting the School Committee, through your Honor, to transfer title of the property, formerly the site of the George Street School, Ward 8, to the Park Department, for the purpose of constructing a play area for the children of the section.

The School Committee respectfully reports that the property referred to is no longer owned by the School Committee, having been sold recently in accordance with action taken by the School Committee and the Board on Sale of Land.

Very truly yours,
ELLEN M. CRONIN, Secretary

Placed on file.

INBOUND STOP, COMMONWEALTH AVENUE.

The following was received:

City of Boston,
Office of the Mayor, November 24, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway relative to your order of October 27, 1941, concerning the changing the inbound stop at the corner of Mt. Hood road and Commonwealth avenue to Cummings road and Commonwealth avenue, where there is a shelter.

Respectfully,
WILLIAM J. GALVIN, Acting Mayor.

—

Boston Elevated Railway,
November 22, 1941.

Mr. W. T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—Since the receipt of your letter of October 30 the situation has been explained to Councilor Ward, who introduced the order requesting change in the inbound stop on Commonwealth avenue, from Mt. Hood road to Cummings road.

Cummings road is located on a steep grade and it would not be conducive to safety to establish a stopping place at that point. Moreover, it is that a larger number of patrons are accommodated by the inbound stopping place in its present location than would be accommodated at the suggested location.

Very truly yours,
EDWARD DANA.
President and General Manager.

Placed on file.

SALE OF USED PERSONAL PROPERTY AT AIRPORT.

The following was received:

City of Boston,
Office of the Mayor, November 21, 1941.

To the Honorable the City Council.

Gentlemen,—Following action taken by your Honorable Body on November 12, 1941, I filed with the Secretary of State, as provided in c. 695 of the Acts of 1941, the formal notification stating that the City of Boston was ready and willing to carry out the provisions of said act.

In connection with the payment which the Commonwealth now plans to make to the City of Boston on December first, at which time the interest of the city in the Airport will cease, the chairman of the Board of Park Commissioners has written to me a letter, which I have attached hereto, asking for authority to sell to the Commonwealth certain used personal property at the Airport for the sum of $1,000. As this method of disposition of this used personal property seems to me in the best interest of the city, I recommend that your Honorable Body give the necessary authorization therefor.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, November 21, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I understand that the Commonwealth of Massachusetts will pay to the City of Boston the sum of $1,026,800, as provided in s. 2 of c. 695 of the Acts of 1941, on December 1, 1941, being a "business day prior to the fortieth day following the effective day of said act." As the result of such payment, and in conformity with the statute, "all interest of the city in and to the Airport property, including buildings with equipment therein contained, shall cease . . . ". *St. 1941, c. 695, s. 2.*

There are certain items of tangible personal property at the Airport which are not included within the above quoted statutory word "equipment." These furnishings, tools and other items of personal property, a list of which is attached, were acquired for use at the Airport, have been used for years at the Airport, and have a maximum value if so used. In view of the taking over by the state of the Airport property on December 1, 1941, these items of personal property will be of no further use to the Park Department. The city can best realize some value from these items of personal property by disposing of the same by sale to the Commonwealth.

Accordingly, authority is requested to sell to the Commonwealth the items of used personal property above referred to for not less than $1,000.

Very truly yours,
WILLIAM P. LONG, Chairman.

—

Ordered, That the Board of Park Commissioners be authorized, in connection with the cessation of the city's interest in the East Boston Airport pursuant to chapter 695 of the Acts of 1941, to sell to the Commonwealth of Massachusetts, subject to the approval of the Mayor, for a sum not less than one thousand dollars, such items of used personal property located at and relating to the Airport as are no longer required by the city.

Referred to Executive Committee.

ORDINANCE RE DISPLAY AND DISTRIBUTION OF ADVERTISING MATTER IN STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 6, 1941.

To the City Council.

Gentlemen,—Certain provisions of the ordinances of the City of Boston enacted primarily to assist in keeping our streets clean and to prevent interference with the free movement of pedestrians and other street traffic have become of no legal effect by reason of Supreme Court decisions.

In the accompanying communication, the Corporation Counsel explains the situation and suggests a draft of an ordinance to meet it.

I recommend the passage of the suggested ordinance which I submit herewith for the consideration of your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Law Department, October 28, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—At your Honor's suggestion, I have prepared and inclose herewith a draft of ordinance to take the place, in so far as legally possible, of two ordinances which have been invalidated by decisions respectively of the Supreme Judicial Court of Massachusetts and the Supreme Court of the United States.

The two ordinances in question regulate in Boston streets the display of showcards, placards and signs (section 37) and the distribution of handbills, cards, circulars, and paper, "Revised Ordinances of 1925," and read as follows:

> "SECTION 37. No person shall, while on foot in any street, carry and display any showcard, placard, or sign, except in accordance with a permit from the commissioner of public works; and no person having the care or control of any vehicle used principally for advertising purposes shall permit such vehicle to travel in any of the public streets of the city proper, north and east of Massachusetts avenue, except in accordance with a permit from the commissioner of public works."
>
> "SECTION 41. *No person shall* throw or sweep into, or place or drop and suffer to remain in, any street, any piece of hoop, board, wood, wire, paper, or any nail, sweepings, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster-shell, clam-shell, lobster-shell, glass, card, handbill, or rubbish or filth of any kind, or any noxious or refuse liquid or solid matter; or *distribute to persons on a street, handbills, cards, circulars or papers of any kind except newspapers*". (Underlining supplied.)

In *Commonwealth* v. *George Pascone*, 1941 Adv. Sh. 713, the Supreme Judicial Court of Massachusetts held the first above-quoted ordinance unconstitutional "as an unwarranted interference with the freedom of the press". While the matter before the Court related to the first part of the ordinance, it must in my opinion be concluded that the ordinance in its entirety is unconstitutional. Also, *Commonwealth* v. *J. H. Anderson*, 1941 Adv. Sh. 431.

In *Schneider* v. *New Jersey*, 308 U. S. 147, the Supreme Court of the United States declared unconstitutional ordinances of four cities (one being the city of Worcester) similar to the underlined portion of the foregoing section 41, on the ground that: "the public convenience in respect of cleanliness of the streets does not justify an exertion of the police power which invades the free communication of information and opinion secured by the Constitution". On November 27, 1939, you sent a message to the City Council recommending that the ordinance be removed from the books, but no affirmative action to that effect has as yet been taken.

In the inclosed draft ordinance I have endeavored to preserve for the city, as far as I believe to be constitutionally possible, the right to control the display and distribution in the streets of advertising matter. Entirely apart from the question of free speech and free press, the public has a vital interest in the free movement of traffic in the public streets and in the prevention of littering the public streets with advertising matter. Such litter increases expense of street cleaning, clogs public sewers, accumulates under the force of wind into fire hazards, and constitutes a disagreeable and ugly abuse of public and private property. All these matters are legitimate fields for the exercise of the police power in the public interest. I have endeavored to permit such exercise without invasion of the Constitutional guarantees of free speech and free press. The jealous regard shown by our highest tribunals in recent years for the great constitutional rights of free speech and free press has made it a difficult task to prepare an ordinance which will at the same time achieve the desired municipal purposes and be constitutionally impeccable.

Sincerely yours,
ROBERT CUTLER,
Corporation Counsel.

An Ordinance Concerning the Display and Distribution of Advertising and Other Matter in the City Streets.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section 37 of chapter 39 of the Revised Ordinances of 1925 is hereby repealed and in lieu thereof the following section 37 is substituted:

Section 37. Except in accordance with a permit from the Commissioner of Public Works, no person shall, while on foot in any street, carry and

display any show card, placard or sign, nor shall any person distribute to persons in any street handbills, cards, circulars or papers other than newspapers, nor shall any person having the control of any vehicle used principally for advertising permit such vehicle to operate in any street north and east of Massachusetts Avenue. The Commissioner of Public Works shall establish such rules governing the size, physical composition and construction of, and the manner of carrying and displaying in the street show cards, placards, and signs as shall be reasonably necessary to prevent interference with public travel and for the other convenience and safety of the public and such rules governing the size and physical composition of handbills, cards, circulars and papers other than newspapers which may be distributed in the street as shall be reasonably necessary to prevent littering or other hazard to public safety. Each permit issued hereunder shall contain a copy of the rules relating thereto and shall be limited by its terms to the authorization of conduct permitted thereby and otherwise lawful.

Every application for a permit hereunder shall be in writing and shall contain a copy of the matter to be displayed or distributed. In exercising his discretion to grant or deny a permit, the commissioner shall consider the safety, convenience, and protection of the public; provided that a permit shall issue forthwith where the application shows on its face that the matter to be displayed or distributed is not intended in whole or in part for the purpose of commercial advertising or private gain or where the applicant files a signed statement, made of the applicant's own knowledge under the pains and penalties of perjury, that it is not so intended.

Section 2. Section 41 of the Revised Ordinances of 1925 is hereby amended by striking therefrom the following:

"; or distribute to persons on a street, handbills, cards, circulars or papers of any kind except newspapers".

Referred to Committee on Ordinances.

ORDINANCE RE COLLECTION OF WATER INCOME.

The following was received:

City of Boston,
Office of the Mayor, November 21, 1941.

To the City Council.

Gentlemen,—At its current session the General Court has enacted legislation simplifying the procedure in cities and towns throughout the Commonwealth for collecting water rates. The new statute (chapter 380 of the Acts of 1941) amends General Laws (Ter. Ed.), c. 40, sec. 42A–E, inclusive, and became effective September 11, 1941. The new statute represents a highly desirable simplification of the procedure in regard to water rates, reducing the number of steps from eight to five and thus lessening administrative costs to the municipality and minimizing annoyance to the taxpayers.

The new statute applies to the City of Boston. It is necessary that existing ordinances of the city be changed to conform to the controlling statutory provisions enacted by the General Court. At the same time, it is desirable that related provisions of the existing ordinances be amended to harmonize with the required changes and with modern procedure.

The existing ordinance provisions dealing with the subject are found in c. 13, s. 4, and c. 27, s. 22–28, inclusive of the Revised Ordinances of 1925 (as amended in regard to s. 23 and s. 24 aforesaid by c. 6 of the Ordinances of 1930).

Inclosed herewith is a draft of ordinance which amends c. 13, s. 4, and c. 27, s. 22, 23 and 24 of the Revised Ordinances of 1925, as amended, so as to give effect to the required and desirable changes referred to above.

The new ordinance, in conformity with the statutory requirements, provides that water rates shall be billed at least semiannually. It takes cognizance of the possibility of action in regard to all or part of the city's water supply in time of public emergency, such as might arise in connection with National Defense or otherwise. In line with the simplified procedure provided in the statute, the new ordinance provides for a notice upon nonpayment of a water bill after thirty days, for which notice no charge shall be made. The formal summons and the quarterly charge of 25 cents therefor provided by the existing ordinance are eliminated by the new ordinance.

The new ordinance, while adequately protecting the city, affords more consideration to the situation of the consumer-taxpayer. Under the existing ordinances, water may be shut off if water rates are not paid within two weeks of the due date; under the proposed ordinance this period is extended to forty days. The power of shut-off for nonpayments continues to be limited in cases where serious illness obtains. The new ordinance gives to the commissioner power to waive the customary $2 shut-off charge, where the unpaid account is less than $20.

It is desirable that the new ordinance take effect on a quarter-day, for convenience of administration. In the inclosed draft, the date January 1, 1942, has been provided.

I recommend that the inclosed ordinance be adopted in order to conform to the City's Ordinances in regard to water rates to the statute and to simplify and modernize the applicable ordinance provisions.

Respectfully,
MAURICE J. TOBIN, Mayor.

An Ordinance Concerning the Collection of Water Income.

SECTION 1. Chapter thirteen of the Revised Ordinances of 1925 is hereby amended by striking out section four and inserting in place thereof the following:—*Section 4.* The collector shall, whenever a water rate is paid, immediately notify the commissioner of public works of such payment.

SECTION 2. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby amended by striking out section twenty-two and inserting in place thereof the following:—*Section 22.* The commissioner shall have the care and control of all property acquired or held by the city for the purposes of its water supply; shall maintain the same in good order and condition; shall use and operate the same and furnish all supplies required therefor; shall purchase, lay, maintain and test all meters, pipes and other fixtures and appliances necessary for supplying water to the inhabitants of the city, including the placing of drinking fountains and supplying the same with cold water; shall take all measures necessary to protect and preserve the purity of the water; shall exercise a constant supervision over the use of water; shall have control of the water supply and may in a public emergency shut the water off and let it on at such times as he deems necessary; shall, with the approval of the mayor, from time to time determine and establish the rates for the use of water; shall, whenever a water rate has remained unpaid for thirty days after its due date, send notice to the owner or tenant of the premises to which the water is supplied, that if the water rate continues to remain unpaid the water will be shut off and a lien for the amount due established as required by law; shall file the statements necessary to create liens for unpaid accounts; shall, if a water rate is not paid within ten days after sending the notice herein provided for, shut off the water from the particular service unless such action is inconsistent with law or unless, in the opinion of a physician designated by the commissioner, the shutting off of such water would endanger the life of any person; shall not let on again water shut off for nonpayment of a water rate until a service charge of two dollars, in addition to the amount of the unpaid account, is paid except where the law requires the letting on again of the water without the payment of the unpaid account. However, the commissioner may, in his discretion, waive the payment of such two dollar service charge where the unpaid account is less than twenty dollars. The provisions relative to the shutting off and letting on of water shall apply when two or more persons take water from the same service-pipe although one or more may have paid the amount due from him or them. No charge shall be made for sending the notice herein provided for.

SECTION 3. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby further amended by striking out section twenty-three, as most recently amended by section one of chapter six of the Ordinances of 1930, and inserting in place thereof the following:—*Section 23.* The commissioner shall, consistently with the ordinances, make contracts for the sale of water, and send out bills therefor, which shall be payable to the city collector; shall provide that bills for specific supplies of water shall be due and payable in advance and actually paid before the water is let on, that bills for water furnished and measured by meter shall not be less than eight dollars during any consecutive twelve months' period and shall be due and payable on the due date specified on each bill rendered, and that the due dates thus specified shall be so established as to require payments at least as often as semi-annually. All contracts shall stipulate that an omission to send or a failure to receive a water bill under this section or a notice under the preceding section shall not affect the validity either of the water rate or of the proceedings for its enforcement or collection.

SECTION 4. Chapter twenty-seven of the Revised Ordinances of 1925 is hereby further amended by striking out section twenty-four, as most recently amended by section two of chapter six of the Ordinances of 1930, and inserting in place thereof the following:—*Section 24.* The commissioner may designate one of his subordinates to be the head of the water division, who shall, if the commissioner so directs, make abatements of charges for water where improperly assessed and exercise the powers of the commissioner relative to the shutting off of water for non-payment of a water rate and the waiver of the service charge for the shutting off and letting on of water; who shall also receive all money paid for service charges for the shutting off and letting on of water and all money paid or deposited on account of main, service, fire, elevator, motor and other pipes and the laying thereof and for repair work; shall give a receipt in behalf of the city therefor; shall pay, from the money so received, the amount found by him to be due the person paying any such money, as excess over the amount due the city; and shall, on or before the fifth day of every month, pay over the money in his possession due the city, and account for all money so received by him since the last accounting, as provided in section eighteen of chapter three of these ordinances.

SECTION 5. This ordinance shall take effect beginning with the first day of January, 1942.

Referred to the Committee on Ordinances.

REPORT OF FINANCE COMMISSION RE MEAT INSPECTION.

The following was received:

City of Boston,
Finance Commission, November 18, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Honorable Sir,—Recently complaint has been made that decisions by the food inspectors who pass upon the quality of meats delivered to city institutions have been unwarrantably harsh to the firms which obtain the city contracts. In natural sequence this was followed by a demand from counsel for one aggrieved contractor that the city abandon inspection by agents of the United States Department of Agriculture and substitute inspection by regular employees of the city.

In the course of its investigation into this situation, the commission learned that within a short time complaint was also made to the purchasing agency that in certain instances inspection of canned goods and of butter resulted in unduly harsh decisions against particular firms supplying those commodities.

Charges such as these which, if found to have a basis, would cast a cloud upon the integrity of the inspection have a particular interest for the Finance Commission. Since 1931 city purchases of meats, fruits, vegetables and butter have been inspected by employees of the Federal Government.

In that year the commission had disclosed that many serious abuses existed in the practices and policies controlling the purchase of and the acceptance of delivery of food in the city institutions. In an exhaustive report of the situation the commission had revealed that vendors were frequently being paid for meat at a price higher than was justifiable, even if the highest quality had been received; yet usually the city received only a very low quality. It had also been revealed that laxity by city agents in verifying the weights charged for with the weights actually delivered frequently forced the city to pay for greater quantities than were actually delivered.

In the belief that inspection would be more reliable if furnished by an agency which was independent of both the purchasing authority and the receiving authority, the commission recommended that the city retain the services of the food inspection division of the United States Department of Agriculture. The city accepted the recommendation.

The experience of the city in purchases of meats, fruits and vegetables before and immediately after the adoption of Federal inspection was in bold contrast. After Federal inspection got under way, payment for meats at one institution dropped off at the rate of 5,000 pounds per month; payment for one item of vegetables dropped off at the rate of 1,000 pounds per day. There were corresponding reductions in other items of food purchases. A year later, the then purchasing agent stated publicly that Federal inspection had reduced the cost of supplying food to the city institutions, at least $200,000, in the first year of its operation.

Its potential value to the city is, therefore, so great that any complaint against the service warrants careful attention. The commission recognizes that, to obtain the largest measure of benefit from it, it must have the confidence of city officials and reliable vendors alike.

In considering the charges which have been made, it is well to understand exactly what constitutes "Federal inspection." A brief description is, therefore, offered.

The United States Department of Agriculture has organized a bureau of food inspectors, expert in their field, who sell their services to governmental agencies, private institutions, hotels and similar large buyers. Usually these inspectors are men who have had considerable experience in the employ of food vendors, and are therefore familiar with the trade and its practices. The Federal inspectors give as much or as little service as those who retain them contract for; sometimes their service begins with the preparation of specifications, and then follows through every step until the food product is accepted in the storeroom of the consumer.

In some instances, according to the arrangements made, Federal approval or rejection of merchandise delivered is final and irrevocable. In others, it is only advisory. Usually the charge for Federal inspection is assessed on the supplying vendor and must be paid whether merchandise is accepted or rejected. Sometimes the charge is on a per pound basis, such as two cents per pound of merchandise examined; at other times it is on an hourly basis, such as $2 per hour.

In order that this service might enjoy the confidence of its users, the Department of Agriculture has made it a point to employ as its representatives in this field men who are accepted by vendors as being well qualified for their duties. Carefully prepared reports of inspections are delivered to the contracting agency, and a copy of each report is kept on file at the field office out of which the inspector works. Another copy is sent to the headquarters office of the Department of Agriculture at Washington. Therefore, there is always opportunity for a vendor, aggrieved by the decision of an inspector, to examine his reports and to appeal to the headquarters staff for review, although as a matter of practice rarely is such an appeal made.

When arrangements were made by the City of Boston to obtain this expert assistance, it was the intention of those responsible for its installation to provide full and complete service. This includes preparing specifications, examining bids, passing on prices, examining merchandise, delivered, and checking weights and counts. It was also intended that the decision of the Federal inspectors would be final as to whether the merchandise actually delivered met the specifications in the contract. If it met the specifications, it was to be accepted. If it failed to meet them, it was to be rejected, and satisfactory replacement ordered or the purchase order canceled, except in the event that conditions in the food market were such that it was impossible to comply with the specifications. In such event, the procedure was for the inspector to notify the proper official or agent of the city and if the merchandise was of proper quality, it would be accepted by the city and an adjustment of the price made through the Supply Department. Because city institutions are widely scattered, it was arranged that the cost of inspection would be fixed at $2 per hour of inspector's time. The vendor is required to pay this charge, and presumably includes it in the price at which he offers his wares to the city.

In order that favoritism in awards and its attendant difficulties might be eradicated, purchase by contract and advertisement for competitive bids were made necessary corellaries to Federal inspection.

In the first months after the service was installed, opposition developed from two particular groups. One group consisted of employees of the consuming institutions. Their grievance was based on the fact that they were relieved by Federal inspection of the opportunity to distribute the patronage arising from purchases and from the responsibility for accepting or rejecting deliveries, and from having a voice in the prices paid. Naturally, therefore, the new system weakened their prestige among vendors, and made them less important in their respective departments.

The other group consisted, for the most part, of small dealers who, through political influence, had formerly been able, from time to time, to obtain some of the city's business, but who could not compete with the large firms on an even basis, if standards were specified in contracts or orders and deliveries were accepted only when they were in compliance with the specifications.

These two groups joined hands in fighting Federal inspection during its first years of operation. The Finance Commission was, however, continually on guard to ward off unfair and unwarranted attacks on it, and to expose each such attack.

In process of time the opposition of departmental employees waned. They became reconciled to it. Eventually, the employees in the institutions realized that it was, in fact, a boon to them. A recent canvass by a Finance Commission representative of persons in the city departments who are directly concerned with deliveries of food revealed that they are unanimously in favor of Federal inspection. One recently expressed his opinion to a Finance Commission representative as follows: "I can now sleep nights, and I don't have to worry about a sudden exposure of poor quality, high price, or low weight." Another in an important position, who before Federal inspection was adopted, experienced great difficulty in the purchase of foods without scandal, has stated that he would now resign if the protection of Federal inspection was withdrawn.

The opposition of the second group — the smaller dealers — has never been completely eliminated. It becomes more or less dormant for irregular periods; but when a dealer feels especially aggrieved at a rejection, the fire of opposition is rekindled and usually a few band together in a campaign to eliminate inspection. As a rule, the effort eventually crystallizes in a demand to the Mayor that he abolish it, and sometimes, as in the particular instances which have prompted this report, the Mayor is asked to substitute inspection by regularly hired city employees.

The instances of dissatisfaction with Federal inspection of meats now before you have been investigated by the Finance Commission. The deliveries of only one dealer are involved. That dealer, through counsel, has claimed that a particular lot of meat delivered to the City Hospital by him was rejected as "below specifications," yet was accepted from another dealer who, when given the order for replacement, purchased the rejected lot from the first dealer.

Another charge is that a quantity of meat of a particular grade was divided into two lots, one of which was delivered to one institution, and the other delivered to another institution, whereupon one lot was accepted as in compliance with the specifications, and the other lot was rejected as not in compliance.

Another charge is that on various occasions deliveries of meat which was wholesome, although not the high grade specified, have been accepted by the Federal inspector.

These charges are serious, and if they could be supported by reliable evidence, obviously would impair the reputation of Federal inspection. However, only in one of these alleged instances was the matter called to official attention in time to determine the merit of the charge. The Federal inspector now challenges the truth of each charge and asks the privilege of meeting the accuser before a recognized higher authority where the particular orders and all the particulars in regard to them may be reviewed. This inspector has stated his willingness to have his decisions reviewed either by you or by those in authority in the Department of Agriculture.

The commission doubts whether at this time any such review can satisfactorily determine the issue, because the particular meat involved is not now available. Testimony is quite likely to be contradictory.

However, a representative of the Finance Commission had an opportunity to investigate, while the meat was available, another instance in which the dealer was aggrieved at the decision of the Federal inspector. The order in question was for 400 pounds of corned beef for the Boston Sanatorium. The order called for brisket from cattle weighing 700 to 800 pounds. This weight of cattle was purposely specified to indicate that fairly lean brisket was wanted. The inspector rejected the brisket delivered on the ground that some of it was too fat, and some of it was too old when put into the brine. The dietitian at the Sanatorium agreed with the inspector that for the reasons given it was not acceptable.

On the other hand, the dealer contended that the meat was actually of a higher grade than that ordered. He explained that 700 to 800 pound cattle were not available, and that the market contained only brisket from 1,100 to 1,200 pound cattle, admittedly a better grade of meat than the 700 to 800 pound kind, but also admittedly heavier in fat.

The above is a good example of the cause of most of the difficulty which has been found with Federal inspection. In this particular case the contract specified a particular grade, selected by the city's agents for a particular reason. The amount of fat contained was of the essence of the specifications. The inspector decided that the brisket delivered was not what was ordered.

There is no dispute that, for some uses, the quality delivered was better than what was ordered, but the better quality, because of the extra fat, was not suitable for the particular use for which the delivery was intended. In such cases it becomes a question as to whether the city is to determine the exact quality it will take, or the dealer. Obviously, the city as the buyer should retain control.

The commission has asked representatives of the large meat packing houses, who are, as a rule, the successful bidders for city contracts, whether or not they agree with the complaining dealer that the Federal inspector's decisions are often unjustifiable. Not one of those of whom inquiry was made is of that belief. All those interviewed expressed satisfaction with the fairness and reliability of the inspectors, and, yet proportionately, they have had more rejections than the complaining dealer.

It must be obvious that, if the city's arrangement with the Federal inspector is to leave it to him to determine whether or not meat delivered conforms to the specifications, the Federal inspector cannot approve any other grade as being in compliance with the contract. The fact that, as is sometimes the case, no such grade as that specified is available cannot be construed to give the inspector the right to approve as the particular grade specified any lesser or different grade. Federal inspection will amount to no more than the old, and now abandoned, type of inspection if such latitude is allowed the Federal inspector.

To meet such a situation as above described, it is permissible under the present system for the official of the department to whom the meat is consigned, when the quality usually bought is temporarily not obtainable, to accep a different grade, if wholesome, and, through tht purchasing agency, to obtain suitable adjustmenteof the price charged the city. The commission has found that some department officials do not real ize that this alternative is available, and that others are unwilling to invoke it under any circumstances because they believe it will be the entering wedge for a return to the old scandal-making practices. The commission believes that temporary shortages in standard lines of merchandise will be multiplying under the stress of the defense program and that, therefore, the practice of price compromise on goods not in accordance with specifications will have to continue. Nevertheless, the practice should be strictly limited to cases where the necessity of compromise is forced on the city by the existence of actually proved shortages.

From the information obtained in this new investigation, the Finance Commission is of the opinion that Federal inspection is reliable and trustworthy and, on the whole, is safer for the city than any other type yet devised. It has proven its value over and over. It is independent of both vendor and vendee.

The Finance Commission recommends in those instances where the vendor and the Federal inspector are in disagreement, that the Department of Agriculture be asked to provide a review of the inspector's decision by a Federal inspector from another district, whenever the city's agent believes such a review is warranted. Since the Federal department takes enough pride in its work to want to have its customers satisfied, and knowingly to provide no opportunity for justifiable complaint by supplying dealers, this course is open either to the city or to the dealer.

CONDITIONAL SALES OF LAND BY STATE.

Coun. TAYLOR offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to draw up a bill to submit to the Legislature, which bill, if enacted into law, will prevent the Commonwealth of Massachusetts from making conditional sales of state-owned land that will deprive cities and towns in which said land is located from the collection of taxes on said land; and be it further

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take legal action against Daniel V. McGrath of Brockton and the Commonwealth of Massachusetts to set aside the sale of land located on Nashua street, opposite the Public Works Department Building, which land was sold on conditional sale by the state to Mr. McGrath, as fraudulent against the taxpayers of the City of Boston; and be it further

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take legal action against Daniel McGrath of Brockton to compel him to pay any future taxes on the property located on Nashua street, opposite the State Public Works Building, said land purchased by him from the state on conditional sale for $100,000 during the term of said conditional sale.

Coun. TAYLOR—Mr. President, from time immemorial it has been the custom of the Massachusetts Legislature to hang around the necks of the taxpayers of the City of Boston millstones of very large dimensions, from which it has been very difficult, if not impossible, for the taxpayers of Boston to escape. It now appears that the state is entering upon another plan to defraud the taxpayers of the City of Boston, and no doubt of other parts of the state, of important tax revenues. A case in point, to which I refer in these orders, is a recent transaction arising through the purchase by conditional sale, with the approval of the Governor's Council, of a piece of land owned by the state, located across Nashua street from the Public Works Building. The land was sold by this conditional sale to a man by the name of Daniel McGrath of Brockton. The sale was for $100,000. The land was not sold in accordance with the usual procedure for the sale of land. There was not the payment of money and the giving of a deed. There was not the ordinary release and surrender of the land to the purchaser, as is the ordinary procedure in sale of land between private individuals. But it was a conditional sale, the point being this, that the state does not have to pay taxes to any community on property owned by it. The sale in this case was a conditional sale, the same as the sale of furniture, refrigerators, and so on, where the title remains, until the time when the transaction is finally completed, in the vendor. That means, in the case of this conditional sale of the land referred to, owned by the state, that the title of the property is retained by the vendor, the state, until the vendee has fully paid for it, and in the meantime the city cannot tax it. The result is, therefore, that in this case the state sold the property to McGrath, under conditional sale, for $100,000, to be paid for within a period of twelve years. You can see, therefore, that until the twelve years are up, the City of Boston will not obtain one cent in taxes. It seems to be clearly an intention as part of the deal to defraud the city of taxes. It certainly must have been clear to the Governor's Council that under such a transaction the city would receive no taxes from the property. If it were sold in the ordinary way, or if it were leased, the city would be entitled to the taxes coming from the land. But, no, the ordinary procedure was not adopted. It evidently was not desired that the party buying that land under this conditional sale should pay taxes to the City of Boston. On property worth $100,000 the annual tax would be about $4,000, or for twelve years $48,000. But it was not desired to have that result, and so this conditional sale was resorted to, the title remaining in the state until the entire amount is paid in. I say that this is a dastardly and vicious act against the taxpayers of the City of Boston and against other people who own land in the City of Boston and who pay taxes upon it. How can such owners compete with other business men who don't have to pay taxes? This is not the first time that this sort of thing has occurred. I recollect when the Commonwealth flats property was sold to a certain person on the same terms, on a ten-year basis, and when the last payment was about due, and when the title would pass, pressure was brought to bear by certain people and an agreement was entered into for the state to continue the last payment over another five years, so that the City of Boston was also defrauded of that five years' tax. How long is the City of Boston going to allow these people to receive property in that way and, under the guise of a conditional sale, let them escape paying taxes to the City of Boston? How long are such people to be allowed to be practically immune from taxation while other people have to pay taxes to the city? We don't mind that condition in the case of various charitable institutions, but certainly the state is not in the real estate business and should not allow certain people acquiring property to escape taxation where all the rest of us are obliged to pay. Certainly the Commonwealth should not sell property under conditional sale to private individuals and allow them under the guise of a conditional sale to escape the taxes that they should pay to the city. How long can the city remain solvent if such a thing is allowed to continue? So I say that the city should wake up and do something about it, and therefore I have introduced these orders requesting the Corporation Counsel to take action in the matter. Personally, I think such a conditional sale is unconstitutional. I do not see why one private individual should receive property and be relieved of paying taxes under such a pretext, while his next-door neighbor has to pay his taxes to help keep the city running. I believe, therefore, that the Corporation Counsel should bring the matter into court to determine whether such a proceeding is constitutional or not. It apparently is just a means that has been adopted to relieve a conditional purchaser from the payment of taxes, thereby defrauding the city of a large amount of money that it should receive. I think the Corporation Counsel should submit a bill to the Legislature remedying this sort of thing, and that a provision should be embodied in the law prohibiting the Commonwealth from selling such property under conditional sale. Either such property is used for state purposes or it is not. If it is used for state purposes, the state, of course, is not expected to pay the taxes, but if a conditional sale is executed, simply in the interest of a private individual, who is thereby relieved of paying the taxes, that is something else. If the land is not being used for state purposes, the city should receive taxes upon it. I trust, therefore, that the matter will be tested in court, letting the court decide whether it is right that an individual should be allowed in this way to avoid his taxes and thereby defraud the City of Boston. I believe also that the Corporation Counsel should take legal action against Daniel McGrath to compel him to pay any future taxes on the property located on Nashua street.

The orders were referred to the Executive Committee.

ITEMIZED BUDGETS BY DEPARTMENT HEADS.

Coun. D. F. SULLIVAN offered the following:

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) authorizing sale of used personal property at airport—that same ought to pass.

Report accepted; said order passed.

INSPECTION OF FOODS SOLD SATURDAYS IN OPEN-AIR STANDS.

Coun. CAREY offered the following:

Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to inform the City Council as to what inspection, if any, is made of meats and vegetables which are being sold in the open air stands in the market district on Saturday afternoons and evenings.

Coun. CAREY—Mr. President, on each Saturday afternoon and evening thousands of people flock to the downtown market district for their food purchases, I presume, hoping to save some money in that way. A short time ago I had a complaint from a lady who had been down to that district on Saturday afternoon and bought some vegetables, and after getting home and taking them out of the bag she found that some had begun to decay. While I am not an expert in such matters, I made a visit to the district myself, just to see what the Saturday afternoon and evening conditions were. I saw meat and vegetables sold on some of the stands there which in some cases did not seem fit for sale. I repeat that I am not a judge, but I do think we should have a strict health inspection service and should find out what inspection is made there on Saturday afternoons or evenings, if any, to safeguard the rights of those who go down there to save what money they can on their marketing.

The order was passed under suspension of the rule.

INCREASED OLD AGE ASSISTANCE.

Coun. CHASE offered the following:

Whereas, There has been a decided increase in the cost of food, clothing and other necessities of life; and

Whereas, This increase in living expenses is working a hardship on people who are receiving old age assistance; and

Whereas, The State Department of Old Age Assistance has the authority and should recognize this change in economic circumstances by making adequate allowances in every case appearing before them; therefore, be it

Resolved, That the Boston City Council, in regular meeting assembled, hereby records itself as requesting that his Excellency the Governor take cognizance of this situation by ordering the State Department of Old Age Assistance to make adequate allowances to old age assistance recipients; and be it further

Resolved, That a copy of this resolution be sent to his Excellency the Governor.

—

Ordered, Due to the decided increase in costs of food, clothing and other necessities of life, that the Bureau of Old Age Assistance be requested, through his Honor the Mayor, to take the necessary steps of reviewing the old age assistance rolls with a view to increasing the allowances given to old age assistance recipients.

Coun. CHASE—Mr. President, a number of cases have been brought to my attention in the past few months where people receiving old age assistance find that their living expenses are increasing to an extent that imposes a hardship on them. I know that his Honor the Mayor has recognized the increase in living costs because he has increased welfare allowances 10 per cent. However, no one to date has recognized this economic change as far as the people receiving old age assistance are concerned. These old people require and deserve a greater degree of help than persons who are younger, but to date the state department of old age assistance has done nothing about making allowances for increased costs of living. These people need clothing and food which they cannot, in many cases, buy because of increased costs of living. Under our present law the towns and cities have the authority to grant additional amounts. If I remember correctly, Mr. Bigelow, the watch dog of the State treasury, brought this point out when he opposed the new $40 minimum law which I had the pleasure of voting for. Despite this acknowledgment of authority, and despite the increased costs of living, the state has not taken action, and I believe that they should do so immediately.

The preambles and resolution and order were passed.

EAST BOSTON RELIEF STATION.

Coun. COFFEY offered the following:

Ordered, That the trustees of the City Hospital be requested, through his Honor the Mayor, to keep the East Boston Relief Station open twenty-four hours a day.

Passed under suspension of the rule.

REPAIR OF TOLL GATE BRIDGE.

Coun. LANGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to immediately repair and make safe for foot traffic, the overpass known as the Toll Gate Bridge, which connects Hyde Park avenue and Washington street, Jamaica Plain.

Passed under suspension of the rule.

UNDERPASS IN PLACE OF TOLL GATE FOOTWAY.

Coun. LANGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to arrange for the construction of an underpass under the railroad to replace the so-called Toll Gate Footway connecting Hyde Park avenue and Washington street, Jamaica Plain.

Passed under suspension of the rule.

PREFERENCE TO RESIDENT TEACHERS.

Coun. LYONS offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to give teachers who pass promotional examinations and who are residents of Boston preference over non-residents by placing them at the head of the list.

Coun. LYONS—Mr. President, for the longest time the School Committee—which should long since have taken action in the interest of teachers who live in our city—have gone ahead and given constant recognition to non-resident teachers, who in many cases have been getting the lovely jobs and who have been given an undeserved preference in other ways. In looking over the list of teachers in our School Department you will quickly see that the non-resident teachers are the ones who are being given preference, who are getting the breaks, from superintendent all the way down. Teachers who are not residents of Boston really laugh at the way in which we operate here. I think the City Council and the School Department should get together and try to find a remedy for this state of affairs. It is about time that the resident teachers were given a break, that action should be taken in the interest of our residents and taxpayers as against those coming from outside. An examination will show, on the promotional examinations for such positions as head master, assistant superintendent, heads of departments and the like, that an improper preference is now being shown to outsiders, and I believe that our resident teachers and others should be given preference rather than people living outside.

Coun. M. H. SULLIVAN—Mr. President, we have had many orders similar to this, if not exactly the same, in the past, dealing with the favoritism that has been shown by the School Committee to those living outside of Boston. But so far the School Committee has done nothing to remedy that situation. We have been told that under a ruling of the Supreme Court it was illegal to take discriminatory action against those living outside of Boston. A similar situation arose in the city of Somerville, and it was there decided, as I understand it, that it was legal for the School Committee to give preference to the residents of Somerville, that the School Committee could use its own judgment. While I understand that there may be some difference in the city charters of the two cities, I understand the ruling in that case was clearly that it was a matter that was left to the judgment of the School Committee itself, and I understand that in that respect the same thing is true here. I don't think many people realize how widespread this employment of outside teachers is. When you look over the list and see the residences you will be surprised. You will find people living in places outside of Boston that you never heard of. The Boston School Committee spends approximately $16,000,000 annually, and $5,500,000 of that money goes for salaries of teachers living in 225 of the 359 cities and towns of the Commonwealth, many of them, as I say, in places you never heard of. Certainly, it would seem that resident teachers here in Boston would take more interest in the Boston pupils than those coming from outside; and it is also true that these people living outside are more apt to spend their money in outside places. Take, for instance, the non-resident Brighton teachers, when they get their monthly pay, they will buy out in Cambridge, Brookline and other places. They will even go over to get their lunches. There is one family of teachers, living outside of Boston, who get annual salaries aggregating about $20,000, a large part of which is spent in these other towns, and the same thing is true of a very large number who hold the highest positions in the school system of the city. Not one of the family I have referred to lives in Boston, one living in Cambridge, and others living in different parts of the state. But they all teach in Boston. You will find Boston teachers living in Pittsfield and everywhere else, and even out of the state. Certainly, if Boston boys and girls cannot be taught by teachers who live here, and belong here, it is an indictment of our school system. I think the order that Councilor Lyons has introduced is very worthwhile, and that it should be passed here today. Very possibly the School Committee will say, as they have in the past, that they cannot do what is asked. But I do feel that at least, when it comes to promotional examinations, those who are residents of Boston should be given preference over non-residents by placing them at the head of the list.

The order was passed under suspension of the rule.

SPOTLIGHTS, WARD 20.

Coun. LYONS offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install spotlights for the protection of traffic officers at the following locations in Ward 20:

At the junction of Washington street and Cummins Highway, in front of the Holy Name Church; Centre street, at the junction of Belgrade avenue and Corinth street, in front of St. Theresa's Church; Centre street, at the junction of Manthorne road and Centre street.

Passed under suspension of the rule.

"STOP" SIGNS, WARD 19.

Coun. LANGAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install "Stop" signs at the corner of Boylston street and Chestnut avenue, Ward 19.

Passed under suspenson of the rule.

EXEMPTION OF DOCTORS' CARS FROM TAGGING.

Coun. RUSSO offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to instruct the police officer who is given charge of tagging automobiles, not to tag automobiles owned by doctors, which have emblems on their cars and which are parked in residential areas.

Coun. RUSSO—Mr. President, some time ago I put in a similar order, but my attention was directed only a few days ago to a case where a doctor was visiting a patient who needed medical attention very badly. The doctor was in the house for about ten minutes, and when he came down from the visit and went to his auto, he was confronted with a tag. I think the officers should be instructed, where they see automobiles with a doctor's emblem displayed, to pay respect to that emblem. When a doctor is in a home, visiting a patient, I don't think he should be confronted with a tag on his car when he comes out. I think, therefore, that the commissioner should see that the officers are instructed in every district not to tag automobiles owned by doctors.

The order was passed under suspension of the rule.

Adjourned, on motion of Coun. HUTCHINSON, at 3.51 p. m., to meet on Monday, December 1, 1941, at 2 p. m.

PUBLIC SCHOOL MEMBERSHIP, SEPT. 30, 1941

A communication was received from the Superintendent, under date of Nov. 10, 1941, submitting the following statement of the number of pupils belonging in the Boston public day schools, exclusive of the Continuation School, on September 30, 1941, together with a comparative statement of the number belonging on September 30, 1940, as follows:

The total number belonging in the Boston public schools on September 30, 1941 was 113,734, which is 6,713 less pupils than were enrolled in the schools on September 30, 1940. The Teachers College of the City of Boston shows a decrease of 33 pupils; high and Latin a decrease of 2,577 pupils; in grades VII, VIII and IX, there is a decrease of 886 pupils; in grades I to VI there is a decrease of 2,214 pupils; in the kindergartens there is a decrease of 317 pupils; and in the special schools a decrease of 686 pupils.

In the Continuation School the membership on September 30, 1941 was 13 more than on September 30, 1940. On September 30, 1941 it was 66 as against 53 on September 30, 1940.

In the Training School for Teachers of Mechanic Arts there was a membership of 23 pupils on September 30, 1941.

A distribution of the decreases in membership for 1940 and 1941 is shown by the following table:

Mr. Norton: Mr. Chairman, for the purpose of the record, I would like to state what I have stated in the Conferences on a number of occasions: After listening to the Superintendent's report just read, I am one of those who feel that the school population will continue to decrease during our lifetime. I never want to see the day come when the Boston school system has to let a teacher go for want of classes. Therefore, I have suggested time and again that the school authorities take measures to retrain teachers who may not have sufficient classes in the years to

come, so that they may teach another subject to another class perhaps in a different school.

LEAVE OF ABSENCE

A communication was received from the Business Manager, under date of Nov. 10, 1941, recommending that leave of absence without pay for military service be granted to Leo J. Burke, assistant, Group D, in the Business Manager's office, for the period of Oct. 11, 1941, to Aug. 31, 1942, inclusive.

Placed on file and leave of absence without pay granted for the period specified.

—

APPROPRIATIONS AND EXPENDITURES TO NOV. 1, 1941

Communications were received from the Business Manager, under date of Nov. 10, 1941, submitting statements showing the appropriations, the expenditures, and the balances for general school purposes and special items for the first nine and ten drafts of the current fiscal year, the expenditures for the first nine and ten drafts of the fiscal year 1940, and the increases and decreases in the several items.

AMENDMENT TO SCHEDULE OF COMPENSATION FOR CUSTODIANS

A communication was received from the Business Manager, under date of Nov. 10, 1941, reporting that some months ago the custodians petitioned for an adjustment in their minimum compensation as follows:

1—That all men employed for less than five years, and all new appointees, shall receive the present minimum wage of $35 per week.

2—That all men five years or more in the service, shall receive an annual increase of $2.00 per week until a maximum of $40 per week is reached

The Business Manager and the Schoolhouse Custodian recommended that this petition be granted. While the School Committee has not taken final action, it is the opinion of the Business Manager that the Committee favors the granting of this petition.

The matter of increasing the compensation of the custodian of 15 Beacon Street was also discussed for the purpose of allowing the scrub women employed by the custodian an additional weekly compensation of $1.00 per week. This suggestion was made by Mr. Norton and the School Committee approved.

The Business Manager, therefore, recommended the passage of the accompanying orders amending School Document No. 9, 1930 — Schedule of Compensation for Custodians of School Buildings for Regular Day School Service. These amendments allow the foregoing minimum wage schedule and also increase the gross compensation of the custodian at 15 Beacon Street for the purpose of increasing four scrub women employed by him from $16 per week to $17 per week.

On motion, it was

ORDERED, That paragraph 1, Section 10 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service—School Document No. 9, 1930—is hereby amended by striking out the paragraph and substituting in place thereof the following, to take effect Oct. 1, 1941:

SECTION 10—MINIMUM COMPENSATION FOR ONE-ROOM BUILDINGS

1. Compensation schedule for the custodian service of a building or group of buildings containing not less than four class rooms, shall be as follows for custodians in the service Oct. 1, 1941:

Less than 5 years of permanent service	$35 per week
At the end of 5 years or more of permanent service, to take effect Oct. 1, 1941	37 per week
At the end of 6 years or more of permanent service, to take effect Oct. 1, 1942	39 per week
At the end of 7 years or more of permanent service, to take effect Oct. 1, 1943	40 per week

Custodians entering the permanent service after October 1, 1941 shall be advanced on the schedule on anniversaries of the dates of their original appointments to the service.

Custodians five years or more in the permanent service on Oct. 1, 1941 when employed in buildings paying, under a prior schedule, salaries in excess of $37 per week and not more than $40 per week, shall continue to receive such salaries until the foregoing schedule applies on Oct. 1, 1942 or on Oct. 1, 1943.

All custodians with less than five years of permanent service on Oct. 1, 1941 shall be paid the salaries allowed them under a prior schedule. When their permanent service reaches five years, the foregoing schedule shall apply on anniversaries of the dates of their original appointments to the service.

On motion, it was

ORDERED, That Section 12, paragraph 1 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service—School Document No. 9, 1930—is hereby amended by striking out the section and all orders of amendment passed at the meeting of May 20, 1940, and at meetings prior thereto, and substituting in place thereof the following, to take effect Oct. 1, 1941:

SECTION 12—
SALARY OF CUSTODIAN OF ADMINISTRATION BUILDING

1. The compensation of the custodian of the Administration Building, 15 Beacon street, shall not be fixed in accordance with the foregoing schedule rates, but shall be at the rate of $333.30 per week, which amount shall be for all services rendered by him and his assistants as required by the regulations; such compensation not to include payments to the custodian for overtime services which may be rendered because of evening occupancy of the building.

—

Mr. Norton: Representatives of the lower paid custodians appeared before this Committee at a Conference when we were considering the 1941 budget, and each and every member of this Committee was 100 per cent in favor of helping out the low paid custodian group.

Chairman: I would like to say that it was stated in conjunction with our discussion last spring, that if the money was available in unexpended balances this fall, we would grant that increase to the lower paid custodians. The Business Manager has reported that there are sufficient unexpended balances to take care of this increase for the custodians who have been in the service five years or more and are still on the minimum.

Mr. Norton: That was the understanding we had with them and it is nice to know that the promise we made them has been fulfilled.

—

PROPOSED INCREASE IN COMPENSATION FOR CUSTODIAN SERVICE IN ADMINISTRATION BUILDING

Mr. Norton: I spoke this evening in the Conference with reference to granting a little increase in pay to the people who work under the custodian of this Administration Building. I also stated something that each and every member of the Committee has remarked at different times as his belief, that this building is well taken care of, that the attendants on the elevators are courteous, and that those who work in this building are a fine group and are on the job. That is the belief of each and every member of the Committee expressed to me at different times.

The question is whether or not we can give to the Custodian in charge of this building a little increase for his assistants. I have not understood just how to go about this matter. That little confusion has been ironed out and I would like at the next meeting to take the matter up.

Chairman: The Secretary will note that and put it on the calendar for the next conference.

TRIBUTE TO CARDINAL O'CONNELL

Mr. Norton: The Boston School Committee should officially take note of an event in the life of one of the greatest living Americans who graces our city, His Eminence, William Cardinal O'Connell, Archbishop of Boston, who on November 27 will celebrate the thirtieth anniversary of his elevation to the Sacred College of Cardinals.

I therefore offer a motion, that the School Committee recognize the occasion by the adoption of a suitable set of resolutions, to be sent to Cardinal O'Connell, and that the members of the School Committee, in proper dress, perhaps with other public officials, call on His Eminence on that day and express to him our felicitations and best wishes.

The motion passed by unanimous vote.

PUBLICITY ANALYSIS

Mr. Lee: (Producing chart) I have something here for the Committee that ties in with several of the projects we worked on last year, notably our discussions of publicity analysis, or propaganda analysis, and our very fruitful work in connection with the principles of democracy which led to the adoption of the handbook which is now in process of publication, I believe.

Superintendent: The galley proofs are here.

Mr. Lee: It also ties in with my plea for a better understanding of how politics and government actually work.

This consists of a little chart which will answer the questions of who is boss in America, how we differ from a dictatorship, why is Boston here, what is the purpose of a democracy, and how does our government work.

It says at the top, "Who Runs America?" and defines the consumers as the bosses of America, the consumers being all living Americans.

Under the consumers I draw a chain which shows the industrialists and the utility people, to indicate that even the great corporations are still the servants of the consumer. The Electric Light Company and the Telephone Company and their highly paid personnel are breaking their backs for the consumer.

Under the consumers and the industrialists come the newspapers who in turn are supported by the advertisements of the big corporations.

Coming down from the newspaper we come to the politicians who, you see, are supported by the strength of the newspapers coming under the corporations and are supported to some extent directly by the corporations in the form of financial support. They also have the support of the voters in the center and likewise have the support given by the racketeering element, by propaganda and by contributions. In turn these groups are supported by the consumers to whom they cater in whatever it may be, horse betting or number pools, burlesque houses and so forth. Chains coming down from the consumer on top indicate the several links of support that finally reach to and hold up the government below.

The point I want to keep uppermost is that there is a head and tail to America: and that the head is the consumer.

Mr. Norton would emphasize that it is the corporations who exercise the tremendous control. I have allowed for that by showing that their chain does pull the Government over to their side, by contributions, by control of the newspapers and the press. Nevertheless even they all tie back to the consumer.

Boston is here because the consumers said it should be here. No king or president directed that it should be here. The consumers have caused it to be here: the young men from New Hampshire, Italy elsewhere who came to Boston because here they could make a living by handling the commerce of our port, by the distribution of products, and by building plants and factories. In that way the consumers of Boston's products and services have said, "We will give you a living if you go to Boston."

It is significant for youngsters to realize that in a democracy we live by working for each other; we get our living by doing something for the consumer that is important enough for him to pay us, and we in turn become consumers and place orders with the grocer, with the taxicab driver or with the plumber who fixes our faucet. As consumers we become the boss, giving orders to other citizens.

This is a distinctly different setup from a dictatorship, where the government is in the saddle and the individual exercises no control. Here the individual commands the co-operation of other individuals who work for him; and the Government stands as a referee to see that all parties to the transaction are protected, and channels are kept open by which one man can

make a living by doing something for another man.

In America the consumer is enthroned. And by the consumer we mean all living Americans.

If you want to focus it down to special cases of politics and government, the voter ought to realize the extent to which his votes control and the extent to which his votes are influenced by the newspapers and other elements which build up strength for a candidate. Those elements themselves have a subserviency to the consumer.

Without the consumer you would not have your big oil companies; you would not have your railroads which in the past, we know, have dominated government in America. Even the little fellow who is living outside the law and catering to the undesirable wants of people, has a minor role to play.

I think this graphically gives a conception, with some head and tail to it, of the form of government of this country. Once Americans see that consumers run the country, they realize the part of the consumer. We cannot buy unless first we do something for somebody else, who is some other citizen, and please him enough so that he gives us a week's pay.

In America our bosses are all other citizens, and not a dictator, not any particular corporation or set of corporations; and they are not the politicians.

In America we have a purpose and an objective that is as definite and crystal-clear as the objectives of those countries overseas which boast of their national objectives Our national objective is for each citizen to do something for every other citizen.

I would like you to submit that to the Board of Superintendents with whatever comments this meeting might have. The Board members doubtless would wish to comment on it and recommend its possibly being considered in some of our civics and economics courses, or used by the teachers in connection with their handbook on the Principles of Democracy.

I do not think a person can understand how America works unless he realizes that fundamentally the consumer is in the saddle and runs the show. Everything heads up to the consumer, whether it be a big corporation or the man in public office. The man in office heads up to the consumers in the first place, because the consumers have the votes. In the second place, the consumer supports the industrialists which support the man running for office.

Chairman: You want this referred to the Board of Superintendents for report?

Mr. Lee: Yes.

Chairman: If there is no objection that will be done.

COUPON SERIAL BONDS.

BONDS EXEMPT FROM TAXATION IN MASSACHUSETTS AND FROM THE PRESENT FEDERAL INCOME TAX.

TREASURY DEPARTMENT.
OFFICE OF THE CITY TREASURER.

CITY HALL, BOSTON, MASS., December 5, 1941.

In pursuance of the authority given by orders of the City Council of Boston and Acts of Massachusetts, the undersigned will receive proposals until 12 o'clock m., Eastern Standard Time, Thursday, December 11, 1941, for the purchase of all but no part of the following described coupon serial bonds:

Coupon Serial Bonds.

Bidder to name rate of interest in multiples of ¼ of 1 per cent; no bid to be less than par and accrued interest, and a different rate of interest may be bid for all but no part of each purpose loan to be issued. Rate of interest on Huntington Avenue Underpass Loan not to exceed 3 per cent.

CITY OF BOSTON, HUNTINGTON AVENUE UNDERPASS LOAN, ACT OF 1938, $125,000.

(Rate of interest not to exceed 3 per cent.)
Chapter 395, Acts of Massachusetts, 1938. Payable $13,000 annually December 15, 1942, to December 15, 1946, inclusive, and $12,000 annually December 15, 1947, to December 15, 1951, inclusive.

PUBLIC WAYS, CONSTRUCTION OF, $500,000.

Order of the City Council of Boston of July 2, 1941, effective July 23, 1941. Payable $50,000 annually December 15, 1942, to December 15, 1951, inclusive.

BRIDGES, CONSTRUCTION OF, $100,000.

Order of the City Council of Boston of July 2, 1941, effective July 23, 1941. Payable $5,000 annually December 15, 1942, to December 15, 1961, inclusive.

SEWERAGE LOAN, $200,000.

Order of the City Council of Boston of July 2, 1941, effective July 23, 1941. Payable $7,000 annually December 15, 1942, to December 15, 1961, inclusive, and $6,000 annually December 15, 1962, to December 15, 1971, inclusive.

All loans will be issued in Coupon Bond Certificates of $1,000 each, and will be paid on the dates specified for each loan, all with interest payable semi-annually on the fifteenth day of June and December in each year, at the office of the City Treasurer, Boston.

In comparing bids, preference will be given to the bidder whose bid provides for the lowest net interest cost to the City (total interest for the duration of the loan from December 15, 1941, less the amount of premium bid).

The bonds will be dated December 15, 1941, and will be ready for delivery on or about December 29, 1941. Interest will begin December 15, 1941, and will cease on the dates on which the bonds are payable.

These bonds are exempt from taxation in Massachusetts and from the present Federal Income Tax.

Proposals must be sealed and addressed to Francis X. Lang, Acting City Treasurer, Boston, Mass., endorsed "Proposals for Loans." Each proposal must be accompanied by a certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent of the amount of loans bid for, the check made payable to the City of Boston, Francis X. Lang, Acting City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loans awarded. All other checks or cash will be returned.

Accrued interest from December 15, 1941, to date of delivery is to be paid by the purchaser.

All proposals will be opened in the office of the City Treasurer, Thursday, December 11, 1941, at 12 o'clock m., Eastern Standard Time. The Acting City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the City.

FRANCIS X. LANG,
Acting City Treasurer.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CONSTRUCTION WORK ON THE SUMMER STREET BRIDGE OVER THE RESERVED CHANNEL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction work on the Summer Street Bridge over the Reserved Channel, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Construction Work on the Summer Street Bridge over the Reserved Channel," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m., on Monday, December 8, 1941, with a certified check for five thousand (5,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Act so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals should he deem it to be for the best interest of the city so to do.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, DECEMBER 13, 1941. No. 50

MAYOR TOBIN RALLIES CITIZENS OF BOSTON TO AIR-RAID DEFENSE DURING FANEUIL HALL MEETING FOR ORGANIZATION OF ALL LOCAL FACILITIES—TELLS HUGE AUDIENCE THAT CITIZENS OF TODAY WILL LIVE UP TO TRADITIONS OF THOSE WHOSE BLOOD AND SACRIFICES ESTABLISHED THE DEMOCRACY UNDER WHICH WE EXIST, AND WILL PROVE TO THE WORLD THAT, WORKING SHOULDER TO SHOULDER, WITH THE SAME SPIRIT OF AMERICANISM, WE SHALL MATCH STRENGTH FOR STRENGTH WITH AUTOCRATIC FORCES AND DEFEAT THE DICTATORIAL POWERS THAT SEEK TO PREVENT US FROM CONTINUING A FREE PEOPLE.

Mr. Chairman, Right Reverend Bishop Heron, Right Reverend Monsignor Haberlin, Rabbi Shubow, his Excellency the Governor, General Wilby, Representatives of Fraternal Organizations and Patriotic Veteran Organizations on the Platform, and Patriotic Citizens of the City of Boston.

Yesterday, December 8th, will long live in the history of the United States; a day that probably will be more important than any day other than the Fourth of July, 1776.

On yesterday, the Congress of the United States made a decision that met with the united support of the American people from Canada to Mexico and from the Atlantic to the Pacific. Eighty-eight members of the United States Senate voted to declare war, or that a state of war existed between the people of the United States, its government and the government of Japan.

The House of Representatives voted 388 to 1, and I know that that vote met with the united support of the American people, because we were all shocked when we heard over the radio that an unprovoked attack was made upon the United States' possessions in the mid-Pacific at the very moment that ambassadors of the Japanese Empire were pretending to be negotiating for peace. At that very moment while they were talking to Secretary of State Cordell Hull, they were bombing in the morning — just as the sun was coming out of the east — Pearl Harbor and the city of Honolulu. I think that the unprovoked attack has done more to unite the American people than anything else that could be done.

Then we have another old story. I know that there is rankling in the breast of every American, that for five years we have permitted this nation to go without ever paying their proper tribute for the unprovoked attack and assault upon the "Panay." When they sank that gunboat and then, as our sailors and marines were attempting to make the banks of the Yangtze river, plane on plane coming over and shooting down our sailors and marines; and then as they attempted to care for the wounded on the banks of the river, the planes kept still coming, but that is going to be an expensive day's pleasure for the Japs.

I say it might take time, but the Japanese nation and its people will pay ten thousand times for this unprovoked attack. We have a serious war to fight, and it requires the support of every one of the one hundred and thirty-five million Americans living under the American Flag. It means that no longer can we just talk about the power of our nation. We have to build that power and that power can be built only by the support of every American, every man and woman who is present here doing his or her own job in public or private business to the very best of their individual ability.

In addition to that, joining with all your governmental officers, local, state and federal, by cooperating 100 per cent; joining with your civilian defense organizations, which, thank God, I am proud to say in the State of Massachusetts and the City of Boston is comparable, if not superior, to that of any other state or any other city in the United States of America. We have in the City of Boston at the present time 23,000 volunteers in the Civilian Defense Program. Eight thousand men have been trained in air raid precautions and are operating under the direction of the Police Department and Police Commissioner Timilty. We have an auxiliary Fire Department that has been in process of preparation for a period of eighteen months, and then we have 3,000 trained auxiliary firemen under the direction of Fire Commissioner William Arthur Reilly. So with your support and the support of all the rest of Boston's citizens, we will be in a position to meet any situation that may arise.

The people of this city do not need to be disturbed. I don't believe that we are going to suffer greatly, but the best guarantee that we are not going to suffer is to be properly organized to meet any situation that may arise. I know I am not going to disturb you when I say that the last thought in the world of the people of Manila and Honolulu was that their community was to be visited by bombs from the sky. It is our purpose to so set up a Civilian Defense Program in our community that we will be prepared to meet any situation.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKEL DOLE.

ADDRESS OF MAYOR TOBIN.

(*Continued from page 1337.*)

I have complete confidence in General Wilby and those under his command, and I contend that within the not far distant future our army and our navy and our civilian defense organizations from one end of this country to the other will be the superior of those of any of the nations of the world, but it can't be done solely by your leaders. It has to be done as a result of the spirit of the people and an appreciation of what it means. Every one individually as Americans, and the contribution that each one individual can make as a combined whole, say one hundred thirty-five million people, with the best minds to be found in the entire civilized world, should be able — under a democratic form of government — to cope with anything that may be put forth by the autocracies.

As Americans, we in Boston will live up to the grand traditions and the spirit that prevailed in the days of the Revolution, when the citizens of those days met in this hallowed hall to make plans and preparations to set up the first great democracy that has lived in this world. It was set up here; and for one hundred fifty years the principles for which those men would lay down their lives and were willing to sacrifice their fortunes and their personal honor have been carried on for generation after generation of Americans. I believe that this generation is just as patriotic as any other generation, and, working together shoulder to shoulder, with the same spirit of Americanism that has prevailed in every great American crisis, with each one of us doing our individual job, we are going to be victorious. We are going to prove to the world that democratic governments can match the strength of autocratic powers and dictatorial powers. We are going to prove that a free people can beat an enslaved people at any time, and the time is now.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of the several departments interested were as follows:

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, December 3, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—The Penal Institutions Department steamer "Michael J. Perkins" is out of service on account of the annual Federal inspection being conducted by the United States Steamboat Inspection Service.

This inspection has revealed certain repairs to the hull and boiler which must be undertaken in compliance with orders received from the United States inspectors. This inspection is being held at the Atlantic Works, East Boston, at which plant preliminary work necessary for the progress of the inspection was performed.

In the meantime the steamer "O'Meara" is substituting for the "Perkins" and we are confronted with emergencies that require immediate attention. These emergency conditions consist of possible serious delay on account of the vast amount of government defense work now in progress at that ship repair plant in returning the "Perkins" to her regular service, if immediate recourse to the present availability of the repair facilities of that plant is not utilized. There is also the possibility of being without transportation service if any mishap occurs to the "O'Meara," in which case a substitute boat would have to be hired at a great expense.

If advantage is not taken at once there is a possibility that the work cannot be proceeded with for an indefinite period due to other existing government contracts, and I therefore respectfully request that I be authorized to award this contract for these necessary repairs to the Bethlehem Steel Corporation plant, without advertising.

Respectfully yours,

JOSEPH P. DONAHOE,
Penal Institutions Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, December 2, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— On July 11, 1941, the Supply Department, acting for this department, publicly opened and read bids for furnishing and erecting structural steel at the site of the old Fire Station No. 29, Chestnut Hill avenue, Brighton, with the following results:

Waghorne-Brown Company, $3,597.92; Progressive Iron Works, Inc., $3,921.29; Groisser & Shlager Iron Works, $3,845.67; West End Iron Works (only proposal which included erection), $5,160.40.

Inasmuch as the first three bidders shown did not include an estimate for the erection of the steel it was deemed advisable to invite them to submit supplementary bids for the erection. This resulted in final proposals as shown herewith:

Waghorne-Brown Company, $4,437; Progressive Iron Works, $4,616; Groisser & Shlager Iron Works, $4,705; West End Iron Works, $5,160.40.

In consideration of the foregoing, on August 19 I respectfully requested your permission to award the contract to the low bidder, Waghorne-Brown Company, which permission was granted.

On August 25 Mr. Waghorne of Waghorne-Brown Company signed the contract but would not agree to the insertion in the contract of a delivery or completion date, stating that delivery would depend upon whatever priority he could obtain.

From September 4 until the present I have written Mr. Stettinius, Director of Priorities; Mr. Walter E. Rapp, Office of Production Manager; Mr. Maury Maverick, Chief of State and Local Governments Branch, Division of Civilian Supply. I have even corresponded with Congressmen John W. McCormack and Thomas H. Eliot to the end that a priority might be obtained that would permit delivery of the steel. To date the only priority rating we can get on this project is A-10 which means that delivery of the steel by the lowest bidder would be anywhere from four to six months from now. We would be unable to close in the building during the winter months which are just ahead of us and considerable damage would be done to the work already completed.

I have just been informed by Groisser & Shlager Iron Works, who were the second lowest bidders for furnishing the material and the third lowest bidders for furnishing and erecting the steel, that within ten days after signing the contract they could deliver and erect the steel for us. The reason for this is that they have the material in stock in their yard and it would be unnecessary to get a priority number for them to deliver it.

In view of the fact that time is of the essence, it is imperative that we close in the building immediately from the winter weather. The difference in price is so small between the bids, I feel now that the best interests of the city can be served by awarding this contract to the Groisser & Shlager Iron Works for the sum of $4,705, without any further public advertising.

Respectfully yours,

LEO F. POWER,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

BOSTON, November 14, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—In the course of an examination by a diver of the piles at the Summer Street Bridge over the Reserved Channel, it was found that certain of the piles had been damaged to such an extent by marine borers that

CONTRACTS AWARDED WITHOUT ADVERTISING.

(*Continued from page 1341.*)

the approach to the bridge was in a dangerous condition and, therefore, it was determined necessary in the best interests of the public, to close the section of the approach supported by the above-referenced damaged piles.

The section affected was closed to public travel on last Friday, November 7, and I made immediate arrangements with the contracting firm of W. H. Ellis & Son Company of 479 Meridian street, East Boston, to effect emergency repairs to the damaged piles, in order to open the closed section of the bridge as soon as possible.

It is anticipated that a major construction project will be started on this bridge within the next month or six weeks, but pending the start of such a project it was deemed advisable and absolutely necessary to make repairs to the piles that were ravaged by the marine borers.

It is estimated that the cost of the emergency work to be performed by the above-referenced contractor will exceed $1,000, with the possibility that it might exceed $2,000.

I respectfully request, therefore, that you approve the awarding of a contract for repairing the damaged piles, without publicly advertising for bids, to the above-referenced contractor, in the event that the work done by him will be in excess of $2,000. In the event that it is less than $2,000, I respectfully request your approval to the entering into of an agreement with the contractor for the effecting of repairs to the above-referenced structure.

Respectfully yours,

George G. Hyland,
Commissioner of Public Works.

Supply Department.

Boston, November 28, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Permission is respectfully requested to award a contract without publicly advertising to the Hersey Manufacturing Company for furnishing meter parts to the Water Division of the Public Works Department.

These parts are for Hersey meters now in use and as the Hersey Manufacturing Company is the manufacturer, no advantage would accrue to the city through public advertising.

The approximate amount of the contract will be $2,858.04, less a 2 per cent cash discount for payment in ten days.

Respectfully yours,

Francis X. Lang,
Acting Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 672.

A Board of Merit, consisting of Superintendent Edward W. Fallon, Deputy Superintendents John M. Anderson, James R. Claflin, John T. O'Dea, William J. Carey and James F. Daley, has brought to the attention of the Police Commissioner the following outstanding cases in which police officers of this department have especially distinguished themselves in the performance of their duty. The commissioner, therefore, makes the following awards:

The Walter Scott Medal for Valor for 1941 and a Department Medal of Honor to Patrolman Timothy F. Murphy of Division 1.

Patrolman Timothy F. Murphy, Division 1, is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for courageous and meritorious police duty performed on the night of February 16, 1941.

While patrolling his route, he heard what sounded like an explosion and the breaking of glass coming from the second floor of an office building. Entering the building with drawn revolver, he arrested a man for breaking and entering a building in the nighttime, who was later sentenced to three to five years in State Prison.

Department Medals of Honor.

Patrolmen Michael F. O'Brien, Michael J. McDonough and Thomas E. Donahue, all attached to the Bureau of Criminal Investigation, are each hereby awarded a Department Medal of Honor for courageous and meritorious police duty performed in accomplishing the arrest of a man who had attempted to criminally assault a young woman on November 21, 1940, in a house in the South End.

When the officers arrived, the felon ran to a rear room, extinguished the lights and armed himself with an ice pick, three knives and a loaded revolver. He was later sentenced to a long period in State Prison.

Lieut. James V. Crowley, Sergt. Francis W. Russell and Patrolman Thomas J. Conaty, all attached to the Bureau of Criminal Investigation, are each hereby awarded a Department Medal of Honor for meritorious police duty performed in connection with a contemplated jail delivery from Massachusetts State Prison.

Timely and efficient work of these officers frustrated plans of desperate and dangerous criminals which might have led to loss of life or serious injury.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 673.

The Police Commissioner directs that General Order No. 667, dated November 19, 1941, announcing acceptance of the voluntary resignation of Patrolman John A. English of Division 17, to take effect November 21, 1941, at 7.45 o'clock a. m., be rescinded and that the said John A. English be restored to his former position of patrolman in this department and reassigned to Division 17, effective as of Saturday, December 6, 1941, at 7.45 o'clock a. m.

Note.

This order on reinstatement of former Patrolman John A. English issues for the reason that his accepted resignation and request that he be allowed to resume his former status as an officer in this department have occurred all within a thirty-day period.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 674.

The police officers hereinafter named, having performed faithful service in the Police Department for the years stated, and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that they are incapacitated for useful service on the Police Force of the City of Boston; it is hereby

Ordered, His Honor the Mayor having approved the same, that they be retired from active service in the Police Department under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that their names be placed upon the department pension roll with pay at the rate in each case set out (to be paid monthly), said sums being one half of the amount of compensation received by each in the office from which he is retired, effective as of Sunday, December 7, 1941, at 7.45 o'clock a. m.:

Aleck Nesky, patrolman, Division 6, 21 3-12 years, $1,050 a year.

John J. Buckley, patrolman, Division 14, 22 1-12 years, $1,050 a year.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 675.

MEN OF THE POLICE DEPARTMENT.

Today's events in the Far East have automatically made you auxiliaries of the nation's armed forces for the duration. You are to be on the alert at all times. You are to exercise *unusual* vigilance in your surveillance of plants engaged in defense production and the production of electric power. This vigilance is to be directed specifically toward persons whose presence in the vicinity of these plants cannot be readily explained.

You must be prepared, if the occasion warrants, to undergo personal sacrifice, particularly in the matter of hours of leisure.

I know you are now prepared for emergency service at all times and that you will gladly respond to all demands made on you, however exacting.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 676.

Beginning Tuesday, December 9, 1941, until further orders, the following rules applying to the use of all police buildings are effective:

All persons, including employees, shall enter and leave Police Headquarters by the main entrance, 154 Berkeley street.

All visitors entering Police Headquarters during the day and night shall be interviewed by the officer at the information desk, first floor, and then directed to the proper office.

No person or groups of persons will be allowed to make a tour of inspection of Police Headquarters.

No visitors will be permitted to inspect any station house or building of the Police Department.

All persons having any business to transact in any station house shall be interviewed at the main desk.

No person not a member of the Force shall be allowed behind the main desk in any station house or unit of the department.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of an extension of Frankfort street, East Boston district, as a highway, from Neptune road southwesterly for a distance of about 300 feet, bounded and described as follows:

An extension of the highway named Frankfort street is hereby laid out, from Neptune road southwesterly for a distance of approximately 300 feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Neptune road, fifty feet; southeasterly by the southeasterly line of said extension of said Frankfort street, as hereby laid out, three hundred feet; southwesterly by the southwesterly line of said extension of said Frankfort street, as hereby laid out, fifty feet; and northwesterly by the northwesterly line of said extension of said Frankfort street, as hereby laid out, three hundred feet.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of said Frankfort street, as extended under this order, southwesterly from Neptune road for a distance of approximately 300 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Frankfort Street, East Boston, Assessment Plan, April 29, 1939, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

CIRCULAR LETTER NO. 15.

City of Boston,
Mayor's Office, December 3, 1941.

To the Heads of City and County Departments.

Gentlemen,—Chapter 263 of the Acts of 1938 provides that every officer and board in charge of a department of the city or county shall on or before the sixth day of January in each year prepare and furnish to the City Auditor a list of the officials and employees under said officer or board and paid by the city or county on the first day of January preceding, giving the name, residence by street and ward, designation, compensation, and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county.

In order to facilitate compliance with the provisions of this law, uniform blanks have been prepared to be used by every department making the return required. A supply of these blanks may be obtained at the office of the City Auditor.

The preparation of these lists is a matter of considerable importance and should command your personal attention.

Respectfully,

Maurice J. Tobin, *Mayor.*

PROCEEDINGS OF CITY COUNCIL.

Monday, December 1, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair. Absent, Coun. Coffey, Hurley and Goode.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment, viz.:

Weigher of Goods and Measurer of Grain: Mark H. Devlin, 4 Bonad road, Winchester, Mass.

Laid over a week under the law.

RESURFACING OF MASSACHUSETTS AVENUE.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of November 17, 1941, concerning the arranging for the removal of the granite blocks on Massachusetts avenue, from St. Stephen street to Boylston street, and to resurface the same with smooth asphalt pavement under the W. P. A. plan of construction.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
November 27, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Massachusetts Avenue.

I return herewith order in City Council that the Commissioner of Public Works arrange for the removal of the granite blocks on Massachusetts avenue, from St. Stephen street to Boylston street, and to resurface the same with smooth asphalt pavement under the W. P. A. plan of construction.

This work will be given consideration for submission for approval as a W. P. A. project during the coming year.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1941.

To the City Council.

Gentlemen,— I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $12,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, November 27, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $12,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....$12,000

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of $12,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....$12,000

Referred to Executive Committee.

REPAIRS, LIBRARY ROOF.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1941.

To the City Council.

Gentlemen,— On September 8, 1941, I submitted to your Honorable Body a message relative to the necessity of immediate repairs on the Central Library roof, with a full statement of the various methods of meeting the cost, and an order appropriating $20,000 for the purpose from the receipts from sales of real estate. It has since been ruled by the City Auditor that the repairs contemplated could not properly be considered a capital expense and therefore could not be provided for in this manner. Accordingly, I recommend the passage of the accompanying order appropriating that amount from the receipts from the transfer of the Airport to the Commonwealth and request its immediate passage.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That from the proceeds of the transfer of the East Boston Airport to the Commonwealth of Massachusetts, under the provisions of chapter 695 of the Acts of 1941, the sum of $20,000 be, and hereby is, appropriated for Central Library Building, Roof Repairs.

Referred to Executive Committee.

APPROPRIATION FOR AIRPORT DEBT.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1941.

To the City Council.

Gentlemen,—As of this date the Commonwealth, under the provisions of chapter 695 of the Acts of 1941, paid to the City of Boston the sum of $1,026,800 for the transfer of the city's interest and rights in the East Boston Airport, and I herewith submit an order appropriating from that amount a sum sufficient to cover principal and interest requirements on the outstanding Airport debt.

I am advised by the City Auditor that as of today $520,000 in serial bonds are outstanding and that interest requirements to the final maturity of these various issues will total $73,157.50. I feel, in justice to the taxpayers of the city, that no further charge should be levied in connection with this outstanding debt. Under the provisions of the order, the amount to be appropriated will be turned over to the Sinking Fund Commissioners, to be held by them toward paying principal and interest requirements as they fall due.

I respectfully recommend adoption of this order.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That the sum of $593,157.50 be, and hereby is, appropriated from the proceeds of the transfer of the East Boston Airport to the Commonwealth of Massachusetts, under the provisions of chapter 695 of the Acts of 1941, said sum to be paid over to the Sinking Fund Commissioners, to be held by them toward paying principal and interest requirements on outstanding Airport debt as they fall due.

Referred to Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) that $20,000 be appropriated from proceeds of transfer of East Boston Airport to Commonwealth for Central Library Building, Roof Repairs, that the order ought to pass.

Report on message of Mayor and order (referred today) that $593,157.50 be appropriated from proceeds of transfer of East Boston Airport to be paid over to Sinking Fund Commissioners, to be held by them toward paying principal and interest requirements on outstanding airport debt as they fall due—that same ought to pass.

Report accepted; said orders passed, yeas 16, nays 0.

REPORT OF COMMITTEE ON CLAIMS.

Coun. M. H. SULLIVAN, for the Committee on Claims, submitted the following:

1. Report on petition of James F. Flahive (referred November 24) to be reimbursed for amount of execution issued against him on account of his acts as operator of fire apparatus,—recommending passage of accompanying order, viz.:

Ordered, That the sum of seventy-five dollars ($75) be allowed and paid to James F. Flahive in reimbursement for amount of execution issued against him on account of his acts as operator of fire apparatus, said sum to be charged to the Contingent Fund.

Report accepted; order passed.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

1. Report on petition of Boston Elevated Railway (referred November 10) for license to operate motor vehicles from Brigham Circle to Park square—that same ought to pass.

The report was accepted and the question came on the granting of the petition.

Coun. CHASE—Mr. President, the councilor from Ward 10 (Coun. Carey) and I during the past year have continually urged the Boston Elevated Railway Trustees to install a bus line on Huntington avenue, running from Brigham Circle to Park square, for a five-cent fare. The records of the Council meetings will show that we have done this on five or six different occasions. The trustees, through their representative, Mr. Dana, appeared before the Committee on Licenses and after considerable discussion agreed with the Committee on Licenses that they were willing to experiment with the line for a period of sixty days, running a bus line from Brigham Circle to Park square, and permission to that effect was granted by the State Department of Public Utilities. This bus line has been in operation since October, and the temporary permit which was granted by the State Department of Public Utilities expires on December 2. The State Department, under the law, is unable to extend that permit, and we now seem to have no recourse other than an appeal to the trustees. That is, we are confronted with this situation, that there is to be a discontinuance of the five-cent fare provision on the bus line operating from Brigham Circle to Park square. I see no alternative but to grant the present proposed permit, because some three thousand people are daily using that line. But under the plan now proposed, it will no longer be operated in its entire length for a five-cent fare. Under the proposition stated to the Committee on Licenses by the Elevated Trustees, they intend to make a two-zone system of this Huntington avenue bus line, under which riders can go from Brigham Circle to Copley square for five cents, and if they wish to continue further, to Park square, they will have to pay another five cents. I believe that the trustees are acting in this matter unwisely, unjustly and unfairly. I believe that the trustees are not going to gain any additional revenue from this proposition. As a matter of fact, they are only going to hinder the people in that area, placing them to the great inconvenience of walking one, two or three blocks so as to take advantage of the five-cent fare when they are going to Park square or in the other direction. The result will simply be, therefore, that they will walk for several blocks to get advantage of the five-cent fare. The people now using that bus line are doing so because they get the five-cent fare, and I maintain that, while they will continue to use the line, they will be practically forced to walk one, two or three blocks, to get advantage of the five-cent fare. Therefore, I repeat, the trustees of the Boston Elevated are acting very unwisely and are not carrying out the purpose of the act, which was that the trustees were appointed to act in a manner which should first consider the public convenience. The feeling of the public in that particular area will be very adverse to the trustees of the Boston Elevated if they insist on what they are now proposing. The position of the people of Ward 10 in this matter is the same. They, too, insist on the continuance of the present five-cent bus, and if the trustees carry out the plan they at present propose, it will result in depriving the people of that area of something which they have very much enjoyed and which they desire to have continued. It seems to be becoming evident that the trustees of the Boston Elevated are not taking into consideration the convenience of the public. The Boston Elevated is a quasi public institution. The taxpayers of Boston—and that includes everybody, whether property owners or not—are making up the deficit of the Boston Elevated. That includes, of course, property owners, and there are plenty of large property owners in my district, large taxpayers, that district being one of the largest taxpaying districts of the city, and the taxpayers also include everybody else, whether property owners or not. Everybody contributes, through fares or otherwise, and everybody in my district and in Ward 10 is very much in favor of the continuance of the present five-cent one-zone bus ride that they have been enjoying. If the trustees try to use the proposed two-zone system, I think they will readily and very soon realize that they have made an error. I believe it is only reasonable that we, the elected representatives of the people of Boston, who are responsible in no small way for the tax rate of Boston, should have more to say about the operation of the Boston Elevated Railway than we have. We now have practically nothing to say about it, and yet they are using our streets for surface lines, bus lines and subways, and are continually coming before the City Council for permits to use the streets in connection with the operation of their lines, permits which we allow under certain conditions. So we are responsible in no small way for the operation of the road, and still, after they have obtained these privileges from us, they seem to give little or no attention to the public convenience. I trust, therefore, that this matter may be taken up with the Legislature and that there will be recognition by the Legislature of the position that the citizens of Boston are in. I trust, however, for the reasons I have stated that the Council will grant the permit.

Coun. CAREY—Mr. President, at a conference last week with the trustees of the Elevated, which Mr. Dana attended, as well as Councilor Chase and myself, I pleaded with the trustees to withdraw the proposed permit that we have before us here today to continue for the time being—especially with the Christmas season at hand—the five-cent fare bus system which was allowed two months ago, and which is just coming to a close, between Brigham Circle and Park square. I very much regret that the trustees did not give the matter proper consideration and did not accede to the request we made of them. The Elevated Trustees do not decide from month to month whether a line is profitable, but the decision is made on a yearly basis, and I certainly do not feel that the trustees have given that five-cent bus line between Brigham Circle and Park square sufficient consideration to say definitely whether it will pay. I feel that it would pay, if the Elevated Trustees were willing to continue the service. I feel that the five-cent fare would pay, when people become thoroughly accustomed to this route from Brigham Circle to Park square. I know, with the weather ahead, that people would be glad to ride and pay the five cents rather than to walk. After all, it is not such a long walk from Brigham Circle to Park square, but people will frequently ride rather than walk when they can get a five-cent fare. The fact is, however, that the line has not been properly publicized by the railway officials. It is customary when a line is established to place signs, saying, for example, that a bus line is running over such and such a route, with a five-cent fare. That has not been done in this case. Only last week a lady spoke to me, saying that for the first time it had been brought to her notice that this line was running, and she seemed much surprised. I believe that, had the line been given greater publicity, the traffic would have been much greater, that it would have been much better patronized, even in the last sixty days. I feel, of course, that I must vote for this permission, as reported by the committee, because I don't want to deny to the people of the district the service that would be granted, although wishing that the present service could be continued. I shall simply vote for it, because I don't want the people to be deprived entirely of the service they will get. I wish to emphasize that that is the only reason why I am voting in favor of the recommendation of the committee. I do trust, however, that everything will be done immediately to continue the five-cent bus privilege that we have been receiving.

Report accepted; license granted.

2. Report on petitions for driveway openings, viz.:

National Shawmut Bank (referred November 10), 160 Dudley street, at Harrison avenue, Ward 8.

Percy L. Rideout (referred November 4), at Newbury street.

Report accepted; licenses granted under usual conditions.

SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of December.

Report accepted; said order passed.

INVESTIGATION OF BALLOT COUNT.

Coun. SHATTUCK offered the following:

Ordered, That the Board of Election Commissioners, through his Honor the Mayor, be requested to investigate the grave errors in the counting of votes for City Councilor in Precinct 11 of Ward 5, which were disclosed at the recount of the ballots cast at the last municipal election, and to take such disciplinary or other action as their findings justify.

Coun. SHATTUCK—Mr. President, there was recently a recount of the councilor votes in Ward 5. The original count of the votes cast in Precinct 11, to which this order refers, showed 185 votes cast for Foster and 138 for Bundy. The recount of the votes in that precinct showed that Foster had received 119 votes and Bundy 154, a change of eighty-two votes in one precinct, and those changes were not in one block, as sometimes happens, but I believe there were thirteen blocks of votes involved, and there were errors in every block of the thirteen. There were nine blocks in which there were three errors, and all the errors, except in one block, were in favor of Foster and against Bundy, making a total change of eighty-two votes in the precinct. If such an error had run through all fifteen precincts, an error of eighty-two to the precinct, it would have made a difference of 1,230 votes; and if applied to all the precincts in the city, 386, it would have made a difference in the city at large of 31,652 votes. I mention those figures merely to indicate the extreme carelessness, if nothing more, with which that count was made.

The order was passed under suspension of the rule.

INFORMATION RE CERTAIN ORGANIZATIONS.

Coun. SHATTUCK offered the following:

Ordered, That the City Clerk be requested to report as to whether the Republican Voters League of Ward 5 or the Democratic Civic Club have filed any record of their organization in his office pursuant to General Laws, chapter 55, section 4, or have filed any report of receipts and expenses pursuant to General Laws, chapter 55, section 17, in connection with postal cards sent out in the names of these organizations urging the election of A. Frank Foster to the City Council in the last municipal election, said cards bearing the names of one Franklin C. Warren as President and of one George B. Wilder as Secretary of the Republican Voters League of Ward 5 and of one Thomas W. O'Connell as President of the Democratic Civic Club.

Coun. SHATTUCK—Mr. President, I have here two postal cards, one of them addressed to me at my residence, 15 River street, which reads as follows:

"Dear Voter: For the best interests of Ward 5, we sincerely urge you to endorse and vote for A. Frank Foster for City Councilor. We believe his record as a lawyer, social worker and service man makes him the logical candidate for this office. Respectfully, Republican Voters League of Ward 5, Franklin C. Warren, President; George B. Wilder, Secretary."

There is no address on the postal card of either of the men named. My order asks whether the organization named has filed with the City Clerk any record of its organization in his office, pursuant to General Laws, chapter 55, section 4, or have filed any report of receipts and expenses pursuant to General Laws, chapter 55, section 17. I find no address of these men on the postal card and, endeavoring to look them up, I find no such individuals listed in the telephone book or the city directory. I question very much whether the organization referred to exists, or whether it is represented here by existing individuals. I raise a similar question in regard to this other post card, addressed to Frank P. Nazzaro, 27 Garden street, Boston, Mass.:

"A. Frank Foster for City Councilor. Dear Friend: Ward 5 needs a man in City Hall who is best qualified by reason of education, experience and maturity. For your best interests, vote for A. Frank Foster for City Councilor, whom we recommend very highly, and ask you to speak to your friends in his behalf. Sincerely yours, Democratic Civic Club, Thomas W. O'Connell, President."

Again, there is no address, nor does the man appear in the telephone book or the city directory. The City Clerk on investigation can state whether either of these organizations has ever filed any record of its organization or has filed a report of its expenditures.

Coun. FISH—Mr. President, this seems to call for the investigation of the election of a duly elected councilor, and it seems to me more of a personal matter than anything else. I think that information could be obtained directly from the City Clerk, without asking this Body to join in an order of this kind, directed against a duly-elected official. I am certainly going to call for a roll call on this order.

Coun. TAYLOR—Mr. President, if we are going to investigate every political contest that takes place in the City of Boston, and investigate all the literature sent out by candidates or somebody purporting to act in their behalf, we would be busy for the next two years on nothing but these investigations. We all know what these political contests for the City Council are. Sometimes one candidate desires to build up another candidate, hoping thereby to take away from the strength of a third candidate, thus trying to assist a candidate whom he really favors. That is all that many of these things amount to, and I don't think it is incumbent upon us to investigate these matters unless there is absolute evidence of fraud in an election. Many of these efforts are made to defeat somebody else, in behalf of somebody in whom the writer may be interested. So I say that orders of this kind are very questionable, unless there is some definite evidence of fraud in the election of a City Councilor which demands attention. I don't think we should be called upon to investigate in a matter of this kind. And I ask that the order be referred to the Committee on Rules.

Coun. M. H. SULLIVAN—Mr. President, I have no doubt that the councilor from Ward 5 (Coun. Shattuck) before introducing this order had already looked into the question of whether these so-called organizations had filed. I do happen to know, however, that the young man referred to, whom I know, has filed his personal campaign returns. I happened to meet him coming out of the City Clerk's office when I was going in to file my own return, and he told me that he had filed his campaign return. I know also that I have been indorsed by one or two organizations which sent out literature in my behalf, about which I knew nothing, and I think the position of this young man may have been the same. Knowing the young man, I know that he would not attempt to hide improperly under other names or try to obtain any advantage under false pretences. I can assure Councilor Shattuck that I know the young man would have no such intention. He is a young man who, I am sure from my knowledge and acquaintance with him, would not intentionally do anything wrong. I knew him when he was working in the Welfare Department in Brighton. I had occasion to have contact with him when I was trying to get help for somebody in the district, and he was very cooperative in worthy cases, being always willing to investigate and tell me honestly whether help could or should be given. He is an exceptionally clean, honest and upstanding young man, and I am more than pleased to say a word along that line in his behalf, in spite of the fact that we have no race or political affiliation. I do frankly believe, however, that this young man will be a credit to the district he is elected to represent. While I know nothing about these post cards that Councilor Shattuck refers to, or about the organizations they purport to represent, or whether they have filed, I do know — and I think you will find, councilor, if you have not found already, that the young man has filed his campaign returns. I understand that to be the fact, whether you know it or not, and I suppose you do. I believe that there is no man who has been elected who is more worthy to be a member of this Body than Mr. Foster, and I believe when you have seen him and have seen how he conducts himself in the office, you will agree with me. Of course, we all understand what is done in elections. You yourself, councilor, understand that just as well as I do. I may say personally that I would like to have an investigation into what was done in Precinct 11 of Ward 5, because I want to know the facts, and if there are conditions which lead to irregularities, conditions which can be changed, they should be corrected. We all understand, however, the insinuations and innuendoes, such as now seem to be directed against this young man, which seem inseparable from political life. I do say, however, from my knowledge of this young man, that he has had a splendid record in civilian life, in the Public Welfare Department, as Mr. O'Hare will tell you, and that he had a fine record in the service of the country. He is a clean young man, who will be a credit to the Body. I feel that his ward on Beacon Hill will be proud of him, and I feel very sure that no evidence of wrongdoing in connection with his election can be brought against him. We all know the things that are done in political life, for one reason or another, and we also know that it is frequently hard to trace them down. I know that this young man, if he felt that he was improperly elected, would be the first man to say so. He is a fine, honest young man, who will be a credit to Ward 5. That is the conviction of every man who knows A. Frank Foster.

Coun. SHATTUCK—Mr. President, I merely want to add that this order simply relates to questioning whether these organizations have filed a record of their organization in the City Clerk's office, pursuant to the General Laws. I might add a fact that I overlooked, that upon investigation I find that neither organization has obtained the right from the Republican or Democratic state committees to use any such designation as appears on these cards, that no such permission has been granted by the Republican committee to use the word "Republican," nor by the Democratic committee to use the word "Democratic."

Coun. M. H. SULLIVAN—Mr. President, I believe there are 400 or 500 so-called Republican or Democratic organizations that have never received the consent of the state organizations to such a designation. I remember when I was starting out in politics that I had a similar experience, being offered help by an organization that apparently was not listed. But when I came to inquire into the matter, I found that there was such an organization, that was going ahead, but that had not bothered to get a charter up to that time. I would like to amend the order, so that we may find out whether A. Frank Foster filed a return with the City Clerk.

Coun. TAYLOR—Mr. President, I move that the order be referred to the Committee on Rules.

The motion to suspend the rule for the passage of the order was lost, whereupon Coun. M. H. SULLIVAN withdrew his motion to amend the order.

On motion of Coun. TAYLOR, the order was referred by a rising vote, 7 to 1, to the Committee on Rules.

FAIR EMPLOYMENT PRACTICE.

Coun. TAYLOR and D. F. SULLIVAN offered the following:

Whereas, The Committee on Fair Employment Practice appointed by the President of the United States, which committee was established as a result of an executive order of the President, the functions of which committee are to correct discrimination on account of race, creed, color or national origin in National Defense industries; be it

Resolved, That the Boston City Council, in meeting assembled, indorse the action of the President and his Committee on Fair Employment Practice.

The resolution was passed under suspension of the rule.

REFUSAL OF BUILDING PERMIT.

Coun. TAYLOR offered the following:

Ordered, That the Building Commissioner be requested through his Honor the Mayor, to refuse to issue any permit for a building to be erected by any private concern on the premises located on

Nashua street opposite the Massachusetts Public Works Department building, which property was recently sold on conditional sale to one Daniel V. McGrath.

Coun. TAYLOR—Mr. President, last week I introduced into this Body an order asking the Law Department to invalidate a certain sale of land by the state to a certain McGrath of Brockton, under a conditional sale whereby the purchaser was not to pay any taxes to the city for at least twelve years. At that time I pointed out the injustice of it all, showing that the state had no right to go into the real estate business in a manner that would deprive the City of Boston of taxes. I suppose it will be passed upon by the court, but we all know that these court procedures take a long time before coming to any decision, and in the meantime there is going to be constructed on this piece of property, I am informed, a large restaurant. This, of course, will be an injustice to other men conducting the same type of business in the City of Boston, men who will have to pay taxes to the city and who will therefore be handicapped in competition with a concern that does not. It is evident, of course, that that sort of thing is unfair to business people in the City of Boston, who are conducting certain types of business and who have the tax burden on their shoulders, and it is unfair to other taxpayers as well. I say, therefore, that where such people come in requesting the right to erect buildings on such premises, under conditions where they are not paying taxes to the city, the Building Department or any other department of the city should deny such a petition, which will operate against the people of Boston who are legitimately conducting business and paying taxes for their upkeep to the city. I say that people paying taxes to our city are entitled to preferential treatment in such cases, that private enterprises which under conditional sales are free from the payment of taxes to the city, should not be given the same consideration as others who do pay taxes. I say that the City of Boston can stop this sort of thing by denial of leave to erect any building, conducting any business, on property of this kind where the city is obtaining no taxes; and I say that the taxpayers of the City of Boston should be protected against any future conditional sales of this kind to private individuals.

Passed under suspension of the rule.

CONDITIONS AT BRIGHTON ABATTOIR.

Coun. TAYLOR offered the following:

Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to investigate the unsanitary conditions now existing at the Brighton Abattoir with a view to remedying said conditions and also to compel the owners of the Brighton Abattoir to protect the health and safety of the public.

Coun. TAYLOR—Mr. President, I am informed upon pretty good authority that the sanitary conditions at the Brighton Abattoir are shocking, and I believe, in order to protect the health and safety of the public, the Health Commissioner or some other proper official should investigate the matter for the purpose of bringing the conditions to the attention of the public and also for the purpose of remedying such conditions as exist that might affect the health of the public.

Coun. M. H. SULLIVAN—Mr. President, I am not unaware of the purpose which inspires the introduction of this order by the councilor from Ward 12 (Coun. Taylor). I know that a large per cent of the slaughtering done in the Brighton Abattoir is for the kosher-eating public. For several years, I might say, the Brighton Abattoir has been one of my pet hates. I have introduced a number of orders in this Council, the purpose of which was to drive the abattoir out of Boston, but I was later apprised of the fact that because of a law enacted by the Massachusetts State Legislature, around 1877, the City Council has no jurisdiction over the abattoir. As a result of my efforts, I am assured by the Health Commissioner that substantial improvements are to be made on the grounds there, and I think, therefore, that probably this order is unnecessary today. I live close to the area discussed, and the odors emanating from the abattoir have been, to say the least, offensive. Whether or not the improvement is temporary I cannot say, but for the past two months there has been an appreciable reduction in the odors emanating from that source. The State Health Department and the Boston Health Commissioner have informed me that many of the odors formerly ascribed to the abattoir actually emanated from the Hood Rubber dump and another dump across the Charles river in Watertown. A hearing is to be held by the Massachusetts Commission at the State House, I believe, on December 7, and I have been invited to appear there to voice my protest. I might say that the chlorine which has been used to kill odors is now difficult to obtain, in view of the fact that the Federal Government is requiring most of it for defense purposes. However, as the result of a combined effort of the Health Commissioner and myself, we have recently received priority from the Federal Government for its use in this matter. The gentleman who was supposed to control the machinery to kill offensive odors presumably, in the past, was negligent in that job, and was fired, and I think the new man is doing a much better job. As the result of a further complaint on my part, the abattoir authorities this week entered into a $1,500 contract for rodent extermination. Three buildings on the abattoir property have been renovated, at the suggestion of the Health and Building Commissioners, and, if I understand correctly, contracts for $1,000,000 worth of new construction work to replace the now dilapidated buildings in the area will be entered into upon the conclusion of the present emergency. Most certainly I have not been lax in my efforts to improve conditions at the Brighton Abattoir, and I think an investigation will reveal that the information accorded me by the Health Commissioner is true. I have no friendship for the abattoir, but, even though it may seem politically inexpedient, I am happy to say that they have seemingly cooperated with city officials in an effort to improve conditions. I believe, therefore, that there should be an indefinite postponement of the order, or possibly a reference to committee, so that later on if conditions do not appear to be remedied, it can be taken up.

The order was referred to the Committee on Public Safety.

RESURFACING WARD 15 STREETS.

Coun. KELLY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface the following streets in Ward 15, under the W. P. A. plan of construction: Fox street, Percival street.

Passed under suspension of the rule.

SIDEWALKS, LINCOLN STREET, WARD 16.

Coun. FISH offered the following:

Ordered, That the Public Works Commissioner, through his Honor the Mayor, be requested to construct tar sidewalks on both sides of Lincoln street, Dorchester, Ward 16.

Passed under suspension of the rule.

SPOTLIGHT, PEABODY SQUARE.

Coun. WICKES and FISH offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install a spotlight in Peabody square, Dorchester, for the protection of the traffic officer assigned to this location.

Passed under suspension of the rule.

TRAFFIC SIGNS, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to erect suitable signs at the various important intersections in Ward 17, directing motorists to the Sumner Tunnel and Franklin Park and Franklin Field.

Passed under suspension of the rule.

MASSACHUSETTS N. Y. A. SYMPHONY ORCHESTRA.

Coun. WICKES offered the following:

Whereas, Because of financial deficits in the Massachusetts N. Y. A. Symphony Orchestra, there exists a danger that this organization may be disbanded; and

Whereas, This orchestra has been of inestimable value to our youth; therefore be it

Resolved, That the Boston City Council record themselves as favoring the continuance of the aforesaid group by recommending that the Federal authorities appropriate such a sum as will meet the said deficit and guarantee the perpetuation of this worthwhile project.

The resolution was passed under suspension of the rule.

PROTEST AGAINST CEMETERY LOCATION.

Coun. WICKES offered the following:

Ordered, That the trustees of the Boston City Hospital be directed, through his Honor the Mayor, to have a representative of that Body appear at the hearing to be conducted in the City Council Chamber on December 10, and that said representative be directed to register protest against the proposed establishment of a cemetery adjoining property of the City of Boston, *i. e.*, the Boston Sanatorium on River street, Mattapan.

Coun. WICKES—Mr. President, I am sure you will agree with me that that order is an excellent order. We have over in Dorchester, Mattapan, the Boston Sanatorium, on River street, in which several hundred people are taken care of, some staying for a short time, some for a long time, and some never recovering. Adjoining that property there is a huge piece of land that has been recently sold. I understand that it is proposed to erect a cemetery there. This is a matter that concerns Ward 18 as well as Ward 17, because this property is assessed in both wards. I am also told that the clergy of Ward 16, as well as most of the citizens of these different wards, are vigorously against the establishment of a cemetery on this land which has recently been purchased. Can you imagine these poor people, when they are looking out the window, if this land is to be used for a cemetery, seeing headstones erected and graves opened, and undertaking operations going on? In only a short time we will probably have one of our undertaking friends, also, looking for an office close by. On December 10 I understand that there is a protest meeting to be held upon the matter in this hall, at which I will represent Ward 17, and I also trust that other members of the Council will take the opportunity to be here and vigorously oppose the establishment of a cemetery on that ground. I hope that the order will pass.

Coun. TAYLOR—Mr. President, I understand that this matter has not yet come to the City Council. I understand that first the Health Commissioner considers it, and if he acts favorably upon it, it comes to this Body. We can then have a public hearing. But I don't think we should pass upon it until we have heard what there is to be said by those who are for and against. I think, therefore, that the order should be referred to some committee for consideration until the time when it is to be passed upon by the City Council. I think that otherwise we will be registering an injustice to the people who would like to be heard either for or against. But after we have satisfied ourselves as to the facts, as a matter of record, we can then properly register ourselves upon the matter.

President GALVIN—I understand that there is to be a Health Department hearing on the matter on December 10.

Coun. SCANNELL—Mr. President, I want to commend the gentleman from Ward 17 (Coun. Wickes) on being alert to conditions that are going on, as shown by his order, and upon inviting the other members of the Body to appear at the hearing that is to be held in this chamber, because I know that each and every member of the City Council will be interested in the matter, knowing how the establishment of a cemetery under certain conditions affects the citizens of his district.

Coun. FISH—Mr. President, I hope every member of the Council will be present at that meeting on December 10. I feel that there should be representatives present from every Council district. I think it is the duty of every councilor to be there.

The order was passed under suspension of the rule.

WARD 20 IMPROVEMENTS.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the junction of Belgrade avenue and Beech street, Ward 20.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Powell street, Ward 20, as a public highway.

—

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to paint angle parking lines on Centre street, between Corey and Willow streets, Ward 20.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install a light at the stairs leading to Sunset Hill path, Ward 20.

Severally passed under suspension of the rule.

COURT HOUSE JANITORS AND MALE CLEANERS.

Coun. M. H. SULLIVAN and SCANNELL offered the following:

Ordered, That the Suffolk County Court House Commission be requested, through his Honor the Mayor, to include in the budget for 1942 an increase in salary for the janitors and male cleaners employed on County Court House pay rolls.

Passed under suspension of the rule.

COST OF NEW LIBRARY ROOF.

Coun. CAREY offered the following:

Ordered, That the trustees of the Boston Public Library be requested, through his Honor the Mayor, to include in their budget for 1942 a sum

sufficient to cover the cost of installing a new roof on the main building of the Boston Public Library.
Passed under suspension of the rule.

Adjourned, on motion of Coun. SHATTUCK, at 4.46 p. m., to meet on Monday, December 8, 1941, at 2 p. m.

CORRECTION.

The following is a correction in the remarks of Coun. Chase appearing at the top of column 2 of page 380 of the minutes.

Coun. CHASE—Mr. President, a number of cases have been brought to my attention in the past few months where people receiving old age assistance find that their living expenses are increasing to an extent that imposes a hardship on them. I know that his Honor the Mayor has recognized the increase in living costs because he has increased welfare allowances 10 per cent. However, no one to date has recognized this economic change as far as the people receiving old age assistance are concerned. These old people require and deserve a greater degree of help than persons who are younger, but to date the state department of old age assistance has done nothing about making allowances for increased costs of living. These people need clothing and food which they cannot, in many cases, buy because of increased costs of living. Under our present law the towns and cities have the authority to grant additional amounts. If I remember correctly, Mr. Bigelow, the watch dog of the State treasury, brought this point out when he opposed the new $40 minimum law which I had the pleasure of voting for. Despite this acknowledgment of authority, and despite the increased costs of living, the state has not taken action, and I believe that they should do so immediately.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR COLLECTING AND REMOVING GARBAGE AND REFUSE IN EAST BOSTON, BRIGHTON, WEST ROXBURY, HYDE PARK, SOUTH BOSTON, CHARLESTOWN, STUART, ROXBURY, BACK BAY, DORCHESTER AND ELM HILL DISTRICTS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for collecting and removing garbage and refuse, between January 1, 1942, and December 31, 1942, including the removal of all household refuse during the spring cleaning period between April 1, 1942, and May 15, 1942, and shall also remove grass, garden refuse and leaves during the entire term of the contract, in the following districts: East Boston, Brighton, West Roxbury, Hyde Park, South Boston, Charlestown, Stuart, Roxbury, Back Bay, Dorchester and Elm Hill, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. In each proposal the bidder will list the location and ownership of the dumps he proposes to use; and furnish satisfactory proof to the Commissioner as to his legal right to use them. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Refuse and Garbage," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, December 16, 1941, with a certified check for 5 per cent of the total amount bid for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. *There will be a minimum charge of two dollars ($2) for each set of specifications taken out.* The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

GEORGE G. HYLAND,
Commissioner of Public Works.
(Dec. 6-13.)

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING TURKEYS FOR CHRISTMAS (APPROXIMATELY 8,000 POUNDS).

The Supply Department of the City of Boston invites proposals for furnishing turkeys for city departments, as per specifications to be obtained at the office of the Superintendent of Supplies, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for $100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. *There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and marked "Proposal for Turkeys."* The bids will be publicly opened and read Wednesday, December 17, 1941, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
Acting Superintendent of Supplies.

CITY OF BOSTON.

FIRE DEPARTMENT.

PROPOSALS FOR LAUNDRY WORK.

The Fire Commissioner of the City of Boston invites proposals for the laundering of the linen of the Boston Fire Department, consisting of sheets, pillow slips, towels, bedspreads, etc., commonly known as "flat work," and red, gray and blue blankets, both single and double, for the year 1942. The linen, blankets, etc., to be called for and delivered one day each week at the various fire stations of the Boston Fire Department. Samples of the linen, etc., may be seen at the Fire Department Headquarters, 60 Bristol street, Boston, where a copy of the contract and specifications may also be examined. The amount of work to be done is approximately as follows: Five thousand five hundred and eighty (5,580) sheets per month; five thousand one hundred and forty-five (5,145) pillow slips per month; nineteen hundred and seventeen (1,917) towels per month; one hundred and seven (107) bedspreads per month; blankets, gray and blue, one thousand (1,000) annually. Estimates must be submitted on a price per piece basis only. Proposals submitted on any other basis will not be considered. Proposals will be received at the office of the Fire Commissioner, 60 Bristol street, Boston, until 12 m. December 19, 1941, at which time and place they will be publicly opened and read. Proposals must be sealed and marked "Proposals for Laundry Work," and must be made in duplicate, one to be deposited with the City Auditor, City Hall, previous to the time stated for the opening of the bids; the other containing a certified check for two hundred (200) dollars, made payable to the City of Boston, is to be deposited at the office of the Fire Commissioner, said check to be the property of the city if the accepted proposal is not carried out. A bond of an approved surety company doing business in the Commonwealth of Massachusetts will be required for the faithful performance of the contract by the successful bidder in the sum of 40 per cent of the estimated total amount of the contract. The contract is made subject to appropriation to meet payments thereunder. The Fire Commissioner reserves the right to reject any and all proposals and to award the contract as he deems best.

WILLIAM ARTHUR REILLY,
(Dec. 13.) *Fire Commissioner.*

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, DECEMBER 20, 1941. No. 51

"BUILDING UP DEFENSE THAT NO TYRANT HAS EVER BEEN ABLE TO BREACH," MAYOR TOBIN POINTS OUT IN BILL OF RIGHTS DAY ADDRESS— ALSO THAT UNDER THAT AEGIS THE AMERICAN PEOPLE ARE UNITED AND ARE FIGHTING TO ENABLE NATION TO SURVIVE AND GROW GREATER LONG AFTER DICTATORS AND AGGRESSORS HAVE FALLEN — SPEAKS BOTH ON COMMON AND AT MEETING OF CITIZENS IN FANEUIL HALL FOR COMMEMORATION OF ESTABLISHMENT OF RIGHTS OF FREEDOMS THAT ARE OUR IDEALS.

Mayor Tobin's address on Bill of Rights Day, Monday, December 15, was as follows:

My Fellow-Americans.

This date, in the 1941 calendar, shines through the fog of anxiety and suspense like the brilliant morning sun.

It marks the one hundred and fiftieth anniversary of the ratification of the United States Constitution's first ten amendments, which are accurately named the Bill of Rights.

It is my belief that observance of this anniversary is an important step in our national defense. Wherever young and old gather today there is a new resurgence of devotion to the fundamental principles of civil and religious freedom which have made us the strongest and happiest people in the world.

It has been aptly said that none of the great writers of the world would ever have been able to encompass the basic philosophy, the very warp and woof of freedom, in so brief a document.

In four hundred and sixty-two words, requiring less than two minutes to read, the Bill of Rights has been the cement which has bound together our 130 million people in a unity that no dictator could ever achieve after years of thundering tirade. On no more fitting day could we re-dedicate ourselves to Americanism.

With the events of the past week in mind, there could be no more proper occasion when we, a still democratic people, could unite in national thanksgiving for the liberty and freedom we enjoy in a world disrupted by oppression.

Break With Tyranny.

When the Bill of Rights was declared in force in 1791, this nation had severed the few remaining ties that bound it to tyranny, had broken with all forms of ecclesiastical and political despotism and was facing a new day in the progress of mankind. For the first time in world history the State was subservient to the will of the people.

For the first time since human beings crept out of caves and created civilization a people had a written guarantee of its civil and religious liberties which could not be annulled by the decree of a ruler.

The Bill of Rights firmly established the American Constitution on the solid foundation of the independence of the individual man.

Determination of the people of America to defend the principles of the Bill of Rights is the driving force behind our entire program of national defense. That is why subversive forces at work in this country have attacked it with every trick at their command. They have taken advantage of its very provisions of freedom of speech and of assembly to attempt to undermine our people's confidence in the democratic system that secures these rights.

We have witnessed how, by terror and deceit, by blackmail and bribery, sabotage and corruption, the Nazis managed to set parties, factions, classes and creeds one against the other in every European country marked for conquest. Today, here in America, those Nazi agents are working to weaken us by campaigns of prejudice against workers, capitalists, Catholics, Jews, hoping that by creating confusion in our minds with false issues we will be led to abandon our purpose of defending those precious safeguards against tyranny which only the people themselves have the power to destroy.

America United.

But we have set up the warning in letters so huge and so fiery that even Hitler and his agents can read it — America is united in a great single purpose — to see the present war through to victory and the kind of peace that the troubled world needs.

It is well for us to recall that hand in hand with the Bill of Rights goes an equally important Bill of Responsibilities.

We must be willing to pay for our benefits by sharing the trials and sacrifices that are necessary to ultimate vistory. Each must stand willing to do his or her part, no matter how unpleasant the task may be.

There is nothing nice about war. We did not seek armed conflict, but now that it has been forced upon us we have but one purpose — to see it through.

Before the imperishable words of the Bill of Rights came into being the men and women of this country went through a period of travail, sacrifice and toil. Out of that crucible emerged the principles that are in the Bill of Rights and that are impregnated in the being of every true American.

In other periods of our history we have fought and sacrificed, and our sons have died, that these principles might stand untarnished.

Now we are face to face with another test of whether or not those principles shall continue to stand. It means sacrifice, personal hardship, courage, faith, unity and the will to accept all the unpleasantness. We have put our shoulders to the wheel. We have served notice that the propaganda of the dictators can be junked.

We are building up the defense that no tyrant has ever been able to breach — the unity of the American people under their Bill of Rights — and we know that the things we are fighting for will enable this nation to survive and grow greater when the dictators and aggressors have fallen.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over $200,000,000.

REPORT OF FREDERICK J. GILLIS, ASSISTANT SUPERINTENDENT, ON ATTENDANCE AT THE CONFERENCE OF FOOD SERVICE DIRECTORS, NEW YORK CITY, NOVEMBER 6 TO 8, INCLUSIVE.

The following is the report on attendance at conference of Food Service Directors on the part of Frederick J. Gillis, Assistant Superintendent of Boston Public Schools:

The seventh annual conference of Food Service Directors was held November 6, 7, 8, 1941, Hotel Commodore, New York City.

Thursday morning and afternoon were spent visiting the Central High School of Needle Trades and the Food Trades Vocational High School. The building housing the Needle Trades High School is dedicated to:

"All those who have helped to bring a great project to completion.

To Industry,—which needs the skills we teach our boys and girls.

To Labor,—which will eagerly receive our graduates when they enter the world of work, for they will be of the finest.

To the Board of Education of the City of New York, whose faith, interest, and activity in behalf of vocational education has transformed a great vision into a great reality.

Lastly, it is dedicated to the parents and citizens of our City, who entrust their boys and girls into our hands for us to mold. Our obligation to them is very deep, and our faculty will spare no pains to repay their trust, to make of their sons and daughters skillful workers, good men and women, builders of the happier world of tomorrow."

Perhaps a brief statement of the activities on each of the eleven floors will present the plan of operation for this unique school.

First Floor.

Auditorium seating 1,600.
Offices of placement, individual testing, student aid, case conferences, personal and vocational guidance.
Comptroller.
Women's Wear Store.
Men's Ready-to-Wear Store.
Evening Division.

Second Floor.

The second floor houses a complete shoe factory, with the rooms arranged in actual manufacturing sequence. The course trains the student for employment in the leather goods, shoe, and pocketbook trades. The shoe skills taught are designing, cutting, stitching, stock-fitting, hand and machine lasting, heeling, finishing, cleaning and packing.

Third Floor.

The northern half of this floor is the center of the Health Education program, which includes the gymnasium, the general clinic, the infirmary, and various specialized clinics. The other portion of this floor is a complete fur garment manufacturing plant. The specific skills taught include designing, cutting, operating, and nailing fur garments. Instruction is given on all types of fur, from the rabbit to the more expensive furs such as fox, wolf, beaver and mink. The advanced work in this division includes special training in operating on furs and in manufacturing coats.

Fourth Floor.

The Men's Clothing Manufacturing Department shares the fourth floor with the three students' cafeterias. The aim of the tailoring course is to equip the student with the various skills and techniques used by the master craftsmen in the making of men's clothing. Instruction is given in the special crafts of the chopper, trimmer, fitter, trouser-maker, vest-maker, coat-maker, cutter, and designer. The shops on this floor are particularly suited for instruction in the wholesale production of men's garments.

Fifth Floor.

On this floor are found typewriting and business practice rooms. These skills are taught as electives for those of the pupils who plan to go into small retail businesses, or who wish to supplement their vocational availability by learning differentiated and supplementary crafts. The hand-tailoring shops are located on this floor. The beautiful library adjacent to the roof garden terrace can be used in suitable weather as a supplementary reading room. The Patternmaking and Grading Shops teach a highly paid and a highly specialized skill.

Sixth Floor.

In its diversity, the sixth floor is perhaps the most colorful of all. The Knit Goods Laboratory contains the greatest variety of knitting machines lodged in any one factory in the city; the textile apparatus and testing-machines are here in largest number; here are the long-tabled pattern-making rooms, the children's wear operating shops with its busy machines, and to top it off, here are shops where fine, hand-made custom dresses are produced.

Despite its name, Women's Garment Designing is peculiarly a man's craft, wherein patternmaking and grading are the skills developed. Advanced work includes use of foundation patterns. The student also receives instruction in power machine operating, assembling, sketching and fur analysis. The training prepares for all branches of the needle trades, including children's wear, underwear, dresswear, cloak and suits.

Seventh Floor.

The Women's Wear Department trains for the various occupations in the custom and wholesale women's wear trades. The elementary units of this course train girls in the fundamental hand and machine skills of garment construction, with special emphasis in draping, costume design, pattern drafting, and costume sketching. The shops emulate divisions actually existing in the needle trades,—custom dressmaking, undergarment operating, and high-price wholesale dress manufacturing.

Eighth Floor.

The eighth floor divides into several activities. It continues the dressmaking and sewing courses accommodated on the sixth and seventh floors, and it is the home of the experimental "Science of Living" course. This course has as its objective to teach girls the proper care and furnishing of the home. Learning to do things beautifully and efficiently should not be restricted to the vocation; the American home should reflect as well the abundance and beauty of a well thought out domestic economy. Many rooms on this floor have beautiful terraces with panoramic views of the environs, looking into the heart of the garment district.

Ninth Floor.

The manipulative problems in the millinery course progress from fundamentals of hat construction to the skill, accuracy and deftness required of the accomplished copyist. Millinery students also take two years of work on special power machines, the operation of which is required in the trade. Flower and feather manufacturing, interior decorating, lamp shade and novelty work are additional subjects in the course. The Interior Decorating and Novelty course advances from simple novelty work to the manufacture of lampshades, pillows, curtains, draperies, dressing table covers, and bedspreads—each a trade in itself.

Tenth Floor.

Roof Playgrounds.
Gymnasium.
Music Studio.
Art Studio.
Teachers' Rest Rooms.

The Basement.

Band Practice Rooms.
File and Mimeograph Room.
Window-Display Shop.
Museum.
Laundry.
Maintenance Laboratory.
Science Preparation.

The Food Trades Vocational High School is based on the human needs of Food—Shelter—Clothing. In this high school are taught Merchandising of Food Stuffs, Culinary Arts, Baking, and Meat Merchandising in addition to the customary academic and related work, athletics, clubs, guidance and placement. All purchasing, preparation and serving of food in the school cafeteria is carried on by the students in that department.

Friday morning was devoted to visiting the Brooklyn Technical High School—a modern school of applied science. In the Brooklyn Technical High School, the course of study in the first two years is exploratory and foundational. During the last two years the student may select the technical college preparatory course or the unit technical or terminal courses. Under the latter the following units are offered:

Aeronautics.
Architecture and Building Construction.
Art (Industrial Design).
Industrial Chemistry.
Electrical Science.
Mechanical.
Structural.

The slogan of the Food Conference was "Make America Strong by Making Strong Americans."

Thursday, November 6: Registration, inspection of commercial and educational exhibits, trips to schools, movies of New York lunchroom operations.

Friday, November 7: Visits to schools, sectional meetings devoted to Conference Studies on School Lunchrooms:

Decreasing food cost by increasing yield.

Time study on preparation of salads and sandwiches.

Procedure for scoring cakes.
Serving counter specifications.
Residence Hall study.
Lunchroom nutrition study.

The Annual Dinner Meeting was held in the evening, November 7. Talks were presented on "Adequate Nutrition for the School Lunch," by Mabel R. Stimpson, Associate Nutritionist on the staff of Hon. Paul V. McNutt of the Federal Security Agency, and "Employee Morale in Food Serving Agencies," by Dr. Ordway Tead, President, Board of Higher Education, New York. Much of this meeting was devoted to narration of the progress of nutrition education following the Spring White House Conference on Nutrition.

Saturday, November 8: Round table breakfasts followed by the Town Meeting of Food Directors. The Town Meeting developed the following topics:

A nutrition course is needed for classroom teachers.

Better feeding can be "effected through intelligence."

Economic education, not charity, is a basic need.

Home, school, and community must cooperate to produce a healthy child.

City departments (Education, Markets, Welfare, Health and Hospitals) should unify efforts for better citizens through improved nutrition.

The luncheon meeting closed the Conference. At that meeting the addresses were:

"Ways and Means of Developing Good Habits Through the School Lunch"—Margaret Batjer, Home Economics Projects Section, W. P. A., Washington, D. C.

"Supplementing Surplus Commodities to Provide Balanced Low Cost Meals"—George H. Chatfield, Director, Bureau of Attendance, Board of Education, New York.

"Adapting Civilian Institution Equipment Needs to the Limitations Imposed by the Defense Program"—Owen T. Webber, S. Blickman, Inc.

The educational exhibits deserve commendation. They were strikingly unusual.

Frederick J. Gillis,
Assistant Superintendent.

POLICE DEPARTMENT ORDERS.

General Order No. 677.

The following transfer is hereby ordered to take effect Saturday, December 13, 1941, at 7.45 o'clock a. m.:

Sergt. Fred L. Robbins, from Division 3 to Division 8.

The Superintendent of Police will promulgate this order.

Joseph F. Timilty,
Police Commissioner.

General Order No. 678.

The police officer hereinafter named having performed faithful service in the Police Department for the years stated, and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the Police Force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate set out, to be paid monthly, said sum being one half of the amount of compensation received by him in the office from which he is retired, effective as of Sunday, December 14, 1941, at 7.45 o'clock a. m.

Francis W. Sullivan, patrolman, Division 1, 22 years, $1,050 a year.

The Superintendent of Police will promulgate this order.

EXTENSION OF CONTRACTS.

Earle M. Carriere has been granted an extension of the time of completion of the contract for bituminous concrete pavement in Jaeger terrace and other streets, dated August 1, 1941, from November 30, 1941, to December 20, 1941. This extension is requested for the reason that a shortage of skilled labor and mechanical equipment has caused the work to proceed more slowly than anticipated.

—

Charles Capone has been granted an extension of the time of completion of the contract for bituminous concrete pavement in Roswell and other streets, dated August 1, 1941, from November 30, 1941, to December 31, 1941. This extension is requested for the reason that the contractor has been unable to start work on Amory street as structures owned by private parties have to be moved from the widening.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

To rebuild 10-inch pipe sanitary sewer and 20-inch pipe surface drain in Spring street (southerly side), between 170 feet southwest of Baker street and 50 feet southwesterly, in the West Roxbury district, at an estimated cost of $800.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 8, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair. Absent, Coun. Coffey and Russo.

The meeting was opened with the salute to the Flag.

SUPPORT TO PRESIDENT IN WAR.

Coun. WARD offered the following:

Whereas, The Congress of the United States has declared that a state of war exists between the United States of America and Japan; and

Whereas, The citizens of Boston have ever been in the vanguard of those who responded to their country's call; now, therefore, be it

Resolved, That the Boston City Council in behalf of the citizenry of Boston hereby pledges to the President of the United States the fullest measure of devotion and support to the successful prosecution of the war that has been so treacherously thrust upon us.

Passed by a unanimous rising vote.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighers of Goods: Samuel W. Brier, 32 Leston street, Dorchester, Mass.; Joseph Lourie, 230 Beverly road, Brookline, Mass.; Benjamin Roller, 75 Shawmut street, Chelsea, Mass.

Laid over a week under the law.

VETO OF APPROPRIATION FOR LAND AT ROCHESTER AND TROY STREETS.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,—On November 17, 1941, I recommended to your Honorable Body an appropriation of $1,600 for the purchase of a parcel of land in the vicinity of Rochester and Troy streets for the purpose of enlarging the proposed play area at that location. This play area project is being financed by the White Fund and it now appears that it will not be necessary for the money of the city to be used for this purpose. I appreciate very much the action of the Council in adopting the order without delay, but, under the circumstances, I am obliged to return it without my signature and disapproved in order that the appropriation shall not become effective.

Respectfully,
MAURICE J. TOBIN, Mayor.

Placed on file.

TAGGING OF DOCTORS' AUTOMOBILES.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Police Commissioner relative to your order of November 24, 1941, concerning the tagging of automobiles owned by doctors which have emblems and which are parked in residential areas.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Police Department, December 3, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

My dear Mr. Doyle,—I am in receipt of your communication of November 27 inclosing order passed by the City Council on November 24, 1941, requesting that the Police Commissioner, through his Honor the Mayor, instruct the police officer who is given charge of tagging automobiles, not to tag automobiles owned by doctors which have emblems on their cars and which are parked in residential areas.

In reply thereto, please be advised that the Police Commissioner, under the law, has no authority to make any discrimination in the enforcement of the present Traffic Rules and Regulations, or to instruct the officer in charge of tagging automobiles in accordance with the order of the City Council.

This is a matter that rests entirely within the province of the Boston Traffic Commission.

Very truly yours,
JOSEPH F. TIMILTY,
Police Commissioner.

Placed on file.

SKATING, ROBERTS PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of November 24, 1941, concerning the placing in condition for ice skating Roberts Playground, Ward 17.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, December 2, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—I have your memorandum of November 27, with inclosure, order from the City Council, that the Roberts Playground be placed in condition for ice skating.

Please be assured it will be a pleasure for the Park Department to make the usual arrangements for ice skating on Roberts Playground as soon as there is enough frost in the ground to hold the water.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

REPAIR OF TOLL GATE BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of November 24, 1941, concerning the repair and safety for foot traffic, the overpass known as the Toll Gate Bridge, which connects Hyde Park avenue and Washington street, Jamaica Plain.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
December 3, 1941.

W. T. Doyle,
Chief Clerk, Mayor's Office.

In reply to order passed by the City Council, November 24, 1941, requesting the Commissioner of Public Works, through his Honor the Mayor, to immediately repair and make safe for foot traffic the overpass known as the Toll Gate Bridge, I respectfully report as follows:

Repairs to this bridge and approaches were included in a contract covering bridge construction work on various bridges, with Martin J. Kelly, dated September 2, 1941.

The work has been started on these repairs and should be completed within ten days.

Yours very truly,
GEORGE G. HYLAND,
Commissioner of Public Works.

INSPECTION OF MEATS AND VEGETABLES.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Health Commissioner relative to your order of November 24, 1941, concerning the inspection of meats and vegetables which are being sold in the open-air stores in the market district on Saturday afternoons and evenings.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Health Department, December 2, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Complying with the recent order passed by the City Council, with reference to inspection of meats and vegetables which are being sold in the open-air stores in the Market District on Saturday afternoons and evenings, I wish to submit the following information for transmission to the Honorable City Council.

The Saturday market is covered by inspectors from the Food Inspection Division on the following schedule:

From 6 a. m. to 1 p. m., all wholesale meat houses and the receiving center for all fruit and vegetables are covered by two inspectors, and any unwholesome meats, fruit or vegetables are seized and condemned.

From 1 p. m. to midnight the retail area which includes all meat stands, wagons, fruit stands and pedlers on Blackstone and North streets are covered by a detail of four inspectors and the Superintendent of Pedlers.

Inspection of all pedlers who are planning on entering the market area is made from 1 p. m. to 3 p. m. Upon being assigned to their places, a complete tour of the market area is made, all push carts and wagons are thoroughly inspected and any unwholesome fruit or vegetables are seized and condemned. All stands and stalls are covered by the four inspectors assigned and the same procedure is followed out that applies to the inspection of pedlers.

All food that has been seized and condemned as unwholesome and unfit for food is dumped in a city disposal wagon and taken to the scow of the Coleman Disposal Company.

The number of inspections made during the year are as follows:

Market inspections, 20,148; stand inspections, 8,676; vehicle inspections, 14,536.

Any further information that you may desire will be gladly furnished.

Respectfully submitted
G. LYNDE GATELY, M. D.,
Health Commissioner.

LIGHTS, BROOKLINE AVENUE AND DEACONESS ROAD.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Boston Traffic Commission relative to your order of September 29, 1941, concerning the installation of traffic lights for pedestrians on Brookline avenue at the corners of Deaconess road and to take every other possible means to make this particular section a safety zone.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, October 4, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated September 29, 1941, which reads as follows:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install traffic lights for pedestrians on Brookline avenue at the corners of Deaconess road and to take every other possible means to make this particular section a safety zone.

It is the opinion of the engineers of this commission that the accident rate at the intersection of Brookline avenue and Deaconess road does not warrant the installation of traffic signals.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

RESURFACING MARTIN STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1941.

To the City Council:.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of November 17, 1941, concerning the resurfacing Martin street, from Bellevue to La Grange streets, Ward 20, either as a W. P. A. project or otherwise, and to install granolithic sidewalks thereon.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
December 1, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Martin Street, Ward 20.

I return herewith order in City Council that the Commissioner of Public Works resurface Martin street, from Bellevue to La Grange streets, Ward 20, either as a W. P. A. project or otherwise, and to install granolithic sidewalks thereon.

This will advise you that the roadway in this street is in fairly good condition and is in no immediate need of reconstruction at this time. I will have a canvass made of the abutting owners on this street in order to determine whether or not they are willing to pay their proportionate share of the expense of the installation of granite curbings and artificial stone sidewalks thereon.

GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston,
City Clerk Department, December 2, 1941.

Francis X. Lang, Esq.,
Budget Commissioner.

Dear Sir,—This office has now in active service fourteen Oliver typewriters which were purchased sixteen years ago. They have no value now other than a junk value and it is only by the expenditure of improvident amounts in repairs and service that we have been able to keep them in operation. An opportunity has arisen by which I can purchase a battery of ten, and possibly twelve, slightly used typewriters of a reliable make and model by the expenditure of a little less than $800 if immediate action is taken.

It was my intention to demand in the 1942 budget an appropriation of $1,500 for the replacement of the present antiquated machines, but if advantage is taken of this opportunity the existing situation will be relieved at a saving of at least $700.

Accordingly I respectfully request that you will prepare and approve a transfer of $800 from any available balance to the appropriation for C-9 in this department.

Yours very truly,
WILFRED J. DOYLE,
City Clerk.

City of Boston,
Boston Port Authority,

REQUEST FOR TRANSFER OF FUNDS FROM OTHER AVAILABLE SOURCES TO THE BOSTON PORT AUTHORITY BUDGET. ($1,500.00.)

We request a transfer of funds from other available sources to the Boston Port Authority budget as follows:

B-3, Advertising and Posting. ($500.) We were allowed $1,000 under this item for 1941, and our usual expenses for advertising in selected port publications have been within our estimate for 1941. However, with small transfers of funds to other items in our budget, which have been necessary from time to time during the year, and on account of our commitment to purchase copies of the W. P. A. Writers' Project book, "Boston Look Seaward," at a cost not to exceed $500, to be used for advertising purposes, we find we will need $500 additional in this item. This commitment was made by vote of the Board on July 5, 1940, and has been allowed for in subsequent budgets. We, therefore, ask for an additional $500 in this item.

B-4, Transportation of Persons. ($1,000.) In this item we requested $4,000, and were allowed $3,800, but from time to time during the year we have had to transfer to other items amounts totalling $750, necessary because of unforeseen expenditures in those items. It now develops that on account of the travelling expenses of Mr. John F. Fitzgerald, in connection with representation of the Port Authority at conventions in Los Angeles and Miami, authorized by vote of the Board, our funds in B-4 are exhausted. In order to pay travelling expenses of members of the Board and of our staff for the balance of the year, as well as paying expense accounts already approved during the latter part of November, we shall need an additional $1,000, which would make our total B-4 1941 expenditures $4,050, the amount originally requested by us. Inasmuch as our total 1941 budget appropriation has been decreased by $10,000, transferred to the Reserve Fund on October 27, and the date of the vote of the Board authorizing Mr. Fitzgerald's travelling expenses was September 30, we feel it is entirely in order for us to request the sum of $1,000 from the Reserve Fund be made available in our budget item B-4.

We regret the necessity of requesting a transfer from a source outside our budget, but the balances remaining in our other budget items are only sufficient for our expenses for the remainder of this year.

Referred to Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on petition of Gertrude T. Dolan (referred June 23) to be paid an annuity on account of death of her husband, William E. Dolan, late member of the Fire Department—recommending passage of accompanying order, viz.:

Ordered That under the provisions of chapter 340 of the Acts of 1933, an annuity of twelve hundred dollars be allowed and paid to Gertrude T. Dolan, widow of William E. Dolan, a member of the Fire Department, who died on May 16, 1940, on account of injuries received in the performance of his duty, said annuity being made up of allowances as follows:

For the widow, Gertrude T. Dolan, so long as she remains unmarried, $1,000 per annum.

For the following-named child, during such time as he is under the age of eighteen or over said age and physically or mentally incapacitated from earning, $200 per annum: William E. Dolan, born March 11, 1926.

The payments to date from May 16, 1940, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Report accepted; order passed.

2. Report on order (referred November 24) that Corporation Counsel draft legislation to prevent Commonwealth from making conditional sales of state-owned land which will prevent collection of taxes, and that legal action be taken against Daniel V. McGrath compelling him to pay future taxes on property on Nashua street—that same ought to pass.

Report accepted; said order passed.

3. Report on message of Mayor and order (referred December 1) appropriating $12,000 from income of George F. Parkman Fund, to be expended under direction of the Park Commissioners —that same ought to pass.

Report accepted; said order passed, yeas 20, nays 0.

4. Report on message of Mayor and orders (referred today) for transfers within departmental appropriations—that same ought to pass.

Report accepted; said orders passed, yeas 20, nays 0.

5. Report on message of Mayor and orders (referred today) for appropriations from proceeds of transfer of Boston Airport for various departments, amounting to $401,126—that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. SHATTUCK—Mr. President, these orders came to us only an hour ago, and we have not had a chance to properly scrutinize the items. We have not had a chance, except very briefly, to ask any questions concerning the items or to look into them. I think a matter of this magnitude, involving over $400,000, should go to the Appropriations Committee which considered the original appropriations, should be heard by them, and that they should summon before them heads of the departments involved, and then report back to the Council. That could all be done this week. I don't think there would be much delay in taking that action, and I think that procedure should be followed. I think it will establish a bad precedent if we should act upon these matters sight unseen. Therefore, I shall vote against the order at this time.

Coun. KELLY—Mr. President, while I agree with Councilor Shattuck that we should be given more time upon this particular order, I shall not vote against it, because of the salaries involved in the Election and other departments. I do believe, however, that we should be given at least a week's notice on matters of this kind.

Coun. TAYLOR—Mr. President, while I will agree that as much notice as possible should be given in matters of this kind, the fact remains that we are approaching the end of the year and that the passage of such an order becomes necessary, particularly because of the salary needs in certain departments. It is necessary, in order to clean up this year's business. The Mayor has been planning, of course, for the coming year, to put through economies in all departments because of the demands that will be made because of the defense program, and we must necessarily expect that the budget for the coming year will be increased considerably because of that demand. So far as the order before us is concerned, however, in my opinion the treasury of the City of Boston is not to be affected, because these monies will come out of funds received by the City of Boston that were not expected at the beginning of the year. I cannot for the life of me see why we should jeopardize the salaries or supplies in any department, as might result from holding this matter over for one week. In my opinion, the Budget Commissioner has given us a good reason for the increase in expenditures. I am sure that if this went before the Appropriations Committee we would not be enlightened any more than we have been enlightened today. Therefore, I ask that this order go through without further delay.

Coun. CHASE—Mr. President, I, too, feel as Councilor Shattuck and Councilor Kelly have stated. The Council should have ample time to consider matters of this kind, so that we might have opportunity to go over the items thoroughly. I do not believe, however, that it would be proper for me to hold up the salaries of certain departments, and I, sir, through you, Mr. President, would like to ask the Council if it would be possible for us to have a separation, so that the salary items might go through today, and the other matters might go over.

Chairman WARD—The Chair will rule that that cannot be done.

Coun. FISH—Mr. President, I think most of the Council believe that we should be given a bit more information on this matter, but I don't think any of us wish to hold up the salaries. So far as the other items are concerned, I don't think it would do us any good. We have had a conference with the Budget Commissioner upon this matter, he has given us information upon it, and personally I see no reason, therefore, why the order should not go through today.

The order was passed, yeas, 18, nay—Coun. Shattuck—1.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

Report on petitions for driveway openings—recommending that permits be granted, under usual conditions, viz.:

National Shawmut Bank (referred November 10), 1850 Centre street, Ward 20.

Albany Street Realty Company, Inc. (referred today), 30 Fellows street, Ward 8.

Report accepted; said permits granted under usual conditions.

SIDEWALK, NORWOOD STREET, WARD 16.

Coun. FISH offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Norwood street, west side, from about 320 feet south of Conley street to Tolman street, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

PLANS FOR POSSIBLE EMERGENCY.

Coun. CHASE offered the following:

Ordered, That the Fire Commissioner, Police Commissioner, Public Works Commissioner and the Director of the Civilian Defense Commission be requested, through his Honor the Mayor, to arrange for an immediate meeting with the City Council and his Honor the Mayor, for the purpose of reviewing plans made, and also for formulating additional plans for immediate action by municipal authorities in the event of an emergency which may arise in the City of Boston as a result of an act by an enemy nation.

Passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENT.

Chairman WARD called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointment submitted by the Mayor December 1, 1941, of Mark H. Devlin, to be a Weigher of Goods and a Measurer of Grain.

The question came on confirmation. Committee, Coun. Chase and Wickes. Whole number of ballots 16, yes 16, and the appointment was confirmed.

REPAIRS, COLUMBUS PARK.

Coun. LINEHAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to make the proper repairs to the old locker building on Columbus Park as soon as possible.

Passed under suspension of the rule.

STAIRS, COLUMBIA ROAD BRIDGE.

Coun. LINEHAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to construct a flight of stairs leading from Columbia Road Bridge, on the side nearest Old Harbor Village, to the sidewalk below so that pedestrians going to the Village will not have to cross at the intersection of the road leading to Quincy, near Lynch's gasoline station.

Passed under suspension of the rule.

BUDGET ALLOWANCE FOR PARKS AND PLAYGROUNDS.

Coun. LINEHAN, D. F. SULLIVAN, LYONS, SCANNELL and CAREY offered the following:

Ordered, That the Park and Budget Commissioners be requested, through his Honor the Mayor, when considering the Park Department budget for 1941, to allow a sum sufficient to place all the parks and playgrounds throughout the city in proper condition.

Passed under suspension of the rule.

PURCHASE OF SIRENS.

Coun. WICKES offered the following:
Ordered, That his Honor the Mayor be requested to confer with the Commissioner of Public Safety with a view to taking immediate steps for the purchasing of such sirens and other alarm equipment as will be necessary to warn all the people of Boston in the event of any emergency which may result from the danger of the war in which our country is now involved; and be it further
Ordered, That the said commissioner be requested to take such steps as may be necessary for the control of all factory whistles and other sound devices which may be used pending the purchase of said equipment, or in conjunction with said equipment.
Passed under suspension of the rule.

COMMENDATION OF CONGRESSMAN McCORMACK.

Coun. WICKES offered the following:
Whereas, The Honorable John W. McCormack, Democratic Majority Leader of the United States House of Representatives, has this day exemplified the noble tradition of the Minutemen of Massachusetts by the decisive action he has demonstrated in expediting a declaration of war against the Japanese invader; therefore be it
Resolved, That the Boston City Council, in meeting duly assembled, congratulates Congressman McCormack for the patriotism which prompted his expeditious dispatch of this matter and for the splendid example it furnishes at this time when action is the keynote of our great country and our great leader, the President of the United States of America, Franklin D. Roosevelt.
Passed under suspension of the rule.

ALLOTMENT FOR CHRISTMAS GIFTS.

Coun. D. F. SULLIVAN offered the following:
Ordered, That his Honor the Mayor increase the allotment for the purchase of Christmas gifts for those foster children under the care and supervision of the Child Welfare Division of the Institutions Department from the present budget allotment of approximately 23 cents for each child to a sum which would guarantee these unfortunate children an adequate Christmas gift.
Coun. D. F. SULLIVAN—Mr. President, my attention has been directed to this situation where the present budget allotment for Christmas gifts for foster children under the care and supervision of the Child Welfare Division of the Institutions Department amounts to approximately 23 cents per child. This sum was arrived at by dividing the number of foster children, amounting to 1,528, into the sum of $350, which was the sum intended in the budget to purchase Christmas presents for these children. Out of this allotment of 23 cents must come postage and wrapping charges. Certainly not a large sum left, probably about 17 cents to make these unfortunate children happy during the coming Christmas season. I know that my colleagues would not knowingly be miserly in presenting paltry gifts to these unfortunate children if they actually knew that such a small sum was contained in the budget. I am calling on this Honorable Body at this time to correct this apparent injustice. We know that Christmas is a time for little children. Certainly these unfortunate ones should receive special consideration at this time. If there is to be economy practiced, let us not practice it at the expense of poor and unfortunate children. Gentlemen, this is a sample of the need for a more definite and itemized budget to be presented for consideration by this Body. Evidently such a small sum was lost in the total budget figure submitted by the department in question. I know that my colleagues would have been only too happy to enlarge this particular sum so that these poor and unfortunate children might have an adequate gift to brighten up their Christmas season. I move that this order be passed under suspension of rule.
The order was passed under suspension of the rule.

PAY TO CITY EMPLOYEES IN SERVICE.

Coun. GALVIN and LANGAN offered the following:
Ordered, That his Honor the Mayor request the Corporation Counsel to present for consideration of the Legislature emergency legislation requesting that the City of Boston be allowed to pay to those who enlist in the armed forces of the United States in the present war the difference in salary which they receive as a member of the United States service and as an employee of the City of Boston.
Passed under suspension of the rule.

DEATH OF JAMES A. WATSON.

Coun. GOODE and WARD offered the following:
Resolved, That the Boston City Council expresses its deep regret at the death of the late James A. ("Jerry") Watson, for many years a member of the Boston City Council, and extends its sympathy to his widow.
Adopted unanimously by a rising vote.

SIDEWALKS, BOWER STREET, WARD 12.

Coun. TAYLOR offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to install new sidewalks on Bower street, in Ward 12.
Passed under suspension of the rule.

TRAFFIC SIGNALS, COLUMBIA ROAD AND QUINCY STREET.

Coun. KELLY offered the following:
Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Columbia road and Quincy street, Ward 15.
Passed under suspension of the rule.

REPORT REGARDING EMERGENCY PREPARATIONS.

Coun. LYONS offered the following:
Ordered, That his Honor the Mayor be requested to contact the Civilian Defense Commission with a view to furnishing the City Council with a complete report showing, in detail, the preparations that have been made for the protection of the civilian population in Boston in the event of a bombing attack or other emergencies.
Passed under suspension of the rule.

ADDITIONAL LIGHTS, CENTRE STREET.

Coun. LYONS offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install additional lights on Centre street, in front of St. Theresa's Church, Ward 20.
Passed under suspension of the rule.

Adjourned, on motion of Coun. HURLEY, at 5.25 p. m., to meet on Monday, December 15, 1941, at 2 p. m.

CORRECTION.

In the Minutes of December 1, 1941, in Coun. Shattuck's remarks on "Investigation of Ballot Count," first column of page 387, commencing with the twelfth line, where it says, "There were errors in every block of the thirteen," the remarks should read:
"There were errors in every block of the thirteen except four. In the nine blocks in which there were errors, these errors, except in one block, were in favor of Foster and against Bundy."

HEALTH AND HOSPITAL.

The plant and equipment of the Cincinnati General Hospital have been largely rehabilitated during the year 1939. As a result the operating officials of the Hospital will be able to do much better work in caring for the sick than heretofore.

The hospital treated 18,963 patients this year compared to 18,765 last year, and 24,929 individuals were cared for in the Out-Patient Dispensary against 24,701 in 1938. There was also an increase of approximately 10 per cent in the number of persons treated in the receiving ward, resulting in a total of 25,082. (From Annual Address of City Manager.)

PARKS.

Cincinnati has one of the most beautiful park systems in the United States and the public approval of these parks is indicated by the large attendance in all the parks throughout the year.

The total area now under the control of the Park Board is 4,270 acres. Of this, the Public Recreation Commission operates approximately 1,000 acres for supervised and directed play. Important additional acreage has been acquired by the City during the year, including approximately 22 acres purchased on the south side of Columbia Parkway, and 47 acres in College Hill presented as a gift for park purposes by a civic-minded citizen.—*Cincinnati City Bulletin.*

The practical questions will test the applicants' knowledge of criminal law and criminal procedure, including the penal code as contained in the General Laws with reference to procedure before trial and venue. Questions on arson, finger-print work, ballistics, and questioned documents may also be included.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

The physical standards are to be the same as those required for police entrance, except that height and weight requirements will be as noted above under Entrance Requirements. A copy of the physical standards will be sent to each applicant with his notice to appear for the written examination. They include the requirement that applicants must have visual acuity of at least 20-30 in each eye separately, without correction, and the requirement that applicants must have twenty-four natural or artificial teeth, excluding wisdom teeth.

NO COST CONTROL FOR REFUSE DISPOSAL.

American cities on the whole may be clean housekeepers, but they don't know how much it is costing them to be clean or whether they are spending too much. Only a few cities are able to report accurately the unit cost of removing garbage and other refuse and of cleaning streets, according to the Public Administration Service of Chicago, Ill., which further reports that at least 90 per cent of the cities in this country have no cost control over this service.

REVENUE BOND ACTS.

The 1936 issue of the "Municipal Index" contains a detailed study of the revenue bond acts in the thirty-three states which have enabling acts, and reports of all forty-eight states, showing what advantage has been taken of these acts by cities to finance the construction, operation and maintenance of sewerage systems and sewage treatment plants by service charges.

The table shows the status of revenue bond acts and other enabling acts in the different states, the dates when the acts became effective, and whether or not cities have taken advantage of the opportunity offered for financing bonds by service charges. In the case of states with no enabling acts, the table shows whether cities are charging sewer rentals under some other authority.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

BUDGETARY CONTROL.

Prior to installing the present system of budgetary control, effective as of January 1, 1939, the city of Newark had no centralized accounting control over its budget commitments. The city's general ledger contained accounts for the various budget appropriations, and reflected disbursements out of the appropriations. However, commitments for work and material were not recorded in the city's accounts until after bills submitted by the vendors had been approved for payment by the Board of Commissioners. Consequently, financial reports could only show the amount of appropriated moneys that had not been disbursed out of any account. No recognition could be given in these reports to the unpaid purchase commitments, since the amount was not known. *The American City.*

TAUNTON'S ASPHALT PLANT.

One of the functions of a city public works or street department is to operate as effectively as possible in the construction and maintenance of its streets and sidewalks and to produce the necessary materials for paving at the lowest possible cost. In some cities this is effected by the purchase of all paving materials in either the raw or the mixed stage. Taunton has used a city-owned 100-ton asphalt plant for street paving and maintenance and for sidewalk construction for ten years. Located in the city yard with the equipment repair shop and garage, the plant is housed in a 60 by 90 foot building with a 30 by 100 foot wing, which was formerly used as a foundry. *The American City.*

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction work on the Malden Bridge over the Mystic river, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Construction Work on the Malden Bridge over the Mystic River," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Tuesday, January 6, 1942, with a certified check for five thousand (5,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Act so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals should he deem it to be for the best interest of the city so to do.

GEORGE G. HYLAND,
Commissioner of Public Works.
(Dec. 20-27.)

BOARD OF OVERSEERS OF THE PUBLIC WELFARE.

PROPOSALS FOR FURNISHING TRUCKS.

The Overseers of the Public Welfare of the City of Boston invites proposals for furnishing trucks according to specifications which may be obtained from the office of the Board, first floor, 43 Hawkins street, Boston. *There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* Bidders must use the form of proposal to be obtained at this office and the successful bidder must furnish a bond for one fourth of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for one hundred dollars ($100), payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, before 12 noon, Wednesday, December 31, 1941, at which time and place they will be publicly opened and read. A duplicate proposal, without check, must be left with the City Auditor prior to the time stated for opening the bids. The Board of Overseers of the Public Welfare reserves the right to accept or reject any or all bids or any part of any bid and to award the contract in whole or in part. All contracts made subject to appropriations to meet the payments thereunder.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, DECEMBER 27, 1941. NO. 52

REPORT OF BUSINESS MANAGER AND THE CHAIRMAN ON ATTENDANCE AT ANNUAL MEETING OF NATIONAL ASSOCIATION OF PUBLIC SCHOOL BUSINESS OFFICIALS AT ATLANTIC CITY, OCTOBER 13 TO 16, INCLUSIVE.

The following is the report of Business Manager and Chairman on attendance at Convention of National Association of Public School Business officials:

To the School Committee of the City of Boston.

In compliance with the provisions of section 3 of chapter 274 of the Acts of 1914, the following report is hereby submitted:

On July 21, 1941, your Board passed an order authorizing the Chairman of the School Committee and the Business Manager to attend the annual meeting of the National Association of Public School Business Officials to be held at Atlantic City, New Jersey, October 13 to 16, 1941.

Delegates were present from cities and towns in the United States and Canada. Papers were read and discussed on the following subjects:

Sectional Meetings.

1. Retirement for Non-Certificated Personnel.
2. Liability for School Accidents.
3. Buildings and Grounds.
4. Finance and Accounting.
5. Purchasing.

Round Table Discussions.

1. Personnel Problems.
2. Community Use of School Buildings and Grounds.
3. Standards of Textbook Construction.
4. Maintenance Problems.
5. Problems of the Clerk-Treasurer and Secretary.
6. Instructional and Office Supplies.
7. Custodian and Engineering Problems.
8. Accounting.

Other Discussions.

1. Self-Sufficiency of America Through Chemistry.
2. Interpreting the School Budget to the Taxpayer.
3. Criteria for the Measurement of Public School Business Administration — Panel Discussion.

Addresses on the Following Subject.

1. What the Schools of New Jersey are Doing for National Defense.
2. Building a Financial Structure for an Adequate Program of Public Education.
3. Fire Prevention in the Public Schools.
4. The Visual Eyes-ing Ear-a.
5. Business and Education.

Mr. Joseph C. White, Chairman of the School Committee, talked with many members of the association, urging them to hold their next annual convention in Boston.

In a discussion of personnel problems, the Business Manager read the following paper at the convention, which covered the history of Civil Service in Massachusetts, the procedure by which promotions of Civil Service employees are made in the Boston School Department, the need for a promotion system to eliminate unfair conditions in the promoting of employees, and other problems connected with personnel:

"Discussion of Personnel Problems.

"ALEXANDER M. SULLIVAN, BUSINESS MANAGER, BOSTON SCHOOL DEPARTMENT.

"In Massachusetts, accountants, chief clerks, chief storekeepers, clerks, stenographers, engineers, inspectors and other employees in school departments and, in fact, in all other city departments, receive their appointments as the result of competitive Civil Service examinations conducted by the State authorities — with this qualification — the names of disabled veterans who pass the examination are placed ahead of all other candidates, followed by the names of veterans who are not disabled. In other words, in Massachusetts, Veterans' Preference is complete and not partial.

(Continued on page 1384.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

PUBLIC SCHOOL BUSINESS OFFICIALS' REPORT.

(*Continued from page 1381.*)

"A serious matter affecting the morale of employees in the public service is where promotion or salary adjustment is allowed on the basis of political, fraternal, church or other associations. For a great many years the Boston School Department has had a well-defined plan of promotions. A Salary Board has been established, consisting of the Superintendent of Schools, the Business Manager and the Secretary of the School Committee. Under the rules, the Salary Board considers annually the classification and salaries of all persons employed in the administrative offices and in the warerooms. After such consideration this Board recommends to the School Committee such changes in classification and salaries as it deems expedient. The changes recommended may take effect on the first day of the fiscal year or at such later date as the Salary Board may recommend. The classification or salaries, having once been established for the fiscal year, shall not be changed during that year.

"The classification of all persons employed in the administrative offices and in the warerooms has been set up in five groups, as follows:

"*Group A.* Persons occupying administrative positions.

"*Group B.* Persons occupying positions which, in addition to clerical duties, have large administrative responsibilities, as determined by the Salary Board.

"*Group C.* Persons occupying positions which, in addition to clerical duties, have certain administrative responsibilities and years of experience, as determined by the Salary Board.

"*Group D.* Persons performing clerical services, but without administrative responsibilities.

"*Group E.* Employees not otherwise classified.

"When a promotion is made from one group to another the advance allowed is usually at the rate of $2 per week. A maximum salary is established for each group, and the person considered for promotion must be on the maximum salary of the group from which he is to be promoted.

"In the Department of School Buildings, which has to do with the repair, alteration and construction of buildings, the maximum salaries for the various groups of employees are set up as follows, and the annual increase is usually at the rate of $2 per week:

Division Heads	$3,900
Assistant Division Heads	3,300
Inspectors	2,700
Chief Storekeeper	2,500
Draftsmen and Engineers	2,700
Chief Clerk	3,300
Supervisor of Contracts	3,000
Clerk of Works	2,300
Senior Clerks	$2,000 to 2,600
Mechanics	1,800 to 2,500
Superintendent's Stenographer	2,300
Stenographer	1,800
Telephone Operator-Clerk	1,800

"No system of promotion is perfect, but where a promotion system does not exist unfair conditions are bound to creep in. For example, if an intelligent, hard-working and efficient employee finds that someone is promoted over his head because of his political or other associations, he cannot be expected to take the proper interest in his work under such a situation. In effecting promotions under the system herein outlined the Department of Civil Service and Registration of the Commonwealth may agree to the promotion, may decide to give the individual a non-competitive examination, or call for a competitive examination for all those in the individual's particular group. Promotions, if practicable, should always be made on the basis of ascertained merit and seniority of service. Under existing Civil Service law an appointing official may, with the approval of the Director of Civil Service, promote an employee from one grade to the next higher grade—provided that such employee has been employed at least three years in the lower grade and is one of the three oldest employees therein in point of service.

"Under Civil Service law certain positions require basic experience. For example, an Inspector of Masonry Construction must have had at least three years of practical experience in masonry construction but shall not be required to have technical knowledge as engineer, architect or draftsman unless he has other duties for which such knowledge is necessary. The principal duty of an Inspector of Masonry Construction is the inspection of stone, brick or substitutes therefor.

"All appointees to Civil Service positions are on a six-month probationary period. In other words, any time during their first six-month period of employment they may be removed for unfitness or other causes. At the end of six months, however, they become permanent Civil Service employees and cannot be removed except for cause, the details of which have been furnished to them in writing. Precisely, a Civil Service employee, under the law shall hold his office or employment and shall not be removed therefrom, lowered in rank or compensation or suspended without his consent, transferred from such office or employment to any other except for just cause and for reasons specifically given him in writing within twenty-four hours after such removal, suspension, transfer or lowering in rank or compensation. Within three days thereafter, the employee, if he so requests in writing, shall be given a public hearing in not less than three or more than fourteen days after the filing of the request, by the officer or board whose action affected him. In default of such hearing the employee shall forthwith be reinstated. In the case of such a hearing, the reasons, notice, answer and decision must be made a matter of public record. If this decision is adverse the employee has the right to appeal to the courts.

"Practically all Civil Service employees are compensated on a yearly basis. This year the Boston School Department placed the employees in the cafeterias on a 52-week basis. These cafeteria employees were Civil Service employees but were paid at a rate per day for actual school days of service during the school year. These employees felt, quite naturally, that they were entitled, as Civil Service employees, to the same pay basis as matrons in the high schools who work the regular number of school days but receive a 52-week salary. Civil Service employees in school systems, whose employment covers the school year, feel that they are entitled to permanency and to pension privileges, as are teachers, librarians and secretaries and clerical assistants in the schools.

"In Boston, for a long period of years assistants to custodians of school buildings have not come within Civil Service classification. In other words, the custodian, who is a Civil Service employee and who is in charge of a building calling for the employment of one or more assistants, hires such assistants and pays them out of the compensation allowed him under a schedule which takes into consideration several factors: (*a*) cleaning of buildings—(*b*) heating, ventilation and superintendence—(*c*) cleaning of windows—(*d*) cleaning and care of yards and sidewalks—(*e*) cleaning and care of lawns. This system of allowing the custodian to hire his own help has been the subject of discussion on more than one occasion. There is no doubt that if the assistants to custodians are placed under the provisions of Civil Service, the cost of custodian or janitor service will increase substantially as the eight-hour law for these assistants will become operative if they are taken over as Civil Service employees.

"Massachusetts was one of the first states in the Union to adopt the merit system. Within a year of the time that Civil Service became an accepted institution in the Federal service the Commonwealth of Massachusetts adopted what has been recognized as the broadest program of Civil Service control in the entire country. As distinct from what is found in other states where there is a State Civil Service Commission, and separate and distinct and independent Civil Service Commissions in some of the large cities, the Massachusetts system, under State control, operates Civil Service for the benefit of the various State departments, for the City of Boston and for every other city and town in the State. There is a distinct advantage in this system because it eliminates the possibility of political control through the medium of a strong local administration over a Civil Service Commission operating at the command and behest of the political powers.

"Long experience with the operation of a merit system in the School Department of the City of Boston has shown the very great benefits—first, in the quality of personnel, and then in loyalty and the spirit of cooperation evidenced throughout the years of service.

"I have earlier pointed out the bad features of allowing promotions in the public service which are due to political control or influences, either inside or outside a particular department. By giving recognition to meritorious service employees must feel that their outlook in life is dependent upon the good record which they establish and that advancements from one grade of service to another are dependent upon factors within the control of the individual himself. Seniority is important, although perhaps should never be made the whole determining factor in a person's advancement. But seniority, coupled with a good record, and determination to acquire the qualifications necessary for the performance of duties in the next higher grade—and the absence of a bad record—mark the proper individuals for advancement. Such a system can be operated only by active cooperation between the Civil Service Commission and the department head. In some instances, where this cooperation has not been evident, mistakes have been made in attempts to promote by the method of qualifying candidates in promotional Civil Service examinations. Instances have been known where the Civil Service Commission has given an examination to all employees of a department in lower grades for advancement to a higher grade, and then by means of this ex-

amination has arbitrarily disqualified all of the candidates. This has happened in certain promotional examinations for police and fireman where it would seem that men who are functioning efficiently as members of the police and fire departments, with ratings as 'Lieutenant' would almost automatically succeed to the responsibilities of the position of Captain. It is fatal to the ambition and outlook of dependable employees in the public service to invite any considerable number of them to participate in a competitive promotional examination, and then disqualify a large percentage of them. Certainly it is no encumbrance on Civil Service to qualify, even with low grades, acceptable employees who will never be near enough to the top of the list to secure advancement. The feeling of satisfaction that comes to an individual from the successful passing of an examination is a great incentive to the performance of the every-day routine duties of a particular job.

"Under a Civil Service plan of promotion such as we enjoy in Boston and Massachusetts, employees have been encouraged to pursue courses of study about the duties, not only of their own position but also of the positions above and of the general functions of their department, so that each year there has been a distinct improvement in the quality and character of personnel.

"In periods of a depression public employment looms attractive to large numbers of persons. When economic conditions change for the better and private employment offers more pay the Civil Service public employee should realize that there are compensations besides the pay envelope, which add up to a life-term of service with the security of retirement with pension. One of the very important responsibilities of department heads is to engender such a spirit of work as will militate against the notion that when a person is appointed to a public position he begins to enjoy all the ease and advantage of a pensioner. In a department where it is impossible to maintain constant supervision over all employees, loyalty to the interests of the department must be held up to the employees as a very important factor.

"As an evidence of the general feeling of satisfaction with Civil Service as a way of life for the public employee, it is only necessary to compare his environment with that of the non-Civil Service public employee which we have in Massachusetts, in county offices and institutions, such as hospitals. More than fifty years' experience with Civil Service convinces the general public in Massachusetts, and the public employee, of the value of Civil Service status for public employment.

"The benefits of Civil Service extend to department heads, with the exception of those who are themselves subject to election or to appointment by elected officers. With Civil Service these department heads are free to devote their time and energies to the performance of the duties which have to do with the effective conduct of the work of the department. These department or division heads do not have to subject themselves constantly to the clamoring from within for jobs and appointments, and to the hammering from without which results every time they make a disposition of a job or a promotion within the department. I believe it is fair to assume that many men who have accepted appointments to responsible positions as department heads in our jurisdiction have done so only because they realized that Civil Service would protect them. It would seem, therefore, that a Civil Service merit system, for original appointments as well as promotion, can be devised and operated which will be a distinct improvement to the public service.

"Whatever disadvantages exist under Civil Service can be overcome by a proper organization from the top down. If Civil Service in any jurisdiction is bad it can be charged to stubbornness and cupidity on the part of responsible public officials. If the Civil Service system is so politically-controlled that under the cloak of the merit system it connives to accomplish political favors, the whole set-up is a shambles and in no decent community will it last for very long.

"In a day when national attention is being given to efficiency in public office and the responsibility for national defense, it is necessary to assert the right of the public service to demand fundamental qualifications for public employees who are charged with carrying on important positions. This is the intention and performance of Civil Service when it is functioning adequately and intelligently. A properly organized Civil Service system is certainly an important factor in the successful administration of the public schools, especially in large cities."

In conclusion, I wish to state that the officials of the association were very much pleased at the action of the School Committee in sending its Chairman to the convention.

Respectfully yours,

JOSEPH C. WHITE,
Chairman of the School Committee.
ALEXANDER M. SULLIVAN,
Business Manager.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Stow road, Dorchester district, as a highway, from Tiverton road southwesterly, bounded and described as follows:

A highway named Stow road is hereby laid out, from Tiverton road southwesterly for a distance of approximately six hundred and thirty-five feet, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Franklin I. Smith, trustees, bounded:

Westerly by the westerly line of Stow road, as established under this order, forty-one and 41–100 feet; northwesterly by the northwesterly line of Stow road, as established under this order, two and 7–100 feet; easterly by the westerly line of Stow road, as it existed previously to this order, forty-one and 41–100 feet, and southeasterly by the southeasterly line of Stow road, as established under this order, two and 7–100 feet, containing eighty-three square feet, more or less.

The land, owners unknown, being the private way known as Stow road.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purposes of constructing said improvement.

Said highway, as hereby laid out, is bounded:

Northeasterly by Tiverton road, forty and 26–100 feet; southeasterly by the southeasterly line of said Stow road, as hereby laid out, six hundred and thirty-nine feet; westerly by the westerly line of said Stow road, as hereby laid out, forty-one and 41–100 feet, and northwesterly by the northwesterly line of said Stow road, as hereby laid out, six hundred thirty-two and 8–100 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northwesterly and southeasterly sides of Stow road, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked, "City of Boston, Stow Road, Dorchester, Assessment Plan, May 8, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN BOSTON PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out of St. Paul street, Boston Proper district, as a highway, from Commonwealth avenue northeasterly, with the name of Acme street, or some other distinctive name, bounded and described as follows:

A highway named Buick street is hereby laid out, from Commonwealth avenue northeasterly for a distance of approximately four hundred and sixty feet (without construction).

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southwesterly by Commonwealth avenue, fifty feet; northwesterly by the northwesterly line of said Buick street as hereby laid out, four hundred seventy-one and 40–100 feet; northeasterly by the northeasterly line of said Buick street as hereby laid out, fifty-five and 67–100 feet; and southeasterly by the southeasterly line of said Buick street as hereby laid out, four hundred forty-six and 92–100 feet.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

Due to the structurally unsafe condition of the building at 3 Union court, Ward 2, to enter the premises and remove the building; said structure is owned by one James Squires, address unknown.

Due to the structurally unsafe condition of the building at 489 East First street, Ward 6, owned by John D. O'Reilly, Jr., 78 Oliver road, Belmont, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 487 East First street, Ward 6, owned by one Joseph A. Cappuccio, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 31 Gold street, Ward 6, owned by one Mario DeDomenico, to enter the premises and remove the building.

To raze the building at 25 Albion street, Ward 5.

To raze the building at 75 Northfield street, Ward 9.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Parkman street, Brighton district, as a highway, from Brooks street northwesterly, with the name of Woodmont street or some other distinctive name, bounded and described as follows:

A highway named Woodmont street is hereby laid out, from Brooks street northwesterly to the location of the Boston and Albany Railroad Company, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the John Wood Manufacturing Company, Inc., bounded:

Southeasterly by Brooks street four and 28–100 feet; southwesterly by the northeasterly line of Parkman street, as it existed previously to this order, one hundred fifty-nine and 87–100 feet; northwesterly by other land supposed to belong to said company, four feet; and northeasterly by the southwesterly line of Parkman street, as it existed previously to this order, one hundred fifty-eight and 33–100 feet, containing six hundred and thirty-six square feet, more or less.

The land, owners unknown, being the private way known as Parkman street.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said highway, as hereby laid out, is bounded:

Southeasterly by Brooks street, by two measurements, forty-seven and 14–100 feet and forty and 5–100 feet; southwesterly by the southwesterly line of said Woodmont street, as hereby laid out, one hundred fifty-seven and 82–100 feet; northwesterly by the northwesterly line of said Woodmont street, as hereby laid out, forty-four feet; again southwesterly by the southwesterly line of said Woodmont street, as hereby laid out, two hundred ninety-two and 22–100 feet; northerly by the location of the Boston and Albany Railroad Company, N. Y. C. Railroad Company, lessee, sixty-seven and 91–100 feet; and northeasterly by the northeasterly line of said Woodmont street, as hereby laid out, three hundred eighty and 28–100 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of Woodmont street, as laid out under this order, excluding the lot as shown on plan hereinafter mentioned, and designated as Lot 6, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Woodmont Street, Brighton, Assessment Plan, November 29, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

TRANSFERS IN APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston, approved by his Honor the Mayor:

CITY RECORD.

BOSTON, December 10, 1941.

FRANCIS X. LANG,
Budget Commissioner.

DEAR SIR,—For the reasons as below explained, will you kindly approve the following request for transfer within the appropriation of the City Record:

From the appropriation for B–1, Printing and Binding, $60, to the appropriation for B–42, Miscellaneous Service, $60.

The City Record's B–42 appropriation in 1941 was $775, to pay charges of the Coleman Company, 470 Atlantic avenue, for binding, wrapping, addressing and depositing in the Post Office the weekly issue of the City Record.

The sum of $775 has been more than sufficient to pay these charges in recent years, but in 1941 provisions of the new Federal Wage and Hour Law, as the company explains, have forced it to charge as overtime any work done on Saturday, which is the City Record's issue day.

As a result, the department through December 1, 1941, had received bills totaling $760.88. This leaves a balance of only $14.12 on hand to pay charges for servicing the City Record's issues of December 6, 13, 20 and 27, which on the present scale will reach an estimated total of $70.24 (4 issues at $17.56 each). The B-42 item therefore faces a deficiency of about $60 for the year 1941 and this transfer is asked in order to supply that deficiency.

The B–1 item, from which the transfer is asked, can safely be drawn upon for this purpose. Although the 1941 appropriation ($20,000) was the lowest for many years, it now appears certain to show a surplus for the full year, ranging from $880 to not less than $600.

Respectfully,

JAMES E. KING.

The above transfer was made by the City Auditor with the approval of the Mayor December 18, 1941.

HOSPITAL DEPARTMENT.

BOSTON, December 11, 1941.

FRANCIS X. LANG,
Budget Commissioner.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Hospital Department:

From the appropriation for B–39, General Plant, $600, to the appropriation for C–7, Furniture and Fittings, $100; C–13, Tools and Instruments, $100; C–17, Miscellaneous, $100; E–1, Building, $125; E–10, Electrical, $100; E–13, Miscellaneous, $75.

The above transfers are being requested to allow for the purchase of materials which are essential before a blackout could be effective at the Sanatorium. The material to be purchased would be allotted as follows:

C–7, buckets for sand, shades for lights, etc.

C–13, shovels and paint brushes and lanterns.

C–17, flashlights and storage batteries.

E–1, paint and tar paper and sand.

E–10, flashlight batteries and bulbs.

E–13, canvas and black cloth.

Our present appropriations on all these items are exhaused.

Respectfully,

CARL DREYFUS, *President.*

The above transfer was made by the City Auditor with the approval of the Mayor December 18, 1941.

PARK DEPARTMENT.

BOSTON, December 15, 1941.

FRANCIS X. LANG,
Budget Commissioner.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Park Department:

From the appropriation for E–13, General Plant, $600, to the appropriation for B–39, Repair of Motor Vehicles, $600.

The reason for the request for this transfer is that we need the money to pay bills, being held here, due the Dorchester Auto Service Company, The Stutz Sales & Service Company and the Mack Motor Company, for repairs to trucks for snow work.

Very truly yours,

WILLIAM P. LONG, *Chairman.*

The above transfer was made by the City Auditor with the approval of the Mayor December 18, 1941.

TRAFFIC COMMISSION RULINGS.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 15, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair. Absent, Coun. Coffey and Goode.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment, viz.:

Constable for term of one year, beginning with first day of May, 1941, with authority to serve civil process upon filing of necessary bonds: Max Kaplan, 1220 Blue Hill avenue, Ward 14.

Laid over a week under the law.

ORDINANCE RE CIVILIAN DEFENSE.

The following was received:

City of Boston,
Office of the Mayor, December 15, 1941.

To the Honorable the City Council.

Gentlemen,—On Sunday, December 7, 1941, Japan without provocation attacked our country. We are now at war with Japan, Germany, and Italy.

Last spring the City of Boston Committee on Public Safety was set up on a volunteer basis to provide an agency for planning and carrying out the civilian defense of life and property in Boston in time of war, disaster, or other emergency. The committee has been functioning for over six months. The committee's work is based on a comprehensive plan for protecting life and property. The plan combines all existing municipal and public utility services with the services of thousands of volunteers. The excellence of the plan is attested by the fact that Baltimore, Philadelphia, and other cities have used it as a model for their civilian defense organizations.

The committee is organized in three departments—Executive, Staff, and Operations. The Staff Department includes Planning, Public Relations, Trainiug, Cooperating Agencies, and Liaison with Metropolitan Communities Divisions. The Operations Department includes Protection, Health Services, Social Services, and Services and Supplies Divisions. Attached to this letter is a copy of the original organization chart of the committee.

Since its organizations, the committee has trained over 6,000 air raid wardens. Additional thousands, who have been registered, will receive their training in classes to be held in twenty Boston public schools starting this week.

The committee has available over 3,000 auxiliary firemen. Additional volunteers are required in this service and courses are in process at the present time.

The committee is mobilizing doctors, nurses, and other emergency services. It is working closely with the Federal Office of Civilian Defense, the State Committee on Public Safety, The American Red Cross, and the Community Fund agencies.

Within a week the committee's twelve district air raid report centers will be completely established, fully equipped with signal-system telephone service, and manned with trained personnel. The most modern air raid signal system is now being installed throughout the city. The committee is thus becoming the nerve-center of the city.

During the last week the committee has been taking every possible step, in cooperation with me, to carry into full effect previously prepared, comprehensive programs for the civilian defense of life and property in Boston.

Now that the nation is at war, it is advisable by appropriate ordinance to give the City of Boston Committee on Public Safety a formal municipal status. Such a step will be in line with the plans of the Federal Office of Civilian Defense. It will clothe the committee with authority to act for the city in civilian defense activities, conformably to the provisions of the Commonwealth Emergency Defense Act of 1941 (St. 1941, c. 719). It will definitely establish the municipal service which is to receive and expend moneys in the future for the city's civilian defense.

I attach a draft of ordinance "Concerning Civilian Defense" which has been prepared by the Corporation Counsel, after study of Federal and other municipal models, to accomplish for Boston what is now needed. Under this ordinance the existing committee and organization will be continued, without interruption or confusion in its vital work. I urge you to adopt this ordinance without delay, so that the city's civilian defense program may go forward with all speed.

Very truly yours,
MAURICE J. TOBIN, Mayor.

An Ordinance Concerning Civilian Defense.

SECTION 1. There is hereby established the City of Boston Committee on Public Safety, which shall have charge of civilian defense of lives and property in Boston. The Committee shall be composed of the Mayor, as Chairman, and of such department heads and other persons, not exceeding twenty in number, as the Mayor may appoint from time to time. From the members so appointed the Mayor shall designate an Executive Director, who shall receive such compensation as the Mayor may determine. Each member of the Committee shall serve at the pleasure of the Mayor or until the repeal of this ordinance. The Committee may appoint and compensate an Executive Secretary and other technical and staff personnel necessary to the performance of its functions.

SECTION 2. In the discharge of its functions the Committee shall cooperate with federal, state, and municipal authorities. To the extent permitted by law, the Committee shall act for the City of Boston in carrying out the provisions of chapter 719 of the Acts of 1941, including, without implied limitation, the conduct of blackouts, air raid warnings, and other defense activities and the appointment, training and equipping of volunteer, unpaid public protection units.

SECTION 3. The Committee may expend for the purposes herein stated such funds as may be appropriated or as may be otherwise made available.

SECTION 4. The Police Commissioner may furnish, on such occasions and to such extent as he may deem advisable, the assistance of the Police Department to another city or town in the suppression of riots or other forms of violence therein, in accordance with the provisions of section 5 (*b*) of chapter 719 of the Acts of 1941.

SECTION 5. This ordinance shall remain in force during the effective period of chapter 719 of the Acts of 1941, or any act in substitution therefor or continuation thereof.

Referred to Executive Committee.

LOAN FOR PUBLIC SAFETY PROGRAM.

The following was received:

City of Boston,
Office of the Mayor, December 15, 1941.

To the City Council.

Gentlemen,— Under the provisions of chapter 487 of the Acts of 1941 municipalities are authorized to appropriate such sums of money as are deemed necessary for the preservation of health and protection of persons and property during the existing national emergency. At the present time a full and adequate public safety program is being carried forward by city agencies and departments. In order to provide for expenditures involved in such a program I feel that the sum of $150,000 should be made available immediately. I accordingly submit the accompanying loan order and respectfully recommend its immediate consideration and adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Ordered, That under the provisions of chapter 487 of the Acts of 1941 the sum of one hundred fifty thousand dollars ($150,000) be, and the same hereby is, appropriated to be expended for the preservation of health and protection of persons and property during the existing national emergency, and that the City Treasurer be authorized to issue upon request of the Mayor bonds or certificates of indebtedness to the city to said amount.

Referred to Executive Committee.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, December 15, 1941.

To the City Council.

Gentlemen,— I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $1,070.09 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, December 12, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $1,070.09 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $1,070 09

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

This will be the final request for 1941.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of $1,070.09 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $1,070 09

Referred to Executive Committee.

REMOVAL OF VEHICLES FROM STREETS.

The following was received:

City of Boston,
Office of the Mayor, December 15, 1941.

To the Honorable the City Council.

Gentlemen,—The Commissioner of Public Works has submitted to me a form of ordinance, approved by the Law Department, authorizing, in accordance with the provisions of chapter 346 of the Acts of 1941, the removal from the public streets of the city of all vehicles that interfere with snow removal and plowing operations.

The original legislation authorizing the above-referenced removal work was sponsored by the City of Boston and resulted from the conditions that obtained in the various streets of this city during and subsequent to the St. Valentine's Day storm of 1940. At that time the Public Works Department of the city and the contractors were greatly handicapped in the snow plowing and removal work because of the large number of vehicles that were parked on the streets and abandoned by the owners.

In order to eliminate any possibility of any such condition existing at any time in the future, it is absolutely essential that the inclosed draft of ordinance be adopted, thereby making the above-referenced statute law effective. It is particularly important that this ordinance be adopted at this time to make certain that all of the streets of the city will be kept open during the coming winter, thereby assuring no interruptions in the flow of that traffic which is essential to the National Defense Program, with particular reference to Army convoys that might be required to use the streets of the city in the event of any emergency condition that might arise.

I respectfully urge your Honorable Body to adopt this ordinance as soon as possible.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
December 15, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Under the provisions of chapter 346 of the Acts of 1941 the Commissioner of Public Works of this city is given authority, if an enabling ordinance to that effect is adopted by the city, to remove or cause to be removed to some suitable location, such as a public garage or parking area, any and all vehicles interfering with the plowing or removal of snow.

With the assistance of the Law Department, a suitable form or ordinance has been prepared, four copies of which are inclosed.

I respectfully recommend that this draft of ordinance be forwarded to the City Council today, in order that it may be adopted at as early a date as possible.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

An Ordinance Concerning the Removal and Storage of Vehicles Interfering with the Removal of Snow.

SECTION 1. The commissioner of public works, for the purpose of removing or plowing snow, or removing ice, from any street, may remove, or cause to be removed, to some convenient place, including in such term a public garage and outdoor parking area, any vehicle interfering with such work.

SECTION 2. If the commissioner, acting under the provisions of section one, orders the removal of any vehicle by a person or agency other than the city, a written order for such removal shall be given by the commissioner or his authorized representative at the time of removal, provided, however, that in an emergency such order may be given orally. Any such written order shall state that it is subject to the provisions of this ordinance, a copy of which shall appear thereon. Any such oral order shall be accompanied by the statement that it is subject to the provisions of this ordinance and shall be confirmed in writing within twenty-four hours.

SECTION 3. The commissioner shall keep a record of vehicles removed under the provisions of section one. Not later than ten hours after any such removal the commissioner shall give notice thereof to the police commissioner, and not later than the second business day following any such removal the commissioner shall publish notice thereof at least once in a newspaper published and having a general circulation in the city of Boston. The record kept and the notices given and published by the commissioner shall include: (a) the registration number and general

description of the vehicle removed, (b) the time of removal, and (c) the place from which and to which the vehicle was removed.

SECTION 4. The cost of the removal of any vehicle under the provisions of section one and the storage charges, if any, resulting therefrom shall be paid by the owner of such vehicle.

SECTION 5. The amount to be paid by such owner for all costs of removal, exclusive of storage charges, shall not exceed five dollars. The amount to be paid by such owner for storage charges shall not exceed the rate of one dollar for each twenty-four-hour period. Subject to the foregoing limitations, the commissioner shall determine the cost of removal and storage of vehicles removed or stored by the city.

Referred to Executive Committee.

A communication was received from the Commissioner of Public Works together with order assessing half cost of construction of sidewalks against owners of property bordering thereon, viz.:

Willow street, Ward 20, half cost, $2,466.92.

The order was passed under suspension of the rule.

FINANCE COMMISSION REPORT RE CITY HOSPITAL LAUNDRY.

The following was received:

City of Boston,
Finance Commission, December 11, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Honorable Sir,—Many times within the past decade the Finance Commission has endeavored to bring about orderly, efficient and economical administration of the City Hospital laundry.

The high operating cost in this plant, the continual complaints from various other hospital units of inadequate laundry service, and the frequent disputes between executives and employees over the responsibility for the poor service rendered have combined to make it one of the chief sore spots in hospital administration.

A laundry is an important feature of hospital administration. Efficient laundering and prompt distribution of the great amount of linen, toweling, blankets, etc., used in a large institution of this character are of vital importance to its successful operation. To build and equip this particular plant cost approximately $400,000. More than $100,000 of hospital appropriation is spent annually to carry on its work.

To those who visualized a substantial saving in city maintenance cost by the construction and operation of a plant at the hospital capable of supplying all municipal laundering needs, this laundry, to the present time, has been a bitter disappointment. At no time during the ten years in which it has been in operation has it given satisfaction, even to those units in the main hospital to which its services have been confined. Having in mind that the main hospital does not include either the tuberculosis or the contagious diseases division, each of which by itself is very nearly as large as the so-called main hospital and requires much laundering service, it may be realized that its accomplishments have fallen far short of the aims of its sponsors.

To refresh your recollection of the situation, the Finance Commission briefly recites the high spots of past criticisms.

There was an entire lack of discipline in the laundry staff of 70 to 80 employees, due in large part to interference with one-man direction and control of the laundry both from within the hospital organization and from official circles outside it. A union-conscious hospital employee group, affiliated with organized labor groups, among others, attempted to dominate. As a result, morale was low. The production cost was excessive. The extent of this excess has been shown in reports of experts retained by the hospital authorities, and has been discussed in many conferences in which the Finance Commission has participated. The laundry staff contained many incompetents. There were inequities in the pay plan of employees. The laundry machinery was poorly serviced. Repairs were frequently necessary, but there was so little financial provision for such repair that frequently, for long periods, some units of equipment were not usable. There was complaint of inadequate washing, attributed by laundry employees to lack of hot water. There was also complaint of the unavailability of fresh linen, despite an ample quantity purchased, the reason being that the system of linen distribution in vogue was unscientific. Often some units had an over supply of linen while other units were complaining of shortage.

About two years ago the situation had become so unsatisfactory and had provoked so much comment that a representative of one of the major companies in the laundry machinery manufacturing field was asked to investigate and make recommendations. He recommended replacement of much of the existing laundry equipment with modern machinery. He expressed the opinion that such investment would permit substantial reduction in number of employees, which, combined with substitution of skilled workers for many of those there employed whom he considered not suitable for the work, would result in more efficiency at less cost.

Conferences of various officials were held, the situation in the laundry was discussed and deplored, and the "go ahead" signal was given to put the new plan in operation. Nevertheless, in a few months it was abandoned when another expert was brought into the picture.. He also insisted that reorganization must begin with replacement of antiquated machinery, but he had a less expensive plan which, like that of his predecessor, envisioned expansion to permit all municipal laundering in this plant. Eventually, his scheme was also discarded. Somebody had decided that the laundry could be made efficient and economical without new capital expenditure and that it would be unwise to attempt to supply all the city's laundering needs in this plant.

The laundry supervisor then in office had had much experience in laundry operation before he went to the hospital job more than ten years ago, but during the whole period of his incumbency at the hospital he had been in almost continual conflict with other hospital executives on laundry policy. About six months ago he decided to transfer his activity to the fighting forces of the United States Government. The reason he gave for his resignation to a Finance Commission representative is significant of the atmosphere in which he had been compelled to operate. He said that since he was spending all of his time fighting, he might as well transfer his activities to a service where fighting was the purpose of the outfit.

In due time the hospital trustees advertised far and wide for applicants for the vacancy thus created. Eventually, after consideration of many, one candidate was selected. This choice was later reconsidered and rejected when the trustees found in an executive of a local lunchroom chain just the man they thought they needed. The new appointee has had experience in laundry management and in linen distribution as well. One is as important in hospital administration as the other and both are of great importance.

The trustees have given the new supervisor a free hand in management. They have acted promptly and comprehencively on his requests for authority to make minor and major changes. With a new atmosphere thus created, the continuous decline in efficiency of the laundry has been halted.

The new supervisor has gained the confidence of his staff. He has improved discipline as evidenced by the fact that the daily absentee list now numbers 5 to 10 employees where formerly it numbered 20 to 30. He has reassigned some employees on the basis of fitness for the specific task. He has started to iron out inequalities among the personnel.

However, much remains to be accomplished and the extent to which results can now be achieved depends on your active cooperation with the new supervisor. Most of all, funds must be provided for repairs to machinery.

Next, there is urgent need of a change in the practices followed in recruiting laundry employees. The laundry supervisor has never had any voice in the selection of employees. Both the old and the new supervisors have complained that many who were given employment could not perform the tasks assigned to them. Some arrangement should be made whereby those who are unsuitable for laundry work may be transferred to another unit of the hospital. Authority should be obtained to permit revision of the assignments of those remaining as good judgment would dictate. More care must be exercised in the certification of candidates for employment. A mere claim of experience supplemented by a confirmatory letter from a friend of the applicant has proven a poor basis for certification.

In this situation, it is essential that some one agency be directed to confer with the Civil Service Commission to emphazise the necessity for revising the rules and regulations in so far as they relate to certification of laundry employees.

The situation in regard to the linen control system is in similar need of your cooperation. The trustees have already paid $5,000 for expert service to supervise the installation of a new system. However, the contract with the expert expired many months ago, and although he has continued to give service without compensation, only two units in the hospital have yet received the benefit of the new system. There are not enough employees available for extension of it to all units. At the present rate of proceeding, it will take years to finish the job. Having already spent $5,000 to make a beginning, obviously it must be carried through to completion.

To summarize the steps which must be promptly taken to insure the success of the laundry reform program:

1. Action upon the requested personnel and pay changes must be speeded. The authorizing papers now lie somewhere between the hospital trustees and City Hall.

2. The facts showing the handicaps to efficient operation of the laundry by the application of present Civil Service Commission rules must be explained to the Civil Service Commissioner and a more sympathetic attitude obtained.

3. If new equipment is not to be provided, the old equipment must be promptly repaired. There is enough laundry machinery in this plant needing skilled mechanical attention regularly to warrant the permanent employment of at least one employee capable of supplying this service.

The Finance Commission is not reconciled to the rejection of the plan to make this hospital laundry plant serve all departments. The objection of hospital executives that it might spread contagion or infection has been adequately disproven in experience elsewhere. The very experts hired by the hospital authorities have refuted such objection. Centralization of laundering in one plant would give efficient and economical service. The need for such economy in maintenance cost becomes greater each day.

Respectfully submitted,

CHARLES M. STOREY, Chairman,
DAVID LASKER,
JAMES H. FLANAGAN,
ELIAS F. SHAMON,

SALARIES OF CITY COUNCIL OFFICERS.

President GALVIN offered the following:

Be it ordained in the City Council as follows:

Section five of chapter three of the Revised Ordinances of 1925, as most recently amended by chapter three of the Ordinances of 1937, is hereby further amended by striking out the words "twenty-two hundred and fifty dollars" in the salary of the second assistant city messenger, and inserting in place thereof the words "twenty-five hundred dollars," and in the salaries of two stenographer-clerks connected with the City Council by striking out the words "twenty-two hundred and fifty dollars" and inserting in place thereof the words "twenty-five hundred dollars."

Referred to Executive Committee.

RECESS.

By direction of President GALVIN the Council at 3 p. m. took a recess. The members reassembled and were called to order by Coun. WARD at 4.31 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred June 9 to Committee on County Accounts and on September 22 referred by them to Executive Committee) for amendment of Compensation and Classification Plan, establishing classification

of Managing Custodian, Suffolk County Court House—recommending reference back to Committee on County Accounts.

Report accepted; said reference ordered.

Coun. SHATTUCK—Mr. President, I hope that the Committee on County Accounts will take this matter up immediately and report to the next meeting of the Council. This order has been resting in Executive Committee for two months or so. It is an order providing for the creation of a position in the courthouse for a technically trained man to look after the complicated mechanical equipment in the building. There is no one there now who is trained for that purpose. The members of the commission do not have the necessary training, and, in any event, it is simply their duty to supervise. It is expected that they will have a trained man under them to report, while they supervise. This is an unpaid commission. I hope, therefore, that the Committee on County Accounts will take the matter up as soon as possible, and will report at the next meeting of the Council. I move that the committee be so requested.

The motion to request the Committee on County Accounts to take the matter up as soon as possible and report to the next meeting of the Council was carried.

2. Report on message of Mayor and order (referred today) for transfer of $1,070.09 from Parkman Fund to Park Department—that same ought to pass.

Report accepted; said order passed, yeas 18, nays 0.

3. Report on ordinance (referred today) concerning civilian defense, giving formal municipal status to Committee on Public Safety—that same ought to pass.

The report was accepted and the question came on the adoption of the ordinance.

Coun. GOTTLIEB—Mr. President, while I intend to vote for this ordinance, I would like to go on record, speaking for myself, of course, and not for the other members of the City Council, as believing that the members of the City Council should be part and parcel of this Committee on Civilian Defense. I am certain that every member of the City Council is willing and eager to do everything within his power to make Boston the safest city in the country so far as its civilian defense policies are concerned, and I also feel that there can be no other possible member of the committee who could be as familiar with our respective wards as the members of this Council. I do not believe there is anyone in the Ward 14 section of Dorchester more famlilar with the location of the registration centers or with the streets and locations of the schools and other public buildings and business locations than myself. I personally would like to volunteer to serve on this committee in some capacity or other, feeling that I would be able to render good service to the people in my district; and I hope that those having the appointing power on this Civilian Defense Committee will see fit to appoint me, as a member of the Council, as well as other members of this Body, to positions where we can devote our efforts to the service of the people of Boston.

The ordinance was adopted.

4. Report on message of Mayor and order (referred today) for loan of $150,000 for public safety program—that same ought to pass.

The report was accepted and the order was given its first reading and passed, yeas 19, nays 0.

5. Report on ordinance (referred today) increasing salaries of second assistant city messenger and two Council stenographer-clerks—recommending reference to Committee on Ordinances.

Report accepted; said reference ordered.

6. Report on message of Mayor and ordinance (referred today) *re* removal of vehicles from streets for snow removal—recommending reference to Committee on Ordinances.

Report accepted; said reference ordered.

REPORT OF COMMITTEE ON SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of December.

Report accepted; said order passed.

CONDUCT OF CIVILIANS DURING AIR RAIDS AND BLACKOUTS.

Coun. TAYLOR offered the following:

Whereas, Under chapter 719, Acts of 1941, it is within the powers of the Governor's Defense Committee to establish rules and regulations for the conduct of civilians during air raids and blackouts, be it

Resolved, That for the protection of the people of the City of Boston, the Boston City Council, in meeting assembled, request his Excellency the Governor to instruct his Defense Committee to immediately draw up such rules and regulations to be put in effect at once.

Coun. TAYLOR—Mr. President, the City of Boston, although unknown to a great many people, has for a period of six months been devoting a good deal of time and study to the matter of civilian defense. Under the lead of many public-spirited citizens a great deal has been accomplished, so much so that many of the large cities, such as Baltimore and Philadelphia, have come to Boston for the purpose of copying the system that we have been following here. As a result of work during the past six months, Boston today is in better shape than most of the large cities in this respect, notwithstanding the opinions we have read from different sources to the contrary. We have six thousand air wardens and three thousand auxiliary firemen. We have mobilized doctors, nurses and other emergency services, and within a week there will be twelve district air raid report centers established with fully trained personnel. Under chapter 719 of the Acts and Resolves of 1941, the Governor has appointed a Public Defense Committee that has the power to make rules and regulations concerning civilians during air raids and blackouts. While almost every individual in the city, in the event that we do have an air raid, no doubt will desire to cooperate with the officials in charge to have a complete blackout, unfortunately we have many people who, through negligence or perhaps through a lack of understanding of the importance of carrying out the instructions of the committee at such time, do not cooperate. Unless something is done to compel people to refrain from doing things which are not in compliance with the instructions, in air raids, there might be serious danger from destructive bombs. It is, therefore, necessary that rules and regulations be laid down by the Board established under chapter 719 of the Acts and Resolves of 1941. As you probably know, there are very severe penalties under that act for people who do not properly observe the regulations, involving a fine of $500 or imprisonment for not more than one year, or both penalties. So I say that we should follow the practice in cities in foreign countries in this matter, in order to protect the people of our city. Unless these rules are set forth and strictly enforced, the safety of our people will be jeopardized. That is the reason why I am introducing this resolution asking his Excellency the Governor to instruct his Defense Committee to immediately draw up such rules and regulations as are necessary, to be put in effect at once, in order to protect the people of our city.

Coun. GOTTLIEB—Mr. President, I would like to ask, through you, if it is not in the power of the Mayor's committee to draw up rules and regulations for this purpose?

Coun. TAYLOR—Let me say, Mr. President, that I don't think it is. I think it comes within the powers given to the Defense Committee appointed by the Governor.

Coun. GOTTLIEB—Mr. President, speaking on this resolution, I am not certain that the councilor from Ward 12 (Coun. Taylor) is correct, and I am not in favor of delegating to any outside committee the drawing up of rules and regulations that should properly be drawn by a member of our Committee for Civilian Defense. I would, therefore, move that this resolution be amended to read, in the second paragraph, "that for the protection of the people of the City of Boston the Mayor and the Boston City Council in meeting assembled immediately take steps to draw up such rules and regulations, to be put into effect at once."

Coun. TAYLOR—Mr. President, in the first place I don't see why we should quibble as to what authority should do this. We are more interested in the protection of our civilian population than we are in the question of what body should act. I don't care whether the City of Boston committee or the state committee draws up the rules and regulations. That is of little interest to me. I am simply interested in having the rules and regulations drawn up, so that the people of Boston may be protected. In my opinion, the City of Boston has no right to draw up such rules and regulations, under chapter 719 of the Acts of 1941. I don't know whether my colleague has read that chapter or not, but I have read it, and I am not sure that we would have the power to draw up such rules and regulations. In fact, I feel quite sure that we would not have power under the act.

Coun. Gottlieb's proposed amendment was rejected, and the question came on the passage of the resolution.

Coun. CAREY—Mr. President, it might be well to lay the resolution on the table until the next meeting, until we can see whether the city can draw up such rules and regulations.

Chairman WARD—The City Clerk has a copy of the act, and under section 8 there seems to be no question that the power lies solely with the Governor and his Emergency Commission.

The resolution as offered was adopted.

DEMOLITION OF ATLANTIC AVENUE EL STRUCTURE.

Coun. RUSSO offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to expedite negotiations relative to the demolition of the El structure on Atlantic avenue, in order that the metals may be used for national defense.

Coun. RUSSO—Mr. President, for the past two years I have been putting into this Council several orders similar to this one. What has inspired me to present this order at this time is the fact that if we enter upon the demolition of this structure at the present time, due to the war emergency that is confronting us with other nations throughout the world, we will be taking action that will help our country in its war effort. I trust, therefore, that the demolition of the El structure on Atlantic avenue may be expedited, in order that the metals in the structure may be used for national defense. While I understand that there are some legal technicalities in the way, I trust that some immediate action may be taken to surmount those technicalities, so that the desired results may be attained. I certainly hope work of tearing down the structure may be commenced, if possible, this year,— a structure that is of no use, and the demolition of which will afford metals that can be used in this national emergency. The structure is certainly useless for any other purpose, and it might be of great use for national defense, if the demolition should take place. I hope that the order will pass.

Chairman WARD—The Chair would say, for the information of the councilor, that the Mayor and Corporation Counsel have taken every possible step in this matter and it is now awaiting a decision by the Supreme Court. Therefore, the Chair will refer the matter to the Committee on Rules.

The order stood referred to the Committee on Rules.

AIR RAID SHELTERS.

Coun. LANGAN offered the following:

Ordered, That his Honor the Mayor confer with his department heads and other public officials relative to the advisability of erecting air raid shelters under the Boston Common.

Coun. LANGAN—Mr. President, I think about two years ago we all felt sure of the safety of our city and our nation, and felt confident that we would never be attacked by any foreign power. But that feeling of safety and security has now disappeared, and we are facing the reality of foreign powers coming to our shores, destroying the structures that we have erected and threatening the lives and safety of our people. Our homes are in danger, and the lives of the people of Boston are imperiled. That threat is not as far off today as it was two years ago, so I think it is well for us to make some actual preparation. There is in times such as these the psychology and necessity of keeping our civilian population actively engaged in its duties. That is an important thing in times of crises, and if that idea is carried out there will be hundreds of thousands of people in downtown Boston from day to day. At present there is no adequate place for them to go for shelter during air raids. I have, therefore, introduced this order. Time is of the essence in starting preparation for air raids, and if we are to have air raid shelters we should act at once. It seems to me that a good place for an air raid shelter is under the Common, and it seems to me we might well at a time like this ask the Federal Government for financial aid in establishing such a shelter. I have, therefore, introduced the order so that as soon as possible we might prepare for the proper defense and shelter of citizens of Boston.

Coun. M. H. SULLIVAN—Mr. President, I think this is a highly constructive order that Councilor Langan has offered. It proposes similar action to that which has been taken by Mayor Angelo Rossi, the chief executive of the city of San Francisco. Several months ago, when they had an idea on the Pacific Coast that there was going to be trouble, similar work was started under one of the city's parks, Union Park, and space was afforded underneath the ground for seventeen hundred automobiles, so that in case there was a threat to traffic they could go to that place. The background of that park in San Francisco is similar to the background of Boston Common. So they established an underground garage there which would accomplish two purposes — that of a garage and of a shelter to people at the time of an air raid. After the work had been started, there was an interruption because of the threatened shortage of steel, but the Mayor went to Washington and had the Federal Government help them out. So they are to have there this underground structure, which, as I say, can be used either as an underground garage for seventeen hundred automobiles, or as a shelter for people at the time of an air raid. I think the same thing could be done in Boston. I know the fetish that we have in regard to Boston Common and its use for commercial purposes, a feeling in which I confess I share myself; but I know that that sentiment would probably change at the present time where the safety of the public is involved, and I think the present would be a very good time to engage in this work. We might immediately start the work of excavation for this bomb shelter or place for automobiles under Boston Common, and I think it would make a fine place for protection from air raids in time of war.

Coun. SHATTUCK—Mr. President, the gentleman has referred to what has been done in San Francisco. But we all know how long it takes to build subways, and I think we can all realize the amount of construction that would be required in an enterprise of this kind. It would involve concrete and steel construction, and the work would undoubtedly take many months, if not years, so that the emergency might be all over before it was finished. Furthermore, I understand that these air shelters, such as they have had in London, are less and less used over there. People have decided that they would rather be killed separately in the open than en masse, like rats, underground. I think the experience of London for the past year will show that the air raid shelters are not very much used.

Coun. LANGAN—Mr. President, it may well be that we can benefit by the experience of London and other places abroad. It may well be that we can learn a lesson from them, that what has been done in London and other places in working out a type of air raid shelter might well be studied here. It may well be that what has proved ineffective over there might be a guide to what we shall build here. Certainly science has made it possible to work out many problems while these war conditions have been going on the world over, and it may be that certain things have been found inadequate and that new steps can be or have been taken. And so the experience of London and other places may be very useful to us in erecting better and stronger shelters.

Coun. M. H. SULLIVAN—Mr. President, I understand that in London the air raid shelters have been of a great deal of service to the people, and no doubt what has been done over there has been taken advantage of in the construction that has taken place in San Francisco. I understand that the question of the use of steel and so on was taken up there with the O. P. M. and was satisfactorily worked out, and no doubt the matter would be handled in the same way here. This afternoon we have appropriated $150,000, which includes the expenditure of $12,000 or $15,000 for fifteen sirens, which I understand are to be immediately installed. But we must get to work on these matters. The emergency is here, and if effective work is to be done it must be started. Today, for example, we had what was supposed to be a siren test, but it completely failed, making it clear that there is necessity for immediate action in the matter of furnishing proper sirens to warn the people of this city in case of an air raid. Time will be necessary to work the thing out, as Councilor Shattuck has said, and I don't think there will probably be an air raid this afternoon or tomorrow. But we should start and get action under way. Let us do something; and if we get things under way we may be prepared when they do come. These threats probably will not come tomorrow, or Christmas day, or New Year's day, but there is a threat, and something should be done. I think we had better get started. I think Councilor Langan's order is a fine order.

Coun. CAREY—Mr. President, I think while we are on this subject we ought to consider those who are not handy to Boston Common. There are other sections where there might be danger from an air raid—parts of Charlestown, Dorchester Heights, the Mission Hill district, Brighton and other sections. I would therefore move to amend the order by adding, after the words, "under the Boston Common," the words "and other available locations throughout the city."

Coun. LANGAN—Mr. President, I will accept that amendment.

The amendment was adopted and the order as amended was passed.

NEW FIREBOATS, ETC.

Coun. SCANNELL offered the following:

Ordered, That his Honor the Mayor be requested to confer with the proper Federal authorities for the purpose of obtaining sufficient funds from the special Government appropriation of one hundred million dollars to purchase one or more new fireboats and special apparatus for fighting fires caused by bombs along the South Boston and Boston Harbor waterfronts.

Passed under suspension of the rule.

PAYMENT OF WELFARE RECIPIENTS BEFORE CHRISTMAS.

Coun. SCANNELL offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to pay all recipients of aid on their rolls before Christmas.

Passed under suspension of the rule.

TELEPHONE NUMBERS OF DEPARTMENT HEADS.

Coun. WICKES offered the following:

Ordered, That his Honor the Mayor be requested to furnish the City Council with the home telephone numbers of all department heads, whether listed or non-listed, in order that it may be possible to contact them in case of emergency.

Passed under suspension of the rule.

APPOINTMENT OF COUNCILORS ON PUBLIC SAFETY COMMITTEES.

Coun. WICKES offered the following:

Ordered, That his Honor the Mayor be requested to appoint each member of the City Council as Chairman of the Committee on Public Safety for his respective ward and a member of the Executive Committee for Civilian Defense for the City of Boston.

Coun. WICKES—Mr. President, I would like to be a volunteer in civilian defense work. I am sure that I am more familiar with conditions in my ward than almost anybody else would be, and I also feel that every member of the Council here knows better about conditions in his ward than anybody else. Therefore, I believe all the councilors here, including myself, would like to be soldiers in civilian defense, giving to our constituents the benefit of the knowledge we possess in regard to our districts. I am sure that we can do about as good a job as soldiers in that line as we would marching to the defense of our country in another capacity. I believe we are all well qualified, in our respective districts, to be chairmen of such a committee on public safety, and I trust that the order will pass.

The order was passed under suspension of the rule.

PROGRAM FOR SNOW REMOVAL.

Coun. LYONS, for Coun. M. H. SULLIVAN, offered the following:

Ordered, That the Public Works and Park Commissioners, through his Honor the Mayor, be requested to submit to the City Council their programs for the removal of snow during the coming winter; and be it further

Ordered, That the Public Works and Park Commissioners in view of the existing war emergency make every necessary arrangement and preparation for the speedy removal of snow from the city's streets since this will be vitally important during the coming months.

Passed under suspension of the rule.

SIDEWALK, CALEDONIAN AVENUE.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Caledonian avenue, between No. 38 and No. 59, inclusive, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under the suspension of the rule.

ACCEPTANCE OF MONTGOMERY STREET, WARD 20.

Coun. LYONS offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Montgomery street, Ward 20, as a public way.

Passed under suspension of the rule.

SURVEY OF DOWNTOWN BUILDINGS FOR SHELTERS.

Coun. CAREY offered the following:

Ordered, That his Honor the Mayor be requested to instruct his Public Safety Committee to make a survey of all buildings in the downtown area to determine what buildings will afford the greatest degree of shelter to the public in case of air raids and to identify such buildings by placing a conspicuous sign on same.

Passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Chairman WARD called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor, December 8, 1941, of Samuel W. Brier, Joseph Lourie and Benjamin Roller to be Weighers of Goods.

The question came on confirmation of the appointments. Committee, Coun. Lyons and Russo. Whole number of ballots 13; yes 10, no 3, and the appointments were confirmed.

REMOVAL OF FLAGPOLE, CENTRAL SQUARE.

Coun. GALVIN, for Coun. COFFEY, submitted the following:

Ordered, That the City Messenger be instructed to take immediate steps for the removal of the flagpole in Central square, East Boston, which is in a condition dangerous to the public safety.

Passed under suspension of the rule.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CONSTRUCTION WORK ON THE MALDEN BRIDGE OVER THE MYSTIC RIVER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction work on the Malden Bridge over the Mystic river, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Construction Work on the Malden Bridge over the Mystic River," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Tuesday, January 6, 1942, with a certified check for five thousand (5,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Act so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals should he deem it to be for the best interest of the city so to do.

GEORGE G. HYLAND,
Commissioner of Public Works.
(Dec. 20-27.)

CITY OF BOSTON.

BOARD OF OVERSEERS OF THE PUBLIC WELFARE.

PROPOSALS FOR FURNISHING TRUCKS.

The Overseers of the Public Welfare of the City of Boston invites proposals for furnishing trucks according to specifications which may be obtained from the office of the Board, first floor, 43 Hawkins street, Boston. *There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* Bidders must use the form of proposal to be obtained at this office and the successful bidder must furnish a bond for one fourth of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for one hundred dollars ($100), payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, before 12 noon, Wednesday, December 31, 1941, at which time and place they will be publicly opened and read. A duplicate proposal, without check, must be left with the City Auditor prior to the time stated for opening the bids. The Board of Overseers of the Public Welfare reserves the right to accept or reject any or all bids or any part of any bid and to award the contract in whole or in part. All contracts made subject to appropriations to meet the payments thereunder.

BOARD OF OVERSEERS OF THE PUBLIC WELFARE,
JOHN J. WALSH, *Chairman.*

CITY OF BOSTON.

FIRE DEPARTMENT.

PROPOSALS FOR LAUNDRY WORK.

The Fire Commissioner of the City of Boston invites proposals for the laundering of the linen of the Boston Fire Department, consisting of sheets, pillow slips, towels, bedspreads, etc., commonly known as "flat work," and red, gray and blue blankets, both single and double, for the year 1942. The linen, blankets, etc., to be called for and delivered one day each week at the various fire stations of the Boston Fire Department. Samples of the linen, etc., may be seen at the Fire Department Headquarters, 60 Bristol street, Boston, where a copy of the contract and specifications may also be examined. The amount of work to be done is approximately as follows: Five thousand five hundred and eighty (5,580) sheets per month; five thousand one hundred and forty-five (5,145) pillow slips per month; nineteen hundred and seventeen (1,917) towels per month; one hundred and seven (107) bedspreads per month; blankets, gray and blue, one thousand (1,000) annually. Estimates must be submitted on a price per piece basis only. Proposals submitted on any other basis will not be considered. Proposals will be received at the office of the Fire Commissioner, 60 Bristol street, Boston, until 12 m. December 31, 1941, at which time and place they will be publicly opened and read. Proposals must be sealed and marked "Proposals for Laundry Work," and must be made in duplicate, one to be deposited with the City Auditor, City Hall, previous to the time stated for the opening of the bids; the other containing a certified check for two hundred (200) dollars, made payable to the City of Boston, is to be deposited at the office of the Fire Commissioner, said check to be the property of the city if the accepted proposal is not carried out. A bond of an approved surety company doing business in the Commonwealth of Massachusetts will be required for the faithful performance of the contract by the successful bidder in the sum of 40 per cent of the estimated total amount of the contract. The contract is made subject to appropriation to meet payments thereunder. The Fire Commissioner reserves the right to reject any and all proposals and to award the contract as he deems best.

WILLIAM ARTHUR REILLY,
(Dec. 27.) *Fire Commissioner.*
